The birthday cake, which was a thing of beauty and decorated with eighty candles was made by the skillful hands of Mrs. Raiph Stev-

skillful hands of Mrs. Ralph Stevens.

A bounteous feast was served at the noon hour, after which all were invited to the living room, where a short religious Service was conducted by Mr. Stevens' pastor, Rev. Willet, and prayer offered by his Sunday school teacher, Mr. Geo. Sleet.

A beautiful and touching poem composed for the occasion by Mr. Stevens' old friend, Mr. John W. Yates, was also read. Then all repaired to the lawn where the entire crowd was photographed by Mrs. H. S. Moffett, Jr.

Among the guests who seemed to enjoy the day especially, was Mr. Stevens' son Earnest, of Marion, Indiana.

All reluctantly took their leave.

BASE BALL.

The 1923 bare ball season opened at Belleview, last Saturday between the home team and Hebron and the Hebron boys came out at the little end of the horn to the tune of 10 to 3. Not being use to sandstorms the Hebron boys came out at the little end of the horn to the tune of 10 to 3. Not being use to sandstorms the Hebron boys could not play ball with their eyes niled with sand, although they have plenty of sand their craws, and when the sand edulation the sand characteristic and their craws, and when the sand characteristic and the same characteristics.

The same many more happy home we once enjoyed, How sweet the memory clings, But death has left a lone increase. Which never can be filled. Sad and sudden was the call of one so dearly loved by all; there was no chance to say farewell. How sweet the memory clings, But death has left a lone increase. Which never can be filled. Of one so dearly loved by all; there was no chance to say farewell the even as no chance to say farewell. How sweet the memory clings, But death has left a lone increase. Which never can be filled. Sad and sudden was the call of one so dearly loved by all; there was no chance to say farewell. The same have a subject to the call of one so dearly loved by all; there was no chance to say farewell. The same have a subject to the call of one so dearly loved by all; there was no chance to say farewell

The clouds rolled gayly in the sk The sun with rapture burned— The wind blew sand in our eyes, And Hebron !ost—gosh durn.

The following items were taken from the issue of the Recorder of April 26th, 1893:

Flakes of snow nearly as longe as your hand fell last Friday—Benas that were up before the recent frosts.

that were up before the recent frosts look like they have the yellow jand-dice—Mrs. Lury Rice, of Richwood, died last Sunday night.—Corcoran boys of Bullitzwille neighborhood, sold their last year's crop of tobacco 14,940 lbs., at 8 cents all around—The tearing down of the residence occupied by the late Benj. Rouse was commenced last week—The O-server is the name of the new paper that made its appearance at Walton last Saturday. J. F. Hutchinson nd J. T. Tapp are the editors and publishers.—J. Matt Day was acquitted by a jury in the circuit court on the charge of knowingly uttering a forged paper.

Many of our farmers are to be congratulated upon their effort in planting fruit trees this spring. Every farm in Boone county should produce enough fruit and berries for at least one family. It takes not if the work and money to set out small orchard, and this fortifies the good housewives with fruit for their winter use, and enables the husband to save more out of the returns from the crops.

young man and is up on achievements of his profession.

Clell Coleman, of Harrodsburg, Mercer county, eandidate for Commissioner of Agriculture, Labor and Statistics, was in Burlington, lest thursday, meeting with the voteral. He was accompanied by J. M. Commor, formeely of this county, but now of Corydon, Indiana.

The Louisville Courier-Journal has been "rarin" for a business man as a candidate for Governor and they are now "rarin" for a convention to make the county of this county in the county of

# As the Editor Sees It.

Disclosure of the fact that Chief Justice Taft, former president, is receiving a pension of \$10,000 a year conferred upon him in the will still the late Andrew Carnegie, has arought to the fore again the quesion of what to do with our ex-questents.

arought to the fore again the quesion of what to do with our ex-qresdents.

It is an undisputed fact that a a number of our presidents have retired from once poor men, and have had to hustle for their living.

Public sentiment is becoming unified to the effect that such a condition should not prevail.

When a president retires from office he is expected to maintain a position in private life in keeping with the dignity of the high office he has filled. If he is a poor man he can not do this.

It is for this reason the American people are obtaining to demand that our expresidents be granted a reasonable compensation for the remainder of their lives, just as an officer of the army is granted three-fourths pay after he reaches the age of retirement.

The richest country on earth should not be the most penurious in the treatment it accords its ex-presidents.

When the Boy Scout movement was inaugurated a good many years up to be General Baden-Powell it was seeked in this country as somehing of a good natured joke. Today it is regarded as anything our a joke. It is considered as far anything in its results that pracedully the whole country is a unit in octering its development and examsion.

fortering its development and expansion.

Probably the most notable example of this sentiment on the part of the people is the manner in which the American Legion has taken hold of the scout movement and is lending its aid and encouragement in every possible way.

Local legion posts all over the country are assuming the responsibility of maintaining and training acout troops, and are converting many boys who are inclined to be more or less intractible into steady, ambitious and high minded young fellows, who in time will become valuable citizens.

The goal of the legion itself is to create 100 per cent Americanism, and this is only one of the many valuable against the seeks to instill into the minds of our young boys.

The Boy Scout movement has passed the loke stage. It is now one of the most valuable assets of our sountry.

when noted citizens of foreign nations come to this country and tour our great cities in their efforts to convert American people to the European way of viewing things, they are received coustcously, listened to attentively, and entertained hospitably as long as they are with us, regardless of the fact that they seek to foist their own ideas and loctrines upon a free people who have prospered in the past through their policy of attending strictly to their own affairs and not meddling with those of other countries.

Just now America is being deuged with propaganda, in person und through the press, the known bject of which is to force us into material control of the countries. It is just possible that a duty may confront us in the rehabilitation of the world, but if such be the case we are perfectly capable of performing that duty with the work as to what that duty may be.

brong, an injuried as to what the anilythment as to what the may be. The average American citizen ha. The average American citizen has been grained graduated from the kirst deep arter class. He is able to shink and act for himself, and En. shink and act for himself, and En. cope should realize this fact if it wants American aid.

### CENTRAL AMERICA A UNIT

CENTRAL AMERICA A UNIT
Central-America is playing a much birger role in this fifth gathering of Armircian republics than on any ather former occasion of this nature. That five nations of Central America are almost a unit in their econnic and political aspirations aperars an outstanding fact. Costatica has placed hefore the judicial omnittee a proposal for the establishment of a Pan-American Court of Justice to be composed of representatives of each nation for a period of ten years, all cases to be tried by from three to seven judges chosen by the Court, none of whom shall be representatives of countries from which litigation will be in question. How far such a Pan-American Court of Justice would clash with the possible entrance of all American republics into the League of Nations is not easy to state. Most of the smaller states have all American republics into the League of Nations is not easy to state. Most of the smaller states have an international tribune for arbitration, on which Ive American from a premark of a premark of a proposition, if consumated, may put the Western, and the part of 
### KNITTED SPORT CLOTHES

In sports clothes knitted dresses and two-piece suits hold the center of fashton's stage. They are stirrly, trim and smarr—everything that the sportswoman likes. In northern climes tan and beige, brightened with high colors, introduced in bars and stripes, compel attention, and in the south, white or very light ion, believe or gray, make a background for color design.

### THE SUN SHINES AGAIN

The financial sun is shiring again. The clouds have been dispelled by the indomitable will power and determination of the American people, and the outlook is brighter than is has been at any time since the close of the great war.

of the great war.

A survey of the situation thru-on the ounty shows that business is nearly all lines is not only "picking up." but is arturily assuming the proportions of a boom.

Budding construction is on the upgrade to such an extent that skill delabor is becoming scarce and difficult to obtain. Employment is waiting for every man who possesses any skill at all in the various trades, and the ranks of the unemployed are becoming so decimated that it is all roost a case of the job hunting the man.

man. Wages in numerous reseas bay, been voluntarily raised instead of lowered, and this bas operated to allay the spirit of unrest that has existed among the laboring classes for years.

years.

The indications are that farm help will also be scaree this summer, owing to the fact that did men will be conparatively few. The farmer however, is preparing to overcome this handicap by taking greater advantage of the latest improvements in farm machinery, whereby one machine will do the work formerly done by several men.

Altogether the outlook is very bright. It is difficult indeed to obscure the financial sun in this country for any length of time.

### IT MIGHT BE WELL

There has been some agitation looking to a revision of the constitution fixing the powers of the Supreme court of the United States.

The court consists of nine members, and five of these members, constituting a majority, can declare unconstitutional any law passed by congress and approved by the president. It frequently occurs that this is done, and many peovle are beginning to feel some of these questions so decided are viewed by the court from too much of a partism standpoint.

It has been suggested that where

standpoint.

It has been suggested that where a bill has been passed by both houses of congress and becomes a law through the approval of the president it should require a vote of all least seven of those nine members of the court to declare the law unconstitutional.

Congress represents

torsality.

Party or class decisions by the au Frence court would weaken the high recard in which that august body is now held by the American people. It might he well to require a votof seven of the hime members of the court to unde an act of the congress, that has received the approval of the president of the United States.

### WHAT IS THE ANSWER?

same courtesy from the press of the port, or any city the admiral may visit.

An American warship called at a Japanese port recently with an American admiral on board. The Japanese newspapers, though fully informed as to his visit, utterly ignored his presence and maintained a complete silence on the subject-a slight which can only be construed in one way.

signt war.

1 one way.

By such discourteous acts the Japness are widening the breach that
ow exists between the two cour-

tries.

Ie merely serves to confirm us in our opinion that there is no reall/ friendly feeling in Japan toward the people of the country, regardless of the lofty words they use in ottenpting to convince us that they are sincepress.

### "BACK TO THE HORSE" MOVEMENT

The Farmer Is Finding the Horse Less Expensive than the Tractor—A Striking Array of Figures Collected
By the Horse Association of America

In these trying days the prices for farm products, and cattle, sheep and hops are so low that the farmer would be justified in following the example of some of the coal miners and calling a strike, but the humanity and patriotism of these tillers of the soil, so strikingly exemplified during the war, keeps their little feet in the form and luples them to bear a little longer more than their share of the burdens of the world. In this hard school of experience the farmers of the through and the value of co-operation, the need of economy. The importance of a cost accounting system that will make every expended older bring its full return. Whenever, the expense of producing a particular crop is greater than the amount it will bring in the market, the farmer is faced with the problem of cutting out this crop strongisher, a restaint of the contraction.

than the amount it will bring in the market, the farmer is faced with the problem of cutting out this crop stroggther. The farmer is faced with the problem of cutting out this crop stroggther. The one item alone of a tractor may furnish him a starting place for his refrenchment. Does he need so expensive a plece of machinery, attractive and alluring mough it may be? Has he ever figured the cost of keeping oil Dobbin, whom he probably discarded, compared to running a tractor in the production of his probably discarded, compared to running a tractor prove the bread of every class particles and supprise him.

### THE RIGHT TO LIVE RIGHT

THE RIGHT TO LIVE RIGHT

The decision of the United States. Supreme Court declaring unconstitutional the Minimum wage for women in the District of Columbia with add force to the agitation against decision reacheds reached by a bare majority of one in this tribunal. The decision reacheds reached by a bare majority of one in this tribunal. The decision rendered by a vote of five to three but Justice Brandels divisor three but Justice Brandels decision to part of the but decision one years ago in an Oregon case of a similar character. His individual opinions leave no doubt that, had he been sixting, he would be decision one of those flower and discussion one of those flower are disquieting the American will be a seriously that the incidental purpose of the labor of instance of the labor of instance of the labor of press than the cost of subsistence, and the right of an employer to enforce not merely a starvation wage, but any conditions of employment which may contribute to his profit and which through his control of the labor market he can establish.

In rendering the decision Justice Sutherland tersely stated that: "In

of the labor market he ean establish.

In rendering the decision Justice Sutherland tersely stated that: "In principle there can be no difference between the case of selling labor and the case of selling goods." This may be a five-to-four construction of the law, but it is a principle that rub, at the average American the wrong way, for no American, Christian or Pagan, will endorse the argument that men, women and children must labor for any price the "market" condition warrants, regardless of the coat of living. Many of the thinking men and women of this 'country long ago determined that any institution that did not or could not push labor for any fifteen that men in the labor for any price the "market" long ago determined that any institution that did not or could not push labor similar 
and cities have refused to help man-ufacturers looking for new locatio as when it was found the average wage paid was below the cost of living. The effect of the accision will be far reaching. In at least fourteen states there are laws for the protec-tion of women and children that may be annulled.

tion of women and children that may be annulled.

Arother and equally important effect of the decision will be a knock out blow to any proposition by farmers ir stabilizing commodity prices. Under this decision any such legislation would—be declared unconstitutional.

Another effect of the decision may he to stimulate labor organizations and in the end, result in an amendment to the onstitution along the lines proposed by Senators, Bor h. LaFollette, Norris and others, restricting the power of the Supreme Court in reversing any act of Congess.

gess.

The fact of the matter is that minimum wage laws and child labor laws ought to be unnecessary in the notrunately there are those who have less regard or interest in human life than they have for mine mules and knitting machines.

The decision involves the question of the right to live right.

One sure way to prevent the steal-ing of your automobile is to have one the thieves don't want.

The soviet Russian government should not be blamed even if they did execute 1,700,000 people, as under the bolshevist system a lot of them would have starved to death anyway.

A famous poem is called "Come out into the garden Maude" but at last reports Maude declined to come out into the garden for fear she would spoil her white shoes.

It is not necessary in planning the spring bonfire, for the householders of Burlington to select a day when the wind will blow the smoke on their neighbors' clothes lines.

### HAMBONE'S MEDITATIONS

GOOD BOOK SAY HIT'S MO' BLESSED T' GIVE DAN T' RE-CEIVE BUT AH B'LIEVE AH RUTHER DO DE RE-CEIVIN' ENDURIN DESE HAHD TIMES!

ONE WAY TO END WARS

The president of the Naval Committee of the French Senate suggests that another international conference be called having for its pursose the actual and complete seraning of all navies instead of a parial reduction. Needless to say the proposition will probably be dismissed as impossible.

But is it impressible.

tial reduction. Needless to say the proposition will probably be dismissed as impossible.

But is it impossible? The only thing that stands in the way is to secure the agreement of all nations Some such agreement must be reached to make effective a League of Nations or an International Court as a means of ending wars. Why not become effective at once.

One great difficulty seems to be that there are too many people holding fat official jobs, and another host of influential people heaping up great fortunes in preparing for a war which they apparently welcome. While the great mass of people of all nations are hoping and praying for relief from the back-breaking burden of war-taxes, the governments, America included, go on building submarines for the destruction of merchant ships, perfecting poisonous compounds to be shower-ed from mnster air ships upon defenseless cities, upon non-combatants, innocent women and childrenicluded. Was there ever such hypocracy in high places?

Another difficulty to overcome is the apathy of the people themselves. Even we of America are prone to regard with toleration these concerted and persistent endeavors to make ready the machinery for another careful tologane. There is a cuious-tendency to find difficulties in the way of every movement for the abolition of war, and in many instances those who plead that such a calamity need not come are laughed to scorn as pecifists.

Sherman declared that "the way to resume is to resume." One way to resume is to resume." One way to resume is to stop making mankilling machinery.

WARNING OF FALL IN VALUE OF MONEY.

### WARNING OF FALL IN VALUE OF MONEY.

VALUE OF MONEY.

The immediate strengthening of the monteary policy is a matter of urgent necessity, according to Dr. Henry A. E. Chandler, economist of the National Bank of Commerce of New York. Dr. Chandler maintains that "not since the world broke away from the gold standard has the money of the United States had a mooring that confidently could be relied upon to keep its value within a range of fluctuation consistent with sound business."

"While much thought has been given to the subject during the last three years," continues Dr. Chandler, "at no time among those charged, with the chief responsibility of the intaining our money endue has been expected an agreement as to

er, at no time among those changed with the chief responsibility of red intaining our money value her there exjeted an agreement as to what the value of money in the near future would be, as to what it should be or as to what was necessary to maintain it on a sound basic ence the proper values were determined. Foreign countries are not using gold for circultion and our big stock of gold is idle.

Dr. Chandler says there is a danger of another permanent fall in the value of money and that it is clearly to the interest of the country in the period before European recovery will once more bring into play the old forces that automatically protected us against abnormal conditions, that a new system of protection be devised.

A lawyer thus illustrates the less

their neighbors' clothes lines.

C. H. Youell and his force of hands are progressing nieely with the grading of the hills Just at the south corporation line of the town, on the Burlington and Waterlopike.

The work of opening up the new sub-division to Burlington, was begun last week. Messra Moore & Downs, the purchasers expect thave a lot sale in the near futur. This new sub-division will furnish some nice building lots, all fronting in deferson attreet.

Sealed bids for work on more than sixty miles of rondway in the State will be opened May 9, according to announcement made by the State will be opened May 9, according to announcement made by the State will be opened May 9, according to announcement made by the State will be opened May 9, according to announcement made by the State Highway Engineer, at Frank fort. More than two-thirds of the new work will be along the Mayo Trail in Eastern Kentucky.

# BARBERRY.

Chemicals will play an important part this year in the eradication campaign against the common baberry, which aids the apread of black stem rust to the wheat fields. Where only the digging method has been practiced it was difficult to remove all the roots, especially in rocky grouns or around tree stumps. Where-even the smallest-fragments of the roots were not destroyed sprouts have sprung up the following year, necessitating a repetition of the " laws or gardens where a careful watch can be kept of the places from which bushes have been removed, digging is all right, for in a year or two all roots left at the first digging will have sprouted and can be removed. To make the eradication of the bushes simple and sure, two chemicals have been found by the United States Department of Agriculture to be effective for use in such places as pastures and wooded lots and along fences where it is difficultient to dig bushes up completely or to locate the exact spots in arcsurvey. Of these two, common or crushed rock salt is very satisfactory. Ten pounds of salt piled on the crown will kill a bush of average size. It should be applied to the bush as dry salt and may be left standing, they are easily located and the necessity of retreatment more casily determined.

Another chemical recommended for use by the department is sodium arsenite solution where it can be procured in large enough quantities comment salty. Sodium-arsenite solution is an efficient poison which has been found to be effective in killing they are casily located and the necessity of retreatment more casily determined.

Another chemical recommended for use by the department is sodium arsenite solution where it can be procured in large enough quantities comment salty. Sodium-arsenite solution is an efficient poison which has been found to be effective in killing barberry bushes. A gallon of the stock solution, which can be purchased at a bout \$1.50 will make about 40 or 50 tallons of solution where it can be procured in large enough quantities comment salty.

### CLOTHC OVERINGS PROTECT PLANTS AGAINST FROSTS.

CLOTHC OVERINGS PROTECT
PLANTS AGAINST FROSTS.

Coverings of rather heavy cloth and diverty ver garden truck or other lowgrowing plants are effective in protecting against moderact frosts, the United States Department of Agriculture reports. The heat from the ground and the plants is thus conserved, and the losses of heat by radiation from the plant to the sky are cut off; moreover, the air movement is so light near the ground that there is little tendency for the cold outside air to be forced under or thrugh the covering.

The temperature of the surface of the cloth exposed to the sky is lowered by radiation and may fall to a low point, but as both the cloth itself and the air undermeath it are very poor conductors of heat, the temperature of the covered plants falls much more slowly. The heat that has penetrated a few inches into the ground during the day is slowly conducted to the surface during the hight and aids in keeping the temperature under the cover above the freezing point.

It is evident, therefore, that coverings of this kind should be placed early in the evening when a frostis expected, before much of the heat accumulated in the soil during the day has been lost. The cans or other metal coverings should not be used to protect plants from frost. Metals are good conductors of heat and are also good radiators unless very highly polished. Therefore the temperature is likely to fall nearly as low under a covering of this kind as in the outside air.

TURKISH CONCESSIONS

TURKISH CONCESSIONS
TO AMERICANS
The Chester oil concessions recently approved by the Turkish government, may involve the United States in a diplomatic controversy with Great Britain and with France, both of wnow claim prior concessions but neither of which was ever unaily approved. The American group represented by Admiral Chester has obtained the right to construct approximately 1200 miles of railway, and also the right to the mineral wealth of the great tracts of railway, and also the right to the mineral wealth of the great tracts of railway, and also the sight of the property of or a violation of the open doo indications are that the po-trenty with Turkey will open way for American development that part of the Near East.

click russe, who was operated on
the fire of the fineral arrangements.

A vast amount of money is lost every year by sheep men of Boone county on that portion of the lamb crop which sells as seconds and skips. These are largely bucky lambs that could be prevented by docking and castrating. After this operation the lambs may be held on the farm until they are ripe and have good weight, instead of being rushed to the market as immature lambs to avoid docking. Then too, if markets are unfavorable they can be held until conditions improve.

It pays in dollars and cents to dock and castrate both early and late lambs. It is too late this season however, to castrate the early lambs. The important thing now is to get the late ones. Those less than six weeks old should be docked and castrated. By treating now most of the lambs that would otherwise be thrown out as seconds and culls will go as tops. Improved quality increases the demand for mutton.

### BRING HIGHER RESULTS

Let Spraying Do It.

Boone County orchardists could produce as good autumn apples any shipped into our markets if—
They would locate orchards proper-ly.

Plant the right varieties
Then prune and spray.
That is the opinion expressed by
fruit men familiar with the fruit
raising possibilities of this section.
Spraying pays, they say.
Because it is necessary to
duce perfect apples that will retail
for a nickel.
Because it gives you larger
yields.
Because it

Because it keeps your trees healthy and makes them longer liv-ed.

### SPRAY RINGS

SPRAY RINGS
Spray rings have been organized in a number of sections, very much like the silo filling ring, etc. Each of these rings are made up of a group of farmers having orchards in given locality. The formation with the results of the results

outfit.

It reduces the cost of spray materials, as they can be secured in large quantities at much better prices than when purchased in smail amounts by the individual farmer, It results in much better spraying because of more efficient equipment. It costs less to spray in a ring because the time and material used are reduced.

### IMMIGRATION PUBLIC MATTER OF IMPORTANCE

Agree.

Washington.—Judge Gary, of the Steel Corporation, wants more immigraints, because in excess more laborers. The United Scates Government, as represented by the administration stands squarely against any throwing down of the immigration bars in order to let cheap foreign labor pull down the wages of American workmen. Less than a year ago there was a five-million job shortage in thise ountry. Today every man who wants work can have it. Referring to this condition, Secretary of Labor Davis wrote to the President:

"Immigration restriction was one of the measures which helped to put an end to the industrial panic. We have come a long way through wise administrative and legislative measures sine then. Today unemployment has been redued to a minimum, wages everywhere are rising. During the past year, even during the past few months, there have been wage increased in practically all of the forty-three industries and have ranged from 2 to 20 per cent.

Recenely the larger steel plants announced general wage increases of 11 per cent, which will undoubted by be applied throughout the industry. In the past year, industrial range increased approximately 25 per cent. Production in basic industries during January of this year reached a higher level than at any time in history except in May, 1917. Expanding freigh ments likewise demonstrate the completeness of our industrial recovery."

### G. O. P. OFFICIAL ORGAN HITS

G. O. P. OFFICIAL ORGAN HITS

AT FLEXIBLE CLAUSE

In the National Republican, official organ of the Republican Nation al Committee, appears an editorial which contradicts statements of Republican Senators who told the public last summer that the "elastic provisions" of the Fordney-McCumber law authorized the President to modify the duties which the Tariff Commission found unreasonable. It seems that when these Republican Senators gave the public his impression they either were deceiving themselves or attempting to deceive the country.

"The flexible provisions of the tariff law were intended only to correct abuses and meet emergencies, not to abdicate the control of Congress over tariff legislation," says the National Republican. "Attempts to arrogate additional power for the Commission would undoubtedly result, deservedly, in its ablition."

Democratic Senators contended that the "flexible provisions" of the Fordney-McCumber act were unconstitutional, but the Republican Congress over tariff legislation," just as much as would its exercise of authority as to a few items of the law will "abdicate control of Congress over tariff legislation" just as much as would its exercise in a thousand instances. But the "flexible provisions" were added only as an alibi, anyhow. They were never seriously intended and apparently are not likely to be fairly and conscientiously applied.

HEN FEIER.

HEN FEER.

About this time of the season years ago, it was customary in many towns for boys to get what was known as "hen fever." Incited by poultry enthusiasts, they formed glowing conceptions of the omount of money they culd earn from raising a little flock of chickabiddies.

Chicken raising is a game that requires experience and sustained interest. The boys might feed their little flock faithfully for a month or two, but frequently after that their enthusiasm lapsed, with results disastrous to the egg business.

Finally Mother would become weary of pinfeathers on the lawn. Father would be sick of complaints from the neighbors, and the chicken coop in the back yard would go out of business. The youngster was curd of hen fever. But the kids who stuck to it and took care of their flocks learned some useful lessons, among which was ability to reduce their costs of living.

which was ability to reduce their costs of living.

What a beautiful place this town would be if more of the streets were kept clean; if the alleys and side streets were kept clean; if the alleys and side streets were kept clean; if the alleys and grade the streets were kept clean; if the proper were more shade trees planted along the streets, and if all the people took more pride in the general average and the streets, and if all the people took more pride in the general average and the streets, and if all the people took more pride in the general average and the streets, and if all the people took more pride in the general average and the streets, and if all the people took more pride in the alleys and the realy is.

Everett Walton and wife, of St. Louis, Mo., are visiting Mrs. Walton's mother, Mrs. User Cloud, Streett was in the friends. It has been nearly 40 years ince they left old Boone countries to the scene of their childhood. All the streets were the properties of the streets were the clean; if the properties of the streets were the clean of the alleys and the properties of the streets were the clean of the streets were kept clean of the streets were

### THE COUNTRY NEWSPAPER

THE COUNTRY NEWSPAPER

The country newspaper is a kind offink that binds the rural community and wide world together. The cities from his watchtower surveys the progress of society, and when he sees an idea that he feels his home town should take up, he dwells upon it and works to persuade his home folks to adopt if Uncounted numbers of country towns have good roads, good schools good sidewalks, play grounds, etc., just because some editor became converted to those ideas, and talked about them until people were finally won over to them.

On the other hand, the country newspaper is the means by which thecities and other parts of the U. S. find out what is going on in rural communities. It has often been said that the country papers are the best recetors of public sentiment. The country editor is constantly in touch with every day people, and he knows very closely what the people down close to the grass roots are thinking about. The politicians at Washington know that the utterances of the country press are honest, and are a wonderfully accurate representation of public sentiment.

Rural opinion is more wholesome than city sentiment. City folks live

curate representation of public sentimeth.

Rural opinion is more wholesome
than city sentiment. City folks live
an artificial Ife, spending too much
time in amusements and not enough
in reading and thinking. The country sentiment is the soundest feeling
of the another is the same and the
saved the country from errors that
got their hold amid the artificial concitions of city life.

The country communities exercise
their big influence on the policies and
development of the country through
the country press. If year want
your home town to ccunt in the
councils of Kentucky see that your
home town paper is well supported,
so that it looks like a superior production for a town of its size. If it
is able to give that impression, it
speaks with a voice to which politicians listen, and statesmen reflect
on the information it gives them.

### THE UP-TO-DATE TOWN.

One of the sure signs of a live town, is the existence of some functioning organization of business men. Call it Chomber of Commerce, Board of Trade, Business Men's Association, or what you will, the name makes little difference provined it does the work and gets the goods.

vined it does the work and gets the goods.

Before such organizations began to be formed, the business men-were working at cross purposes. They were torn by jealousies and unfriend ly rivalries. It was almost impossible to ge them to work together.—
Today business men have gotten by such sentiments or should have done so, and they are joining harmoniously to get things accomplished. Questions are constantly arising where it takes a strong and influential body, constituting the business aentiment of the town, to command respect and achieve results. Such an organization will often do in a week what it would take years if there were no such association.

### PAINTING UP.

PAINTING UP.

It has ost considerable of late to paint buildings, and a good many people hove let their dwellings go longer without paint than they used to. The result has been that many places have acquired a dingy look.

While it is relatively costly to paint buildings, yet the value of real estate has advanced a good deal, and people can afford and must expect to spend more to maintain their property. There is no one thing that does more to make a town look attractive than fresh coats of paint. The homes in a town may not be specially legant or artistic, but if they are painted at frequent intervals, that place will have an attitude of cheerfulness and of being cared for. People who visit it will say that it is a good live town and one that is making its way in the country at large.

The man with a house that needs paint should reflect that by letting it go he runs the risk of deterioration, and he gives the impression that his real estate is less valuable than it realy is.

Everett Walton and wife, of St.

All Virtory Liberty bonds bearing the letters G. H. I. J. K. and L., due May 15th, 1923, must be presented for redemption not later than May 20. The interest on these bonds will cease on May 15. All those holding any of these bonus must present them for payment at once.

### BILLY SUNDAY SAYINGS.

How many people pray to God in their distress and forget Him in their prosperity? The church is full of sour-faced and religious crabapples who want to hand God a lemon.

Try to meng your own faults and you will have little time to find fault with other people in the world.

Some people cannot visualize any

Announce a feast and the gang is there. Announce a prayer meeting and you will see the same old isolat-ed, insulated crowd that you get there all the time and mone others.

The reason it is so hard to have a revival is because so many people at the head of the church don't know any more about Jesus Christ than a town pump does about the taste of water.

People give two per cent. service and expect one hundred per cent. of blessing. It don't work that way, it is as impossible to pray on the run as it is to run your Tin Lizzie on dish water.

A lot of people go to church be-cause the calendar says it is Sun-ayd. They keep a square about seventeen by seventeen warm for a half of an hour and listen to a ser-monette and then go home.

Once a man worked a tremendous time to put the Lord's prayer on a dime. What good did it do? Ho would have done a good deal better if he had turned his wife's washing machine the same length of time that it took 1 im to put that Lord's prayer on that dime.

I'll bet my life usainst a counterfeit cent that there is not a preacher in town who has not at least one hundred nembers of his church, whom he has never seen at a prayer meeting. A woman in Trans to'i me once that she had only gotten her hurband in church twice, the first time when she married him, and the next time when he got buried.

### A LETTER FROM HOME.

A LEILER FRUM HUME.

St. Louis, Mo.,
April 24, 1923.

Editor Recorder,
Burlington, Ky.
Dear Sir.—Enclosed find P. O. order for \$1.50 for the Recorder.
I have missed but one Record r.
since the 9th of Dec. 1922.
I am in good physical health, with one exception—sight. My head lights are in a deplorable condition, and but little hopes of any relief—have undergone two operations on nny eyes in the past three years. I can read but little, yet always welcome the Reloraer, it is like rereiving a letter from home. I can generally find some one to read the most important features and news to me.
Many deaths of old time friends and srhool mates have been recorled in the past few years. Death ends all weary and trouble— a debt we must pay.

Fraternally,
JAS L. CONNLEY.

Fraternally, JAS L. CONNLEY.

### DANCE CRAZES AND CRAZY

DANCE CRAZES AND CRAZY DANCES.

Of course, it's on entirely different proposition, but we wonder how long the young lady who broke the long distance dancing record could walk the floor carrying a collicky baby.

And again, we wonder how long she would hold out in a long distance dish-washing contest.

And again, we wonder now the would hold out in a long distance dish-washing contest.

We wonder what your own 'individual opinion is of these foolish girls who wear out several orchestras and a half dozen male partners apiece to get the title, "End-wance Dancing Championship of the World?"

What possible good can be the

What possible good can be the outcome. It's a futile pursuit that will take its health toll later in the young dancers' lives. Over-exertion: always presents its bill and it always collects—in full.

As we see it there's just as much sense in endurance dancing as there is in long-distance running, prize fighting, weight-lifting, auto racing, and other equally foolish over-text contestings. fighting, weight-lifting, auto racing, and other equally foolied nover-trait enterestings. It's interesting to watch this dance eraze with its hundreds of crazy dancers and wonder where it will end.

# RELUCTANCE FOR MATRIMONY

"Indications seem to show a slow-ly growing reluctance to enter into the bonds of matrimony" was the remark recently made by the state registrar of Virginia. This official attributed this change largely to the more costly mode of life, and to the independence acquired by girls who carn their own the life, and to the independence acquired by girls who can their own the life, and to the independence acquired by girls who can their own the life of a considerable extent, it is not because the satisfactions of married life seem less desirable. The attractions that lure the sexes to each other are as strong as ever.

It is primarily an economic problem, and the difficulty of marriage has increased as people's wants have chiarged. The girl who with her business salary has been able to buy good clothes freely feels it a little hard to come down to a half of her business salary has been able to buy good clothes freely feels it a little hard to come down to a half of her husband's income, which may not be, much more than she earned independently. It is going to take a good deal of love and faith and hop's to reconcile her to such a limitation of her means.

Moralists have generally contended that fairly early marriages promote wholesome social conditions. If not entered into heedlessly, they are apt to make lasting unions, because of the families of children that bind the young people together. It will be a misfortune if economic conditions result in a tendency to post-pone marriage.

The people who build homes to rent at moderate prices do a great deal to promote matrimony. High rents are an item that scares many young people offered at prices they can afford to pay based on present incomes.

### OPENING MUSIC'S WORLD

OPENING MUSIC'S WORLD
The past year or two has seen one change coming that is going to have much effect on rural life. Many people who are fond of music have said in the past, that they liked country life, but simply could not live there, as it cut them off from good music. That was never true, breahes such folks could develop musid ability for themselves, and join with others and get as much pleasure by performances of their own as they could get from hearing other people.

But even this partial objection, is

from hearing other people. But even this partial objection, is now being removed by the wonderful invention of the radio. Today many thousands f country people are sitting in their quiet homes, and hearing wonderful performances in concert halls and opera houses. It will do a lot to make country life more attractive to art loving people.

### TOWN AND COUNTRY

People living in the outlying districts who send money oway to mail order houses and department stores in big cities might well reflect on what they lose by failure to develop their home towns.

order houses and department stores in big cites might well reflect on what they lose by failure to develop their home towns.

If they would spend all that money in their home communities, they would make those places bifyer business centers, which could support more people. These increased home populations would be able to buy more stuff from the surrounding farmers, and an enlarged marnet would be created for garden and farm produce. If the rural communities will keep their dollars in their home neighborhoods so far as possible, they will profit by the increasing prosperity of those neighborhoods.

### RED GROSS NEWS.

To encourage First Aid instruction To encourage First Aid instruction among the Juniors personnel, 4,000 copies of the Red Cross Teachers handbooks will be supplied free of charge to Division Managers for distribution throughout their territories. This school course was adopted for use in teaching and has heretofore been sold for 25 cents the copy.

Kichwood zchool and Union graded school enrolled as Junior auxiliaries last week. This will enable them to start their organization with the be-ginning of the next school year.

### PATRIOTISM SERVED BY NATIONAL SHRINES

Monticello, Home of Jefferson, and Lincoln Collection Considered.

Washington. — The proposal of Henry Ford to buy the Oldroyed Lircoln Memorial Collection and remove it from the house where Lincoln dies on Tenth Street between E and F. Street, Washington, D. C., directly opposite the old Ford Theater has aroused a storm of opposition among those who believe that the greater, cllection of mementoes of the martyred president in existence should remain in the Capital City as a permanent shrine.

One organization has taken the matter up actively, and with the success of the Ladles' Mount Vernen Association in preserving the birthplace of the Father of His Country as a national shrine in view, the Dames of the Loyal Legion have announced their intention of working actively to persuade Congress to purchase this Lincoln collection and keep it in Washington.

The movement to buy Monticello and keep forever inviolate as a national shrine the beautiful home of Jefferson, is well under way. The Thomas Jefferson Memorial Association has been incorporated in New York to purchase and maintan Monticello as a national memorial principles inscribed in the Declaration of Independence," so that Monticello may rank among the country's sacred altars with the birthplace of Washington. For many years there have been movements to acquire the property as a national memorial roundation. For many years there have been movements to acquire the property as an ational memorial of Independence," so that Monticello may rank among the country's sacred altars with the birthplace of Washington, For many years there have been movements to acquire the property as a national memorial of Independence, and its present owner has signified his willingness to turn it over the Jefferson Memorial Foundation. Both the Thomas Jefferson National Homorial Association, a Virginia organization, and the National Monticello Association, have piedged their cooperation.

### LETTER FROM CALIFORNIA

Los Angeles, Cala.,
April 24, 1923.
Mr. Evcrett Hickman,
arlington, Kv.,

arlington, Kv.,

Dear Brother Hickman and Fam
y and all the loved ones at Bur

ily and all the loved ones at Burlington:

Our long silence is no indication that we have forgotten you. The sweet memories of days spent with you at Burlington are among our most priceless possessions, and it will be a happy and crowning day for us when we shall turn our faces Kentockyward again.

We will not get back to Kentucky this summer, but hope to next, at which time we would be delighted to hold you another meeting, if the Lord's willing.

It would be impossible to write to each of our dear friends there, so must trust to your kindness and consideration to pass the sweet hello along for us.

consideration to pass the sweet hello along for us.

There are persons at Burlington worthy of special mention who are near and dear to us, but if I'd begin that list it could only end with the last name on the roll of our acquaint-ances. So remember us to each.

We were at Hemet, California for four months, working for the State Board. It is a wonderful country and the finest of people, second only to Kentuckins, ha ha.

Took the work here at Vermont Square Christian church the Lord'1-Day April 22nd. We like the place and love the people already. Have a delightful home elegantly furnished, and oh how we wish you good folks were here to enjoy this world famed Southern Cala., but take it from Sammy the climate is not compared to that of Florida. Wife and I like is better in Florida, but there is a greater opportunity in our work here.

here.

Los Angeles is getting to be quira a city, claim one million, at any rate I guess it is twice as large as Cincinnati

I guess it is twice as lorge as Cincinnati.

Tell the boys I'd like to see them play bay this season, but guess I'll nave to be content wathing these srubs pley in the coast loague ha, ha. Los Angeles has; two teams—Vernon is a suburb of L. A. I believe Salt Lake (city is leading now. San Francisco won the pennant last year. It looks like a repeater in the big show of both New York teams to me.

Write real soon and tell us all the news, and we will do better next time. Give our love and best wishes to good wife and the bogs. Wife joins me in this letter, Virginia and Harold ore well and doing fire. Harold is sure some boy a jim dandy.

Address us Sam W. Allen, 541.

dy.

Address us Sam W. Allen, 511

Denker Ave., Los Angeles Cala.

Yours Always,

THE ALLENS.

Lee R. McNeely has purchased from H. R. Leidy a Willys Light plant which will be installed in his

### A WEEK'S NEWS.

M. L. Campbell, a former Burling ton boy, but now of Cincinnati, and who for forty years served that city as one of its firemen, was in Burlington, last Friday, looking after the remodeling of the Methodist church for his brother, B. W. Campbell, who with a number of other Cincinnatians are touring Europe. "Bulger" as he was called when a boy, has almost reached his four-score years, barring his crippled condition which was caused from a fail he received while fighting a fire looks hale and hearty for one of his age. He retired from the fire department several years ago, but during his younger days was one of the bravest fire-fighters that city ever had.

We call your attention to the ac of the Tri State Butter Company Cincinnati, Ohio. appearinyin this issue.

We know the Tri State to be a perfectly safe and reliable concern. They not only offer producers of cream the highest possible prices, but also set a higher standard of prices for other cream producers. If a man with a full can of cream can ship to the Tri State and realize such good prices, it gives the man producing a smaller quantity a chanter to realize somewhere near the actual value of his product. This service which the Tri State renders not only encourses dairy growth but also tends to make more prosperous communities.

In the spelling contest between Hebron, Petersburg and Burlington, last Friday afternoon at the Boone County High School building, Petersburg carried off the honors. In the contest the number of worls missed by each were: Hebron 5; Burlington 5; Petersburg 4. Burlington and Hebron tied, while Petersburg went home with the "bacon."

Mrs. Kate McWethy, of Petersburg, who has been a user of Colt Carbide light has her home lighted now with Willys Light Plant and is enjoying the convenience as well as excellent light which the Willys Light gives.—Advertisemet.

Some fellows are always taking the joy out of life. It is now predicted by one of these "joy-spoilers" that we are to have the 17-year Locust with us this summer. The work of grading the hill at the creamery and near Thos. Rice's residence on the East Bend pike, is progressing nicely, and is a great improve nent to that pike.

Remarks overheard on the street corners and other places around town indicate that spring weather has already ter in to tax veracity of mony local angress

A father being asked one day by his inquiring son, as to who the Chief Executive is, remarked that according to his best information is was Mother.

was not able to atend services very often.

Aunt Ellen was sick only a few hours before the end came, which makes it seem harder to realize her going. But the example of her pure life and noble heart we will cever hold in esteem. She was 71 years old and has lived in this neighborhood many years. Besides leaving a bereaved husband, J. Oits Richards, she leaves many sorrowing friends and relatives. The funeral was conducted by the pastor Rev. Royer, Friday afternoon, after which she was placed in the vault at Hopeful among many beautiful flowers. May the peace of the Father which passeth all understanding be with the lonely ones.

### BASE BALL.

"On Sunday May 6th, the Taylorsport Base Ball Club will have as their opponents, the fast Harrison, Ohio base ball club at the Taylorsport ball park.

The Taylorsport club is being conducted under new management and will be composed of the best ball players in Boone county. The club assures its patrons, the best attractions all season, and asks that the fins give their financial and loyal support in return.

Don't fail to miss the above game. We assure you a real ball game."

W. C. GELSWICKS,
Business Manayer, Taylorsport B. B. Club.

Petersburg High School ball teams came up last Friday and played the Boone County High School boys. The larger boys of the Boone High wn their game 7 to 2, while the Petersburg kid team won by a score of r to 3. Prof. Carter of the Petersburg school, having won the spelling contest and one game of hall went home highly elated, but looked a little "scaley" as he limped out of town on his cane.

There will be a game of ball next Saturday afternoon between the Has Been's and the High School club at the High school building. Come and see the old timers get beat.

### FARMER FRIEND

Willys Light is powered by a Knight sleeve valve engine, the finest engine made, and the only one that positively improves with use. The Knight engine is noiseless, vibrationless and powerful. It is noiseless because it does away with poppet valves, and clashing metal parts. It is recommended to the reduction of moving parts, and friction is eliminated by the sliding sleeves surrounding the piston. It is powerful, beacuse there are no poppet valves to constantly pit or warp, and lose compression, and the sleeves seal the combustion chamber gas tight.

The generator built by the Autotic Company, is scientifically and mechanically correct. It delivers 1250 watts constantly. You accept no risk when you purchase it for it is the result of experience gained in manufacturing 40 per cent of the automobile starting and lighting systems in use today.

Wish to emphasize the fact that

manuracture automobile starting and lignums tems in use today.

Wish to emphasize the fact that light and power are necessary to you end that Willys Light make both possible.

### BED SCRAPPING IN BAR REN NOT DONE BY **POOL GROWERS**

Court of Inquiry Conducted
County Attorney Shows Vandalism Work of Irresponsible
Persons.

Persons.

The Burley Tobacco Growers' Coperative Association was exonerated from all blame for the scraping of tobacco beds in Barren county, on April 15, by growers who suffered from the vandalism in testimony offered at a court of inquiry conducted this morning by County Attorney Paul Greer.

These witnesses testified that the vandalism was a purely local affair and that irresponsible parties in that district who hd been committing such depredations for the last seven or eight years had scraped the beds.

Fifteen or sixteen members of the pool were interrogated. They said they belonged to no secret or canization responsible for the disorder and that they were unalterably opposed to lawlessness and had nothing to do with the scraping. They said they belonged to no secret or canization responsible for the disorder and that they were willing to do all in their power to punish those responsible.

Three or four of the growers whose plant beds were scraped have since Joined the pool, the inquiry brought out.

brought out.

The following is taken from the Newport News of the Times-Star.

A quiet wedding took place Saturday afternoon at 2 o'clock when Miss Pearl Clore, daughter of Mrand Mrs. James L. Clore, of Ninth and Isabella streets, became the bride of Earl Dietz, son of ex-Sheri's Joe Dietz. The ceremony was performed by Rev. Philip Wiggermann, pastor of St. Paul's Evangelies! Protestant church, at the parsonagron Monroest. The bride and groots were unattended. She wore a Juinator Saturday and the start of t

Mr. and Mrs. William Crisler, of Lawrenceburg, Ind., and Mrs. Laura Crisler, of Petersburg, were Sunday guests of Mr. and Mrs. James W. Kelly. They motored to Ludlow Sunday afternoon to visit Louis Rid-dell and Wife. They were accompan-ied by Mrs. Nettie Kelly.

ARE YOU A READER OF THE RECORDER? If Not Try It One year. Subscribe For The Recorder ...... \$1.50 per year

### As the Editor Sees It.

AS Ine Editor Sees It.

"Most of it is newspaper talk,"
How many times have you heard that remark made about some piece of scandal or other "juicy" item you have read in one of the big city daily papers?

There is plenty of justification for make. It is quite true.

Practically everythiny of the kind that gets-into at least some of the big newspapers is doctored and colored to make it more appealing to the animal side of human nature.

But for this the editors are "not alone open to criticism.
It is what the public demands.
And that reminds us that size and circulation are not the only points of dicerence between the important of the control o

The home town editormus teenfine The home town editor must con fine himself to facts. If he distors his news matter he is soon classed by the public as a pinin prevarieator, and that ends his usefulness in that

If the big city daily confines itself to facts, without dectoring or coloring of any kind, it is regarded by the great majority of its renders as too slow for this rapidly moving ago, It is a fallore keensus elics not popular—it is not what its readers want. These was when we took many of these lurid newspapers stories with a grain of salt, but row we use it by the barrel.

We don't know what to beliefe.

the harren.

We don't know what to beliefe.

Go to the average publik scool and size up the publis. Some will estraight, snappy, vicorous, and fell of life. Others will be dull, slow, and apparently without aubition or interest in what is robing on atound them. The latter is LACK of training OUTSIDE of the class room.

Then visit a school where milliary training is provided. There you w'll find all of them standing erectly, with shoulders squared, stepping off brickly and firmly, full of pep and ready for the fray. That is the RE-SULT of training, OUTSIDE of the class room.

Boy Scow training has many of Boy Scow training has many of the excellent features of military training. It produces much the same result. It makes strong men iut of

training. It produces result. It makes strong men iut of weak boys.

Why not a Boy Scout troop for the boys of our public school, and a Girl Siout troop for the girls?

We ran conceive of nothing outside of the class foom that would be of such material and permanent benefit to them.

Chauncey DePew, former Unite'l States Senator, 89 years young and full of pep, forgets his worries at sunset every day. He never takes them to lied with him, and that, he says, is the reason why he never grows old.

Man of the state of the

grows old.

Many of us take the little cares
and worries of business too seriously. We puzzle over them during
the day, complain about them at
meal times, and take them to bed

meal times, and take them to bed with us at night.

It is not to be wondered at that they ston assume the proportions of genuine troubles, even though they be out slight in the eyes of other people.

Emulate the example of Senator DePew. Yog may even live to a greater young age.

Be a good citizen yourself. Help your neighbor to be a good citizen. Inspire him to help others to be good citizens, that they in like manner may pass the good work along. The more really good citizens we have the less poor ones there will be. That is good for the community, the state and the nation. And whot is good for them is good for you.

### BEFORE AND AFTER.

BEFORE AND AFTER.

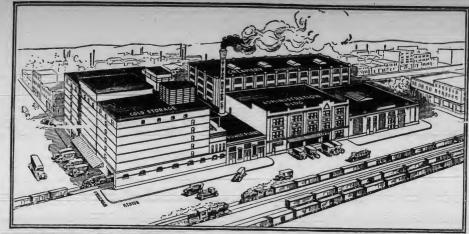

We send senators and congressmen to Washington to make laws fon us and then the majority of us consider that we have discharged our interduty as good citizens.

But we havent.
It is cor duty to study national and-local-conditions, determine in our own minds what is best for our own with the work of the wor

A NATIONAL MENACE

Jarred into action by the roar that
went up over the country because of
the recent unwarranted boost in the
price of sugar, the department of
justice has buckled down to an investigation of the robbery with a
view to prosecuting the profiteers.
It was a plain steal on the part of
the sugar speculators, and calls for
nothing less than the limit of punishment for the guilty parties.

But it should not be allowed to
end there, even if there are prosecutions, which are by no means certain.

There is a strong and growing de-mand on the part of the people that Congress put a stop to all such deals in future, in every kind of commod-ity.

ity.

It is urged that a federal lawbop passed whereby no purchase or transfer of ownership can be made without the actual delivery of the commodity to a legitimate wholesaler or or actaller, and the punishmen for a violation or evasion of that law should be fixed at nothing less than a penitentiary sentence.

for a wall of the fixed at the law should be fixed at the law should be fixed at the law speculators get in their work and extract their wholly profits.

A quantity of sugar or other comextract their wholly profits.

A quantity of sugar or other commodity is shipped to market by the producer, and the purchaser stores it in a warehouse. There it stays for months—sometimes for a year or years. In the meantime it is being sold on boards of trade and—stored exchanges over and over again—purely on paper—and the purchasers never even see the stuff they buy. They wouldn't know what to do with it if they had it."

All of this buying and solling in

buy. They wouldn't know what to do with it if they had it:

All of this buying and selling is being done by speculators and gougers who are mostly too lazy to do an elonest day's work. The consumerpays all of the numerous hoosts in price, and the producer doesn't moke an extra penny.

If all sales were limited by law to actual delivery of the commodity to the wholesale or retail trade market conditions could be relied upon, prices to the millions of consumers would be forced down, and yet the producer would be making just as much money as he does now.

Of course such a law rigidly enforced would put a lot of gamblers and gougers out of business. These might have too trim their luxurious manner of living, or go to work, or to the devil. The latter would be no loss to the country.

This riot of loard of trade gambling ond juggling of prices—prices that are purely fictitions—is a growing menace to the country. It is athering the enormous wealth of the nation into the pockets of a comparative few of the population, many of whom have neithed souls not consecuence, and is breeding a spirit of accences, and is breeding a spirit of accences.

Lesson No. 10.
— School vs. Po Sunday, May 6, 1923.

proposed to strike the words "Super-intendent of Public Instruction" from these clauses of the

part by political availability and influence, and not wholly by their fitness as educators.

The present system also makes it almost impossible to obtain a leading educator as State Superintendent. If a man is a leader in educational work, he can readily obtain a more agreeable place at better pay and without making a political campaign of it.

Amendment No. 1 would permit the office of State Superintendent to be taken entirely out of politics, because it would empower the legislature to pass a law providing for his selection by some method other than popular vote at the general election every four years and providing also that he may succeed himself.

Amendment No. 2.—The present constitution requires that each county shall be entitled to the same proportion of the state school fund each year that its census of pupil children beare to the total census of such children. In addition, each county receives money for its results affects from the

authorities at present hesitate to make business forecasts, but most competent observers seem to agree that we may expect general business property to last at least six to nine months longer. If this opinion is correct demand will be distinctly more active next autumn than it was last autumn, in so far as the domaind for farm products depends upon the purchases of American families not themselves on farms.

es that the Gover-nor, Superintend-ent of Public In-struction and other state officers shall be elected every four years at the November election

We are 2,100 Farmers Strong.

### CROP CONDITIONS

### WHEAT

WHEAT

The American exports of wheat during the last two years were unusually large, owing to the low exports from eastern Europe, and continued low production in some countries in Europe. These exports should not be taken as normal, nor be expected to continue permanently. The European countries are making efforts to put their grain production on a pre-war basis and as they become able to accomplish this is still in a state of expansion. Unwill decline and that our production should not be readjusted to meet these changing conditions.

The condition of the winter crop of wheat in the United States is urfavorable.

### TOBACCO

Instruction" from these clauses of the constitution. The constitution as it now stands COMPELIS the state "ducational, swetchen to remain in party politics, because it requires the State Superinten dent of Public Instruction, the head of the state school system, to be electived by popular vote at the same general election at which the political officials of the state are elected. This means that the candidates for State Superintendent are nominated by the great political parties at primarles or conventions. This in turn means that their selection is determined in large part by political on state of the state and not wholly by their fitness as educators.

RICHWOOD.

Mrs. L. A. Tanner is visiting her father, M. Grubbs.
Wiley Grubbs spent the week-end with his parents here.
Theg. Carpenter has booked good many orders for fertilizer.
They many friends of Harmon Hearne of Latonia, Win be sorry to hear he has been very sick.
Mrs. Walter Grubbs and son Wiley were Sunday guests of Mr. and Mrs. Will Gilpin, of near Walton.
Miss Katherine Rice was taken suddenly ill with appendicitis, and was rushed to St. Elizabeth Hospital where she was operated upon, and at this writing is doing nicely.

Schlosser Bros., who bought the Sam Dobbins farm, are fencing it and will raise good horses and fine chickens.
J. T. Hurt, our station agent, has the sympathy of the community in the death of his wife which occurred at Walton lately.

Russell Tewell was called to Cleveland last week to be with a sick brother. Mrs. Wayne Hearne, of Erlanger, was in the store here during his absence.

About forty-five of Will Smith's friends surprised him Sunday, and helped him celebrate his 75th birth-day. They came with baskets laden with good "east" and a pleasant time was had by all.

of wheat in the United States is ur fatovorable. The figures of intended planting for 1923 exceeds the acreage of 1922 by 10 per cent, the average acreage for 1918-22 by mearly 9per cent, and the average acreage for 1918-22 by mearly 9per cent, and the average acreage for 1918-22 by mearly 9per cent, and the average acreage for 1909-1918 by 55 per cent.

It is true that the general business with extraordinary war conditions of production and supply in the main control. There is nothing in the probable demand sufficient to offset the contemplated increase of 10 per cent, in the death of his wife which occurred at Walton lately.

Russell Tewell was called to Cleveland last week to be with a sick brother. Mrs. Wayne Hearne, of Erlanger, was in the store here during his absence.

About forty-five of Will Smith's friends surprised him Sunday, and helped him celebrate his 75th birth-day. They came with baskets laden with goo

CORN AND HOGS

The corn situation at this date is about normal, stocks on farms being almost cascily the same as the five-year\_tre-won-average. Between now and the time the new crop is harvested there will be some tendency toward corn shortage because of the larger number of hogs on feed.

Hog production has been heavy and is still in a state f expansion. Un less bad weather and other conditions have reduced the number of spring pigs to an unusual degree the price of hogs may be depressed next fall and winter.

During the past winter more

price of hogs may be depreased next fall and winter.

During the past winter more pounds of pork products were produced when in any previous winter in history, amounting to a 30 per cent increase over the preceding year. The storage holdings of pork and lard were on April 1, 1923 egg million pounds on April 1, 1923 egg million pounds on April 1, 1924 and increase of 37 per cent in the yeor, an increase of 37 per cent in the yeor, an increase of 37 per cent in the yeor, an increase of 37 per cent in the yeor, and increase of 37 per cent in the yeor, and increase of 37 per cent in the yeor, and increase of 37 per cent in the yeor, and increase of 37 per cent in the yeor, and increase of 37 per cent in the yeor, and increase of 37 per cent in the yeor, and increase of 37 per cent and increase of the yeor of yeor, and products. This is the absorbtion by domestic and foreign consumers of stored products. This represents a surplus of ofer seven million hogs, approximately 12 per cent above last year's production.

DOMESTIC DEMAND

The domestic demand for agricultural products will be artise as here in the power of the products will be artise as here.

DOMESTIC DEMAND
The domestic demand for agricultural products will be active so long
as the present prosperous condition
of business with full employment
continues. Beyond a period of six
to nine months in the future most

R. E. BERKSHIRE

### SCHOOL NOTES.

The Districts Grades spelling contest will be held in their respective districts April 13th, at 2 p. m.

The county Grade contest will be one week later in Walton at the same hour.

tion of the state school fund each year that its census of pupil children bears to the total census of such children. In addition, each county receives money for its rural schools from its county taxes.

About forty counties are so poor that the maximum county tax rate plus the county's proportion of the state school fund does not provide enough money to furnish the minimum requirements for rural schools in the way of buildings, courses of study, teachers' salaries, etc.

Amendment No. 2 would allow the legislature to pass a law distribution on the state's yearly school fund on another basis than that of the census of school-children. Thus, if this fund should be \$4,000,000, the legislature could authorize as much as \$40,000 to be distributed among the poorer counties in addition to their proportion of the remaining \$3,00,000.

Neither amendment can be submitted again before 1927.

Neither amendment can be submitted again before 1927.

one week later in various aame hour.

The examination for Common School Diploma will be held in Bur lington, Fetersburg and Walton on May 11th and 12th.

The examination for Teachers' Certificate will be held in Burlington May 18th and 19th.

Teachers will please observe the above announcements.

Jaw jay and the street of South Dakota, the House of Representatives concurring, That the State of South Dakota, the House of Representatives concurring, That the people of South Dakota be enjoined to addrest themselves to renewed effort to restore the balance between the spirituals and the material, that was proposed to the spirituals and the material, that was provided and the precepts of fundamental righteousness. while educators may be divided over the wisdom of making the public school partake of the nature of the Sunday School, there is no question of the motives behind the resolutions adopted by the Legislature of South Dakota regarding the need of teaching the need of these needs of the nee

their work and to extend to every their work and to extend to exert every ecort to restore the old-time influence of the home in molding the lives of their criddren, for the development of conscience and morality; that the family alter be restored and that in self-sacrificing love the little ones be trained in the simple virtues for tuthfulness, honesty, and respect for the rights of others; "That the schools promptly reform their methods, so that the rudiementary studies as well as the science be taught only as subordinate to righteousness. That the emphasis be placed upon marality, good conscience, respect for parents, reverence for age and experience, and that all learning is but the hand maiden of eternal goodness; "That it is the judgment of the Legislature of South Dakota that only upon the lines herein suggested can the true balance be restored and the crime wave checked and civilization be preserved."

BLIND CONFIDENCE

### BLIND CONFIDENCE

It was characteristic of the inflationary period of 1920, that the business world seemen to have full conlidence that the expanded trade-conditions of those times would be permanent. People who failed to regard the extravagant basis as hazardous were regarded as old fogies who had failed to adjust themselves to new conditions.

While there is some tendency to dangerous inflation now, yet the business world seems to have learned some lessons from adverse experience, and is arting the wise part of the burnt shild who keeps at a healthy distance from the stove. In quiet times when prosperity is just ahead, business people are usually over prudent, and in rush times they are over confident. With the lessons of the past fresh in mind, they should not be able to hit the golden mean.

### BOYHOOD AMBITIONS

BOYHOOD AMBITIONS

It was a typical incident of boy life the other day, when a 7-year-old cousin of President Harding wrote to that exalted official, asking the chief executive to help him get a job on the police force. Most boys have ambitions as youngsters to do quite different things from what they are likely to do in after life.

Many boys who used to live along railroad lines used to think it woull be the ideal thing-to become a rail-road sectionmen, and operate an old fashioned "hand-car." In those days the possession of a car by which they could trundle themselves up and down the line seemed an ideal occupation.

The ambitions of hour are not

down the line seemed an ideal occu-pation.

The ambitions of boys are not much governed by mercenary advant-age. An occupation that seems to have novelty looks finer to them than a quieter one that draws more mon-ey. The boys are half right. The grows up world considers money too exclusively, and fails to estimate oth-er advantages for what they are worth.

### STRENGTH FROM THE SOIL

STRENGTH FROM THE SOIL

Vice-President Coolidge said the other day: "America has alwoys preferred to take her great men from the soil. Rarely has she bestowed her choice on those nourished where city pavements sperate tem from the mother of us all."

How true that is and how finely expressed. There is something in country life that gives people power and capacity and ideals. There is a same and normal strength in country life that enables people to stand the strain of difficult backs and fits men had women to take high positions in the business world Country towns oring up sensible and dependable (uks, many of whom will later in life curry the heavy burdens of the nation.

The many (rights of Mrs. Q. E.

The farmers are getting well up ith their work at this time, and a rip out in the county in any direction, from the number of fields plowed, will prove that the farmers have ade plans for large crops.

business success and self improvement existing in the home community.

While the country newspaper should always be agitating for progressive undertakings, it should promote the feeling of pride in the things that the community fias already accomplished. Any good town that represents a tremendous amount of esort and achievement. Its institutions and organizations, its homes and business and public buildings are the cumulative product of many years of toil and enterprise.

In agitating for still further progress, people should never get into a mood where they belittle what has been done in the past. The ountry newspaper should encourage the feeling that the community, although needing to keep up with modern ideas, yet has met its problems in a splendid way in former years and can be relied upon to meet them in the future.

A newspaper that takes that attifued does so much to promote the world of the people should appreciate the service that it renders and give it hearty support.

### WASHINGTON COMMENT.

An Alaskan Indian was arrested for nurder. His captor started with him upon a wearisome journey over snow, which stretched several hundred miles of waste between him and afail. During the journey the captor feel ill; so ill he was helpless. Whereupon the Indian dragged him the remaining hundred miles to his safety and his own imprisonment, or perhaps death.

A short time 2go an Dmerican Indian, under sentence of death, got a stay of execution that he might arrange his acairs and harvest his crops for his family. At the end of the reprieve he voluntarily showed up for execution.

Nor are these instances unique; there are many such.

Apparently the untutored savage has a great respect for law. To his mind, the ukase of real authority is made to be respected and obeyed. If broken, the law enacts a punishment. The Indian mind does not "see" any point to "evading that punishment. Even the fact that the punishment. Even the fact that the punishment may mean death, does not deter him.

There have been instances of white men who left jail on parole and returned; yet one would hesitate to trust any man with freedom, who was under sentence of death, who was under sentence of death, who was under sentence of death, who was under sentence of death with the che examples of many. Big business violates the law; see any Police court docket. Granted that misparking and mislabeling are rot crimes to be mentioned with uurder; granted that buying or selling a drink is not to be classed with robbery. Nevertheless, a violation of the law is wrong; it is un-American, unpartiotic, cowardly.

Indians are said to be men with children's minds. With the above instances in mind, "Al little child shall lead them," takes on a now meaning.

### SUNDAY TIMELY TIPS.

### Baccalaureate Sermon **High School Students**

You can keep a cow alive on po-tato peelings and brush, but she won't give any milk and when a cow stops giving milk her mission in life ends. We don't keep cows for dom-

Your size depends on your mind

Apparent size is one thing, real size is another. If you don't believe it, try and stop a hornet with the end of your-nose when he's going a mile a minute. You'll think an automobile driven by your motherin-law hit you.

The June bug has a silver wing; the lightning bug the flame; the bedbug has no wink at all, but he gets there just the same.

A frog makes more noise than a whale and a pup barks more than an old dog. You can't tell a man's size by the noise he makes.

Go with people who are bigger than you are; bigger in mind; bigger in ambition; bigger in morals.

Go to school. Go to college. Read good books.

The devil has a teacher in ever, an who will cuss or hit the booze

If you find a man on top of mountain, he didn't light there, had to climb.

If every black cloud had a cyclone in it, the world would have been blown to toothpicks long ago.

It's a sad day for a young fellow of himself that ex-President Taft's overcoat won't make him a vest.

Grit. That's the George Washington in you that can fight his way across the Delaware amidst ice and snow.

A lot of people would like to be Christians, but they are afraid of the sneers of that damnable gang they train with.

You know what is right as we solomon and old Brigham Y knew they were married.

It isn't necessary to be in a greated to do a great thing. Gettys

Education is knowing what want, knowing where to get it knowing what to do with it a you get it.

If God wants you to be an iron cogwheel in the engine stop trying to be the searchlight and the whistle.

Many of you start at third base of life fairly.

Don't be like a Shanghai rooster that every time he crowed he'd throw his legs out of joint. Don't go to pieces every time things go different than the way you like them.

Obscurity didn't keepa Benjamin Franklin walking the streets of Phil-adelphia grawing a loaf of dry bread. Obscurity didn't keep David herding his sheep all his days.

### SHARP WASN'T HE?

SHARP WASN'T HE?

Two residents of a Middle Tennessee town went into the local hotel and asked permission to use the telephone which stood on the counter. The landlady cheerfully gave permission and added: "You ring from behind the counter." She went into another room. There seemed to be no evidences of a telephone conversation and a traveling mm gave some attention to the remarks passing between the two near.

"Central has gone to sleep again," remarked one.

"Or clue she is visiting with some

The many friends of Mrs. O. E.
Rouse and Mrs. Ransom Ryle, who are in a hospital at Clucionati, will be pleased to hear that they are implications in the proving nicely and will be able to come home in a few days.

"The ships's out of order—don't ring as all This is rome service."

About this time the landingly vame in again and discovered that the comprosing nicely and will be able to contect by turning the handle of a possible shapener.

# SWAYING THE PUBLIC MIND

In former times the habits of the people were much more fixed than they are today. They did about the same things this year that they did last. There was general disapproval for the "rolling stone that gathers no moss."

last. There was general disapproval for the "rolling stone that gathers homes."
At present the pendulum has gone to the other extreme. The rolling stone is defended, and it is argued that if he gathers no moas, at least he picks up a bit of polish. People change around from place to place and job very easily. This tendency is carried too far. Yet it makes people alert to take up new ideas, and it opens business opportunities.

The ambitious man today, as the result of changed popular ways, does not have to run up against a lot of fixed habits. His townspeople will not necessarily trade at certain stores merely because they have always done so.— If an enterprising man branches out for a bigger business, if he ogers special opportunities and lets the people know what they are, he will get a rush of people into his store, regardless of their former buyng habits.

The power of advertising to sway the public mind is illustrated in many fields. The city of San Diego, California, for instance, brought 500 families there to live as the first year results of an advertising campaign. It induced 5,000 other families to state their intention of migrating, which probably most of them did later.

If people can be insuenced by advertising to charge their residence.

state their intension of them did-later.

If people can be insuenced by advertising to charge their residence many of them traveling thousands of miles to do it, putting themselves thereby to much expense, how much easier it must be to influence them in a matter so easy as attracting trade to a certain place of business in their own locality. In these times when there is this lack of fixed hab-its, people's minds are in a state of fux and ready to act on suggestions. It takes only a little pushing from the enterprising merchant who tells the public about his goods, and of-ferr reasonable inducements to turn a current of trade toward his store.

### LONG, USEFUL LIFE ENDED

Owen P. Tanner, 83 years, one of the county's oldest and most highly respected citizens, died Wednesday night, May 2nd, at his home about one mile from togap and the Brilington and Florence pike, after an extended illness of diseases incident to advanced age.

Mr. Tanner was a son of Lewellyn and Eliza Tanner and was born in the neighborhood where he died, June 5, 1840. He come from pioneer stock and spent his entire life in the section where he was born. He is survived by his wife, who was Miss. America Beemon, daughter of Weednesday of the word of the section where he was born. He is survived by his wife, who was Miss. America Beemon, daughter of Weednesday of the word of a farmer all his life. He was a man of exemplary habits, true to every obligation in life. He was a man of exemplary habits, true to every obligation in life. He was a fairs. He was a man of strong conviction and always took a strong stand for thright. His passing will be received with sorrow by many of our citizens, and his wife and daughter have the sympathy of all in their bereavement.

ment.

Funeral was held at the Hopeful Lutheran church, of which he was a member, Saturday morning, May 5th, at 11 o'clo-%, conducted by the pastor, Rev. Geo. A. Royer, after which the remains were interred in the cemetery at that place.

### LANDLORD AND TENANT

A method for adjusting the complicated and often unsatisfactory relations between farm owners and tenants has been worked out in North Dakota, by one of the country agents and the farm economists of the agricultural college. The arrangement was made by holding first a meeting of tenants, and second or meeting of landlords. Each party stated its own views, and second or meeting of landlords. Each party stated its own views, and second or meeting of landlords. Each party stated its own views, and second or meeting of landlords. Each party stated its own views, and second in the town the provides land, huildings, taxes, the insurance, seed etc., and the townsh provides land, huildings, taxes, the insurance, seed etc., and the townsh provides land, machinery here's, gas etc. All Eve stock except hores and poultry, is owned jointly.

### MOTHER'S DAY

There stole refrfain that softened pain, not phrased by mortal togue

But born of memories, old and sweet—the songs my mother sung. When she took me in her arms and gently stoked my hair,

And bare me with her down to sleep in that old bye-bye chair."

Enshrined in our hearts and chise-even with indelible trace in our memories is the image of one who gave us birth, nutured us in infancy, shared our joya and troubles—inyouth, and smilingly sent us forth with a mother's kiss and a whispered prayer to meet the fate of the unknown feture. It was the truest and manilest of joets who said:

If I were hanged-on—the highest hill, Mother o'mine, O mother o'mine, I know whose low would follow me still, mother o'mine, O mother o'mine, If I were drowned in the o'mine, I know whose tears would come down to me, Mother o'mine, O come down to me, Mother o'mine, O mother o'mine, I know whose prayers would rake me whole, Mother o'mine, O mother o'mine, I know whose prayers would wake me whole, Mother o'mine, O mother o'mine, I were cursed of body and soul, Mother o'mine, O mother o'mine, I know whose prayers would wake me whole, Mother o'mine, O mother o'mine, I know whose prayers would wake me whole, Mother o'mine, O mother o'mine, I know whose prayers would wake me whole, Mother o'mine o'mine, o'mother o'mine, O mother o'mine, I know whose prayers would make me whole, Mother o'mine, O mother o'mine, I know whose prayers would make me whole, Mother o'mine, O wother o'mine, I know whose prayers would rake me whole, Mother o'mine, O mother o'mine, I know whose prayers would rake me whole, Mother o'mine, O mother

### COMMITTED SUICIDE.

Residents of Francesville neigh-borhood and the north end of the county were horrified last Thursday morning upon hearing that John Cave, one of the good old citizens of that neighborhood, had committed suicide by shooting himself with a shot gun.

sucide by shooting himself with a shot gun.

John Cave, aged 59 years, who resided just north of Francesville, was found dead at his home last Thursday morning. Mr. Cave had prepared for a day's plowing, harnessing his horses and performing all other work at the house preparatory for held work. He went into a front room of his house, and shortly three actions of his house, and shortly three actions of his house, and shortly three after his wife hearing the report of a shot gun, went into the room and found that he had shot himself, the shot practically tearing the head from the body.

Mr. Cave had been in failing health for some time. He is survived by a widow and one child to mourn his loss. Finned services were held at Francesville Saturday.

In presenting the Prince of Wale with a branch from an apple tre Col. George Harvey has put Peace am, Vermost, on the map in a man nor that Herry Ford with all in maney and advertis mg genius nessecontal have done. It is said that massement is on foot among the Peacham residents to erect a monthment to him.

### A WEEK'S NEWS.

MUITIER'S UAY

Next Sunday, May 13th, Will
Be Observed as Mothers Day.

By resolution of Congress and by order of President Harding's Mother of President Ha

The lamb crop in Boone county is a large one this spring. Sheep growers have had remarkably good luck with their lambs, but a large per cent of them are late, but appeared to the same late, and not until the past week have the fields shown much green. Owing to this fact farmers have been compelled fo feed their ewes. a large one this spring. Sheep growers have had remarkably good luck with their lambs, but a large per cent of them are late, but appearing the first ascred folds floated above a braver army than that of the heroic mothers of America, but never have that sacred folds floated above a braver army than that of the heroic mothers of America. Another poet beautifully describes the feeling of all of us when he said:

"The world at times has beat me back in the battles I have fought;
Not always has the god Sucress touched tasks in whinh I wrought. Full off has fortune dealt a blow instead of bent to bless to have. And heart aches followed close upon the beels of hay.

And often when a solemn wee of grief my heart intoned, And often when a solemn wee of grief my heart intoned, And often when my spirit writhed and all my nature groaned, There stole refrain that softenda pain, not phrased by mortal to gue.

But born of memories, old and to work the contraction of the Dixie Highway from Richwood to the Grant county line, a distance fover ten miles, on the 20th of May. It is expected that their lambs, but a large per cent of them are late, and not until the past were have the fields shown much recent and the past were have the fields shown much recent and the past were have the fields shown much a week. The field at the solemn was a surface of the solemn was accepted by the past were have the fields shown much a week. The field as how me have the fields shown much a week. The field as how the field as the field as how the fields shown much a week. The field as how the field as how the fields shown much a week. The field as how the fields shown much a week. The field as how the field as how the fields shown much a week. The field as how the field as how the fields shown much a week. The field as how the fie

Bids have been advertised for the construction of the Dixie Highway from Richwood to the Grant county line, a distance fover ten miles, on the 20th of May. It is expected that the entire road from Covington to Williamstown will have been completed before winter.

It is claimed that tobacco plants have come up well, but the continued cold weather has as 22 retarded their growth. It will take three weeks of favorable weather to develop them large enough for transplanting. weeks or velop the planting.

The annual demonstration will now be given of how hard it is to make grass grow in the front lawn where you want it, and how easy it is for it to grow in the garden where you don't want it.

Judge J. M. Lassing was in Buc-lington, the latter part of last week, looking after his truck patch. He says his family will not arrive home until about June 1st.

Profs. Scott and Gray and the pupils of the Boone County High School spent a most enjoyable af-ternoon last Thursday in the Cliffs on Middle creek.

Richard Penn, who resides just north of town, has ten acres of corn planted, and expects to plant about fifteen acres more in the next few days.

All you have to do to satisfy the American people is to let everybody. fix their own pay and decide what the prices shall be on the thirgs they

A good many people have no political opinions of their own, as it would make their heads tired to think about the subject.

aJiler Fowler has put three or four nice flowers in the court house yard, which adds very much to the looks of things around the building.

L. R. Miler, of Landing, will light his store and residence with elec-tricity. He has purchased from H. R. Leidy a Willys light plant.

Quite a number of automobiles from the city passed through town early last Sunday morning enroute to Woolper and Gunpowder creeks.

H. E. White and wife entertained a number of their relatives and friends at dinner, last Sunday, at their home out on the East Bend

Rov. W. W. Adams, Elsa Poston and wife and Earl Smith and wife, were entertained by L. C. Heemon and wife, Sunday, at their home on the Limaburg and Hebron pike.

### BASE BALL.

The ball teams from the Boone H. School went to Petersburg, last Friday, and both teams were defeated by Prof. Carter's boys. Scores, Kids, 14 to 6; High School team 6 to 5.

Taylorsport defeated Harrison, O., last Sunday at Taylorsport by a score of 7 to 6.

Belleview went to Petersburg last Saturday and won a good game by a score of 5 to3.

Walton won at Hebron by ascor

Ben Zimmer Accepts Management Williamstown Club. He is a good Man and Believes in Playing Clean Ball.

Clean Ball.

After nuch dickering the business men of Williamstown, Ky, have induced our old pal and friend Ben Zimmer to accept the management of their ball club this year. They made him such inducements that they could not be spurned and are pleased in getting his signature to a contract. He goes there with the understancing he is to have complete charge of war caub. The only way a good-manager can make a winner. His past has told his ability, and if he doesn't give them a good ball club they can't blame old Zim. We are sure pulling for him, because he makes friends and has thousands. His motto always was Honesty and Clean Sport. We are with you old boy, always. Clean Sport. boy, always.

The Old Stiffs beat the Hi School boys in a game of ball at the campus last Saturday afternoon by a score of 16 to 3.

### MOTHERS OF MEN

All over this eocity, our people observe Mothers Day. They listen to words of praise of the mothers of men, give credit to the mothers of other people, and perhaps a passing thought to their own mothers.

It is human nature, the way of

It is human nature, the way of the world.

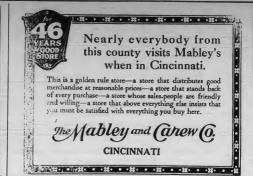

We see the good traits of the mothers of other boys because we view them from a distance and analyze them from a distance and analyze them from a distinct set of the second of the sec

W. L. Kirkpatrick and family en tortained with a dinner last Sunday in honor of his birthday anniversary. The following were present: Rev and Mrs. T. P. Middleton, of Macan City, Mo., Mrs. Albert Beemon and family, Mr. and Mrs. J. O. Ross, L. C. Aera and family, Harry Barlow and family, M. P. Barlow and family, M. P. Barlow and family, J. M. Barlow, Mrs. L. C. Weaver and son, Misses Ora and Nellie Robbins and Miss Myttle Beemon. Mr. Kirkpatrick was the recipient of many useful presents. All spent a very onjoyable day and left wishing him many more happy wirthdays. W. L. Kirkpatrick and family en

The cool weather last Saturday morning made fire feel very comfortable, and to make our readers believe there, was snow in town early that morning would be a harl task—but, nevertheless, it is a fact, for Mr. Edward Snow, of Bullitts-ville neighborhood, was a business visitor to town Saturday morning, and while in town called at the Recorder office.

### LOOK, WHAT'S COMING

Manacor Porter has contracted for a rea. treaf for the picture fines in "GRANDMAS BOY" featuring Har-old Lloyd, to be shown at Burlington Friday night, June 1st, and at Pet-ers trg Saturday night, June 2nd. Don't let anything interfere with your seeing this greatest of ail com-edies.

### NOTICE

The closing of the Dixie Highway does not prevent me from answering calls from any part of Boone County, it only means a detour requiring 15 minutes more time to reach you.

C. SCOTT CHAMBERS.

**Embalmer and Funeral Director** 

WALTON, KENTUCKY.

The Bakule Children's Chorus continues to win big audiences. In St. Louis the chorus was presented the keys of the city.

The first supply of garments cut by ne Y. W. A. of Burlington were taken that evening to Union.

For many years it has been an ambition of the Red Cross to reach that point in the confidence and knowledge of the public at which it would be universally recognized in the United States as the agency to which all communities would turn for help when struck down by the emergency of disaster. That goal seems safely within sight today.

Junior organizations formed now will be sent their supplies at the beginning of the next school year.

### CARD OF THANKS

CARD OF THANKS

We death to express our sineere and heartfelt thanks to our friends, neighbors and relatives for the kinless and sympathy manifested to us during the siekness and death of my dearly beloved wife, Ellen. Richards (nee Ross.) We further desire to express our thanks to Rev. George A. Royer, for the beautiful way he conducted the services, also the Choir of the Hopeful church for rendering the apprepriate hymns, and undertaker Chas. Wolf for the way in which he handled the remains.

The Bereaved Husband,

JOHN ODIS DECLAPSE

JOHN ODIS RICHARDS.

Terms—All sums of \$10.00 and under, cash; on all sums over \$10.00 a credit of Six Months without freezest, purchaser to give note payable at Peoples Deposit Bank, Burlington, Ky.

C. H. YOUELL, Agt.

Better farm poultry flocks through better breeding practices and the use of purebred hatching egys came in for attention from Wayne county furmers this spring, County Agent II. J. Hayes reports. Seven poultry flocks in different parts of the county were culled to show farmers how to select the best breeders and many settings of hatching eggs distributed.

Established 1886.

DO YOU NEED A FARM LOAN? We are now making up a class of borrowers for these long time easy payment loaus made by The Federal Land Bank at 5½ per cent.

If interested let us have your application immediately and your loan can be handled promptly as we expect to close the present class now being formed within 10 days.

There is a possibility of the interest rates on these loans being raised in the near future, so it is important that you get your application in now, while the rate is 5½ per cent. A loan closed at 5½ per cent can not be raised after the loan is made.

Act promptly if you desire cheap money,

## As the Editor Sees It.

The daily press continues to report an occasional lynching—not always in the south.

For years it was the favorite past-time of certain northern editors to flay the south because of its lynching.

lonesome, and adopted the lynching habit.

Sheriffs and courts and juries in the south didn't always bother 'o punish the lynchers. I erhaps they felt that there was some moral justification for the infliction of such summary punishment.

Again the north in time became lonesome, and now many of its officials are conveniently deat, dumb and blind in the matter of punishment where the people have resorted to mob law.

As a matter of fact, human nature is the same all over this country of ours—north, south, 'east west, or in the middle.

is the same an over this country or ours—north, south, east west, or in the middle. When the law repeatedly and flag rantly fails to mete out punishment to a certain class of a diminals it is not strange that people can be found with the will to take the law into own hands. It is not long ago that church lenders burned women at the stake under the mistaken belief that they were witches. We condean mode haw, and, it is right that we should, but we should remember that mob vengeance is seldom wreaked upon the innocent. Human passions are only a roused to such a point by the nets of human flends, who have no moral right to live.

live.

The responsibility of mob law lies at the door of legal law, which dismally fails to convict and adequate-lay-punish in proportion to the crime. When the laws of the land are impartially and energetically, enforced we have no more incentive to lynching.

ings.

These may be unpalatable truths, but they are nevertheless truths that can not be refuted.

but they are nevertheless truths that can not be refuted.

Hazing and class fights in colleges and universities have reached a point where the ypublic should call a suden and emphatic halt.

In 1921 a young man who took part in a class warfare at one of our big universities disappeared during the fight and no trace of him could be found. A few days ago his skeleton was discovered and identified by a belt buckle and bits of clothing. Apparently he had been killed in the fray and his body hidden under on the fray and his body hidden under on did unused pier.

This is only one case—a sample of conditions that exist in some of our big institutions of learning.

If the authorities of these universities can not maintain order and discipline, then parents should ecase been diverted in the fray and his body hidden under on the proposed of the truth of the proposed of the truth of the proposed of the class of philosophy there came this bit of truth lift you say you have enough, you be prish. Always add, always walls, always add, always malls, always and the open of the Cinited Kingdom.

Was nature of the beginnings of philosophy there came this bit of truth lift you say you have enough, you be prish at thought.

The people who are ceased to day was proceed."

No author of the present day is triting anything that digs deeper into the "why of things" than does dilly one on make honest efforts to send their sons to such institutions.

They are a menace and part in the people who are ceased to did was proceed."

The merchant who beelieves the been growling over the tardiness of spring, which interfered with our gardens and crops.

Soon we will be growing at the length of summer, with its insufferable heat and discomfort.

And then we will begin to grow all over again,

B-r-r-r-r.\*!

FOR I was a mence and public supports the people of the Cinited Kingdom.

"ENOUGH" IS FATAL

Und the beginnings of philosophy there came this bit of truth lift you say you have enough, you have enough, you have enough, you have enough, you have

In spite of the defeat of the pro-bition bill in the House of Com-ons England is sobering up. It named 40 per cent less beer and 5 per cent less whiskey and brandy at year than it did in 1913.

Pennsylvania Logislature has pass-an old-age pension law to take active years hence. It will involve expenditure of about \$25,000,-per year.

ren carried that the Duke of Wess inster may own great stretches of and in or about the heart of London di to pays no taxes at all if it is no occupied by a tenant, and in ne new does it pay any direct land s. The same is true in the count of the same is the same is true in the same is true in the same is true in the same is 
a dwelling he pays possibly half that sum additionally as local taxes to the town. The great landlord goes yeot free.

Author anomalous fact is that almost all of the land in Great Britain is still owned in great estates. At the time of the last Doomsday Bock, issued in 1874, there were about 300,000 individual landowners, while 2500 men owned about one half of the land in England. Sometimes individual lord-wes, all of the land underlying a city. Nine men and estates own the land underlying the metropolitan area of London. Seven million people pay ground rent to these ducal owners, who pay was taxes directly either to the local authorities or to the Nation.

English statesmen have always must be desired by the land question and the House of Lords have always must be decented by the land question and the House of Lords have always must be decented by the land question and the House of Lords have always must be decented by the land the land. The half proposes that the transfer is to be brought about gradnally. They half proposes that the transfer is be brought about gradnally. They half proposes that the transfer is be brought about gradnally. They half proposes that the transfer is be be not revolutionary distribution as in Russia and central Europe. The land is to be taken over by the state and administered as a Socialistic enterprise. The proposition is supported by the Lator Party, and by Lloyd George, and has become the most urgent question before the people of the United Kingdom.

And then we will begin to grow all over again.

B-r-r-r-r!

PAGE KING SOLOMON

Chicago is n big city of many thrills, has been all a flutter of late over a poor little girl who was born out of wedlock.

She was adopted in infancy by a kind hearted couple and brought up as their own daughter. Every possible love and care was lavished upon her, she was happy and coatented, and the world was ignorant of the stain upon her birth.

The little girl is now 12 years of age, too young to understand the penalties and the purgatory of illeritimacy, as many others have known beefore her.

But she will not always be in ignorance, for the real mother claimed her and went into court to obtain possession of her, revealing her shame to the world.

Some day this little girl will be young brown.

What think you?

Should the real mother have claimed her and went into court to obtain possession of her, revealing her shame to the world.

Some day this little girl will be young brown.

What think you?

Should the real mother claimed her and went into court to obtain possession of her, revealing her shame to the world.

Some day this little girl will be young brown.

What think you?

Should the real mother have claimed her and went into court to obtain possession of her, revealing her shame of its birth or should she have continued to bear her heart pangs in silence in order that her innocent flesh and bloom inght be saved pangs equally as great?

What would genuine and unselfish mother love have done?

Frankly, we don't know.

In splee of the defeat of the pro-

### HE'S A RARE BIRD

HE'S A RARE BIRD.

There is always someone ready totake a public slam at the U. S. and that some one is generally a citizen of the United States.

He is not only a citizen, but he makes his money here, enjoys his pleasures here, and is indebted to this country for everything that he has,

this country for everything that he has.

He is the fellow who finds everything wrong, and yet does nothing to remedy the conditions of which he complains.

He is the one who rails over the election of inefficient men to public office, and yet does nothing to secure the election of men who are known to be efficient.

He is the bird who criticises the authorities for creating soft bertha for political henchmen, and yet would grab off one of those, berths in a holly second if it came his way. It offulls the aid because his neighbor of means does not pay his just proportion of taxes, and then turns heaven and earth in an effort to slide out of paying his own.

He is a citizen of the U. S. yes, but judged from the standpoint of true citizenship he is a rare old bird and a lame duck.

### FOR REPRESENATIVE

The REPRESENATIVE

The Recorder is authorized to announce C. F. Thornton of Grant county, as a candidate for the Democratic nomination for Representative from the 62nd, Legislative Distrety-composed of the counties of Grant and Boone, in the primary election August 4, 1923.

election August 4, 1923.

We sincerely believe it the duty of every tobaheo grower to "pool up" his tobacco crop. In doing so yn wrong no one, not eventhe manufacturer. In pooling your tobacco you simply demand a living wage. There can be no wrong in this. If it was not for the pool of today tobacco you'dn't be worth six cents a pound. It can not, as you know, be produced for this small sum. If you are a land-owner, why dump? Throwing your crop in an "unpooled" market means ultimately ruin, besides you are injuring your fellowman—this too, is wrong. Why not come togethea like men, pool your crop and treat your fellow farmers right? In doing this you will feel better, your neighbor will feel better. In fact such a course would cure the dyspepsia.—Outlook.

dyspepsia.—Outlook.

The death of Senator Knute Nelson, of Minnesota, removes one of the most prominent and dependable figures in our American life. Mr. Nelson, though 80 years of age, was one of the most active men in the Senate, where he had served for 28 years: Born in Norway, he was nearer to being a 100 per cent American than many who proclaim themselves to be such, Senator Nelson was a veteran of the Civil War and a lifetime Republican, but he did not always agree with his party. Yet no man in the Senate was held in higher personal regard by his association for the fact was recognized that in every official act he was guided solelyby his own conscientious judgment.

When a series continue as a se

Representative Martin L. Davey, "tree dentist," urges congress to further the cause of reforestation be removing all taxes on growing timber, and by appealing to state legislatures to do likewise. There are 81,000,000 acres of cut-over land in this country, usoless for agricultural purposes. The farmer who reforers or reseeds cannot expect profitable results from it in his life time. It all tuxes were removed for a given period of years on condition that it be reaseded, his heris would have some chance of realizing a profitproviding it was not destroyed by fire.

Greater New York has 44,000 dwellings under construction, besides hundreds of huge business and municipal projects, and is exceeling last year's programme of new building by nearly \$50,000,000 a

The death rate from tuberculosis in the United States of 200 per 100, 000 inhabitants in 1904, was reduced to less than 100 per 100,000l in 1922, according to W. A. Fraser, of the Woodmen of the World.

The American Railway Association reports 15,000 union shopmen, employees of six roads, when the strike occurred last July, still on strike.

### MORE LOCALS ORGANIZED BY LEADERS OF POOL

ings Held In Three Countie Saturday and Woman's Auxil-iary Work Is Started In One of Them.

At three different points in the Lurley district today county locals of the Burley Tobacco Growers' Coton operative Association were started. At Carrollton, Director of Warehouses Ralph M. Barker, Chief of the Field Sevice Williams Collins and other Association leaders were in charge of the work. At Cynthiana, Virgil Chapman, of Lexington and Paris, was the speaker. Rev. J. R. Jones, Director for that district presided, and at Warsaw, J. Sherman Porter, cided, and at Warsaw, J. Sherman Forter, cider of the Burley Tobacco Grower, spoke. R. B. Brown, county cnairman for Gallatin, presided.

Miss Verna Elsinger, director of social service of the Burley Association and head of the new welfare department of the Association, also foundation for the organization of a new women's auxiliary in Harrison cectaty along the same line as the women's auxiliary releady organized on the company of the seventy-four organized counties. A company of the seventy-four organized counties and that they have been actively at work among the wives of growers at the work among the wives of growers at the work among the wives of growers at Ripley, Brown county, next Thursday. Three will be the speakers at a big meeting of thois tobacco growers at Ripley, Brown county, next Thursday. Three will be the speakers at a big meeting of thois tobacco growers at Ripley, Brown county, next Thursday. Three will be the speakers at a big meeting of the organization, to provide units for group demonstration work, to bring the members in to contact with the general association through local officers, to furnish a medium through which information of interest to the membership but not necessarily to the general public may reach them, to promote the county locals, the precing at the county locals give the precinc locals meetings at school houses or ot

mation of interest to the membership but not necessarily to the general public may reach them, to promote the community spirit and to improve by co-operation farm methods and the standard of living conditions on the farm.

It is planned to have a local in each county or school district, and these will compose the county locals, the precinct locals meetings at school houses or other convenient places and the county locals generally in county, seats.

CLEAN MILKING IS AID TO BUTTER IMPROVEMENT.

Observing practical principles of cleanliness at miking time is the first step that farmers and dairymen can take to improve the quality of the 42,000,000 pounds of butter process section of the Kentucky Agricultural Experiment Station, says, Cleanliness, followed by proper cooling and reasonably quick delivery will do much to raise the standard of Kentucky cream and make the production of higher scoring butter possible, he adds.

"Dairymen and farmers whold direct their attention to keeping dirt, dust and hair out of the milk rather than trying to strain out such foreign material. It-is not the dirt itself that lowers the quality of the creamer will the bacteria in the dirt. A few similar direct may be according and reasonably quick delivery will do much to improve cream quality. Dirty barns, while the decream with a damp cloth and indixing in closed top palls instead of in once-top buckets that collect dirt and dust, will do much to improve cream quality. Dirty barns, dirty coves and dirty, dripping hands in closed top palls instead of in once-top buckets that collect dirt and dust, will do much to improve cream quality. Dirty barns, dirty coves and dirty, dripping hands in the process of the cover, willing the udders with a damp cloth and indixing in closed top palls instead of in once-top buckets that collect dirty and the precause of the process of the various phases in large and the cover will be a collected from the process of the process of the process of the business cycle. These experishment of the process of th

# UNALTERED LATE LAMBS FURNISH MOST OF CULLS.

Lexington, Ky.—Two-thirds of the 150,000 Kentucky spring lambs that are marketed each year as seconds and culls at from \$4 to \$7 a hundreu pounds than top lambs from the late lamb crop, according to R. C. Miller, sheep extension specialist of the College of Agriculture. Most of the 100,000 lambs are bucks. If docked and altered before six weeks old, many of these late lambs that otherwise would be thrown out as sezonds and culls would go as tops, he says.

onds and culls would go as tops, he says.

"Casteration is a simple operation that no farmer who will carefull's follow directions should have any difficulty in doing," says a free circular on docking and casterating issued by the college. "Lambs should be asterated when from one to four weeks old on a bright day, if possible. They should never be worried or excited before the operation. Cleanliness is important, as many of the losses come from failure of the operator to have his hands and the knife carefully disinfected before the work is done.

"The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of thescrotum "The lower third of the lower third of th

operator to have his hands and the work is done.

"The lower third of theserotum is cut off with a sharp knife. The upper part of the scrotum is then held between the thumb and foreinger of the left hand and the tessicles and adhering cords pulled out slowly with the other hand. The cords in old lambs should be scraped off with a knife rather than pulled out to prevent excessive bleeding. The wound should be washed with a good antiseptic such as five per cent solution of carbolic acid or one of the many coal tar dips sold under trade names. After the operation it is best to keep the lambs away from barns and dry manure piles as these are some times the source of tetrade names. After the operation that can be performed with a knife, a pair of docking irons or docking chiesel. If a knife is used, the tail should be taken off at a joint about an inch or a trade and half away from the body and the wound disinfected. Decking irons or the chisel are heated to a dull red and the tail seared off. Docking irons or the chisel are heated to a dull red and the tail seared off. Docking irons or the chisel are heated to a dull red and the tail seared off. Docking irons or the chisel are heated to a dull red and the tail seared off. Docking irons or the chisel are heated to a dull red and the tail seared off. Docking irons or the chisel are heated to a dull red and the tail seared off. Docking with a pair of irons or a chisel requires no disinfectant and in addition prevents the loss of blood."

THE OPTIMIST.

few years ago, Bill Taft said:

ve got to be an optimist to

win."

And you have.
There's nothing in the Bible or any other book truer than this, for it has been proven by countless multitudes of men and women, and no natter how much you may think you have won, you don't know the first thing about real winning until you're an ontimist. optimist.

In the first place the only way to in is to conquer.

In the first place the only way to win is to conquer.

Success always lives on the other side of a struggle, a fight. In the beginning, it is a struggle with self. This may never be fully mostered, but in just such measure as one masters self in one to succeed.

No person ever mastered self by, bemoaning the flaws that lurk with-in.

### THE UNDERPAID FARMER

THE UNDERPAID FARMER
The United States Department of
Agriculture recently compiled a survey
farms in an ecort to ascertain what
return average American farmer
gets from his invested capital. The
results are not only interesting bur
instructive, especially in view of the
recent Supreme Court decision which
affirms the principle "that legislation
which precludes a fair return on the
investment which it affects is confiacatory and unconstitutional."

The Department

The Department of Agriculture and that the average invested capal of these 6,000 farms is \$16,400.

ital of these 6,000 farms is \$16,400.

The average return on this cap'tal in cash was only \$21,500—less
than 4.5 per cent.

That return, however, does not
include one dollar for his lacor. T)
get the less than 4.5 per cent on his
investment he has had to work for
nothing.

nothing.

He has ahd, however, an increase of \$202 in inventories, crops, live stock and machinery which makes his total gross earning on his in vestment a little less than 6 per

mis total gross earning on his in vestment a little less than 6 per cent.

Estimating the value of his labor at the figures decided upon by three different surveys, as to how much if required to support a family and live decently without saving a dollar, he should be credited with \$1, 2900 per year in addition to his gross return on his invested capital. From this might be deducted the \$224 which the Department reports show was the value of food and feul consumed on the farm.

Putting the 6,000 farms on the same financial basis with the New York Telephone Co., or the railroads which are guaranteed 5.5 per cent on their stock (watered or; otherwise), the farm as a commercial enterprise, is losing over \$1,500 per year. This may explain the cause of nearly thrices thousand sillions of dollars of Indebtedness recorded against American farms and far-ners.

of 0 per cent interest to the farmers for the use of government money, together with high freight rates, might be construed as "convectory"—when viewed from the fact that the ross cash carning will not pay it. The Supreme Court decision in the case of Prendegast vs. New York Telephone Co, will also have the effect of blocking the "rarm Bloc" in the proposed program to lower railton in nearly every state and city. Following this line of argument to its logical conclusion, the day may come when professional people, school teachers and superintendents, printers and preachers, engineers and skilled mechanics, will capitalize the money and years of time spent in preparing themselves, and demand a fair return on that investment in addition to a reasonable wage or overhead expense. The knowledge acquired after years of study and expense certainly becomes invested capital—at least as much as a piece of inanimate machinery, or a mine nule.

bemoaning the flaws that lurk with in.

Tears never wash away anything but self-reliance and self-respect, and heaven knows, we need all we have of these great treasures, without risking their loss in such a foolish pastime as the weeps.

After we have got self somewhat in hand, we may start out to conquer the things outside of self. And experience has proven that the best weapons in this war are cheerfulness patience and persistence.

So far as the conquering business is concerned, the world isn't just standing around, waiting to be overcome by each new set of success hunters.

## FARMERS HATCH CHICKS

FARMERS HATCH CHICKS

LATE TO REGAIN LOSSES.

Lexington, Ky.—Kentucky far mers and poutry flock owners are behind on their chick raising schedule this year and will have to follow unusually good methods to get their pullets into laying condition by Nomonths when eggs usually are highest in price, according to H. R. Jackson, poultry extension specialist of the College of Agriculture. Marsy poultry raisers will have to hatch chicks later than is beat this year to make up for the heavy toll taken by chick diseases in the last—few months. White diarrhea, one of the most serious chick diseases, has killed an unusually large number of chicks this year, due to a late, colit, damp spring with many sudden and sharp changes in temperature that have chilled thousands of newly hatched fowls.

"Practically all experiment stations and many successful Kentucky poultrymen, like A. J. Culver, Hopkinsville; John Reid, Owensboro, and N. V. Fogg, Mount Sterling, separate their pullets and cockerels as soon as they can be distinguished and put the cockerels on the market when they weigh from a poundand a half to two pounds. The pullets are feed on the self-feeder plan, but feeder containing a grain mixture made of 70 parts of cracked corn and 30 parts of whole wheat and the other a dry mash such as 250 pounds of shipstuff, 150 pounds of high grade tankage. A water fountain is placed between the two self-feeders.

"Many farmers think that this method is too expensive, but it takes."

KENTUCKY CHILD WELFARE

lal Lessons For Adult School Classes Lesson No. 11. Fopio—The Plan Of Activities of the Kentucky Bureau of Child Hygiene, Working Under the Sheppard-Towner Act.
Sunday, May 13, 1923.

"Unto your weaker fellow man, Most freely lend the helping hand,"

"Unto your weaker fellow man," Most freely lend the helping hand,"

Thinking men and women, realizing the need of more intelligent care of expectant mothers, infants and the preschool child, have made such care possible through the Sheppard-Towney Act. The money from this fund, it matched by any State, is available in that State for such instruction. Kentucky, through its Bureau of Child Hygiene, has commenced this work. Its program is supervision of mid-wives, prenatal and post-natal instruction of expectant mothers. Prenatal Clinics, Infant and Preschool Health Conferences held once a month in every community, where the child has a physical examination and is earlied, and feeding, and correction of defects of the child. Health education in school is promoted. Eighth Grade girls are to be taught the correct food and the tob taught the correct food and the child health care are given to various groups and organizations upon request.

The Bureau hopes that thinking The Bureau hopes that thinking and presents and organizations upon request.

children. Lectures on maternal and child health care are given to various, groups and organizations upon request.

The Bureau hopes that thinking Christian people will lend a helping christian people will lend a helping hand in this work, by stressing the heauty and dignity of metherhood and fatherhood; and also making a point of the wonder and blessing of the North people will lend a point of the wonder and blessing of the heauty and dignity of metherhood and in the Image of God, and the duty of Keeping the help perfect like the pattern—a fit dwelling for kis Help Spirit. This can be accomplished by long hours of rest at night and dully rest hours in God's pure air; and by regular exercise, such as the play of little children, and by the right 4-oul at regular intervals, especially milit and the leafy vegetables. There is a wonderful lesson of self-control in the Seripural teachings of St. Pani, "Whether therefore ye eat or drink or whatsoever ye do, do all to the glory of God." Children's specialists have given us an ontline of correct foods for little children. Can we teach them a more benuitful truth or a more important one in self-control than that of eating the right food to build strong bodies for the Master's service and for more efficient citizenship? "A little Child shall lead them."

Anne S. Veech, M. D. Director.

Bureau of Child Hugiene, State Board of Health of Kentucky, Scripture: "He shall gently lead them that are with the young."

Song: "Oh Love that will not let me go."

### BUSINESS OUTLOOK

The industrial machine continues to forge ahead. Several 1920 production records were broken last month, which indicates pretty plainly the rate at which business is traveling. The 1920 records were established by reason of demands which were neglected during the war the present high thoust his urge, and with comparatively little assistance from foreign trade.

The present progress of business

The present progress of business is not tied down to a few particular lines; it is branching out in all directions. The iron and steel, building and automotive industries are among the leaders.

the leaders.

There are plenty of jobs for those who want to work. Labor is, as a rule, efficient, though there are reports of employer and employe resilesmoss as the labor shortage becomes more evident. Wages are on the increase. This means more more to spend and more goods changing hands.

ey to spend and more goods changing hands.

People are buying and they appear to be using good judgment in making their purchases. They are not turning a "blind eye" on those process which have advanced.

Most buyers do not want superinventories such as proved to be so burdensome a short time ago. Delivery of goods in some instances, is delayed on account of a shortage of norm materials, and bonuses are occasionally being offered to hasten it.

There is another angle, however, which must not be everlooked at this amany months the tone of our correspondents' letters has been guarded. A general attitude of watchfulness is paperal as buciness shows a tendency to increase its speed. Also, that if prices advance to a much higher level, even though justified by advances in labor rates and other items. They give the cost of production, there may be resistance on the part of the public. However, this attitude of caution constitutes one of the reassuring elemence if it is adher alto.

Summarizing, we believe that while business conditions today have all the elements of tability and a continued prosperity, caution is undoubtedly necessary. Some 'of the elements of the last period of undue examsion are lacking: others are lacking: others are lacking: others are following a striking parallel. Confidence tempered by caution is necessary if production, distribution, and consumption are to be held on a same level.—Monthly Review.

### WASHINGTON COMMENT.

The motion picture industry, which is at last seeing the advisability of cooperating with educators in the use of the movies in the school roome, may well give very serious thought to the recent election in Brookline, Mass.. in which a referendum was submitted to the electronate, asking whether motion-picture theaters, which have been trying for the years to obtain a footbold in this, said to be the richest town in the United States, should be given licenses.

By a vote of 5.634 to 1.659. the

By a vote of 5,634 to 1,659, the men and women of the 41,000 population, said an emphatic "NO!" to the query.

It was developed that the objection was not to pictures or theaters, but to the type and kind of pictures commonly shown, which instead of educating or amusing, frequently exercised a debasing inuuence on the young.

Young.

This is motion-picture censorship with a vengeance! This is censorship against which there is no appeal. It is a case of "give us decent pictures, or you don't get any business at all!"

If there were more municipalities which refused theater licenses because of the wrong kind of picturs, there would be less cry for censorship... an un-American proceeding... and less children taught the wrong things at the most impressionable period of their lives.

It is right to mention here that is

wrong entings at the most inpices ionable period of their lives. It is right to mention here that is is stated that the producers of "The Cowered Wagon," that marvelous epil story of the Oregon trail (and no finer, more patriotic, or instructive picture has ever been put on the screen for school children as well as grown-ups), have specified that at least one show must be given by any exhibitor showing this picture, at a price not over ten cents, especially and exclusively for school children. Evidently the producers of the right kind of picture have the right kind of education should be given, via pictures, to children.

The Wife and Daughter.

A CHANCE FOR SAVING

The amount of comfort that people get in life depends to a considerable extent on whether they are able to save money. Country life is by far the best place in this respect, because the standards of living are not nearly as high. In cities, to speak of just one thing, public sentiment demands that people wear more expensive clothing. Children do not seem to stand well unless they are rigged cut in an expenieve way.

City people acquire a restless feeing that they must keep going to various amusements. Children are discontented unless they are forever spending. Under the many compulsions and temptations money drops out of right faster than people realize, and they approach old age with its simpler ways and standards, poople can act more according to their Judgment, and exercise thriff with less feeling of self denial.

### THE COUNTY NEWSPAPER

The country town business men feel rather sore about the amount of trade which in many places leaves the home stores and goes to more or less distant cities. Yet if they would use the same principle of advertising as the result of which these big city stores develop a great trade, they would hold a large part of the customers who now go elsewhere for a lot of stuff.

Human nature is about the same everywhere. If the big city stores have gone on to their wealth and marvellous expansion through advertising, it is not likely that advertising will fail to help the country town merchant.

marveyous expansion through advertising, it is not likely that advertising will fail to help the country town merchant.

If the people of a town or neighborhood are failing to support the home stores as they should, the trouble is as likely to be with the merchants as with the people. Very likely some of them are not showing the cateprise they ought to in the matter of advertising.

Every page and column of the home newspaper is thoroughly scanned. People do not want to miss a single thing that has happened in their own neighborhood. Where a big city newspaper is hastily skimmed, and only a small part of the matter can be noted because of the home paper is not so big but that it can be thoroughly studied.

As a consequence, wherever the home paper is not so big but that it can be thoroughly studied.

As a consequence, wherever the home paper is not so big but that it can be thoroughly studied.

As a consequence, wherever the home paper is not so big but that it can be thoroughly studied.

As a consequence, wherever the home paper is not so big but that it can be thoroughly studied.

As a consequence, wherever the home paper is not so big but that it can be thoroughly studied.

As a consequence, wherever the home paper is not so big but that it can be the paper in the home states are doing, is not people are up to.

When people read the advertising of a store, it won't be long before they will call to see what the stuff looks like. The town where the merchants show enterprise and push in the matter of advertising is any the bound to get the paper is the paper in the matter of advertising is any the paper is the paper in the matter of advertising is any the paper is the paper in the matter of advertising is any the paper in the ma

### GET TOGETHER.

People who desire to live in an up-to-date appearing neighborhood, do not necessarily have to find one made up of the latest style dwellings. Desirable as such homes may be, if they are kept well painted and repaired, and if there is no constant effort for a touch of beauty, they will indue time look less attractive than homes of less pleasing architecture which give evidence of affectionate care.

The modern idea of community life, is that it is a gathering of people each of which shall contribute someting to make his home town a better and more attractive place to live in. If a person lets his dwelling run down, his contribution is a minus quantity.

Whenever he was the state of the contribution in the contribution is a minus quantity.

s 'quantity.

minus quantity.

Whenever a hoseholder plants a tree or a shrub or sets out a flower bed, he is making an addition of beauty to the attractions of his home town. He has entered into the spirit of co-operation, on which the modern idea of an advancing community is built.

### THE COUNTRY WOMAN'S FLOWERS.

WOMAN'S FLOWERS.

Some say that country women, particularly those who live on farms are too hard working to bother with flowers. Yet many of them some how find time to care for plants, and they seem to be well repaid for the effort.

Flowers do not as a rule requir-

### CRITIC OR KICKER

There are two classes of people in this country who are constantly in the public mind—constructive critis and destructive kickers. The constructive critie is a person who looks always to the welfare of his country, or to that of his state, or community. He analyzes questions of import to the people with a fair and just mind, separates the good from the bad, and zeeks to advance the interests of the one and to retard trose of the other. To accomplish this end it offer becomes necressary for him to point out to others those salient features which to him appear to be to the best interes of the people, and to expose and oppose that which is inimical to the public weal.

A kicker is one—who does not analyze—his aubject, who voices his objection hastily and without proper investigation, who often opposes a proposition simply because some other person or persons favor it, and who is invariably found on the negstive side of questions that come up for public discussion. He is a man who never leads and will not follow. Think hard—which are you?

### YOUTH AND AGE

A meeting of young people from all lands was held in New York the other day, and it was the concensus of opinion that the older people had failed to bring peace to the world, and that youth must take up the job. It is refreshing to see young people thinking earnestly. But they will not find the problems of life so easy to solve as they look on the outside. It is possible to decide in theory how the world can be made to run right. But in practice, when you get out and try to deal with actual conditions so many contrary opinions are encountered and human nature has so many faults, that many find sounding 'paviects prove unworkable.

The energy of youth is something magnificent. If the older heads will plan new projects, and the

and indifferent, the cause of progressial march. Youth and age must

### THE GREAT IDEA

We need something that will wake us up, something that will jar us into greater life and activity.

We are by no means dead. We are not even sleeping. We are stepping forward at a pace that is commendable when compared with the progress of other communities.

But that isn't enough. We ought to step faster, take longer strides, end get there sooner.

When we look around us and consider the extraordinary amount of intelligence to be found on every hand, we are at a loss to understand why we are merely "stepping along" when we should be "pushing the breeze."

hand, we are at a loss to understand why we are merely "stepping along" when we should be "pushing the breeze."

Someone is nursing the great idea that will eventually fill us all with enthusiasm and pep, bt that someone is too timid. His idea is bottled up and he hesitates to pull the cork.

cork.

Spread your idea broadcast and watch it take root and grow. It is useless as long as it is confined by a cork.

—00—
The wise merchant advertises his goods for sale—if they are worth advertising. The shrewd buyer looks for goods that are advertised, because he knows that if they are worth advertising they are worth buying.

### AGRICULTURE NEEDS HELP

Several measures to stabilize prices of farm products will be considered by the next Congress, and some of them will no doubt be adopted. Representative Little of Kansas proposes that the Secretary of Agriculture be directed to buy wheat at not more than \$1.50° per bushel and to seall is at \$1.56°.

ture be directed to buy wheat at not more than \$1.50' per bushel and to sell it at \$1.85.

Senator Gooding of Idaho would have the government return to the wartime policy of guaranteeing the price of wheat. For the 1923 No. 1 Northern he would have set the price at \$1.75, but he may not be so mod-est in his demands in the next ses-sion.

### A UNIQUE INHERITANCE LAW.

A bill pased by the New Hampahire legislature, proposes to circumvent the Supreme Court ruling regarding taxes on inheritances, by
abolishing the tax system, and provides that the state itself shall be
considered an heir in the distribution of estates above \$50,000,000 in
value. The state's share is graduatefrom I per cent on estates up to
\$100,000; 2 per cent on estates up to
\$250,000,00 and 3 per cent above
that value. This is in addition to
the regular tax of 2 per cent upon
direct heirs, 8 per cent upon collareral heirs, and 10 per cent upon
ther heirs.

The State Supreme Court held
that an inheritance tax is a tax on

eral heirs, and 10 per cent upon other heirs.

The State Supreme Court held that an inheritance tax is a tax on property instead of a tax on the privilege of inheritance and that all property if taxed at all, must be at a proportional rate. This would call for the same percentage on a \$10,000,000 inheritance.

It is possible that future legislatures may increase the state's share providing it comes within the court's definition of what is "reasonable."

When the half a hundred European nations will agree to abide by all the obligations of a League coenant, then the need for a League will cease to exist. At present Europe is like a lot of crazy tennants whose kouse is on fire. They do nothing to extinguish the flames but yell for the Aemrican fire department.

## **NO UNTO OTHERS, ETC.**

Thou shalt love thy neighbor as thy self—Matt. 22:29."

In what way are we entitled and bound to love ourselves? That, of course, is the first question; for upon the answer to that depends the line of love which we must follow toward our neighbor. Evidently the right kind of self-love must not be to clean the rubbish off of and from around your own premises and dumping it in front of andin sight of that of your neighbor. Take a stroll to the littli-sity of the dead just north of town and view that pile of rubbish and filth that has been dumped on the edge of the street, which is enough to cause a brzzarl to leave the carcases of a dead animal. "Do unto others as you would have others do unto you." Keep your rubbish at home and don't pile it up in front of the premises of others.

A SURPLUS FOR A CHANGE
For many years Americans have had an inimate acquaintance with the word "deficit" as applied to the federal government.
Congress has made its annua! appropriations, and governmental departments have proceeded to spend more than their allowances. A deficit has been the customary result. But perk up! They say every cloud has its silver lining, but this year it is to be a golden one, thanks to our national budget system
From whence does this good news come? From General Lord, director of the budget—the man who ought to know.
The general tells us that at the end of the present fiscal year there will be in the federal treasury a surplus of sixty millions of dollars over expenditures for the period.
Of course, sixty millions are not much—only a bagatelle—but "surplus" sounds sweeter than "deficit" sixty million dollars sweeter.
Long live the budget—and hasten the day when taxes will begin to fall.

### WINTER IT MAY

Not in the memory of the oldest inhabitant was such weether as prevailed in this section, on Wednesday of last week, ever experienced in this part of the country in May. The ground being wet the snow melter almost as fast as it fell, but had it been dry there would have been 8 or 10 inches on the ground. This is the sixth snow as recorded by the weather bureau since 1872, as falling in the month of May. The dates of the other five are as follows: May 20, 1894; May 15, 1895; May 2nd, 1897; May 6th and 7th, 1898, and May 9th, 1906. Just what damage has been done to the fruit is hard to fell. Early garden truck, such as tomatoes, beans and cucumbers were all killed and the early corn that was up was badly injured.

est in his demands in the next sees est in his demands in the next sees est.

Nebraska is also represented in radical farm legislation. Senator Norris of that state sponsors a proposal to put the government into the business of buying, selling and distributing farm roducts at prices satisfactory to the farmers.

How far the federal government should go in stabilizing agriculture of is a question yet to be decided. The government has stabilized silver for with the stabilized silver for with the stabilized silver for with C. H. Acra February 12, 1874. Several years; it has guaranteed dividends to railroads; it is paying many millions of dollars each year for distributing newspapers and magnizines, more than the publishers pay. Agriculture is the backbone of the nation, but is a losing game. The nature this great industry.

"Become Naturalized or Get Anoth-er Job," Says Corporation

### MAPLE GROVE SUB-DIVISION

Adjoins Burlington on The Beautiful Building Sites and A Fine Place to Live.

The Hickman farm, consisting of 50 acres, adjoining the town of Burlington on the south, which had been sold to a syndicate and cut up into town lots and baby farms, was put under the hammer last Saturday, by the Downs-Moore Realty Company, of Shelhyville, Ky., and in spite of the inchement weather from 250 to 300 people were in attendance at the sale. The two lively auctioneers and a brass band kept the crowd in a good humor and bidding was lively until the last tract of land was sold. This new addition will be known as Maple Grove Subdivision.

This old place, originally the Lat.

Maple Grove Subdivision.

This old place, originally the Latimer farm, has been in the possession of many owners during the last half century, and at one time was one of the most beautiful places in the county, with its hundreds of fine shade trees and lovely drive-ways. The first row of lots sold front on Jefferson street, one of the principal streets of the town, bordered with a row of beautiful Maple trees running from one end to the other, planted there more than seventy-five years ago.

planted there more than seventy-five years ago.

The old residence, which is one of the best built houses in this part of the county, and has stood the rains and baking suns of summer and snow and storms of winter, sets back in the center of Maple Grove Subdivision surrounded by lofty trees with five acres of ground, and yet in fair condition, was sold for \$3,600, while the baby farms 2containing from 4 to 20 acres brought from \$75 to \$150 per acre; the town lots, \$25x150 feet, of which there is about 100 averaged about \$50 per lot.

about 100 averaged about 850 per lot.

At the conclusion of the sale, two quilts put up by the Ladies Aid Society of the Baptist church was auctioned off and brought 839. The Radio set given away by the Compacy was drawn by Bernard Sebree, of Flickertown, on Woolper creek. At the noon hour a splendid lunch was served by the members of the Y. W. A., which netted, clear of ill expenses, about 830. Quite a number of others who were lucky enough to have their names drawn from the box received one dollar each.

By dark all the deeds to the property had been made, and the members of the firm departed for other fields. Burlington is now surrounded by two new-sub-divisions—one on the north and one on the south, each of which contains some beautiful building sights. The 51 acres in the subdivision brought \$14,000.

Burlington is now surrounded by two new sub-divisions—one on the north and one on the south, each of which contains some beautiful building sights.

### MOTHER'S DAY.

MOTHER'S DAY.

A splendid program was given by the Methodist Sunday School, last Sunday, in observance of Mother's Day. The singing of Prof. Scott, Principal of the Boone County High School, accompanied on the piano by Mrs. A. B. Renaker, was very much enjoyed by all those present.

"To the community Mother's Day means the holding aloft of an ideal that is apt to slip into the background in this day when business and countless other careers beckon to womanhood.

"For her this day is first of all not

womanhood.

"For her this day is first of all not a time to placidly accept honeyed flattery. No true mother cherishes exagerated laudation. It brings to her much heart-searching. She is the child's first religious teacher; the child's first religious teacher; the carly years of the formatic this interest of the control of the child. It is the most stant companion; upon her in measures rests the choice.

The public works the public the control of the c

## A WEEK'S NEWS.

Did you know that 32 years ago today the iron fence was put around the court house yard; the editor of the Recorder (not the present editor) went fishing and liked to froze to death; that W. T. Smith had all of his beans killed by the frost and cold weather; the town cows were allowed to run at large in the streets of Eurlington; that 31 years ago Russell Smith was badly hurt by a large door on the barn blowing abut, stiking him and knocking him violently to the floor.

washington.—Major General Jas.
G. Harbord, of the A. E. F., now president of the Radio Corporation of America, beliefes American opporting Jask should be held open first for American citizens. He has just announced—"Our charter requires that all elective officers be American citizens, and we are extending this requirement to include all our organizations. Any who do not want to be naturalized are at liberty to leave. It is only reasonable that those who are enjoying the privileges and advantages of Inhabitants of this country, should assume the responsibilities of citizenship."

General Harbord the Recorder that Curb was the first was hadly hurt by a large foor on the barn blowing shut, striking him and knocking him violently to the floor.

The Scott county Fiscal Court at a meeting held last week, ordered the County Attorney of that county. It is only reasonable that those who are enjoying the privileges and advantages of Inhabitants of this country, should assume the responsibilities of citizenship."

General Harbord to Record the from a country of the county for the frost and allowed to run at large in the stream of the foor on the barn blowing shut, striking him and knocking him violently to the floor.

The Scott county Fiscal Court at a meeting held last week, ordered the County Attorney of that country to institute sait in the Scott Circuit Court against ex-Sheriff F. V. Nually and his surety for an accountry during the years 1918, 1919, 1920, and 1921.

This suit is in connection with the law limiting the compensation which the sheriff may receive.

Not to be out-done in this day and age of record-breaking long distance dancing, dish washing, marathons, etc., the weather of last week broke all records for May, in this section of the country, when the thermometer dropped to 30 degrees, and Old Man Winter convinced the most skentical that he had returned with a vergeance—causing an epidemic of "shivering."

It is feared by some that the to-bacco plants have been injured by the wintry weather of last week. On account of the backward spring weather tobacco planting will be-three weeks later than usual, and if the plants have been injured the crop-jin this county will be about half of what was cheeded.

Weather prognosticaotrs say that all May records were broken when the mercury in the thermometer dropped to 30 degrees above zero-last Tuesday night and Wednesday morning. Ice as thick as a window pane was seen in many places in this part of the country Hednesday morning.

The chilling weather since last Wednesday has caused many Burlington householders, wha had taken down their stoves an stopped up the grates, to do a great deal of "shinmying" around in order to keep-themselves warm from the chilling blasts.

It begins to look like that fellow who predicted this would be a sum-rerless year, here what he was predicting about. But, don't get discourage—just adopt the Coue slogan.—Every day, in every way. the weather is getting better and better."

Courtney Kelly, of Locust Grove-piciphorhood, has been carrying his right arm in a sling for several days, caused from a bad sprain he receiv-ed in a fall while playing in a game of ball between Belleview and Pet-

The Democrats made a clean sweep in law Tuesday's municipal contest in Baltimore—electing their candidates for mayor, comptroller, president of the council and seventeen of the eighteen members of the new council.

American life insurance companies wrote \$10,500,000,000 of life insurance in 1922, a new high record and for the first time in their history paid out more than \$1,000,000\_000 to policy holders.

If you want to enjoy a good, beatty laugh, don't fail to came to Eurlington, Friday night, June 1st, when transmarks Boy" arrives, thesight of him will make you feel 30-years younger.

Chas. I. Dawson, of Pineville, has announced his candidacy for the Republican nomination for Governor, and has tendered his resignation as Attorney General to Governor Morrow.

Mr. W. V. Moore, one of the cour-ty's good citizens from near Beaver Lick, was a business visitor to Bur-lington, less Friday. While in town he made the Recorder office a very pleasant call.

The people who find fault with the public schools are often the man ones as those who can't find time twist the schools and see what the are doing.

During the past month the Boone County Poultry Association has furnished to local folks about 200 settings of purebred hatching eggs of the several breeds in the Association. Poultry raisers have been quick to use this plan for securing foundation stock for their flocks, for in this way they have been permitted to choose the best flocks in the Association to secure eggs from. A green chose the best flocks in the Association to secure eggs from. Agreed of the property of the

last week to those would be soon.

They are sorry to, with so many requests coming in, but they are anxious to have this first Pullet Sale, which comes on Saturday November 3rd, composed of uniform sized well matured pullets.

They hope to furnish every one with as many pure bred eggs as they want next season.

One hundred children from the schools of the county took the examination for common school diplomas at the examinations held last Friday and Saturday at Burlington, Petersburg and Walton. Most of the graduates came from the consolidated school districts of the county. This is the largest number ever examined in a single examination. Eighty-five took the examination at Burlington; there at Waltona and thirteen at Petersburg. The board had not finished grading the papers of the applicants when we went to press—just how many passed we are unable to state. the

The stork on May 3rd, visited the home of Mr. and Mrs. Geo. Shinkle, on the Burlington and East Bend pike and left with them a 9-pound boy—Howard Edwin.

F. P. Walton and wife, of New-port, and their son, Dr. A. P. Wal-ton and wife, of Ft. Thomas, spent Sunday with Harry Walton and family, 51 retersburg.

The kid ball team of Belleview came up last Saturday afternoon and were taken into camp by the High School kids by a score of 11 to 9.

The daughter of Newton Herring: ton, of the Pt. Pleasant neighbor-hood, is recovering from a severe case of pneumonia.

Murder by hazing is murder by oother name. There is a punishent to fit the crime, but it never

Walter Huey and wife, of Florence, were Sunday guests of his parents, Mr. and Mrs. J. O. Huey.

This country shelters many great men, but most of them are too mod-est to make themselves known.

Mrs. Walton Dempsey, of Erlan fer, spent Monday with her paretus Mr. and Mrs. Marce Riddell.

Burlington, Ky., May 13, 1923. the Good People of Burlington:

Burlington, Ky., May 13, 1923.
To the Good People of Burlington:
I am asking the privilege of saying a word to you through our always courteous Editor.
Two things happened in Brlington today which prompts this word. In the first place, there were more thanking as many of our citizens met for Bible study today than did oneyear ago. If you do not know how many did, take time to find out. Find out also, how many heard at least one Gospel sermon. It will oper your eyes. This is "News"—that's the reason we are giving it out. It is very significant news. In the second place, we enjoyed today the sweet neuronies of our noble Mother's and Futher's. They have given us a rich heritage indeed!
Everyone of us who loves his mother—or her memory—will seriously ponder a question or two.
Am I striving as heroically as Mother to make the world a better and more decent place to live in?
Am I using my greater opportunities for good as successfully as she

Mother to make the world a better and more decent place to live in?

Am I using my greater opportunities for good as successfully as she did her limited opportunities?

Am I true to her country, to her hopes for me, to her ideals, to her Church, to her God?

What makes America a better place to live in than Africa? Take her Churches and the Bible out and see. Now, let us be logical.

If it is right for over half of our citizens to study the Bible and worship God, Ilis word, His churches, We are all free to neglect these. If part of our people studying the Bible and supporting the churches we are all free to neglect these if part of our people studying the Bible and supporting the churches concended as supporting the churches concended to the supporting the churches are handening to Ruiling.

ible and supportune to mriches our community. What if all ould live true to Him?

Things are happening in Burlingon. Are you helping or hindering? hanks to all who help.

W. W. ADAMS. Thanks

### RED GROSS NEWS.

The juniors at Troy, Kansas, have a grod many forms of service by which they earn their buttons. Hot lunch is being prepared by the Junior girls; the boys have finished making a wash bench and the sewing class is working on production of kitchen aprons. The Hunt county Texas juniors are planting trees, making flower beds and transplanting all kinds of shrubs to beautify their school yards. Through their assistance First Aid cabinets have been placed in four schools, and some classes are at work preparing port-folios for inter-school correspondence.

## As the Editor Sees It.

Don't forget the subject of good ads. Whenever you have an oppor-unity talk good roads, create a de-and for them, and lead everybody to the point of insisting that we are them.

The horse and buggy are becoming olete. They are too slow to suit modern man and his ideas of

the modern man and his ideas of transportation.

The wagon as a means of hauling products to market has disappeared. Motor trucks are more practical and the cost is within the reach of the average farmer. Many have them sow, where road conditions are anything like satisfactory.

The farmer is a strewd business man, and hg dislikes to waste precious time where it can be avoided. He would prefer a truck to a wagon any day, but the present call distinct of many country roads is not conductive to economical motor transportation.

The remedy is better roads, and that remedy use the applied.

Keep on talking, and urge others to do the same.

We want better roads.

this country.

Very plain, and easy to understand.

The United States must be the goat, or there will be no adjustment of the present European muddle. European restoration is to be brought about at the expense of the American people.

If that is to be the attitude of the allies the sconer we realize it the better it will be for us.

Having supplied the money, munitions and man power that turned the tide of war in favor of the allies and enabled them to achieve victory, where they faced cerejon data or earns where they faced cerejon data are gain and pay their bills as well as our own.

A few more calling exhibitions of

the tide of wat in favor of the allies, and enabled them to achieve vittory, where they faced cereian documents of the water are now asked to "come across" again and pay their bills as well our own.

A few more galling exhibitions of this kind may lead Americans, the profession of this kind may lead Americans, the profession of this kind may lead Americans, the profession of the day when they will be elected to public office, and when they get three they spend the time in dreading the hour when they will be elected to public office, and when they get there they spend the time in dreading the hour when they will be kicked out. Between dreaming and dreading there isn't much time to be a second of the profession of the day when they will be kicked out. Between dreaming and dreading there isn't much time to be a second of the profession of the day when they will be a lected to public office, and when they will be kicked out. Between dreaming and dreading there isn't much time to be a second of the profession of a system of taxation that makes possible the accumulation of such grantic fortunes?

An American commission is in Mexico, sent the two countries (see high purpose to see high ga. basis of adjustment of the purpose to see high ga. basis of adjustment of the purpose to see high ga. basis of adjustment of the purpose to see high ga. basis of adjustment of the purpose to see high ga. basis of adjustment of the purpose to see high ga. basis of adjustment of the purpose to making fair the history of the party.

There is only one way to keep professional politicians and professional politicians and professional politicians and professional politicians and professional politicians out of Congress. That is to wait until the developed the professional politicians out of Congress.

There is only one way to keep professional politicians and professional politicians out of Congress.

The question was whether the confidence of the professional politicians and the professional politicians and the professional politicians o

### MIGRATION OF THE NEGRO

MiGRATION OF THE NEGRO

The Department of Agriculture, after a special survey of the shortage of farm labor in the Southern age of farm labor in the Southern general survey of the shortage of farm labor in the Southern shortage of farm labor in the Southern lands have left the state of Georgia for industrial centers in the North's South Carolina has lost 22,700; Plotida about the same number; about 10,000 have migrated from Alabama 15,000 from Arkansas; Louisiana about 7,000; Tennessee nearly 5,000; North Carolina about 15,000.

Mississippi 5,000. In addition to these large numbers have migrated from Kentucky and the Virginias. All this has occurred during the past year, and as a result the Southern conton farmer is facing a serious condition.

The wagon as a means of hauling products to market has disappeared. Motor trucks are more practical and the cost is within the reach of the average farmer. Many have then sow, where road conditions are anything like satisfactory. The farmer is a shrewd business man, and be dislikes to waste precious time where it can be avoided. He would prefer a truck to a wagon ary day, but the present condition of many country roads is not conducity to economical motor transportation. The remedy is better roads, and that remedy must be applied. Keep on talking, and urge others to do the same.

We want better roads.

France is out with a statement that she will not reduce the amount of reparations due from Germany unless the United States consents to cancel the eleven or twelve billions of dollars in dists the allies owe this country.

Very plain, and easy to understand.

The United States must be the goat, or there will be no adjustment of the present European muddle. European restoration is to be brought about at the expense of the American people.

If that is to be the attitude of the American people.

If that is to be the attitude of the European people.

If that is to be the attitude of the allies and enabled them to achieve victors, where they faced cerpsin desired was a face of any element. His Americanism is as near 100 per cent at the negro is proving a capable, tractical through the political complexion of some of the doubt and any orthern industrial centers, besides exercising a marked change in the public schools in many northern industrial centers, besides and enabled them to achieve victors, where they faced cerpsin desired was attacted and efficient labor element. His Americanism is as near 100 per cent at the negro is proving a capable, tractical through the province and the p

### The Prevention of Diphtheria

The Prevention of Diphtheria.

Almost all newly born children are immune to diphtheria. The immunity is inherited from the mother, who like most adults is unaffected by the disease. But the immunity of the child differs from that of the adult in that it usually wears off during the first year of life; it is passive, like the immunity that follows injecting antitoxia. The immunity of the adult, on the other hand, is natural or active, and is acquised by repeated the adult, on the other hand, is natural or active, and is acquised by repeated the asset of the control of th

disease, but enough to cause a reaction in the system and to bring about an antitoxin-forming habit.

Similarly in the manufacture of antitoxin a horse is injected repeatedly with minute but gradually increasing does of the toxin of dipteria, under the influence of which his system produces a large amount of antitoxin, and he becomes immune. The antitoxin is then removed from his blood and is used in curing or preventing diphteria in children. As a matter of fact the children. As a matter of fact the children with the could be made immune by receiving could be made in the could be made in t

All records in auto production were broken in April when nearly 365,000 were made. During the previous 12 months, 3,208,000 motor vehicles were made and sold in addition to 1,300,000 used cars.

Probably the tramps and hoboes is summer will claim they are mere

### SEASON 1923 SEASON POUCH

THE FORD PLAN

The popular tendency, whenever mention is made of the "Ford plan," is to make a mental application of it industrially, rather than otherwise. The "Ford plan" has come to be regarded as one embracing a broad community welfare, a stabiling of individuals, perhaps, rather than of classe, a generous living wage, and a none too too too the plan's has present a generous living wage, and a none too too too the plant of the plant is the plant of the plant is the plant of the plant is the plant is the plant in the plant in the plant in the plant is the plant in the Registered Thoroughbred Stallion
Proper-y of the U. S. Government

(King James Plaudit
Unsighty POUCH.

industrially, rather than otherwise. The "Ford plan" has come to be reparded as one embracing a broad community welfare, a stabiling of industrial units, welfare of individuals, perhaps, rather than of classes, at a generous living wage, and a none of these mental dependency and expansion, the mental dependency and expansion, where results are tangible, of the tideals of industrial democracy. Mr. Ford has proved, by what appears to have been regarded only as a theory.

Not long since the dollar and how to get it was as great a problem to have been regarded only as a theory.

Not long since the dollar and how to get it was as great a problem to have been regarded only as a theory.

Not long since the dollar and how to get it was as great a problem to him as to many others. But his intended to have been regarded only as a theory.

Not long since the dollar and how to get it was as great a problem to him as to many others. But his intended to have been regarded only as a theory.

Not long since the dollar and how to get it was as great a problem to have been regarded only as a theory.

Not long since the dollar and how to get it was as great a problem to him as to many others. But his intended the proposed of further-experimentation it is echoses, almost fabluous wealth. This, in part, at least, is being in the coloses, almost fabluous wealth. This, in part, at least, is being in the coloses, almost fabluous wealth. This, in part, at least, is being in the choses, almost fabluous wealth. This, in part, at least, is being in the chose and the proposed of further-experimentation in production more generally than has ever before been attempted, and offering employment, at liberal ware, so, to thousands who otherwise might be out of work.

In some of these enterprises there have been an evident purpose to force and shape number of the colored the proposed of th

## "PSYCHOLOGICAL" ACCIDENTS

"PSYCHOLOGICAL" ACCIDENTS.

76,000 people are killed and %000,000 injured each year in the
United States by accidents. Theo
mishaps are largely "psychological,"
according to officers of the National
Safety Council.

In other words, a lot of people
are hurt because they do not have
their wits about them. They do not
use their brains in crossing streets,
running automobiles, handling machinery, etc.

People must learn that life is full
of perils, and that they must keep
their eyes open and their minds on
the thing they are doing. Absent
mindedness causes as many accidents as Fashness. It is better to
get into the habit of watching out
for perilsous conditions than to spend
months in a heapital and perhage go Senator Lodge headed a group of lumbermen, paper pulp manufacturers publishers and others who called upon President Harding to urge the needs of more effective measuring for the preservation of forests and reforestration and to ask him to inclose the appeal for \$2,000,000 be included in the budget now being made up. Waste rubber from the Ceylon actories is melted and spruad over the payements; then fine gravel is brown on the layer, carefully roll-

An analysis of prices in foreign countries made by a prominent. Wall-Street bank institution shows that high prices for merchandise and commodities prevail in all parts of the world.

The women are to start a Congress of their own, meeting near the Capitol at Washington. This may make it harder than over to get the congression to atom their own

## MAY, JUNE BEST MONTHS TO HATCH TURKEY EGGS.

Lexington, Ky.—May and June are two of the best months in which to hatch turkeys in Kentucky, poultrymen at the College of Agriculture say. Unlike chickens, turkeys thrive during seasons of warm dry weather, some commercial turkey alsers getting excellent results by setting their eggs as late as June 15. A chicken hen can cover from 10 to 12 turkey eggs, while a turkey hen can take care of from 18 to 20 without any trouble.

"Turkey eggs need a little more

out any trouble.

"Turkey eggs need a little more moisture than chiken eggs and the nearer the nest is to the ground, the better it will be," says J. H. Martin, in charge of the college poultry work. "If a hen selects a nest on the ground where drainage is bad, a few shovels of dirt removed will correct this trouble. Many successful-turkey raisers still use barrels for nests and find them highly satisfactory, but the parrel must pe staked to the ground so that it cannot come loose. Placing a screen in front of it protects the hen from other turkeys and from prowling dogs and other pests that might disturb the nest.

"Incubators have proved highly

ourer pests that might disturb the nest.

"Incubators have proved highly satisfactory for hatching turkey eggs. In fact, a number of turkey raisers get better hatches with incubators than they do with hens. The thermometer is left in the same position that it is when chicken eggs are being hatched, but the machine is run about a degree lower than the manufacturer recommends.

"In hatching turkey eggs with hens, it is highly important to keep the latter free from lice. If the hen is free from lice when the hatch comes off, there will be little or no trouble from lice on the poults. The hen should be dusted at least twice before the eggs batch with some good louse powder such as sodium flouride."

"In late that they do with hens. The thermometer is left in the same position that it is when chicken eggs are being hatched, but the machine is run about a degree lower than the manufacturer recommends.

"In hatching turkey eggs with hens, it is highly important to keep the latter free from lice. If the hen is free from lice when the cames off, there will be little or no trouble from lice on the poults. The hen should be dusted at least twice before the eggs fatch with some good louse powder such as sodium flouride."

SHELTERED FEEDING PLAN NETS FARMERS \$8 A STEER.

Lexington, Ky.—The practice of feeding beef cattle under shelter has proved its worth to Lindsey Dunean an Oldham county farmer, who tried it for the first time this year and made a net profit of \$8.03 on each of his \$22 fattening steers. Results which have just been compiled on a feeding demonstration which he carried out in cooperation with the extension division of the College of Agreulture and County Agent G. B. Nance show that he 82 steers gained a total of 16,400 pounds during the 120 days of the feeding period, despite the fact that they were common grae\_stores bat could not be pushed for rapid gains. Allowing credit for the manure and pork produced during the demonstration and educting all expenses for labor, interest, rent on buildings, depreciation and bedding, Mr. Duncan made a total net profit of \$658 on the \$2 steers.

Before the demonstration started, Mr. Duncan talked over a number of needed changes in his beef cattle extension specialist of the college, and among other things, remodeled his barn and put in a water supply. That the changes were satisfactory ones was brought out.

82 steers.

Before the demonstration started, Mr. Duncan talked over a number of needed changes in his beef cattle feeding plant with Wayland Rhoads, beef eatile extension specialist of the college, and among other things zemodeled his barn and put in a warer supply. That the changes were satisfactory ones was brought out soon after the eattle were put on feed, one of the men on the farm remarking that he had never seen cattle do so well on the same amount of feed.

The steers were never turned out.

The steers were never turned out from under the shelter during the entire 120 days of the feeding period. They were never fed more than three pounds of cotton seed meal a day apiece, even on the finish and were fed corn during the last two months of the period. The, also were allowed all the silaye thry could clean up and had mixed orchard grass hay before them at all times. Each of the steers made an average total gain of 200 pounds at a cost of \$12.67 for each 100 lbs., of gain. They made an average daily gain of almost a pound and three-fourths each.

### WHEAT AS CURRENCY

WHEAT AS CURRENCY

"That the money of central Europe scarcely worth the paper it is printed on, must soon be repudiated, is every day becoming more apparent. Of course something will have to take its place, and what to base it on is a topic widely discussed in Germany and other countries. In some of the nations wheat is used as a basis of currency, and the same system seems to be mixing successful headway in Germany.

The fart is the united States is today issuing Federal Reserve Bank certificates, as money, based on commodities instead of fold or silver, and Secretary Me<sup>3</sup> can recently asserted that there is not a dollar of circulation against our huge stack of gold.

Conditions compel changes in al

Conditions compel changes in almost every line of human endeavor

"Dost thou take this woman to be thy wedded wife?" asked the old minister. "Dost thy promise to keep her in adversity or prosperity? Wilt thou care for her, protect her, che-ish and love her? Wilt thou slave all the days of thy life to buy fond an I clothing, ammement and confort?" "I wilt," responded the guom faint by, as he toppled over into the arm of the best man.—American legals.

### THE BLUNDERERS

"The System" wins

"The System" wins.
Dawson wins.
Galvin wins.
The "machine" which has made the business of the State the business of the politicians of the Republican party wins.
So far as the Republican party is concerned the people of Kentucky who demand that the Government at Frankfort be taken from a clique of "the interests," lose.
The Republican State Central Committee, representing Dawson and the ring behind Dawson, flouts the more intelligent and independent elements of the party and fixes a State convention for June 26.
What that means is understood by everyone who, understands the a be's of Kentucky politics.
It is understood by the dog that returns to its vomit.

returns to its vomit.

It is understood by every gangster who is determined that the Republican party of Kentucky shall return to the wallow from which A. T. Hert partially lifted it.

It is an axiom of Republicans that Democrats can always be depended on to blunder of the psychological moment.

There never was a Democratic

There never was a Democratic blunder more stupid, more sulcidal, than this blumler of the Republican committee yesterday—C.-J.

Militarian is the world's greatest task-master and slave-driver. It has compelled untild millions to eke out their lives in toll and poverty to pay tribute to it. It has slone more to hold back the advancement of civil nation than all our other sins am visos combined. And yet all nations of the more more in property for more money in preparatal for the next war.

Never speak about Jesus Christ-Let the preacher do it. The general fights all the battles while the dough boys sit in the shade and sniff the aroma of the coffer.

in such a way as to prevent a seticus cevelopment of the trouble, he says:

Lambs are first affected about the last of June, the first sign of the trouble usually being the death of one or more lambs. Dullness, lack of thrift, end scouring, accompanied by a very pale, bloodless skin are the first symptoms. Sometimes there is a watery swelling under the jaws.

The bluestone drench is the best treatment for the worms, Mr. Horicher says. The directions which he gives for making it are: "Dissolve a fourth pound of finely powdered copper sulphate—bluestone—crystals in a pint of boiling water, using a porcelain or enamelware dish, as the bluestone corrodes most metals. Then add enough cold water to make the solution up to three gallons. This will make approimately a one percent solution and will be enough to drench 100 adult sheep, allowing 10 per cent waste.

"The dose for lambs under a year old is one and three-fourths ounces of the solution, which is 50 cubic centimeters, or three and a half tablesponfuls. For sheep more than a year old, the dose is just twice the amount used for lambs. Best results are obtained by keeping the sheep cif feed over night before drenching and allowing them to water for at least two hours afterwards. Care in giving the dose is important. Like any medicine, this is a dangerous treatment when not given according to direction.

"When pasture rotticn—the best way to prevent the worms—is not possible, the sheep may be given three-fourths of the regular dose of the bluestone solution every month or six weeks luring the summer. This will adi considerably in checking the worms."

### SHIFTING POPULATION

SHIFTING POPULATION
About 2,000,000 people left the farms last year and went into cities and towns, according to the department of agriculture. Many observers believe the majority of these folks would be better off to remain in their old homes. Yet the low prices received by the farmers was a motive for change that influenced a large number. When the factories started paying high wages, and farm business remained dubious, it was innevitable tat a lot of country folks should quit.

Whether the majority of this 2,000,000 have gained anything only

whether the majority of this 2, 000,000 have gained anything only time can tell. It will-depend largely upon ow long the present wave of prosperity continues. If in a year or so they are walking the streets looking for work, and have meanwhile spent all their money, they would have been better off to have remained where they were.

While these 2,000,000 people were leaving the country towns, 880,000 went back to the farms, suggesting that even in prosperous times many people are not satisfied with city and factory conditions. If so many people up the country towns are some considerable times. There are too many people who are shifting back restlessly from one thing to another. Changes are occasionally inevitable, but the folks who drift back and forth like the tides of the sca never get a foothold anywhere. When they give up their line of work they alvandon all the experience they have gained at it, and must begin on some new job in which it will take considerable time to get started.

All orcupations have their ups and

veloped.
The amount of effort and patience cee boys would put into this search as a maxing. They would look for yes and weeks hunting in favorite unts. A regular kind of egg curncy developed with standard values cording to which the boys sed to ap their trophies down back of the int.

### ANCHORED ACRES" DEPICTS AT HOME.

The problem of keeping the present day youth "down on the farm" has caused social mathematicians some calculation in months past.

Now comes the United States Department of Agriculture with "Anchored Acres," a one-reel motion picture, designed to show modern methods of keeping a "arm "at home" by prventing soil crosion. Continuous rains frequently result disastrously to farmers in many sections of the United States, washing out newly planted crops and dividing the fields by widening gulleys.

This new cinema educator is in story form. Frank Walker, after a survey of his modest farm lands before planting time, observes that the spring rains are carrying away his best top soil. Walker, weary of his struggle with mother nature, decides to sell out and move to town. However, the county extension agent appears to give him a few tips on ways and means of thwarting the villian rainfall. After an inspection visit the farm of a neighbor, who has waged a successful fight gainst erosup, Walker decides to stand by his guns and the old homestead.

Methods of constructing brush dams, soil-saving dams, terracing, and other approved means of preventing erosion, are shown by the picture.

"Anchored Acres" was produced in cooperation with the University of Nebraska. It will be circulated through the department's distribution system, and authorized purchasters may buy prints at the laboratory cest.

EARTH HAS NO SPECIAL SEA.

Claimed the public do not chew eir food properly, but large num-rs are doing great work masticat-g gum.

### SUBSIDIZED TRUCKS

SUBSIDIZED TRUCKS

In submitting his annual report to the stockholders of the New III. ven railroad a few days ago, President Pearson, of that corporation, explained the \$5,000,000 effects uron operations of heavy trucks on the New England public roads in competition with the railroad, running on its own right of way, and said that these trucks as subsidized. Following that line of argument Mr. Pearson said to his stockholders apropos of the heavy trucks and the subsidies:

"Such a subsidy is created by maintaining highways free of any charge more than a nominal one and by shifting to the taxpayers the expense of keeping up these highways a unsiderable part of which falls upon the tax-paying railroads, who are thus handicapped by a subsidy which they pay to their competitors. Common justice should impose upon the operators of motor trucks who offer themselves to the public as common carriers be same duties and liabilities as are imposed upon common carriers by rail."

There is an enormous amount of truth and justice in this, and it raises questions that the States of America, including Kentucky, must meet sooner or later, and the sooner the better.

With the effect of truck competition on the carnings of railroads the

raintail. After an inspection visit to the farm of a neighbor, who has waged a successful fight gainst erosion, Walker decides to stand by his guns and the old homestead.

EARTH HAS NO SPECIAL SEASON-FOR A MOTHER'S LOVE.

Sunday, May 13th, is Mother's Day. All over the country this special day has been set aside to phonor to the mothers of the world. But every day, is Mother's Day, after all. There is no time, no season of the carth or of the heart, that is not Mother's Day, when ste leaves life decislate, each gay is hers, a pearl of great price. Sometimes it is late when his realization comes to us. We are apt take all the gracious decided of ministration as a matter of course. We are so prone to forget the sacrifice, the care, the love that have gone into each day that she has spent with us.

God made mothers to keep the world, which we despairs, the hopes, the discouragements, the desolations of life, her love follows, an unwavering light of benediction.

There are words, silvern beautiful, in which, one may speak of time love of life; there are words ringing and golden, that may tell of the love of life; there are words ringing and golden, that may tell of the love of life; there are words ringing and golden, that may tell of the love of life; there are words like a flame that may voice the love of for the world was a mother's love.

For the words that speak of mother of the mother of proving the petulancies of childhood, thru all the aspirations, the despairs, the hopes, the discouragements, the desolations of life, here are words like a flame that may voice the love of fire; there are words like a flame that may voice the love of of the love of life; there are

there are words ring love of youth; there are words ring and golden, that may tell of the love of life; there are words like a flame that may voice the love of country, but no one may find words that speak a mother's love.

For the words that speak of mother love, that call to mind the low, hours of her tender care, the days of her unfailing courage, the depth of her sacrifice, the beauty of her sacrifice, the days of her unfailing courage, the depth of her sacrifice, the beauty of her sacrifice, the sacrifice, the sacrifice and the sacrification of the sacrification o

## KENTUCKY CHILD WELFARE

Lesson No. 12. Topic—Health. Importance of Teaching Health Habits In the Schools. Sunday, May 20, 1923.

The achool child becomes a responsibility of the State at the age of five or six years, and there is today a years, and there is today a home realization that opportunities have been lost for teaching our future citizens how to see host for teaching our future citizens how to carry on the work of the adult. For this reason, health habits are raught to even the little kindergarren pupils and as they go on through the grades they neculiar a knowl and alert mind may be. They are another than the second of the grades they neculiar a knowl and alert mind may be. They are another than a necketle, carry a handkerchied, and have well-shihed shoes; to keep the closhes clean and well-brushed. The teachers keep up a lively interest in the establishment of health habits by organizing clubs and contests; by working into their English perkd the writing of a health plax, which is later acted our by the class, and by importing health information in an artractive way at every opiotunity. In this way, the children learn why shey bathe frequently, brush their teeth, conserve their sight, walk erecand easily, and, eat pourishing food. They also learn the danger of forming bad health habits. A definite group of rules can be established, and each morning two captains are responsible for checking up the number of points obtained by the members of his or her team by keeping these habits. Recognition should, of course, he given the winning group.

These simple rules become a part of the children's every ony life, and they enter adult life with a clear understanding of the mechanism of their bodies, and the proper way to keep it in good working order.

Miss Elmira W. Bears, Suyt, Public Health Nursing, Ass'n,

MORE GOOD THINGS

A dainty dish to serve for a company luncheon is the following:

Sweeth's a de With Orange Sauce-Soak a pair of sweethered in cold water, beat very gradually to bolling point, then simmer for twenty minutes; put over and said it stand in cold water until cold. Remove the unedible portions, but keep the sweethreads unbroken. Set on a rack in a dripping pan, sprinkle with sait and pepper, pour over the judice of an orange and bake twenty minutes. Serve with Orange Sauca.—Cut the peel of an orange into abreds and cover with boiling water, cook five minutes and drain. To the blanched peel add offender in the serve with set of cut of the serve with boiling water, cook five minutes and drain. To the blanched peel add offender in the serve with boiling water, cook five minutes and drain. To the blanched peel add offender of the serve with boiling water, cook five minutes and drain. To the blanched peel add offender of the serve water water and saity; site until smooth and hot.

Honey Fruit Cake.—In a warm bowl beat to a cream one-half cupful of butter, three-fourths of a cupful of

fourth of a teaspoonful each of cayemps and salv; stir until smooth and
hot.

Honey Fruit Cales.—In a warm how
beat to a cream one-half cupful of
botter, three-fourths of a cupful of
honey, add one-third of a cupful of
holded cider, two well-beaten egga,
one teaspoonful each of cinnamon,
cloyes and mace, and a teaspoonful of
sods dissolved in a little warm water;
beat well and add flour to make a
stiff batter; add two-thirds of a cupful of stoned chopped prunes and
dried figs, the same of seedless ralisins.
Pour into a buttered, floured tin and
agic in a slow oven. This cake will
be better if kept in a tight container
for several weeks.

Lamon Honey Cakes.—Bring to the
boiling point one and one-half cupfuls
of honey, skim carefully, add four tabiespoonfuls of butter and cool. Stir
in two cupfuls of sifted pastry flour
and set in a cool place over night,
When ready to bake add the grated
rind of one bemon, two tablespoonfuls
of kemon fuice, one-half cupful of
chopped almonds and one-half teaspoonful of sods dissolved in a little
warm water. Bake in small punfin
pans. When cold ke with lemon
lcing.

Nellie Maxwell

The city recople are interested in the Back to the Soil movement, so long as it doesn't mean any Back to the Toil.

### FOR THE SWIMMER

Every us, but nothing comes that is more engaging than the handsome and practical garment pictured. It is of closely knitted wool in plain-colors, with knitted belt in contrasting color and is worn over short trunks. A gay poll pairot goes down to the ges in its company. The cape is made of ratine and the cap of rubber cloth.

## WASHINGTON COMMENT. SUPPORTING SCHOOL ATHLETICS.

No thinking man would say that Americans are not, as a whole, kind hearted, indulgent sympathetic, and generous hearted. With prison conditions being brought into the limelight as they have been by the Florida affairs, he would be brave who would den; that we are also ostrich-like; we shut our eyes to what is unpleasant and deny that it exists.

Prisons are necessary; society has

ant and deny that it exists.

Prisons are necessary; society has
a right to protect itself against those
who break the laws, which all must
obey if all are to be safe and happy.
But flogging prisons, prisons where
couldn't in the prison of 
cruelty is practiced, prison positions where cruelty is practiced, prison positions which are political rewards for deserving party workers, prisons which make unwise but not bad men into criminals, which make criminals worse, which deform mind and body, are not reached.

worse, which deform mind and wou, are not necessary.

When they exist, the fault is not, primarily, with those who keep and manage them. They are certainly not the fault of those society sends to inhabit them. They can truly be blamed upon mone but thise who permit them; upon the electorate, which shut its eyes to man's inhumanity shut its eyes to man's inhumanity

shut its eyes to man's innumanity to man.
Christian people agree to live by the Golden Rule. Christian people quote Christ and believe that "Inasmuch as ye have done it unto me of the least of these my bethren, ye have also done it unto me." People of other faiths than Christian who are members of this body politic have equally strong and meriful words of their prophets by which to live, and act, and be their brother's keeper.

and act, and be their brother's keeper.

Yet we shut our eyes; we put our heads in the sand; we wait until torture, nurder, and ther utilw aoffgab ture, murder, and other outrages against God and decency find their way into print to rouse us to our neglected duly towards those who, no matter how they sin against society, are still human and therefore still made in God's image.

Our section of the country has a jail; those who neither know nor care what kind if a jail it is, should ask themselves with Cain, "Am I my brother's keeper?"

## MISS NORMA RACHAL

of The Most Active Members of Strollers Organization at The University of Kentucky.

University of Kentucky.

Miss Norma Rachal, of Union, this county, is one of the nine girls at the University of Kentucky to set the high standard in the college of Art & Science, having made an average of A in each subject but one, that being a B, for the semester 1922-23. There were three boys who made the same average, while the average for A in all subjects was equally divided among five boys and five girls.

Miss Rachal is a member of the junior class at the University and five girls. Miss Rachal is a member of Alpha Xi\_Delta, a social fraternity and Philosophian Literary Society. During her freshman and sophomore years she took parts in the Stroller Plays and is one of the most active members of the Stroller organization.

bers of the Stroller organization

ONE EVENING A WEEK

Town progress and rural prosperity are splendid ends to work for, but you have to pay a price to get them. And the price which many leople are willing to pay is their time. You can't get cive and business projects organized unless people will put some effort into them. If people who have organizing about the property of the work of progressive move wents, a lot of things could be accomplished hitherto regarded as impossible. The only impossiblity is in ourselves, the unwillingness of people to give just a meager fraction of their time to public efforts.

LABOR TURNING CARITALIES.

### LABOR TURNING CAPITALIST

LABOR TURNING CAPITALIST
The Federation Bank in New
York City was formally opened last
week with an authorized capital of
\$1,000,000, and it is claimed by the
promoters, will have one million
stockholders. Two other labor banks
are to be started which will make
fur for that city, and 23 all told in
the United States with combined capital well above \$100,000,000. Now
there are banks in operation or authorized at Washington, D. C., Hammond, Ind., Chicago, Philadelphia,
delphia and many other places.

Dairymen's League Cooperative As roclation, selling agent for 70,000 farmers who own 1,000,000 cows and market annual 4,000,000 obs., of milk, has re-established its principal offices in New York City after two years in Utics, N. Y. Sales last year of nearly \$40,000,000 including 1,000,000 cases of condensed and evaporoted milk and 430,000 gallons of ice cream.

ATHLETICS.

It is very much to the advantage of any community that it should have good teams representing its achools in the leading athletic aports. But to accomplish that result requires financial support. There is considerable expense in running a good bare ball or football team, particularly in these times when it is considered necessary to have competent coaching.

It is not to be expected that a school team can win continuously, but the town does feel just pride when its boys are able on the whole when its boys are able on the whole to hold their own with their neighbors.

to hold their own with their nearbors.

It is pretty hard accomplishing
that result unless games are well attended and the team is given good
enthusiastic backing. It is notmerely a question of money either.
The spectators need to make the
boys feel by hearty rooting that they
take pride in their athletic skill, and
are not too critical of the inevitable
errors that will be made.

### THE HOME MERCHANT

An expert authority on rural life, connected with an agricultural college in another state, was asked the other day whether he felt that the country people should patronize their own home town stores, or zend or go army to distant cities for many of noir purchases.

go. Arry to distant cities for many of noir purchases.

"Her reply was that as a general rule the country people must support their home stores. They must have those stores, and they can not give the best service unless they get the home business.

give the best service unless they get the home business.

If people consider the substnatial quality of the stuff the home stores sell, and the second grade and unreliable stuff they often get when puping away from home, also if they will figure on the cost of gasoline and automobile tires and repairs involved in going away on shopping trips, they will see that many of their supposed bargains are illusory."

This authority went on to describe in enthusiastic terms the high quality of the servee that he and his family get from the country town stores where they did most of their trading. "Whatever you want, that man will get it for you," he said, "and if it is not right, he will take trightworks into right, he will take trightwork with process are fair."

The retail dealers of our county

The retail dealers of our county are merchants of just this faithful and dependable type, whose service is a big factor in building up the county.

is a big factor in building up the county.

Our home stores cover the field of modern merchandise so thoroughly and have such excellent facilities for ordering goods they may not carry in stock, that it would seem as if our people might make it their fixed habit without exception to buy all their stuff at home. When you buy or order goods through your home merchant, you not merely get reasnable prices, but you have his advice and judgment as to whether the purchase you propose to make is a good one or not, and this advice saves many people from buying stuff that they regret.

### THE SUGAR GOUGE.

Profits made by the beet sugar companies of a few Western States since the sugar tariff went into ef-fect prove how the tariff swindle en-riches its beneficiaries and robs the

public.

The Continental Sugar Company's profits on its inventoried product unsold of February 28 last is \$343,000. Its "expected profit" on this unsold inventoried stock amounted to only \$178,715.

NOTICE.

The regular monthly meeting of the Boone County Farm Bureau Directors will be held in Burlington, Monday June 4th, at 10 °clock a.m. Business of importance on hand, so all are asked to be present.

### AN ENJOYABLE OCCASION

### Was The Commencement Exercises of The Boone Co. High School.

The commencement exercises of the Boone County High School held at the Baptist church, last Friday might, was a most dolighful affair in every respe t. The rostrum was beautifully decorated with ferns and flowers and otherwise artistically arranged. One of the pleasing features was the beautiful music furnished by Mrs. Frank Shattuck of Ludlow, on the violin, accompanied on the piano by Mrs. Glarner Townsley, of Newport. The program was interspersed with sweet music throughout. The program was begun with a very appropriate prayer by Rev. C. L. Nicely, The was the control of the program was begun with a very appropriate prayer by Rev. C. L. Nicely, The was the control of the program was begun with a very appropriate prayer by Rev. C. L. Nicely, The was the control of the program was begun with a very appropriate prayer by Rev. C. L. Nicely, The was the program of the program was begun with a very appropriate prayer by Rev. C. L. Nicely, The was the program of the program was begun with a very appropriate prayer by Rev. C. L. Nicely, The was the program of the program was begun with a very appropriate prayer by Rev. C. L. program was begun with a very appropriate prayer by Rev. C. L. Nicelly.

The speeches of Miss Marian Rogers, as salutatorian and Frankin Huey, as valedictorian, of the class, were listened to with wrapt attention by the vast audience, and elicited much applause.

The class address by Rev. C. L. Nicely, pastor of the Belleview Baptist Charles, was listened to with close attention and was very entertaining, throughout. His advice to the class was frought with many trails and templations in their youthful progress thrulife, pointing out those things worth while and them through life. Prof. Scott and the other instructors were given just praise for the patience and care with which they had taught the young graduates.

The presentation of the diplomate to the three young graduates was made by Supt., J. C. Gordon in a few well chosen remarks.

The pronouncing of the benediction by Supt., Cardon, closed the final event of the 1923 commencement of the Boone County Hi School. Notwithstanding the fact that Prof. Scott only filled part of the term, he has made a splendid record during the short time as head of the shool. He has had the support of a most loyal and intelligent corps of leachers—in both high school and grades.

# UNION HIGH SCHOOL

### Commencement Exercises En-Joyed By Large Audience.

On last Friday evening the commencement exercises of the Union High School was held in the Baptist church at that place. The church was beautifully decorated with palms, ferms, cut flowers and class colors. There were three graduates in the 1928 graduating class. The program began by the large audience standing and singing "America," followed by the invocation given by Rev. Spears. This was followed by a piano solo, "The Harp at Midnight," by Miss Carrie Williams. The first speaker, Miss Mabel Rouse, subject, "The World's War," followed by a piano solo by Mrs. Gaines Huey. The second speaker, Miss Willa Maude Carpenter, chose as her subject "Class History and Prophecy." The audience was then favored by a duet "Beautiful Monolight," sung by Miss Eugenia Riley and Mrs. B. L. Cleek, Miss Iva Pearl Presser, the third speaker had as her subject, "Ambition," which was followed by a beautiful piano solo by Miss Carrie Williams, after which the class address was given by Rev. Edgar C. Riley, of Lexington, who gave a splendid address, not only to the graduates, but to the audience. After the address Prof. Ryle presented the diplomas to the graduates, followed by the benediction by Rev. Garber.

The program offered by the graduates was one worthy of a High last Friday evening the con

ab. in the subjected profit on this unsold inventoried stock amounted to only \$178,715.

The actual profit accruing to this sugar company under the terif is sugar company under the terif were doubtless made by other and larger company. Unusual profits in were doubtless made by other and larger company only Unusual profits in None of these profits represents either economy in production, genicity in administration or skill in marketing the product of the pockets of sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasuries of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of these beet sugar consumers and into the treasures of the duffict of the sugardusct, followed by the been decition by Rev. Garber. A \$5.50 HAT.

A city woman who recently visite, an agricultural college was surprised to find that it was teaching not merely the science of farming, but was showing the country women how to keep house more ecromically, and how to make tarteful dresses and bats for little money.

She was still more astonished when one of the professor's wives the still more as saydish looking hat that looked as if it might have cost \$10 to \$1L, and said she trimmed it here. See a said as the still more contained in the said as the sa

If the home town knockers would pend the same energy they put into heir knocking, into efforts to build up the town, the faults of which they omplain would wants.

# The state of progress in a com-unity is reflected to a large exten-the manner in which it takes u

by the manner in which it takes upnew ideas.

New ways of accomplishing economic and eivic reaults are constantly being out. In some places such
methods are looked on with suspicion as "new fangled" ideas. The old
ways are regarded as good enough,
and such towns plod along in the old
paths until fairly forced to adopt
new methods.

and such towns producing in the vapaths until fairly forced to adopt
new methods.

Some years ago the idea of organizing the business men in Chambers
of Commerce and similar organizations, was one of the new ideas. The
cities that adopted that idea promptly and got to work on progressive
undertakings, have in most cases today gone on to prosperity and development. Other communities that
were slow to organize their business
men, have dragged along behind.
The communities that prove the readiest to recognize and adopt the hopeful movements of the present time,
will be the leading ones in the progress of the coming years.

ion as "new fangled" ideas. Educational Plan Forecast

By Educator.

Washington—Will boys and girls in the near future go to school seven hours a day, fifty-two weeks in the year? Some educators think such a plan will be required if the present pressure of out-of-ochool activities continues to increase.

"The social activities engaged in by the high school pupils, while a source of interference to their studies, are a part of the present-day order of things," say's Assistant Supt., of the Schools of the Nation's Capital. "The pupils of today have distractions unknown a generation ago. "The condition must be met by having the schools readjust themselves to meet the situation. Our jumior high schools in the immediar tuture will have extra hour days when the pupils will have supervised study hours. This will permit them to do their home work before they leave the school—before they are distracted. "Within ten years or so the schools will be operating on a year-round basis. In this way they will be divided into four quarters. A pu-

suarters will finish more quickly."

Very nearly 36,000 farm girls were eardled in 1922 in the bread clubs conducted by cooperative extension workers, according to reports to the United States Department of Agriculture and they huked during the year over 415,000 loaves of bread. In other words, 36,000 girls learned by racetice, lait year what is takes to make a smod jonf of bread and how to make it

### A WEEK'S NEWS.

REPUBLICAN CONVENTION

REPUBLICAN CONVENTION

The Republican voters of Boome county are respectfully requested to meet in mass convertion at Burlington, Ky, Saturday, June 23rd, 1923, at the court house, at one o'clock p. "" purpose of selecting five delegates to attend the Republican State Convention to be held at Lexington, Ky, Tuesday, June 26th, to nominate candidates for State offices. All Republicans and those who intend to affliate with the Republican party in the coming election shall be eligible to vote and are cordially invited to unite in the selection of delegates in said county convention.

A. R. EDWARDS,

Chairman County Committee

President Harding's reply to a Newburgh, N. Y., man who demanded that the governor of the state be removed if he signed the prohibition enforcement repealer passed by the Legislature, was a master-piece of logic and law. The position taken by the correspondent was that the act of the legislature was an act of treason against the United States, just as much as any Communist tirade against the Constitution. President Harding pointed out that the state had just ar much right to repeal the law ag it had to enact it, and the covernor and members of the legislature were responsible only to the people of the state.

The remains of Harrison Minor (colored) who died on Tuesday of last week, were buried in the colored cemetery just east of town, last Friday afternoon at 2 o'clock Another old pensioner has been cut from the pay roll. He had been a resident of Burlington wear, his entire life. He leaves several children and quite a number of grand-children.

Prof. J. C. Gray, who was assistant principal at the Boone County
High School, last fall and winter, lefe
last Saturday for Cincinnati, where
he will spend the summer. He has
been employed by the school board
for another term and will be back

many friends during his sojourn here-

A. B. Renaker, R. S. Cowen, Chns. Youel, W. A. Gaines, F. H. Rouse, R. B. Huey, W. D. Cropper, J. G. Renaker, E. H. Surface, R. C. Greene, J. D. Mayburb and John L. Vest were among the Boone county bankers who attended the Bankers but the Convention at Newport, last week.

Wilbur Kelly, of Rabbit Hash, purchased of Melvin Jones, one day last week, the old Latimer homestead, in Maple Grove Subdivision to Burlington. Mr. Kelly expects to more into his new purchase some time reach fall. Postmaster Hickman will continue to occupy the place until them.

Among C. L. Gaines' flock of sheep which were sheared one day last week are two yearling lambs from which 20½ pounds of wool were takem—one shearing 12½ pounds and the other 8 pounds. If there is any one that can beat this please hold up their hands—don't wink.

From reports from all parts of the county, cut worms are playing have with tobacco beds. In many instances, these pests have eaten ev-ery plant in the beds. Some of the early gardeners are complaining of cut worms destroying their garden-stuff.

John Baldon wife and little daugh-ter Sue, spent the latter part of last week with relatives in Burfington. Mr. Baldon is looking after the in-terest of the Tycon Oil Co., at that place, in which several Boone coun-ty people are interested.

Prof. E. S. Ryle, Principal of the Union High School, Union, Ky., was a business visitor to Burlington, last Friday. The Professor was having some work done preparatory to the winding up of a successful year of the Union school.

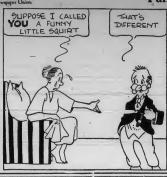

On account of the reduction in the price of the film manager Porter wall be able to show "Grandma's Roy" at 25c and 10c. A special at the regular price. This price should fall

The work of concreting the Dixis Highway from Florence to Ri-hwood has been completed as far as Devon. Bad weather has been a great draw-back to the completion of this work.

It is denied that there are no re-urns on all these worthless fake tocks, as the stockholders ofters get issessments.

Mr. John Miller, of Erlanger, said his fine sorrel saddle horse last week to a riding club for \$200. That's go-ing some.

### LOCAL HAPPENINGS

Don't attend prayer meetings. If ou do, don't take any part in them.

Shortage of farm labor reported, but plenty of people willing to give free advice.

There are many ball fans willing to support a home team as long as it keeps on winning.

Some people want all the dogs muzzled and after they do that they might put all the children on a leash.

It is proposed to shorten the American flag, but a movement to cut down the taxes would be more popular.

Quite a number of Erlanger boys spent from last Saturday until Wed-nesday at their camp on Gunpowder creek.

Probably the boys would approve if the girls join a "Save Sugar movement by declining ice cream treats.

Anyway the pretty clothes the wo-men folks are wearing this spring suggests that they believe in adver-tising.

Not expected that congress will do much at the next session but the members will get their speeches out of their systems.

Miss Irene Kirkpatrick left Tues-ay morning for a visit of several eeks with her aunt, Mr. and Mrs. D. Baldon, at Bowling Green, Ky.

Edward Graham, wife and daugh-ter, of Greensburg, Ind., arrived in Burlington Tuesday afternoon. They remained over until after Decora-tion-Pay. They motored thru from Aurora.

John A. Gooman of Todd county, who is a candidate for Clerk of the Court of Appeals at the Demouratic primary, was in Burlington Tuesday, representing the Standard Printing Co., of Louisville, and also transacting, political business in the interest of his candidacy.

### QUICK WORK.

QUICK WORK.

When W. H. Tuggle, who is employed at the McVille Dam, awoke Tuesday morning he found that his room mate, Orlando Daugherty, who is also employed on the Dam had left and that he had taken with him, a suit of clothes, pair of shoes, a number of neckties, shirts and a hand bag worth about \$15\$, all the property of Tuggle. Deputy Sheriff Utz was called to Belleview where the crime was cimmitted and found that Daugherty had taken a john boat and crossed the river and he was seen going in the direction of Cincinnati. A warrant was issued for Daugherty and Deputy Utz together with Tuggle went to Cincinnagi and soon located Daugherty who flad sought and obtained employment from a railroad company under an assumed the came to Kentucky without requisition papers and was lodged in jail about noon. Quick work.

Bids were received at Frankfort.

Bids were received at Frankfort. Tuesday, for the construction of the Divis Highway from Richwood own and through Kenton county to the Kenton county line. The lowest bidder on the road through Boone county was the Rose Construction Co. of Onlo, and they will be given the contract and work will will begin in a sport time.

There will be an ice cream and strawberry festival at Big Bone Byrings on Saturday evening Jnne. 9th by the Big Bone Rebekah Lodge No. 48 1. O. O. F. There will be speaking for good of the order and everybody is invited to spend a Fraternal day and social evening with us. Beginning at 6:30 p. m. Good music.

May Hubbard, E. Pearl Wharton,

Judge Sidney Galnes and wife, of Walton, spent Inesday afternoon and evening with W. R. Rogers and sisters, Misses Sallie and Elizabeth.

### THE FISHING SEASON

Government ownership of all sorts of things which cater to the needs or to the entertainment of the people is an old story in Europe, but it remained for Christian Norway to adopt the innovation of municipally owned motion pictures. The capital of the Norwegians is a beautiful city with its principal business streets running along two sides of a splendid park. On these streets are four municipally owned picture houses, up to date and reasonably successful, with a total seating capacity of about 3,000. The prices charged range from 20 to 40 cents, and during the past two years that this experiment has been carried on the city has made a profit of more than 25 per cent on the venture. Three-quarters of this has been used in turther beautifying and enlarging the playhouse, while the remainder has been set aside as a nort of "sinking fund," to be used for the benefit of the theaters and further pleasure of their patrons in any way that may seem advisable.

There are many folks who want to share the profits of business, but mighty few willing to take their share of the losses.

What this country needs is more young men who will dance the fox trot in the corn field with a plow handle for a partner.

### ROADS AND RAILROADS

Spring brings a great company of city and town residents out into the country and the woodlands to try their luck on their favorite old fishing streams. With automobiles to use on such excursions, the men can travel many miles and enjoy such an outing without much absece from their regular work.

Probably there are more fishermen this season than ever before, and fishing grounds once regarded as sure to yield a catch will be so popular that the fish have become too sophisticated.

If a man has the right philosophical temperament, he has gained something even if his basket is nearly empty. The quiet peace of the secleded stream sides have ogt some of the grouches out of his heart. Things in his daily life that looked all twisted and wrong seem to right themselves under the sun and fresh air. Also he has learned that the man who uses his own leg muscle for locomotion has an improved appetite and better zest for life.

Government ownership of all sorts

m. (Mrs. Edna Eddins, Supt)

Chas. Judd and wife entertained ids from the city Sunday.

Mrs. Lucy Cloud fell last Sunday afternoon and broke her arm.

Miss Catherine Kelly is visitin Mr. and Mrs. A. L. Stephens, nea Yetersburg.

Mrs. Mollie Clore, of Cincinnati, spent the week-end with her daugh-ter, Mrs. A. L. Nichols.

Mr. and Mrs. W. L. Kirkpatrick entertained Mr. and Mrs. J. D. Bal-don, of Bowling Green, last Saturday at dinner.

Esq. William Stephens, of Petersburg, was in Burlington last Wednesday afternoon. He had been in Cincinnati with a load of stock.

The sale of the personal property of the late Sallie Clore, last Satur-day afternoon was attended by a fair size crowd and things sold brought fair prices.

Quite a number of relatives and friends gathered at the home of A. C. Porter on the Burlington and Bel-leview pike, last Sunday and spent an enjoyable day.

Mr. and Mrs. E. L. Goodride and daughter, of Erlanger, were Sunday guests of Mr. and Mrs. J. W. Good-ridge, at their home on the Burling-ton and Belleview pike.

Many men who feel that a new political party should be formed, would not carry their objections to the old parties so far as to refuse to accept office from them.

Preaching at both the Methodist and Baptist churches last Sunday morning and evening. The Presiding Elder, Rev. Greer, delivered the morn ing sermon at the Methodist church.

Glen Crisier, one of our good iends of Gunpowder creek, and one the county's most industrious far-ers, was in town last Friday, and ade the Recorder office a pleasant

Thomas Nees, who had been engaged in the hotel and cafe business at Lawrenceburg, Ind., for many years, and well known to many citizens in the north-end of this county dad at his home in that city on Wadmaday of last week.

BASE BALL.

The main topic being discussed on the streets and in the stores, at this time, is the game of hall between members of the Men's Biblio Chass of the Baptist Sunday School, to be pulled off on the day of the Sunday School Outing some time the early part of next month, the date of which will be named later. The line-up and box artists for this occasion have been selected and are described to the sunday of the sunday of the oldest at will puzzle some of the players while in action in practice one even high characteristic on the oldest at while in action in practice one even high characteristic on the proposition of the players while in action in practice one even high characteristic on the proposition of the players while in action in practice one even high characteristic on the proposition of the players while in action in practice one even high characteristic of the players while in action in practice one even high characteristic of the players while in action in practice one even high characteristic of the proposition of the players while in action in practice of the players while in action in practice of the players while in action in the players whil

Tom Poston, (colored) who make Tom Poston, (colored) wno makes his home with Mr. and Mrs. George Kreylich, near Idlewild, was taken to a Cincinnati hospital in Philip Talianova ambulance, mst onturasy firternoon, where an operation was performed for some bowel trouble.

performed for some bowel trouble.

The automobile driven by Edward Eggleston, of Francesville, turned over last Sunday, but none If the occupants with Mr. Eggleston, G. W. Estes, R. S. Wilson and Lewis Phelps, were seriously hurt. Mr. Eggleston and his friends were sight seeing in Indiana when the driver lost control of the machine and it turned topsyturrey.

The members of Burlington Baptist church will give a banquet in the church next Saturday evening to will man who in any way or manner assisted them in the construction of of the basement at the church. The members want every man who assisted in this work to be present. A program has been prepared consisting of speaking and music to be followed by a banquet.

Nearly all disorders or diseases of calves, says the United States Department of Agriculture, are caused either directly or indirectly by lack of cleanliness. Filth, whether it is in feed, pens, bedding, or pails and utensils, is dangerous to the health of the calf. To be on the safe side use nothing but clean milk (sweet or sour), scald the pails or sterilize them with steam, remove old feed from the boxes and clean them daily. Filth and dirt are the natural breeding places of many bacteria that will cause disturbances in the young animal's stomach. Freedom from filth users and the steam of the

of the caif. To be on the safe side tuse nothing but clean milk (sweet or sour), scald the pails or sterilized them with steam, remove old feed from the boxes and clean them daily. Filth and dirt are the natural breed, ing places of many bacteria that, will cause disturbances in the young animal's stomach. Freedom from filth usually means freedom from disease.

One of our coal dealers, who knows all the tricks of the trade, hired a new driver the other day who was, not as bright as he might have been, and sent him to deliver a lond of cord, to one of his customers who had bumptious cook who presided over the kitchen. He failed to return, and the boss started out to hunt him up, the found him in the kitchen, after outting the coal in the cellar, sitting in the only chair while the cook was reeling potatoes, and not standize the table. The boss wanted to know mannex appear most in the new whose names appear most in the new whose names appear most in the new whose hames appear most in the new whose hames appear most in the new whose in the standard of the coal as I was weighed with it "EEX.

June 4th, at 8 o'clock EVERYBODY :: IS :: INVITED.

THE NEW FASHIONED MOTHER.

One of the older women was giving a few days ago her observations of the ways of modern mothers and children. These thoughts were suggested by a family consisting of a mother and three children, whose doings were noticed on a railroad journey. These children proved very hard to control.

First, the mother pacified them by buying some oranges. But those lasted only a little while, and they began to get restive. The Mother brought out some sandwiches. These seemed to go to the right spot temporarily, but their ecect was short lived. Then the kids had to be allowed to go to the cups and slop water over that part of the car.

Soon they became quernloss again.

THE NEW FASHIONED MOTHER.

One of the older women was giveled by a family consisting of a children. These thoughts were sugared by a family consisting of a mother and three children proved very the hard to control.

First, the mother pacified them by the control.

First, and the reason the competition of the competition of the control.

First, we have the written consent of the

ARCHAIC MARRIAGE LAWS

Railroad Abandoned.
The sbandonment of 234 miles of railroad between Peoria, Ill., and-East St. Louis recently authorized by the Interstate Commerce Connission, mas attracted unusual attention and comment, particularly in this day when transportation is user, a vital necessity. Living along the line of this road are some 12,000 farmers and several small rowns, including six coal mines and eight manufacturing plants all of whom have depended on this road for shipping facilities.

The fact that there are money.

facilities.

The fact that there are many short crossline railronds in many states that will have to go out of business unless taken over by some larger line. The trouble seems to be that the automobile has destroyed that the automobile has destroyed the passenger traffic, and trucks successfully compete with freight trains, both as to time of delivery and in rates. The people living along this 234 miles of railroad will undoubtedly get better service in some other way.

### Air Communication

Air Communication.

The recent wonderful achievement of two aviators in accomplishing a flight across the continent in twenty-seven hours will strengthen the hope that in the not distant future some form of regular air transportation service may be operating between the most widely separated sections of the country.

It would seem likely that for some time-the-expense of air-ship journeys will oe such as to discourage the mass of the people from many such trips, even usualing that practically—all danger of accidint's climinated.

But the machine of commerce and

danger of accid at a diminated.

But the machine of offimeree and trade would work more smoothly if business men could ge anywhere in the country to see their customers and correspondents within twenty-four hours. Also if newspapers could be, regularly delivered anywhere in the country within that time, it would help break down sectional feeling and give different localities a better comprehension of each other's problems and point of view,

All members of Parting on Lodge o 264, F. & A. M. will please meet the Lodge room in Burling) a Sat-tay June 25d, at 6-45 p. er. Rusi

## As the Editor Sees It.

Yes have a boy about 14 or 15

years of age?
Set him to work at a task you know he can not accomplish. Watch him worry through it from one stage to another until he reaches the point where he is compelled to admit fail-

Then have him go over the entire project in his mind and figure out what he lacked in order to make it a success. If he has omitted anything that you in your greater wisdom consider necessary, point that

out to him.

Then supply him with what be needs and tell him to get at it again. He will, and with the knowledge be has gained through his previous failure the chances are ten to one that he will make a success of which even you will feel proud.

That's a good way to make a real man out of an indifferent boy.

to do—nothing.

How would you like to have an enemy bomb drop in your own front yard? But of course you wouldn't worry over it—after it hit.

"What's the use of trying?" Some people say when confronted by a difficult problem.

And that ends it—for them. They see no use, they never try, and they never accomplish anything worth while.

But there is every use in trying, en though ultimate failure is the

The man who tries is giving vent to the spirit of progress that is within him. The effort he puts forth, though it may be in vain, convinces him that he does possess the ability to do things. The partial results he accomplishes go far toward making clear to him the fact that he possibly lacked certain facilities and a little greater degree of determination in order to achieve a complete success. And that knowledge gives him faith and courage to try again—and succeed.

Don't keep the little girl confined to the house too much during the summer months. The house is full of shadows, and sometimes those shad-ows enter the soul in youth and re-main there in old age. Sunshine is better than gloomy any day.

### THOSE CHINESE BANDITS

THOSE CHINESE BANDITS

When a band of Chinese bandits captured a railroad train and carried off a load of foreign and Chinese passengers for ransom the christian railroad train and carried the carth were filled with righteous indignation. They are still gasping at the audacity of the bandits, although the proverbial nine days have long since passed.

The great army of American consumers has been gasping and wondering for a long time what can be done to curb the activities of our hordes of profiteers and grafters and other common thieves who fill their pockats at the expense of people who have not yet reached the point where they can exist without eating and wearing clothes.

And here's the solution.

Let down our immigration, bars and admit the Chinese and street and the captures and street a

Let down our immigration bars and admit the Chinese Bandits, big chief of all. Then sick them onto the proficers and grafters and other common thieves, and when they have bagged the lot give them all free transportation back to the mountains of China.

And not one cent for ransom!

And not one cent for ransom!

Egypt, the oldest country of the world, is about to hold a popular election. A legislature of 400 members is to be chosen and there are some 47000 candidates. The people are wildly excited, but do not fully understand what it is all about, and hesitate to become registered. Not a great deal of difference between 1270 and American in that respect. The about half the American people and half of those who did and half of those who did the list of the probabilities are that it is largely due to short skirs which require neat footwear.

THE SECRET OF OUR FAILURE.

that he will make a success of which even you will feel proud.

That's a good way to make a real man out of an indifferent boy.

—00—

People who make a study of world conditions are convinced that another before, leaving utterdevastation in its wake.

Other people, some of whom do not stop to think, do not believe that there will be any more wars. They didn't think we would have the last come—but we did, and we will be any more wars. They ammount bombing plane can sink the greatest battleship aften they are manmonth bombing plane can sink the greatest battleship aften they are manmonth bombing plane can sink the greatest battleship aften twinking a for within a few minutes by simply dropping tenormous bombs IN THE WATER near the ship.

A bomb that can sink a battleship and so the inhabitants with gas.

France has 5,000 airships ready for war when it comes, and Japan is making rapid strides toward the collection of a powerful alerial fleet. In this country, according to published reports, we have a hundred million dellars worth of airships that are being destroyed by rost and neglect through dieuse. There is no one to man them.

Congress has put the airship out of use in the country, according to provide the man power and the funds necessary to its support.

But congress has done only a man amojority of the people wanted it to do—nothing.

How would you like to have an enemy bomb drop in your own front yard? But of course you wouldn't

But if those fences were in some f the densely populated old coun-ries you would see\_them covered with vines and the vines loaded with

fruit.
Grapes require something on which to climb, and what is better than a fence? And what is more delicious than a bunch of luscious grapes?
The grapes would be a treat to your stomach, which is continually craving fruit.
And the ground would be covered with something beautiful and profitable instead of being a catch—all for rubbish you throw out of the house or garden.

SUCCESSFUL AGENCIES CAN GIVE POINTERS ON COOPERA-GIVE POINTER: TIVE SELLING.

Lexington, Ky.—With cooperative marketing getting a good share of the farmer's attention Just now, Kentucky farmers who are interested in this form of selling their products can well afford to study carefully the results obtained by successful marketing organizations elsewhere and determine the features' which make successful, according to O. B. Jesness, chief of the section of markets at the Kentucky Agricultural Experiment Station. In doing this, however, it is well to remember that conditiins in different sections and for different commodities are not the same, he points out. Because of this fact it is important to study local conditions to find out how the plans worked out in other places can be applied at home.

"A cooperative organization is a business enterprise, and therefore must look for its results from what it may be able to accomplish in the business field. The situation should be studied carefully from this vlewpoint before an organization is undertaken. Information should he sought on the need for the proposed enterprise, how the rank and file of farmers feel toward it, the volume of business that is available, the financial requirements of the business and how they may be met, the probably safvings which can be made and other related points. If this is done there is more likelihood that the needs of the local situation will be provided for much more adequately than if a plan is brought in its entirety from some distant section without regard to local needs.

"A cooperative marketing organization founded on a mistaken idea as to the savings possible is almost sure to be a source of disappoinment to its members. One that comes into heing because of an unfounded prejudice against other marketing agencies is likely to meet with difficulties. While enthusiasm for cooperative marketing agencies is likely to meet with difficulties. While enthusiasm for cooperative marketing agencies is likely to meet with difficulties. While enthusiasm for cooperative marketing organization founded on a mistaken idea a

By T. T. Maxey

CRATER LAKE

Ages ago a great, tall, volcanic peak, which has been called Mount Mazama, occupied "a place in the sour" in the southwestern part of Oregon, about half way between Portland and San Prancisco. The occasina action within this mountain produced heat of such intensity and in such quantity that the entire top metro. "A and disappeared."

emitter top me.

Sand thesis peared.

Naturally, utter desolation trailed such a tremendous convulsion. Nature, in her mysterious workings, aided by time, changed this condition of affairs and produced a striking geological spectacle which is one of the scenic masterpieces of this earth. The opening or crater in the top of this topless peak gradually filled with water which formed a beautiful, deep blue lake—hence the name, Crater Lake.

This take, afmost circular in shape and about five miles across. Is perhaps the deepest body of fresh water on earth. The surface of this lake is more than 6.6% feet above sea level. No inlet or outlet has been discovered. Its waters escape through underground channels which doubtless reuppear eisewhere in the form of springs. New waters come from other springs and heavy snows. A belt or gledle of cliffs towers grotesquely above the lake and slope down sharply to the edge of the water.

The lake is invisible until one has climbed to the rim. The look down into it is indescribable. One is simply monplussed. This said that this world holds not another sight like it. The heart of this mountain is filled with a sea of supplier-colored water. Pirst the size and the precipiousness of the surrounding cliffs astonish you; then the unexpected heauty and brillinger, or Nature's coloring amaze you. The great walls of rock are splotched with yellow and pink. The this of the cliffs carry more or less snow. The trees are a dark green. Below, the placit surface of this bluees of blue lakes reflects the surroundings with astonishing clearness.

Within the lake an island or cinder care, rises, several hundred feet above the surface of this bluees of blue lakes reflects the surroundings with astonishing clearness.

Within the lake an island or cinder care rises, several hundred feet above the surface of this blueet of blue lakes reflects the surroundings with astonishing clearness.

Within the lake an island or cinder care rises, several hundred feet above the surface of this blueet of blue lake

WOULD OVER-LOAD
THE FARMER
All authorities practically agree
that the commercial timber supply in
this country will be nearly exhausted twenty-five years hence, and from
all sides comes a cry for the farmers
to plant trees on cut-over timber
lands.

all sides comes a cry for the farmers to plant trees on cut-over timber lands.

The most insistent cry for reforestation comes from the wood pulpmanufacturers, who are using more than half of all the timber. Next comes the mill-man who is anxious to perpetuate his business.

Curiously enough all these interests appeal to the farmer to plant trees on his cut-over wood-lot—in fact they insist on it as the salvation of the timber business.

In a few states farmers have plant-red trees, but at a rule the replanting is generally done by pulp-mill owners who expect to cut a new supply in about 2g years.

There is only one angle to this question of reforestation that has not yet received the serious consideration it demands How many farmers are there who can afford to expend the labor and money necessary to reforest their cut-over lots? How many states are there that guarantees not to tax the life out of him during the 25 years he must wait before ne gets any return-from his labor and investment?

Congress expends hundreds of millions of dollars every year for the relamation of swamp lands or irrigiting arid lands. How much assisticated in the second of the swarf clearing these cut-over lands and supplifing the plants?

Will some effort be made to secure examption from taxes and paf for the cost of dynamite to remove the stumps.

Farmers are the most patriotic people, as a class, on this continent, but there is a limit to the burden they can carry and thep have learned a very severe and costly lesson.

No one will deny that efery acre of cut-over timber land now simply waste, should be either reforested or made available for agricultural purposes—but the State or Congress will have to bear at least part of the burden for the congress will have to bear at least part of the burden for the surface of 
A troop of horses from the famous stables at French Lick Springs, Indiana, with trained instructors to care for them and give proper riding instruction, will be among the new features to be included in the Camp Roosevelt program this summer educational-training encampment for boys lorated near LaPorte, Indiana, and operated under regulations laid down by the War Department of the U. S. Government and the Chicago publid school system. The horses will be brought to the campsite on July ninth by F. C. Chicago, riding master of the French Lick Academy. Classes in horsemanship will be conducted on the same plan as other activities. Boys in either the summer school division, the R, O. T. C. or the Junior Camw will have the privilege of taking the course.

Camp Roosevelt offers the most interest of the country. This is brought about by the cooperation of national affiliating organizations, which contr'ute course.

Camp Roosevelt offers the most complete summer cs...ping course of any camp, public in nature, in the country. This is brought about by the cooperation of national affiliating organizations, which contr'ute cauling organizations, which contr'ute the country. This is brought about by the cooperation of national affiliating organizations, which contr'ute cauling organizations, which contr'ute cauling organizations, which contr'ute cauling organizations, which contr'ute and the country. This is brought about by the cooperation of national affiliating organizations, which contr'ute cauling organizations, which control of the country. Inough the country in the country in the country in the cauling organizations or the country in t

wome of those running in Spain, here engines built in 1848 still may seen at work.

### HAMBONE'S MEDITATIONS

HIT USETER BE DE RULE NIGHT 'FO YOU ET EM BUT DAT RULE'S DONE WAY WID NOW ENDURIN' DESE HAND TIMES - DEY AIN' NO RULE BOUT EM NOW

WILLIAM SIMPSON WILL SEEK LEGISLATIVE HONORS. A LIFE-LONG DEMOCRAT AND A GOOD CITIZEN.

GOOD CITIZEN.

Wm. Simpson, of West Williamstown precinct, announces in this week's News that he is a candidate for the Legislature from the -67th listrict, composed of Grant and Boone counties.

Mr. Simpson is the second entry in the race. As the two counties are verwhelmingly democratic there is to t much probability that the nomnee of the party will be opposed by Republian.

Mr. Simpson is a sterling the second with the second se

ince of the party will be opposed by a Republian.

Mr. Simpson is a sterling Democrat. He has always been one and no matter what betides he is likely to always remain one. He served Grant county as magistrate a few years ago and made a pretty good one. He is a farmer and has been identified with every farmer's move that has been calculated to help the farmers.

Years ago he took an active part in the organization of the American Society of Equity and its successor, the Burley Tobacco Company. He was and is a strong supporter of the present tobacco pool and worked hard for it.

Mr. Simpson can 'make a good speech if he finds it necessary, and while not professing to be a man of high education his education is sufficient to carry him through any ordinary meeting in good order. He did not seek the nomination until called not doe so by numerous democrats from all parts of the county.

He. is not a fanalis op...nv. question, but is rather broad minded and is sure to vote for those things his constituents wish him to vote for. He is for good roads, better schools and wishes to see his county and State make progress in the right direction.—Grant County News.

### WOMAN'S WAIST

Many women treasure the handsome gowns that their mothers and
grandwotters wore years ago. It is
a revelation to some of the younger
women and girls, if they attmept
to try on these old dresses, to see
what the women of a former generation hind for waists.

A modern young woman is likely
to find that one of these dresses will
foot come within six or eight inches;
of closing around her vigerous figure. Such a relic of older days
suggests how the ideas of women
have changed.

The notion these

gestion of adequateness for vigorous work, as well as grace and charm.

The false and vain idea of beauty which for generations led countless women to compress their waists, must have reacted somewint on the health of the race. Our people look with contempt on the "Messe, for having for ages tolerated the barbarous custom of foot binding. Yet it was no more absurd and probably had no more serious results, than the custom which for generations led civilized women to compress their waists. Fortunately the women of the present day, with their disposition of enter the same velds of activity in which men compete, have perceived the folly of such a course, and are cultivating a normal physical development which makes the fild time fasp waist dresses seem one of the horrors of antiquity.

Right here at this busy time of

of closing around her vigorous figure. Such a relic of older days suggests how the ideas of women have changed.

The notion that a slender waist was one sign of feminine beauty was deeply imbeded in the female mind of that period. Many of the songs and verses of those days celebrated the slended waist, as one of the charms of ideal womanhood.

Yet the ancient statute of Venus of Milo, supposed to be one of the most beautiful types of womanhood ever conceived by a sculptor, represented a woman with a strong figure of the States as a whole, according to those work, as well as grace and charm.

The false and vani duel of beauty was the available supply of labor and materials permits. They should be constructed and maintained by the state should be paid for be the people of the states as a whole, according to thomas M. MacDonald asys that actual relations which for generations led countless women to compress their waists, must have reacted somewhat on the health of the race. Our people look with contempt on the These, for having for ages tolerated the barbarous custom of foot binding. Yet it was no more abourd and probably had no more serious results, than the custom which for generations led countless women to compress their waists. Fortunately the women of the present day, with their disposition to enter the same velds of activity in which men compete, have precived the folly of such a course, and are without regard to the increased need with the relations of the such present day, with their disposition to the first ost. The principal highways of every discussion of the transport of the state should be lonstructed as rapidly as the available supply of labor at the should be lonstructed as rapidly as the available supply of labor and materials permits. They should be possible to the States as a whole, according to the States had be constructed and maintained by the state should be lonstructed an amintained by the state should be lonstructed an amintained by the should be possible supply of labor and materials perm

ed the folly of such a course, more perceived a cultivating a normal physical device.

oment which makes the fild time fasp waist dresses seen one of the farmer of the horrors of antiquity.

Right here at this busy time of the year when the farmers of Kente kinds are to expense the key are in desperare straits from the key are in desperare at Camp Kino.

Cultivate thoroughly.
Prune such plants as tomator
Control tomator worms by
arsenate of-lead.
Destroy all potto bugs as so
they appear by using either ars
of lead or paris green.
When second and third plants

Head or paris green.

Make second and third plantings f sweet corn and string beans.

Keep down all weeds inside the orden, as they may harbor insects and diseases that will damage the getables.

Remove early pea vines as soon as the peas are gone and use the ground for fall beets or celery.

Keep the ground around early cabbase ... a good state of cultiva-tion, and as soon as the cabbage is ready to remove this space can be used for late potatoes or fall tur-

mips.

Early potatoes can be followed by late cabbage, late beans, fall spinach or fall kale, while some prefer to plant celery in trenches between the rows of early potatoes.

Watch the currant bushes for the currant worms, as they may eat all the leaves in a few days. Be prepared to spray them with arsenate of lead as soon as they appear.

Watch for flea beetles on beets, egg plant and potatoes. They can be controlled with arsenate of lead.

Set sweet potato slips 15 inches apart on ridges that are three to four feet apart.

Thitty minutes spent in the gar-

Thirty minutes spent in the gar den every day will give better rest than a half day at long intervals.

10 YEARS AVERAGE AGE OF MILCH COWS SLAUGHTERED

MILCH COWS SLAUGHTERED.

The average age of milch cows when slaughtered for beef is ten years, and the price realized for such cows is about one-half the price-brought by younger cows sold formilking purposes, according to a nation-wide investigation of present conditions made this year by the U. S. Department of Agriculture.

State averages of the age at which cows are sold for slaughter were remarkably uniform, there being no State with an average over 11 years. States showing an average of 11 years were aMryland, West Virginia, Florida, Wisconsin, Louisiana, Utah, and Nevada, States with an average of 9 yers were Msasachusetts, New Hampshire, Connecticut, South Carolina, Georgia and Ianbama.

The gloom in your life is there because you keep it there. The sunshine is always trying to break in.

About 17 per cent of the matured dairy animals in this country find their way to the slaughter and packing plants, according to the United States Devartment of Agriculture. If this percentage is applied to the number of matured dairy animals reported on farms by the last census, and the average live weights and dressing yields are used in calculating the beef production, the result shows about 1,502,000 pounds of carcass beef produced from dairy cattle during the year 1920. This quantity represents more than 23 per cent of the total beef production of the United States for that year. Probably 80 per cent of all the calves slaughtered are of dairy breeding. If this percentage is applied to the total number of calves slaughtered in 1920 and the resulting figure multiplied by the average live weight and dressing yields, the amount of veal produced by dairy calves is about 580,647,000 pounds for the year 1920.

The principal conditions which

and dressing yields, the amount oveal produced by dairy calves is about 560,647,000 pounds for the year 1920.

The principal conditions which cause dairy cows to be discarded for milk-production purposes are old age, disease, physical defects, low milk vield, and sterility. Many old dairy cows and others that are unprofitable as milk producers are fattened for a short period and then sild for beef. When properly fed such cows make rapid gains, although the tendency is to accumulate fat externally and in the body cavities rather than to produce a well-marbled flesh. About 85 per cent of the cow carcasses are graded as common or lower, and the meat is used largely in the preparation of sausage and canned meat.

Bulls that are no longer desired in the herd for various reasons make up a part of the meat from dairy cattle. They are seldom suitable for dressed beef, a large proportion of the rounds being used for dried or smoked beef and the remaining portions of the carcasses for sausage.

While the faculty of beef produced from mature cows and bulls is of lower grade, that is not necessarily true with respect to the veal obtained from dairy calves. Probably 95 per cent of the male and 50 per cent of the famale dairy calves are slaugh terms of the dairy calves are slaugh terms of the famale dairy calves are slaugh terms of the formale dairy calves are slaugh terms of the formale dairy calves are slaugh terms of the formale dairy calves are slaugh terms of the policy of the search of the formale dairy calves are slaugh terms of the policy of the poli

### RAPID INCREASE OBSERVED IN OAT GROWING SINCE 1866

IN OAT GROWING SINCE 1866

Average and production of oats in the United States have increased rapidly and consistently since the annual estimates became available in 1866, according to the United States Department of Agriculture. However production has shown some fluctuation, due chiefly to low acre yields in poor oat years and bigh acre yields in good years. The peak of production occured in 1917, when the United States produced 1,592,740,000 bushels of oats. The largest acreagy up to the end of the World War preservent in 1918, when 44,349,000 acres were harvested, from which 1,138,124,000 bushels were garnered. The heavy drop in acreage are to 42,491,000 acres in 1921, when 1919 was followed immediate by a raise to 42,491,000 acres in 1921, the largest acreage ever grown. Pollowing the record acreage of 1921, the largest acreage ever grown, a ceided drop in acreage occurry ield of 23.7 bushels, the lowest since 1890, a decided drop in acreage occurry of the control of the contro

### KITTY VINDICATED

RITTY VINDICATED

Reformers have arisen in these latter days to declare that cats are harmful and their numbers should be strictly limited. The crime charged against them is that they catch and eat birds. Birds play a large part in the economy of nature, so this offense is not to be lightly regarded.

and eat birds. Birds play a large part in the economy of nature, so this offense is not to be lightly regarded.

If the hirdss go, the insect pests that feast on grain and other products will thripe. Hence if poor Kitty kills birds, he is a serious offender, and perhaps he will have to lose his place by the fireside.

Soner or later it is found that most elements in nature's economy prove tements in nature's economy prove tements in nature's economy prove the will be the case with Kitty, is suggested by recent reports from Russia. Many localities in that country are destitute of cats, which were eaten in the recent famine. As a result of the failure of Kitty's services, many communities in that much troubled land are overrun with mice, which eat the grain.

So keenly is this loss felt, that the Russians are offering 10,000,000 for a kitten. These figures are in depreciated currency, yet they show that the Russians have learned from hard experience that cats are assental to the balance of nature.

In this country there has been movements to pass laws requiring cate to be licensed, with the idea that all non-licensed kittles must be deprived of life. In view of Russia's and experience, our wise men may well hesitate before such a hazard-our course. Kitty's offense of bird catching is not to be lightly countifiered, but birds have thrived for again in spite of her forays. If owners of cats would attach a little bell to kitty's resis during the nesting coamon, many young basic and the communications.

### GOOD **HIGHWAYS**

MONEY FOR IMPROVED ROADS

West Virginia Vales Favorably
Proposition to Raise \$60,000,000
for Improvements.

Sixty million dollars for a system of state-wide highways.

Last year the taxpayers of West Virginia authorized by-n overwheiming popular referendum, the sale of bonds to ralse this huge sum in order that the vast natural resources of their mountains might find an open route to morket. During 1922 the state legislature authorized the appropriation of \$15,000,000 for construction of new concrete roads through the worst of

Concrete Road Along Tug River With 9-Foot Slab at Center of Roadway.

the rock counties and it is probable that in 1023 the assembly will vote to spend at least \$20.00,000 additional for new construction of hard surface highways.

Tace highways.

Rich in coal, oil, natural gas and attendant industries such as glass manufacturing and foundries, West Virginia has never been in a position to gain the best results from its stored wealth through its lack of good roads system and the virtual isolation of many of its richest counties from the outside world save through industrial rail connection.

world save through industrial rail con-nection.

Travelers in the hills often were forced to ride twenty and thirty-miles. from one town to another on horse-back, while some communities were able to buy clothing and provisions only once or twice a year. The rock strewn mud bottom roads in the cen-tral section of the state were impass-able during the winter and early spring and many tragic deaths have been charged against their treacher-ous footing.

The first step was taken along the

been charged against their treacherous footing.

The first step was taken along the
Tag river, near the Kentucky line,
where the greatest coal producing
mines are in operation. At Welch and
in other McDowell county towns, the
seenes-or-many-of-West-Virginisbitterest mine battles, the first all
concrete link was laid. Engineers
faced terrife problems of construction
and in the service of supplies, but the
first year's program was put through
on schedule despite handicaps. The
pits of McDowell county now have an
easy means of access to the low country and production at the mines is
increasing every month since the new
system was placed in operation.

It is planned to make the roads interlock at points and percet by regular
freight and passenger trains at first
and to follow up this original net work
with a complete system of trade routes
in succeeding years. Work will be
concentrated on the central and western end of the state at first.

### CONSTRUCT 18-FOOT BRIDGES

Some of 12 and 16 Feet Have Bee Built to Economize, but Preven Short-Sighted.

Few highway bridges with a width of roadway less than 18 feet are now being constructed on improved roads, according to engineers of the bureau of public roads of the United States Department of Agriculture. In the past some of 12 feet and a good many of 18-foot width awe been constructed in an effort to economize, but it has proved short-sighted economy. Only one line of traffic can pass over a 12-faet roadway and 16 feet of width will be accommodate two lines in anterty Many of the states such as Pennsylvania, New Jersey, Ohio, and Massachusetts have found it advisable in replacing old bridges on important roads to make them wide enough to accommodate three and four lines of traffic.

### FALL FRESHENING IN FAVOR

Cows Not Only Lead in Production Milk and Butterfat, but Also Produce More.

Cows that freshen' in the fail not only lead in production of milk and butterfat, but also produce more income over cost of feed than cowe come over cost of feed than cowe year, according to Horace M. Joues, and the content of the year, according to Horace M. Joues, attention dairy specialist at South De. NOR MARK COLEGA.

# Lessons of the Melodrama

By MYRA CURTIS LANE

(©. 1921, Western Newspaper Union.)

Two men and a woman, by the free in a country club, touched on many phases of life in the course of their conversation. All three were cultured, people, conversant with life and art.

"You can abuse the melodrama," said Raymond, a keen, handsome man of forty-five, "but I contend that It embraces all the finer elements of drama, Haynes. Don't you agree with me, Mrs. Haynes, a superb woman of about seven and thirty, looked at her husband.

"I'll tell you a story," went on Raymond. "Something sour of real life that was brought to my notice, proving what I mean.

mond. "Something out of real life that was brought to my notice, proving what I mean.

"There was a woman once, there was her bushand, and there was their friend—the eternal triangle. The hushand and the woman had never got on well together. The lover had been pursuing the woman for months, until she was inclined to listen to his plea that she elope with him, less from love than out of a desire to make her husband as butt and a laughing,"stock among his friends. What did you say, Mrs. Haynes?"

Mrs. Haynes, who had gone deathy pale, said nothing.

"At last," continued Raymond, "the plea of the lover prevailed. They were to elope together, travel to Chim—the lover was rich—and never return. Everything was in readiness.

"The afternoon hefore the journey a little incident occurred that changed the whole course of everything. The husband was knocked down by a taxi and seriously injured. The wife, abandoning her plan, devoted herself to mursing him. For weeks she was his assidious attendant, until all fear of death was past. What did you say, Haynes?"

"Notihiot," answered Haynes, his face invisible in the shadows of the

death was past. What did you say, Haynes?"
"Notifux," answered Haynes, his face invisible in the shadows of the corner.
"There you bave a metodrama and also. I contend, the finest demantic values. Picture this woman, prepared for the steps that would rhange the whole course of her life, and—an accident intervenes, her husband is Aur, he devotes the rest of her life to him." It was now Haynes who spoke. "That reminds me of a story, Raymond," he said, "which seems to me also to contain the elements of dramatic action. "There were a husband and wife who had never got along together, never understood each other. Why they married is a mystery, for they were always the same to each other. So they lived in the same house as strangers.
"There was a mutual friend, whom he husband trusted. One day evidence was placed in his hands that the friend" and wife yeare planning to elope together. What did you say, my deep?"
"Nothing," maswered Mrs. Haynes, from her chair.
"If it had been genulnely toe he might have done nothing, but let them

from her chair.

"It it had been genuinely love he might have done nothing, but let them might have done nothing, but let them go. But he knew that there was no love. His wife was incapable of love. She was planning to ruin him out of revener, to bring down his social structure crashing about his ears.

"He kept very quiet, but he learned where the couple were to meet. He bought an automatic and left his office an hour earlier than usual, with the intention of shooting the man, what did you say, Raymond?"

"I didn't speak," Raymond answered.

What did you say, Raymond?"
"I didn't speak." Raymond answered.
"He left the office, then." Haynes resumed, "and started uptown. In his excitement he did not look carefully about when crossing the road. He was knocked down by a taxi.
"When he awake from his unconsciousness he found himself in bed at home, his wife seated at his side. Sife nursed him devotedly, and, after his recovery, it seemed to be an understood thing that she was to remain with him.

"Since that sight they tolerated each other, but no more. They learned to respect each other, if they nevertearned to love. That isn't as dramatic as your story, Raymond, but the sort off tis in, doesn't it!"
"And I'll tell you a story," Mra. Haynes interposed. "This is the story of the woman unhappily married, who was tempted by the lover, but her husband—it's strange all our stories are so much alike—met with an accident, and this changed her plans and resolution.
"It is untrue that she never loved.

and this changed her plans and resolution.

"It is untrue that she never loved.
After his recovery she learned to love
him. The lover began to, persecute
her, to demand that she clope with
him. She knew that she could never
win her husband's love after so long,
but she defied the lover, hom she had
learned to hate, who threatened to reveal her story—"

She flung herself upon her knees beside Haynes. Baymond was moving
quietly toward the door,
"And threw herself upon her hushand's mercy. Oh, forgive me and
take me to your heart, my dear," she
sobbed. "and let us try. Can't we?"
He raised her; and neither cared or
noticed that the room was empty.

Malayan iron Ore Deposit.

Maiayan Iron Ore Deposit.

A new and valuable deposit of Iron ore has Just been discovered near Jipoh in the Federated Malay State of Perak. The report of the expert shows that there are between 5,000,000 and 6,000,000 than available between the surface and 100 feet below.

Smelting and transport difficulties are not insurmoutable. It is likely that this ore will find a market in Singanore.

### HATS OF DISTINCTION

## WASHINGTON COMMENT. THE BOYS WHO

WASHINGTON COMMENT.

Gow. Cameron Morrison, of North Carolina, addressing the Textile Man ufacturers' Convention, described the "two great weaknesses of the country" as "an effort at class domination through the establishment of class will over common will" and "the indifference of the successful American to the discharge of his simple duties as a citizen."

It would be well for us all if more speakers of national prominence would stress these two evils in our common life. Class domination runs the gamut from capital oppressing labor, labor oppressing leapital, reformers oppressing literation of the country over the will of the whole, the military fire-eater withing more and more preparedues, the peace lover trying to reduce us to helplessness.

"Class domination" is but another name for narrow vision; until we can all look at this country as a truly united aggritzation of states, and not from the standpoint of the particular interest of the particular interest of the particular state in which we happen to live and do business, we will probably continue to attempt class domination, and be, by just so much, a weakened country.

"Indifference to a citizen's duties" is chargeable agrainst any man or woman who can, and does not get the noils. Any neonic desease.

country.

"Indifference to a citizen's duties" is chargeable against any man or woman who can, and does not, go to the polls. Any people deserves the kind of government it gets! If we don't like the government, in our hands lies the remedy. Put if we don't take enough interest in our government even to vote for those who make it, we have no moral right to dislike it, or to criticize those who.were placed in the governing bosics by men and women who did have enough interest in their government to make it.

Citizenship is not, primarily, a duty; it is is a sacred privilege, it is a duty to practice the rights given the privilege fallure so to do weakens the privilege of all, and the benefits this country gives to all.

### ILLITERACY IN

RURAL DISTRICTS

RURAL DISTRICTS

Illiteracy is about twice as much in rural districts as in cities, according to the U. S. Chamber of Commerce. They consider this due to unsatisfactory rural schools and poor attendance.

merce. They consider this due to unsatisfactory rural schools and poor attendance.

While the schools of Kentucky are better than those in many sections, yet it may be true that the country districts as a whole are not able to maintain as good schools as those of cities. This is a serious handicap to their future. The country towns can not keep up with modern standards unless they give their children education that compares fairly well with city training.

In view of the greater wealth of the cities, it is only fair to ask them to make some contribution toward the country schools of their own state since those rural schools train young peeple who later must be depended upon to operate the city industries.

Yet if country schools could get a little batter co-operation from their home folks, their work, would be greatly improved, and it many respects made better than city school work. The country schools are usually not as crowded as city building are, hence rural teachers and commonly give the children more individual attention.

The country town people can do a lot by laying themselves out to

monly give the children more individual attention.

The country town people can do a lot by laying themselves out to make the work of teaching thess schools attractive to capable young women. If a girl comes into a country town to teach school and finds it difficult to secure a homelike boarding place, and if people do not take much notice of her, she will probably leave as soon as she can. But if she gets a comfortable boarding place at a moderate rate among conenial people, such a teacher will often be inclined to stay on in a country town, even though she may be fully equal to city standards. If the country towns could keep more of the capable teachers they develop, they would have just as good schools as cities have. make the work-of teaching thess schools attractive to capable young schools attractive to capable young somen. If a girl comes into a country town to teach school and finds it difficult to secure a homelike boarding place, and if people do not take much notice of her, she will probably leave as soon as she can. But if she gets a comfortable boarding place at a moderate rate among conenial people, such a teacher will often be inclined to stay on in a country town, even though she may be fully equal to city standards. If the country towns could keep more of the capable teachers they develop, they would have just as good schools as cities have.

JUDGING CONTESTS

The conteste in judging live stock and other farm stuff which are being conducted at many agricultural shows not merely teach boys to estimate the values of products, but they give these boys a high standard for farm work.

A boy who had been through such a contest must have an admiration for high grade stock. He will go out as a booster for thoroughbred stock and the best grade of production in all lines. It will be his desire to possess fine animals, and he will stimulate others to realize this ambition. There ought to be such contests at every agricultural fair in the state of Kentucky. If held for a period of years, there will be a distinct in-provement in the quality of our animal husbandry.

It takes a whas man to give a woman advice whout receiving some in leturn

THE BOYS WHO

STAY AT HOME.

An Indiana authority estimates that of the boys of that state who leave school this, season to go to word, 40 per cent will go on farma. Frobably in most of the states the proportior would be equally large. Such frures show that the idea that most of the country young people are rushing to the cities is wrong. Add in addition to those going on the farms, many remain in country towns to carry on stores; banks, factories, etc.

It is probable that these boys who stay in the country are at least the mental equals of those who go. Some of those who go are brilliant fellows who have fine careers ahead of them in city life. But a good many are of a settless type who will never gain great success or satisfaction anywhere. Those who stay are usually gold dependable folks who build up fine towns and who are the backbone of the nation.

### EMPHASIZE PATRIOTISM IN WASHINGTON EVENTS

HONOR LINCOLN MEMORIAL DE-SIGNER; MONUMENT TO URELL UNVEILED.

Washington.—In presenting to Henry Bacon, who designed the Lincoln Memorial, the gold medal of the American Institute of Architects, for that work, President Harding said:

"It is not for me to speak knowingly of art or architecture, but Jaw very sure I do not gravely err when Pasume that no man could have seen in his mind's eye the vision of this supremely appealing structure, or could have conceived it as the most appropriate memorial to the life and work of Lincoln, unless he was so fortunate as to sense the genius, the character, the simple aims and unquestioning integrity which were the dominant traits of the Emancipator. "In presenting this testamentary medal to you, Mr. Bacon, we would testify also our appreciation and pride in the contributions of those who have been your coadjutors in bringing forth the substance of ennobling thouht, the glory of beautious conception. Out of the crudest materials you and those who have wrought with you and after you hafe given us this creation, where simple grandeus has arrested the eyes and thoughts of whoever loves the beautiful appealing. You have rearred here a structure whose dignity and character have won it rank among the architectural jewels of all time."

In Arlington National Cemetery, across the Potomac from the Capital City, a monument has just been unveiled, commemorating the services of Major E. Emmett Urell, animmigrant who came to this country and served it valinatly both in the Civil and Spanish-American wars. The life of Major Urell is often cited as a model for all those coming to America's shores. Major Urell came at an early age to America from Ireland and served with marked distinction in the Civil and Spanish-American wars. The love for the flag of his adopted country, which has been instilled in the soldier's, heart prompted him to carry it back to Treland. He died there, and the bag that he loved so well in life draped the coffin which bore his remains when it was brought back to this country for interment at the Arilington National Cemetery.

### **WASHINGTON IN GALA** ATTIRE FOR CONVENTION

SHRINE HOSTS GATHER IN CAP-ITAL FOR OVERFLOWING WEEK.

Washington is filled to overflowing with thousands of visitors, who have taken complete poisession of the city and finde it their own.

Never has the Capital shown a fairer face; the decorations are most elaborate and spectacular, especially at night, when fifty thousand many colored bulbs make of Pennsylvania Avenue and the "Garden of Allah," in front of the Treasury, White House, and State, War and Navy Departments a bower of raintbwelike beauty.

A most. elaborate program has been arranged, which includes literally hundreds of concerts by the many visiting bands, drills by patrols a water carnival and pageant, three monster parades, one by day and two by night, several fireworks displays, a huge dance two miles long on Pennsylvania Avenue with music from two bands broadcasted by amplifers, the dedication of the Zero Milestone, in which the President will take part, trips to Mount Vernon, a wild west show, a massed band concert of five thousand musicians, led alternately by John Phillip Sousa and William C. White, chief of the Army Music School, both of whom have written marches in honor of the occasion; dances, balls, dinners, baseball ames, water sport meets, baseball ames, water over the finds time hang heavy on his hands, with ve places to go for every hour of the day, must indeed be hard to please.

All government buildings will be onent oal luisitors, in itself an ente-

the day, must indeed be hard to please.

All government buildings will be open to all visitors, in itself an enter-tainment which many travel many miles to see. The most careful pre-paration has been made by the po-lice for the comfort and safety of all, and housing and feeding the mul-titude is a problem which is solved.

### PROTEIN THERAPY

PROTEIN THERAPY.

Protein therapy does not meantreatment by giving proteins (the albuminous costituents of food) in
any and every way; it means the
subcutaneous injection of proteins,
whether they are of animal or of vegetable origin. Proteins given in that
way—penenterally as it is called;
that is, outside the intestine—are not
diested like food, but act by atimiating the resistance of the system
to the exciters of disease.

That method of strengthening the
resisting powers of the oranism is
an outgrowth of the vaccine treatment, especially of viant employed to
cure and prevent typhoid fever. By
accident it was found that other discases were favorably influenced when
the typhoid vaccine was iven, and
the discovery led to the trial of other
proteins—for the dead bacill used
in vaccines are largely protein in
composition. Emboldened by apparent success with the antityphoid vaccine, the doctors tried various other
albuminous substances, notably milt
and obtained just as good results usually with less marked reaction.

The reaction is sometimes unpleasant, consisting as it may of chills,
fever, headache, pains in the nuscles
and general malaise. At one time phy
sicians though that a sharp reaction
was necessary if the patient was to
get the henefit of the treatment, and
that the more severe the reaction, the
more certain was the cure. Now they
are beginning to doubt it, and, tho
there will probably always be a reaction—for the system resents the
injection of foreign material and
tries to throw it out—it need not be
a severe one. With the use 57
properly prepared vegetable proteins
the reaction is usually not appreciathe.
Protein therapy is employed more
or less in treating a number of conditions such as acute and chronic
rheumatism, anaemia, diabetes, tuberculosis, neurasthenis, various skin
diseases (especially poriasis, which
is very rebellious to the ordinary
treatment, and most of the acute and
chronic infectious diseases. Of course
the patient is not-always cured, but
the success o

encourage the physicians.

Thoughtful Americans resent the practices of the human vivisectionists reveased in recent publications discosing the inhuman experimentation carried on in institutions where helpless children are sacrificed upon the altur of modern medicine. They have discovered that these unspeakable aubase are defended or condoned by the American Medical Association, the very organisation which is spon oring and financing the campaigns designed to promote the cause of state medical control. The Kansas legislature has taken a firm stand against medical and surgical experiments who have boasted that that state has been a fertile field, and the legislature will be applauded by the citisens of every state in the union.

Anyway modern dancing must de-elop endurance, on account of ail

where the burley association was and loan companies can be taken as a fair indication, the Canadian is the world's richest man, according to a statement made by F. A. Hatch, retiring president of the Ontario division of the Canadian Manufacturers' Association. These deposits of a mount to upward of \$2,000,000.

Wasps have come into their own.
Canadian farmers are importing them to fight the corn borer. How they are shipped whether as periabable freight or live stock, is not disclosed. A famous American actus once told how, in the days of givenering, he had once driven a rozarm of hees across the plains "and awere lost a bee." Perhaps the wasps cre "shood" across the continent the same way.

When folks find fault with wild doings of the young eros would be a favorable occasion present them with a subscriptic per for a come unity contar

### LOCAL HAPPENINGS

LOCAL HAPPENINGS

Mrs. Sidney Gaines, of Walton, is the guest of her uncle and aunts. W.R. Rogers and sisters, Misses Sallic and Elizabeth. Judge Gaines is at Williamstown, where he convened a two week's term of the Grant Circuit Court, Monday. The Grant County News of last week says: "There is a sufficiently heavy docket to keep the court busy for the full term which is only for two weeks this time. However, as farmers who will be required to serve on the furies are extremely busy and are behind with their to-bacco planting, due to the lateness of the season, it is not at all improbable that Judge Gaines will give them a chance to look after their farm work and will continue as many cases as possible. The Judge has been very accommodating in this respect in the past."

A number of the friends of Mr. and Mrs. Geo. A. Porter remembered them with a house-warming Thursday evening of last week. Those who attended assembled at D. R. Blythe's and proceeded in a body to the home of Mr. and Mrs. Porter and with a present, which were placed on a table and when unpacked the young folks found that they were well supplied with cooking utensils, towels, glassware, spoons and other essentials in housekeeping. Mr. and Mrs. Porter were greatly surprised and thank all for their generous remembrances.

According to Federal figures made public at Washington, each, man, woman and child of census age in Kentucky was subject to a burden of \$7.71 for the expense of running the State Government for the fiscal year ending June 80, 1922. This was because those in charge of the business of conducting the affairs of the State spent \$18,836,479 during the year. In 1918, just four years before, the per capita cost was only \$4.55, based on total expenditures of \$19,879,539.

Memorial services will be held at Petersburg next Sunday. The I. O. O. F. and K. of P. lodges will march from the hall in Petersburg headed by a brass band to the cemetery, where the graves will be decorated after which Hon. John W. Howe, Jr., of Carroliton, will deliver an address. A large crowd is expected to be present and assist in the exercises.

Samuel Mills Seward, Editor of the Rising Sun, (Ind.,) Recorder, died at his home in that city on Wednesday, May 30th, aged ity-four years. Mr. Seward was an hon-est, upright, courteous gentleman and his passing away is deplored by his many friends on this side of the river.

Mr. and Mrs. Earl Smith enter-tained last Tunday, Mr. and Mrs. D. R. Blythe, Dr. and Mrs. Yelton, Mr. and Mrs. L. R. McNeely, Mrs. J. E. Smith, Mrs. Bess Kelly, Miss Buth and Kathryn Kelly, Messrs. G. S. Kci-ly, Russell Smith and Rev. W. W. Adams.

Mrs. Geo. Terrill, formerly of Petersburg, died at Toledo, Ohio, Sunday, May 7th. She was a daughter of Capt. William and Louisa Huff. The remains were buried at Greendale cemetery, Lawrenceburg, Ind., last Wadnesday.

"Grandma's Boy" at the Burling-ton Theatre, last Friday night, was witnessed by an immense crowd and greatly enjoyed. On next Friday night "Lights of the Desert" will be the attraction.

R. E. Berkshire, M. C., sold last Monday the Cluster property in Wal-ton to Mrs. Stella Cluster for \$650, and the Rose property of 20 acres mear Gunpowder to A. E. Foster for

Miss Mildred, the young daughter of Mr. and Mrs. C. L. Gaines, of Limaburg, united with the Burling-ton Baptist church, last Sunday morning.

James White called on Finn Bros.,
Sunday afternoon.

Leroy Voshell sold some hogs to Owen Allen last week.

Miss Alice White is visiting at Sparta, Ind., this week.

Mrs. Lonisker visited Lewis Hensley and family last week.

Sam Smith and Ernest McNeely were here fishing last Friday.

J. W. White would like to buy four Jersey yearling Jersey heffers.

Bluford Hensley caught a 4-pound blue cat fish one day last week.

Mrs. F. M. Voshell and two sons visited Ler parents in Ind., last week.

Mrs. James Feely visited Noah Delph and family, Scurday and Sunday.

Rohe. Nixon visited his sister Mrs.

Robt. Nixon visited his sister Mrs. Russell Finn, Saturday night and

Agy.

Robt. Nixon visited his sister Mrs.
Russell Finn, Saturday night and Sunday.

Quite a crowd of men, women and children of Hebron, were here Sunday fishing.

Lewis Bossard and family, of Norwood, Ohio, visited James Minor last Sunday atternoon.

Clyde Given wife and son visited Wm. White, F. M. Voshell and J. W. White, Thursday and Friday.

Clyde Given wife and Frank Biddle, dined with J. H. Snyder and family, Sunday.

Roy Mullins and family and Frank Platmer and family, of Newport, were pleasant callers here Sunday afternoon.

Joe Brent and wife, Danny Blackburn and Clarence Wilder, of Covington, visited J. W. White and family, Wednesday.

Leroy Voshell while bringing their cream down to the truck last Friday morning, had another accident. The harness broke, turning the buggy over, breaking it badly, the buggy running over him, but fortunately no bones were broken.

### HEBRON

Paul Hafer has a bad case of poi-noak, Marion Bullock hah been very ill

with eresplis.

Mrs. E. I. Rouse went to Dillsbors, Indiana, last Sunday for treatment.

Mrs. Ella Bruce is some impovred since returning home from the hos-

Indiana, isst states, and impoved since returning home from the hospital.

Mrs. Mike Dye was taken very ill with appendicitis last week, and on Decoration day was taken to St. Elizabeth hospital to be operated upon at once. At last report she was doing as well as could be expected. The young people of the church want to extend thanks to all those who donated and those who attended the supper at the church last Wednesday night, that helped to make it a success both socially and financially.

### IDLEWILD.

Mr. Charles Taylor Asbury, of Lexington, spent the week-end with Mrs. James S. Asbury.
Mises Emalyn and Margarete Mc-Cord went to Aurora Tuesday and attended the afternoon performance of Gentry-Bors, circus.
Stevens Bros., sold and delivered a pair of horses Monday to Luciea L. Wilkie, of Covington.
Miss Maud Norman Asbury will arrive from Paris Friday to spend the summer with her mother, Mrs. James S. Asbury.
The members of Bullittaburg Baptist church met Thursday and gave the building a thorough cleaning and the pairing.

The hot dry weather is doing serious damage to meadows, garden

etc.

Mrs. Sallie Calomes, of Lexington, is the guest of relatives and friends in this neighborhood.

Miss Nell Stephens entertained delightfully Thursday afternoon un honor of Miss Kathryn Kelly of Burlington, who is the house guest of her sister, Mrs. Albert Stephens.

Mrs. Emma Holton Lyons, of Delhi, spent the mid-week with her sister, Mrs. Byrd McCord.

Taylorsport defeated Saylor Park at Taylorsport June 3rd. Score 7 o. 1. Taylorsport has been the victor of four games out of five. They meet the rearing Bromley beam at Bromley Sunday June 10. If you want to see a game really worth while don't fail to be there. Taylorsport is anxious to book games with any other fast team in the county.

# 75,000 PEOPLE SEE THE KENTUCKY DERBY

A Record Breaking Crowd of Representative Men and Women From All Over A Visit Churchill Downs Over America

### A HEARTY TRIBUTE FROM EDITOR BRECKINRIDGE

(DESHA BRECKINRIDGE IN LEXINGTON HERALD)

Pussy

ussy cat, pussy cat, what saw you there? I saw a mouse under the saw a mouse under the queen's chair."

There is much truth in the rhymes of Mother Goose, who probably knew little of the modern exposition of psychology, yet embodied in homely verse the essence of psychology. As the pussy cat that went to see the queen saw only the mouse under the queen's chair, so humans see the queen's chair, so humans see the pues drives them to note.

pose drives them to note.

\* \* \* \*

Last Saturday a wonderful throng, between seventy-five and eighty thousand individuals, journeyed to Churchill Downs, drawn by the glamour of the Kentucky Derby. More persons were gathered there by over fifty per cent than all the residents, black and white, men, women and children in the city of Lexington. They gathered not only from every section of Kentucky, but from nearly every state in the Union, and represented every vocation, every class, every gradation of social, civic, financial and intellectual life.

We have seen many race

tivic, nnancial and interest the life.

We have seen many race courses. We have seen many crowds. We have never seen so large a crowd on any race course. In fact we do not recall ever haven and the life of the life of the life of the life of the life.

large a crowd on any race course. In fact we do not recall ever having seen so many persons gathered together in one place.

And we have never seen anywhere a crowd that on the whole represented a higher or more useful type of citizenship than that crowd drawn to Churchill Downs by the magnet of the Kentucky Derby. Nor have we ever seen a more striking demonstration of good feeling, kindly consideration and fair sportamanship than was evinced there. The day was hot, the crowd was dense, the excitement was keen. Yet good humor reigned, courtesy prevailed, and so far as we saw or heard, there was not a single outbreak of ill temper, a single grosselection of bad manners, a single attercation that might easily arise under such conditions.

And there was not a single outbreak of ill temper, a single grosselection of bad manners, a single attercation that might easily arise under such conditions.

There is nothing human in which blemish may not be found But woracious picture of the Derby row oracious picture of the Derby row ora

No statement made berein will be controverted by any voraclous, fair minded person who was at of Churchill Downs on Derby Day. Yet a Louisville paper, that before it fell under the baleful influence of an adroit but discredited politician who has sought and seeks to use it for definite purposes, was a fair dispenser of straight news, published an article which seemed intended to convey the impression that there on the total which seemed intended to convey the impression that there part of what was falsely and cadwas an orgy of drinking at Churchill Downs, and that a large orgy!

"Pusy cat, pussy cat, where have proportion of the men and women gathered there were drunk. That article was copied in a Lexington paper with the heading:

"FLOOD OF LIQUOR DRUNK AT DERBY. WOMEN IN BOXES DRANK OPENLY FROM GLASS-ES; MANY WERE BLEARY-ES; MANY EYED."

There were, no doubt, persons at Churchill Downs on Saturday who drank. We wonder if there were a camp meeting of seventy-use the same would not drink? And we wonder if the Lonisville Courier-Journal and the Lexington Leader would attempt to discredit those who furnished the reason for the gathering at the camp meeting by magnifying and exploiting that fact?

nisbed the reason for the season ing at the camp meeting by magnifying and exploiting that fact?

We neither defend nor offer excuse for those who drank, neither do we assume to condemn them by exaggerated and unjustifiable statements. But we do affirm that there is every reason to praise the good order, the good temper, the abounding courtesy, of that race crowd, to rommend the attraction offered by the Kentucky Jockey Club that brought those thousands of persons to gether and the arrangements made for their safety, their comfort and their pleasure. There is no other event of which we know in America which would attract so large a crowd of finer texture, of higher character, members of which would represent more truly the best there is in American life.

There is nothing human in which blemish may not be found by the cat which sees only the mouse, and there is nothing about which fault cannot be found. But no voracious picture of the Derby crowd would fail to reveal that the overwhelming majority of the persons gathered there were in the vital essentials gentle folk, self respecting; useful, dutiful and courteous with the courtesy of courage and sportsmanship.

THE UP-TO-DATE TOWN

You do not produce modern spirit in a town simply by providing facil-tities. The facilities must be used. You may arrange the best lecture course in the state, for instance, but if the people won't attend it, it does not influence the life of the commun-

If the people won't attend it, it does not infinence the life of the community.

To create an up-to-date town, then alargede gree of publ leco ar mf bb a large degree of public co-operation is necessary in all the activities and organizations. In such a community people may not be personally much interested in all that is going on. But they will feel, when any public enterprise is started, that for the good of the town they must show interest. In that way they take hold of many undertakings which at the start did not interest them much. But as they get enlisted in such efforts, their interest grows, and attempts for a higher community life get hearty support. Then the enterprises of the town move forward on a ground swell of public co-operation to produce all the fine results of Up To Date community Living.

CLEAN PLAYS.

### CLEAN PLAYS.

Recent years have seen a vast outpouring of "sex stuff" in plays and
novels. People seemed to think the
public would take any amount of
risque entertainment. But while
many persons do have tendencies
toward dirt, yet most folks who
share that feeling will weary of it in
time.

share that feeling will weary of it in time.

In New York, which seems to set theatrical standards for the whole country, it is reported that clean comedies of the older type have had a big run for the past season. Good standard plays are said to have had a big run for the past season. Good standard plays are said to have been better patronized than ever before. Even Shakespeare's dramas, which at one 'time were regarded as sinkers, have proved popular. Wholesome studies of pure love, ambition, and achievement, will in the long run win more support than smutty stuff.

### PURCHASING POWER

PURCHASING POWER
There has been a tremendous industrial expansion in this country during the past 10 years. The purchasine, power of the public is rising. The majority of people are earning more money than they did 10 years ago. Wages are on an average from 50 to 100 per cent higher, but prices have not risen as much. Most people who work for wages can buy more goods than they did 10 years ago.

The farmera complain of existing conditions, yet as a whole the average farmer is probably better off than he was in 1913.

There is consequently today a big

sthis new trade. They will draw so many cople that the volume of sales will cut costs of doing business. They will be able to operate on a low many will be able to operate on a low many will be able to operate on a low many might take its place among the great proportunity in these prospersons days for the man who proportions sales expense to the possibilities of the times. Don't send a little thin dipper to the well, when you might he drawing the water out. by the bucketful!

At a conference of progressive edincators representing fonteen Southern the states, recently held at Little Rock, Ark, a plan was adopted by which it is hoped within the next seven years, to eradicate illiteracy in these states. Those educators have found that the prevalence of illitrey, and yis due to lack of opportunity to learn than to lack of opportunity to learn than to lack of opportunity to learn than to lack of desire to be to the thought of hamy remove munities the desire to learn to read and write. The dread of exposing an itemselves of the "opportunity" schools, which are being more and more generally provided.

It is proposed to carry a soopond hale of cotton from Atlanta, and convert it into 5,000 Masonic aprons, all eithin two days. Four hours later they will be dn sale he washington as soopswire of the Shrina. This is bringing the cartin fields of the South to the front door of the New England Mills. It may be a practical means of transportation—but who can forestell what has pappen a few years hence?

Glue and varnish are muck from the result of the sare in the state are entitled to have it settled right and without clays. I do not be a practical means of transportation—but who can forestell what has a proposed to certain seaweeds.

# BARKLEY SPEAKS

To Fair Size Crowd at Cour House---Those Who Heard Him Well Pleased.

Alben W. Barkley, candidate for the Democratic nomination for Governor, spoke at the court house in Burlington Monday afternoon. The speaking was advertised for 2 o'clock p. m., but Mr. Barkley, who spoke at Falmonth during the foremon, did not arrive until 3 o'clock a. m., where the found a crowd of one hundred waiting to hear him. He was introduced by Al Rogers, of Belleview, and made his usual and characteristic speech. Mr. Barkley is from the First Congressional District. When the late Oilis James was elected Senstor Mr. Barkley succeeded him as Congressman from that district. Mr. Barkley succeeded him as Congressman from that district. Mr. Barkley succeeded him as Congressman from that district. Mr. Barkley succeeded him as Congressman from that district. Mr. Barkley orditised severely the wholesale pardoning which has been induged in by Gov. Morrow. He also in favor of a lower tax on real eather, an increased tax on coal, better roads, better achools, and that the business affairs of Kentucky be-conducted on business basis, that the governmental expenses shall not exceed the income of our State. He is in favor of the repeal of the law permitting the Mutual system of pools at race tracks and says for that reason the Kentucky Jockey Club is against him, and for either a Republican or Democratic candidate who will not advocate the repeal of that law. He said he believed the State Highway Department was spending entirely too runch money in froor of the reduction of the tax rate on real catate and this loss to the state in revenue would be taken care of hy a tax on coal, and for this stand the coal interest in Kentucky were untagonizhs his candidacy. Mr. Barkley made a typical political speech showing that he has had quite an experience along political lines, and according to the Courier-Journal he must be classed, not as a business man candidate for Governor but one of the political speech advong that he has had quite an experience along political lines, and according to the Courier-Journal he must be classed

ago. Wages are on an average from both of the property of the people of the property of the people o

ble and let the state of Kentzevy lay her cards on the table and settle this question in the interests of justice, of equality and honesty. But, while I am willing to confer with every honest man who is interested in coal I am not willing to mytto—and I will not permit—any hired lobbyist to help settle the coal question.

"Me and obbyist to help settle the coal equestion.

"Greause there is an unseen underground system that runs like a thread through politics of every party in the state of Kentneky. These selfah foreign interests, allied with every venial and selfah influence in the state have been able to thwart the will of the people of Kentneky.

Bipartizan Labby Seen

"Underneath the surface, behind every political screen, is an organized lobby that is bipartizan, nonpartizan, and omnipartizan, and they are making an effort to control the next Legislature of Kentneky. They are seeking to dominate both political parties and nominate both candidates for governor, and so far as I am concerned I propose to exercise every onne of my strength and every tiem of courage with which God Almighty has endowed ms, to see that that bunch does not dominate the Demoratic partyof this state.

Therefore, the outstanding issue in Kentucky now is, whether the money changers shall be driven out of the temple of our state and the people turned in, or whether you will let the money changers keep possession.

"We need a housecleaning in Ken-

let the money changers keep possession.

"We need a bousecleaning in Kentucky. We need a new road commission; we need a new textbook
commission; we need new faces not
only in Frankfort but in the leadership of the Democratic party in Kentucky."

We wonder if the same housecleaning should be made in Washington where Mr. Barkley has served
his people for the past ten years?

PLANT WINDOW BOXES

PLANT WINDOW BOXES

No single " out a house a lends in the same peculiar charm and a stractiveness as do window boxes. Fresh and cool beauty spots, they give to their prettiness, the season long to window ledges and porch frails to their prettiness, the season long to window ledges and porch frails to the sides of ortside steps, to the windows of offce buildings, school boxes, grages, and many other places.

If you cannot buy them readymade a carpenter will make these far poctom of them at six inch intervals in double rows to provide for drainage.

Whether you plant them with flowers or foliage depends upon the location. Foliage will dourle in the shade while flowers need more stunlight. Be sure that the soil "a well," a chilized.

The Vinea Vine is a favorite window box plant. The wandering Jew will grow in the shade and makes a mass of green foliage. English Ivy and trailing Latans are very good for the purpose. Asparagus and Boston ferns are good, a small rubber plant can be used at times to advantage.

Begonias and geraniums lend brightspotsofcolors.M anyvarieties of petunias are delightful for window box growing. Heliotrope, Lebelia and Marquerites are favorites for this sort of planting. Polyanthas bush baby rambler rosse—will do well with the proper care. Sweet alyseum and sandytuft are good order plants.

The Chings bandite rill learn here.

This year the income of the United States, or rather of the people, is ex-pected to reach sixty billions of dol-lars.

Ars.

Sixty billions looks like a large sum, but in reality it is a small amount considering the personal valuation the average man places upon himself and his time.

### OUR TREND OF THOUGHT

OUR TREND OF THOUGHT

The tomorrow of a nation may often be predicted by its trend of thought of today. Take our own country as, an illustration.

We have sublime faith in the future of this country, because we are loyal—or at least most of us are. Therefore our country will be preserved and we will press forward to greater material accomplishments in the future. It is nour blood.

But morally, it is a different story. Our thoughts are like water—constantly seeking a lower level.

Ant movers hard, uses his brain, is ancreasful in business, and—becomes the possessor of much wealth. Thred and works hard, uses his brain, is ancreasful in business, and—becomes the possessor of much wealth. Thred and worn, he seeks relaxation, and his mind turns to the young and the fresh. There is always a "chickend" ready to accept his presents and relieve him of a part of his cash.

It requires wealth to move in high society, but high society with its giltter is attractive to many women. If fashion dictates that she drink highballs and cocktails, and sport diamonds and pearls in profusion, and wear a shoestring for an evening yown, she bows to the ultimatum and sinks her womanhood in the mire of the social whirl. Her finer points are blunted, and those left to her are of minor value.

And the boys and girls, seeing the pace set by their parents, hit the high spotsh an effort to keep up., Of course, there are many good deeple who are doing they times to overcome these conditions, but they might as well attempt to stem the tides of the seas or divert the course of a tornado in its fury.

Can you predet the tomorrow that faces this country?

## EXCESSIVE DISTRIBUTION

COSTS

Mr. Roger Babson, whose profession is the collection and co-ordination is that collection and co-ordination of statistics relating to prductive and distribution costs, discussed in the American Magazine the wide dicepence between the prices paid to producers and the retail prices paid by consumers. As the consumers are the prices paid by consumers and the retail prices paid by consumers, he told of silk man facturer whose wife was obliged to pay \$12 a yard for some goods that he himself sold for \$2 a yard. A been York manufacturer of hats pointed to some in a department store window marked \$15, which he sold for \$8.55. Hosts of similar illustrations could be given for any line of industry.

If these statements are based on prevailing conditions they would indicate that there is something radically wrong with present methods of wholesale and retail merchandising That they are not so generally true as Mr. Babson asserts was proved by the elaborate investigation into the profits of merchants made by a congressional committee, which found nothing to suggest that increase in price of 400 per cent above original cost were made in the source of distribution.

Mr. Babson might have gone on

cost were made in the source of distribution.

Mr. Babson might have gone on into a comparison of the prices of farm products at the farm and the prices asked in the open market. He fould have produced even a more illuminating illustration of the distribution costs. A recent investigation in New York state showed that apples sold at \$8 per barrel, while the house wife paid 5 to 10 cents each, or from \$15 to \$25 per barrel. Long Island potatoes sold on the farm at 60 per bushel. In the New. York market they sold for the New. York market they sold for \$2.00, per bushels. And this average will hold good for almost all farm produce. It is urually cesimated that the average coet of realing is about 30 per cent show the price of the gods, but when this 30 per cent is pyramided by the original buyer, the wholesaler the jobber and the retailer it is easy to explain the reasons why. Exactly the same condition has been reported by the commission examining into coal prices.

The Association Against Prohibition, composed of some 500,000 mem bers, has issued an appeal to elimin-ate from public life office holders in wet districts who have betrayed their wet districts who have betrayed their constituents by voting dry, regard-less of the effect on the party. The appeal calls for the repeal of the appeal calls for the repeal of the the income tax by a Federal excise tax. It has been estimated that a scent tax on a glass of beer will produce a revenue of over a billion dollars annually, and if applied to wine and whisky, the income tax. A big fund is to be raised to carry on this work and announcement is made that support to wet candidates for Congress will be given regardless of Congress will be given regardless of party. This means that the election next fall, particularly in debatable districts, will be hotly contested. AN EXPLANATION

"Had you any reason to doubt the girl's honesty?"
"None. While she was with us I missed seven silver spoons, a gold bracelet, a lot of preserves and—"
"That will do. Why did you say you didn't doubt her honesty?"
"Because I didn't think she had any honesty to doubt."

The Usual Golfer's Experience 'You seem to enjoy golf."

"I do."
"I do."
"How long have you played?"
"Fifteen years."
"And have you always enjoyed it

50?"
"No. It took me fourteen years to make up my mind that I would never be the amateur champion. After that I could settle down and get some fun out of the game."

OLD GRANARY BURYING GROUND

OLD GRANARY BURYING GROUND

Within the confines of the older (eastern) states of this Union there are many ancient, quaint, and hallowed burying grounds, most of which closely surround or adjoin a much-loved chapel on the confines of these. Is that precious plot of ground known as Old Granary Burying Ground, mear the present business center in the city of Boston.

The town granary once stood on this site—hence this peculiar name. The burying ground was established about the year 1640.

Within this well-kept enclosure which is surrounded by an imposing protective fence, lie the remains of three signers of the Declaration of Independence, nine governors. Peter Fancull, that public-spirited individual—who presented the city the famous hall which bears his name; Paul Revere that partiot who, on April 18, 1775, warned his country of the macroling of the British troops towards Lerington and Concord, and other nutables of their time.

Probably the most conspicuous heads stone that graces the shaded covering of the British troops towards Lerington and Concord, and other nutables of their time.

Probably the most conspicuous heads stone that graces the shaded covering of the British troops towards Lerington and Concord, and other nutables of their time.

Probably the most conspicuous heads stone that graces the shaded covering of the British troops towards Lerington and Concord, and other nutables of their time.

Probably the most conspicuous heads and the stone that graces the shaded covering of the British troops towards Lerington and concern, and the reset of the most important literary man of his day, in loving ribute to the memory of his father, Josiah, and his mother, Abiah.

An outstanding feature of the stone which mark these anlest graves are quaint, indeed, and peculiar in the light of present-day custom. An unusual one reads:

Here lyeth ye body of John Downing, aged about 53 yrs., dec'd April ye 19, 1634.

I bargain with Christ for room below, He grants a mansion in his upper storie: Thus God gives more than we do ask or know, Instead of grace uninterrupted glorie.

Another:

Stop here my friend and cost an ey As you are now, so once was I; As I am now, so you must be, Prepare for death and follow me.

A good name is better than precious ointment. (©. 1923, Western Newspaper Union.)

# BOONE CO. RECORDER | EGG PRODUCTION BOOSTED | BY GOOD CARE OF PULLETS

Lexington, Ky. — Giving growing pullets the right kind of feed, care and attention during the coming pullets the right kind of feed, care and attention during the coming summer months is one of the surest ways for farmers to have full egg baskets next winter when prices for eggs are highest, J. R. Smyth, poultry extension specialist at the College of Agriculture says. Pullets that are mandled right in the next few months will start laying when they are from six to seven months old, while those that get only average attention will not start laying until at least three months later. Proper care of pullets during the summer means not only earlier production, but also eggs that are laid in the fall and winter when prices our them are best, Mr. Smyth points out.

when privace our them are best, Mr. Smyth points out.

"All growing stock should be separated from the rest of the flock and put on range, in ofder that it will have a chance to grow out normally. Later, when the chicks reach frying size, the pullets and cockerels should be separated, if possible, and all the cockerels except those that to be kept for breeding purposes sold. The pullets should then be put in a good colony house that will protect them from rains and wind and should have good range or green feed. After that their worth as egg producers will depead on giving them plenty of fresh water and the right kind of feed for the rest of the summer.

"Successful poultrymen have all found that any good laying ration makes a satisfactory feed for the growing pullets. A grain mixture made up of 70 pounds of corn and 30 pounds of wheat, or 70 poundss of corn and 30 pounds of oats, has given good results on the college farm. The pullets should be given as many pounds of grain as they eat of the mash provided for them.

"A good mash can be made of 150 pounds each of bran and shorts and pounds and shorts and pounds and shorts and pounds of prain as they eat of the mash provided for them.

mash provided for them.

"A good mash can be made of 150 pounds each of bran and shorts and 100 pounds each of corn and tankage. If as much milk as a gallon for every 40 pullets can be had, the tankage can be left out of the mash. The mash should be kept before the pullets at all times either in hoppers or self-feeders."

# KENTUCKY RANKS 18TH IN RAISING OF SHEEP.

Unrest seems to be increasing in this country, particularly among the kids who have to go to school oricrus day.

Claimed that men should not have to wear stiff collars, but how otherwise would some folks' weak heads get held up?

The craze for non-stop dancing seems to be going by, but the men art saways looking far prode finnshop muffin makers.

If you must be a pessimist put off being one until tomorrow. That will give you a long time for optimistic waiting.

Some men pride themselves on their figures, but they are most valuable when they have a dollar mark in front of them.

People who find fault with the "idle rich" don't seem for realize how awfully hard they are working to have a good time.

By remembering that charity cores a multitude of sins, we can read ity understand why some people are so everly generous.

Notable Progress is Reporte ment to Replace Scrub With Purebreds.

(Prepared by the United States of Agriculture.)

There is every reason to believe that the seplacement of scrub and grade aires by purebreds is on the increase. Reports received by the United States Department of Agriculture from country abow that the "Better Sires—Better Stock" movement is having a noticeable effect. A recent statement by M. G. Lewis, county agent of Rockbut 2ge country, Va., is typical of a large number.

"The purebred bull movement."

large number.

"The purebred bull movement," says Mr. Lewis, "is progressing rapidly. Since January 1, 16 farness affer disposed of grade or scrub bulls and are using registered bulls instead. On the other hand, there are no less than 50 men in the county whe still persist in holding out against the progress and development of the live stock interests of the county by keeping inferior grade or scrub bulls. I have a list of 50 owners of such bulls. Some of these men have grades that are fairly good individuals, while others have scrubs that are the worst kind of a disgrace to the community and to the county.

"The cost of a good registered bull is so small now that it is a mystery why any farmer will keep anything

Better Dairying Results Winere Stres Like This Are Used.

else. Many records have been kept during the last few years to prove out the actual value of a purebred bull in dollars and cents."

bull in dollars and cents."

Some of these actual figures were obtained recently by the Department of Agriculture through an inquiry sent out to more than 500 farmers throughout the United States. These men gave it as their opinion that in all kinds of farm stock purebreds have an earning power more than 40 per cent better than common stock. It is noteworthy that in the case of duty cattle, whose productive power can be easily measured, purebreds were considered to be 478 per cent better than common cows. The lowest percentage given for any kind of stock was \$8.8 per cent.

A town that forms a reputation for having high grade schools gains

A town that forms a reputation for having high grade schools gains in two ways:

First—It attracts a class of people who are determined to have specially good advantages for their children. There are a lot of folks whose residence is determined principally by this factor. They will not put up with a town where the schools are inferior, and they will go to much expense and trouble to locate in a place where a special effort is made for good schools.

Second—There is a tremendous cumulative effect from good schools on the population itself. A large part of the graduates of schools in such a place will become attached to a town that values aducation so highly and will settle down in that location. This produces a greater sentiment of home loyalty. It develops a population trained to modern ideas of civic effort. These people that have had the advantages of good schools have developed a higher range of intellectual capacity and are able to plan their municipal affairs more wisely. Good schools pay.

deepen the spiritual and social fellowship which should exist in community fie. It is to be hoped that the future will witness many more such events, the same not necessarily being confined to any particular church, for any gathering of such nature, evincing a strong community spirit must inevitably result in a spiritual community.

ity spirit must inevitably result in a spiritual community.

It would not be fitting to close without reference to the painstaking labors Rev. Adams has bestowed upon the Burlington Baptist church since accepting the pastorate less than a year ago. Under his earnest and tender nurture much has been done toward advancement, first in a spiritual way, but also in every direction which has a tendency to promote the well-being of all. Much receit is due to his skillful handling for the success of Saturday night's program. Of unquestionable sincerity, it is easily discernible that his whole heart and soul is in his work, yet the passession of breadth of mind precludes his holding a narrow or preverted view of the secular Adams has endeared himself to all Adams has endeared himself to all who admire and respect manhood at its best and personal contact with him, not only as a immister, but as a man, should serve to inculcate upon anyone higher ambitions and deeper desires for the better things of life.

### COMMENCEMENT

### Exercises At Petersburg Big Affair and Muchly Enjoyed

The annual commencement exercises of the Petersburg Graded School is always an exceptional, inspirational event in the life of the Petersburg people. We are justify proud of our school and of the public spirited life of the community that makes possible a school of such a character. The Baccalaureate services were held in the Christian shurch on Sunday evening May 6th, with the following program: Invocation by Rev. Whitaker of the M. E. church, piano solo by Mrs. Alberta Stephens, the selections and accompaniments being rendered in Mrs. Stephens usul, capable and satisfying manner. Vocal solo by Mrs. B. H. Berkshirer, whom it is always a pleasure to hear, and who so willingly responds to a call. In response to the invitation of the graduating class, the sermon was delivered by R. H. Carter the Principal of the Graded School and the teacher of the graduating class for three years.

The concluding exercises of the School year was the commencement program held in the Christian church Friday evening May 11. Dr. A. D. Harmon of Translyvania College, Lexington, Ky, delivered the address to the graduates. We have had few addresses so pleasing, so instructive and so masterly, as that of Dr. Harmon'. The six graduates in a creditable manner. Of the six graduates in addresses of their own selection acquitted themselves in a creditable manner. Of the six graduates, Lucill-Hoffman, Laura May Mthews, Hele Burns, Karl Keim, Richard Hensley and Robert Nixon, three of the six will enter institutions of higher learning, this summer! and fall for further preparation for their life work. The Invocation was delivered by Rev. Whitaker. Music was furnished by a five piece orchestra from Aurora, Ind., directed Sy Er. Fyank Hubbard.

Diplomas were not only presented to record attendance were presented to record attendance were presented to

THIS YEAR'S GARDEN

There is always a scarcity of good home grown celery, despite the fact, that there are many sections in Kentucky where excellent celery can be grown, especially the late varieties. In fact, most average gardens will produce very good celery, if a reasonable amount of care and attention is given the crop. This means that the ground should be in a good state of cultivation, hereing been plowed deep and thoroughly worked.

About the middle of July is the time to start transplanting celery to the open field. Since the plants are rather delicate, transplanting should be done under conditions as favorable. The ground should be moist and the transplanting done on a cloudy da, if possible. If there is a noticeable lack of moisture in the ground at the time the plants are set in the field they should be watered soon after setting. The plants should be set from six to eight inches apart in rows that are from three to five feet apart. Many growers prefer digging a shallow trench from three to five inches deep in which to set celley inches deep in which to set the plants. The gardener wo wishes to concrave space can set celery between rows of early potatoes.

Thorough cultivation is necessary in growing celery, since as much

tweeen rows of early potatoes.

Thorough cultivation is necessary in growing celery, since as much moisture must be saved as possible. If the plants are set in a trench th, first cultivations should be towar'the rows, so as to gradually fill uy, the trench. The dirt is then gradually worked toward the plants until they are mature and the blanching begins.

the system and the banching begins. It usually is not practical for the average farmer to raise his own celery plants, especially if they can be bought at a reasonable price. Well grown plants from three to 5 inches tall are preferable to larger ones for transplanting. It is ather a common practice to clip off part of the leaves of the plants when they are set in the open field to prevent the loss of moisture.

GOOD ROADS.

Associated with the extraordinarily rapid development of the automobile and the motor truck within the last few years has come a nation-wide awakening to the necessity of good roads. Incidentally, the building of good roads reads are the second and the second reads are the second reads are the second reads are the second reads. good roads. Incidentally, the building of good roads carries with it a standard of higher living, economic advancement and growth in educational and other departments of life. The road which is almost impassable in summer because of deep sand, or quite impassable in winter because of our fathornable mud, is no longer countenanced if there seems the slightest possibility of bettering it. On the other hand, the well-built highway exercises an influence far more than economic upon the community through which it runs. lifting the péople literally out of ruts of mental and social stagnation.

The Modern Woodmen held a big meeting at Peteraburg last Monday night, at which eleven candidates were admitted to the order. A team from Aurora, Indiana, put on the work. Quite a number of members from other lodges were present. A mice lunch was served and a general good time was had by all present.

"Duke of Burlington" the Pointer dog belonging to Garrett W. Tolin won 3rd prize at the Second Annual Bench Show of Oho Field Trial As-sociation, held at Madison Park, Cin-cinnati, Decoration Day.

Edward Hawes, of Covington, spent Saturday night and Sunday with his mother and sister.

Harry Stephens, wife and little in, of Erlanger, were Sunday after non guests of Mrs. Sarah Carpenter

M. G. Martin and wife, of Flor two, were Sunday guests of W. R ogers and sisters.

FRIENDS
(By Mrs. J. W. Camp ell)
Perhaps you've heard some peop say
New friends are not like old;
Eut as for me, I've always found
All true friends are pure gold.

o many towns I've called my home,
I've gone from place to place.
But never yet have failed to find
In each a friendly face.

la mountains, Blue Grass Country,

They're just the same to me, Their hand-class, tear drop, teade All speak their sympathy.

Many blessings come alike to all.

The old friends and the "New,"
Love them such and always shall
Because they're tried and true.

### TUBERCULOSIS TEST TABLETS

ered Big Aid in Campaign for Eradication.

(Prepared by the United States Department of Agriculture.)

The United States Department of Agriculture announces the perfection of an epparatus through the use of which tablets to be used in the optimalize test for tuberculosis in cattle may be manufactured in scuilcient quantities to supply the demand. The material used in making these tablets takes up moisture from the air so readily that unless atmospheric conditions are ideal it is impossible to shape the material into tablets. In practice it was found possible to manufactured them during only about thirty days in the year, until the new apparatus was devised.

The ophthalmic test, while not official, has become very important in the fight against tuberculosis in cattle, and several million tablets are now needed annually to supply the demand. Under the former system of making them only when the humidity and temperature of the air permitted, it was impossible to keep up with the demand.

The apparatus, which was designed.

impossible to keep up with the de-mand.

The apparatus, which was designed in the bureau of animal igdustry, con-sists of a specially constructed, closed chamber in which air is cooled and dried by having the molsture frozen out of it by circulating over brine colts. The air then passes over elec-tric heating colis, which raise it to the proper temperature, without changing the moisture content. This air is then supplied to a working box, where the tablets are to be made. This box is arranged to admit the hands of the operator without opening

it to the outside air, the temperatur

it to the outside air, the temperaturbeling regulated by means of a thermostat.

The new device enables the department to make test tablets in sufficient numbers at any time of the year, regardless of atmospheric conditions, and is an aid in the nationwide campaign for the eradication of tuberculosis in cattle. This same means of regulating the relative humidity may be used in making other medicinal tablets than those used in the tuberculin tests.

### EASY MATTER TO UNDERFEED

Are Often Neglected During for Season When Feed Prices Are High.

Are High.

During the winter mouths, with highpriced feeds, it is an easy matter to
underfeed the cow. An animal will
use so much feed for maintenance regardless, of whether or, not she produces any milk. If milk production is
desired, she must be fed enough to
produce it, above what is required for
her maintenance. A thousand-pound
cow needs 20 pounds of good corp
stage and eight pounds of clover hay
or, its equivalent simply for body upkeep. If milk is expected, she must he
fad above this amount to produce, the
heavier producing animals requiring
the most feed.

### DECREASE IN FLOW OF MILK

he tendency on the part of the ry cow to give a decreased ficw of a when bold weather approaches is to natural causes. Absence of relient feed, together with exposure-hilly winds, are often responsible a sudden "drying off" in a cowie a why successful vinter usgement of the dairy herd calls rations of succulent feed, together a protection from the elements.

for the-By JUSTIN WENTWOOD

Ch. 1921. Western Newspaper Lunear.

The Fields had heen married three years. They lived in a nice housa, at Springfield and helotyged to the Country club. They worshiped each other. Of course there had been that had time about a year after they were married, when Harry met his old fame, Lydia Grant, whose husband was away on a four months' business trip to the West. They had realized that they still cared, and there had been something of a filtration. They had talked it over and, like sensible people, had agreed not to meet again. All through this Harry had loved Amy fust the same. A man can love two women at once. A woman can't—they say—love two men. Amy, of course, had never dreamed of what Harry was going through. Their life flowed placidly on.

Every evening he came back from the city, kissed her, and sat down to supper. Every morning he kissed her and departed. They were an ideal couple, everybody said.

And now Harry Field had caught Lyman Grant kissing his, wife on the plazza of the Country club.

It was months since he had seen Lydia, and he had always felt guilty when he meet Lyman; but now it was all washed away in a fury of resentment against Limself. He had been such a fool! He had given up Lydia a second time for Amy's sake. And this was his reward—a fool's reward! Amy came back, flushed, into the big room, and moved to her husband's side. Lyman moved, toward 'them.

"Yes, do come," said Harry, old man. I must try and ron over in the car with Lydia to see you soon."

"Yes, Culu's not here to night?"

"Yes, Culu's not here to night?"

"Yos, Stenda ose you and your wife looking so well, Harry, old man. I must try and ron over in the car with Lydia to see you soon."

"Yes, do come," said Harry, it was these sickening amenities that a man had to stand for. He couldn't do anything about it, mu me had to consume his own smoke.

He had a feeling in the ensuing days that life was the cheapest kind of mockery. He hated all these people. How many of them, he wondered were engaged in just he same sort of nas

engaged in just the same sort of nasty intrigues? How far had Grant gone with Amy?

She began to notice the change in him. At last she spoke:
"You don't seen so happy as you used to he, dear."
"You?

She just her arms about his neck.
"Yothing."
"Yothing."

"Something is wrong, Harry, I wish you'd tell me. We mustr't mare misunderstandings."

"Oh, very well. I saw Lyman Grant kissing you at the club that night."

She put her hand on his shoulder. "Poor Harry! Has that been upsetting you?"

"Well, what do you suppose? I'd like to thrash the scamp."

"Well, what do you suppose? I'd like to thrash the scamp."

"Harry, dear, we both meant you to see. We each had our own motive. You see, from my point of view, 'our happiness has been a little too perfect, hasn't it?"

"You mean you and that—that blackguard contrived that little setting?"

"You mean you and that—that blackguard contrived that little setting?"

"You mean you and that—that blackguard contrived that little setting?"

"You see, you were always so sure of me. Oh, Harry, don't you understand that amarriage can be too ideal? Ours has been. I wanted a husband who would realize that other men might fall in love with me. One who would always be on his guard, witching over me, steering me away from temptation."

"I see," said Harry grimly.

"Then Lyman had his motive, too. You see—oh, Harry, don't you suppose I knew and he knew and every-body? A ren't these things shouted from the housetops?"

"What do you mean, Amy? His conscience smote thin Upon the verye of discovery.

"Why, about you and Lydia, dear."

Oh, you don't know how! sourced during those weeks, and never a word to you, of course. My heart was nearly broken.

"Poor Harry, I know you couldn't help yourselves, and you did decide wisely, didn't you! Stut—you see, my happliness and Lyman's were in the balance all that time, and so that night—well, we had our little revenge on you. Will you forgive me?"

And he forgave her and went out bewildered. Could a man ever understanding that the savor lay.

Can't Best the Women.

Dorothy and her mother were visiting Uncle William, who was very wealthy. Dorothy was interested in heathens, so one morning she said. "Uncle, dear, will you please give me something for my missionary box?"

Uncle William playfully threw on the table a dime, two quarters, and a five dollar bill, saying, "There! You may have which you like of the three."

The child studied the money for a few momenta. Then she said, "Mother always tells me not to be greedy, at "It take the littlest one, but please wrap it up in that crinkly bit of pa per, uncle, so I won't lose it."

### FIXED EGG-LAYING RATIONS

ultry Keeper Should Determine Feeds Best Suited to Conditions and Prices.

Feeds Best Suited to Conditions and Prices.

(Prepared by the United States Department of Agriculture.)

All the following rations have been used with good results at the experimental farm at Beltsville, Md., conducted by the United States Department of Agriculture, but the poultryman should choose the ration best adapted to local conditions and prices. Feeds not included here may be added or substituted on the hasis of their comparative analysis, provided the meat scrap or animal-protein feeds are not replaced by cottonseed meal or other high vegetable-protein feeds. All changes in the feed should be made gradually, as sudden changes may decrease egg production materially.

Ration No. 1, Mash.—16 lbs. cornmeal, 6½ lbs. meat scrap, 1 lb. orats. Ration No. 2, Mash.—2 lbs. cornmeal, or barley meal, 1 lb. bran, 1 lb. middlings, 1 lb. meat of share.

Ration No. 2, Mash.—3 bbs. cornmeal, 2 lb. meat scrap, Scratch mixture: 2 lbs. cracked corn, 1 lb. oats. Ration No. 3, Mash.—8 lbs. cornmeal, 5 lbs. meat scrap, 5 cracked mixture: 2 lbs. cracked corn, 1 lb. oats. Ration No. 4, Mash.—9 lbs. cornmeal, 5 lbs. middlings, 4 lbs. bran, 2 lbs. cortneed, 5 lbs. middlings, 4 lbs. bran, 2 lbs. cornmeal, 5 lbs. middlings, 4 lbs. bran, 2 lbs. cortneed corn, 1 lb. oats. Ration No. 4, Mash.—9 lbs. cornmeal, 5 lbs. middlings, 4 lbs. bran, 2 lbs. cortneed corn, 1 lb. oats, 1 lb. wheat, 1 lb. oats, 1 lb. barley.

Ration No. 5, Mash.—1 lb. cornmeal,
1 lb. bran, % lb. meat scrap, 1 lb.
middlings, 1 lb. ground outs Scratch
mixture: 2 lbs. cracked corn, 1 lb.
wheat, 1 lb. oats, 1 lb. barley.
Ration No. 6, Mash.—3 lbs. cornmeal, 1 lb. bran, 1 lb. middlings, ½
lb. meat scrap. Scratch mixture: 2 lbs. cracked corn, 1 lb.
wheat, 1 lb. oats, 1 lb. oats, 2 lbs. cromeal, 1 lb. bran, 1 lb. middlings, ½
lb. meat scrap. Scratch mixture: 2 lbs. cracked corn, 1 lb.
wheat, 2 lbs. cracked corn, 1 lb.
wheat, 1 lb.
oats. Feed with table scraps or cooked
vegetables.

oats. Feed with table scraps or rooked vegetables.

Ration No. 5 is adapted especially for yearlings or old hens of breeds inclined to get too fat, such as the Plymouth Rock, Orpington and Wyandotte. As comment, fed with ment scrap, is very fattening, these two feeds are cut down in the rations.

With ration No. 6 feed all table scraps available, or vegetables at the rate of 5 pounds daily to 30 hens. Five per cent bone meal may be used in any of these mashes, and the quantity of meat scrap reduced accordingly, or 2 per cent of home meal may be added without changing the mashes.

### FEEDS FOR BREEDING GEESE

A good mash for breeding geese evisities of equal-peris-or bran, middings and ground oats mixed with milk. This can be given in the morning. Corn should be fed at night. Breeding seese may become too, fat on a diet limited to corn. "Their diseastive system is better adapted to mash than to whole grain. If geese become too fat it injures the hatchability of the eggs. A mash consisting of equal peris by weight of cornmeal, ground cats and bran is also recommended for geese.

Provide roosts and dropping boards in the henhouse.

Some method must be found of keeping the chicks comfortable.

Don't feed chicks until they're from forty-eight to seventy-two hours; old.

The best care to give a sitting hea is to leave her alone—she knows her business better than most men know it.

It seems that there is almost a distinct and separate hat for every woman—so wide is the choice in trimmed millinery. Designers turn out new ones every day. Here are three different types of hats which may be found infinitely varied. At the top a loyely straw, in orchid timbo is notircled with a wreath of tinted feathers. Below it a small, embroidered cloche, supports a thin veil that falls to the shoulders and finily a hat of fancy brown straw, faced with henna crepe, bears a gay wreath of lacquered flowers.

## WASHINGTON COMMENT. FARMERS MAKE CO

A phase of our immigration prob-lem which merits more attention than it gets is the hardship worked upon hopeful men and women who leavs their foreign homes and come to America, hoping for the blessings of freedom and franchise, only to be turned back at the power to entry or cause of quota estrictions or inabil-ity to pass the mental, moral, and physical tests which our wise laws impose.

cause of quota estrictions or inability to pass the mental, moral, and physical teats which our wise laws impose.

Various plans have been propsed to mitigate the troubles of such unfortunates. One such plan proposes Therican inspectors at ports of embarkation, who would examine all would-be Immigrants and admit or reject abroad rather than here. The plan is open to several objections, such as the animosity of foreign governments to a selective process on their own shores which would keep at home undesirables and send us only desirable citizens; also the difficulty of maintaining an intelligent and high morale force of inspectors abroad at any rates of pay which the immigration service could expect to obtain from Congress.

Another plan is the proposal to make the steamship companies responsible and fine every ship a thousand dollars for every immigrant brought over who has to be turned back. The plan looks attractive, but seems somewhat on a par with fining a railroad company if it transports a criminal from one town to another, and has so many lefal difficulties that it hardly seems possible it will be attempted.

Whatever the answer, it obviously cannot be that of the sentimentalist who craves the admission of any given "pittiful case" in spite of the law. Our lest duty is to our own country, not the unfortunate victim of a dre "1" "in the u

## DON'T KID YOUNGSTERS

A common expression is, "I won't build now as cost of construction is too high."

"""
""" commes be increased pupportionately to cost of construction and the man who does not demand every mew fangled contraption can build with his present-day income and have larger margin left than would have been possible in 1913.

Don't blame the present building costs entirely on to lumber and labor. Remember that in nine cases out of ten your ideas of what you want have expanded with your income and you would not be satisfied today with the 1913 bungalow.

Taxes at \$100, insurance at \$30, renairs and upkeep at \$100 and 7 per cent interest on a \$5,000 house amounts to \$580 a year.

If you pay \$50 a month rent for nine years you have \$5400 worth of rent receipts worth nothing. If you put \$80 a month into a home for five years, even if it was necessary to cut out a few theater parties or clothes to make up interest etc., until the property was paid for, you would have a roof over its head which could not be taken away from them for failure to pay a month's rent.

Don't kid yourself, you can own a home as well today as you could ten years ago if you want to. It is not he cost of building that will prevent you, it is the cost of satisfying your inflated demands for luxuries and modern extravagances.

Whn would suffer most if the I. W. W. racicals had been successful in desworalising operating industry on May 1?

The working men and communities where the industries are located.

A man who listens to the talk of an I. W. W. is on a par with the man who looks down the muzzle of a loaded gun while fooling with the trigger W. at can the I. W. W. give the American workmen but demoralized government and unemployment.

Why dow't the I. W. W. go to Russia? Lecause the workmen there are star ing to death under the policies which they advocate here and an I. W. W. could not fill his stomach here off the 14° or of others, he might have to WORK and starve.

The I. W. W. agitators have just been turned down hard but they will not profit by the lesson. They should be rounded up and sentenced to WORK.

From figures made public by Jas. P. Lowis, State Banking Commissioner, Frankfort, June 5th, the resources of 121 Building and Loan Associations of Kentucky Increased from \$40,992,318.55 at the close of the calendar year 1921 to \$46,428,701.1 for the year ending December 1922.

## OPERATION DAY

Farmers have been in more or less complete control of many of the 1923 legislatures in the U. S. with the result that volumes of new laws to benefit their positions have been enacted. Most notable gains came in the direction of co-operative marketing in the direction of co-operative marketing in was. These permit agriculturists to handle the marketing of their own products, increasing their profits of ter times, and in certain instances lowering the cost of farm commodities.

Six states were added to the list of those which have adopted the standard farm bureau co-operative marketing act—Colorado, Maine, Minnesota, Missouri, Ohio and Washington Legislatures of two other states, in diana and New Jersey, enacted co-operative marketing laws which met gubernatorial veto. Altogether the standard act has now been adopted by 23 of the states, those previously laving passed the act being Alabama Arizona, Arkansas, Georgia, Kansas, idaho, Kentucky, Louisiana, Mississippi, Montana, North Carolina, Tennessee, North Dakota, South Dakota, Texas, Virginia Several other legilatures still in session have co-operative marketing bills to act upon.

The farmer has begun to learn the lesson of modern business, which is specialization. In adopting group production and distribution, he has organized co-operative societies and is specialization. In adopting group production and distribution, he has organized co-operative societies and is specialization. In adopting group production and distribution, he has organized seventy-four of these groups embracing 800,000 farm families.

Cotton growers have formed co-operative associations that grade their own product and sell symmions. Cotton growers have formed co-operative sasociations that grade their own product and sell symmions that grade their own product

### ALLIES OF INDUSTRY

The public utility industry has become so large and public demands so exacting that the industry as a whole has probably the best management of any line of industrial activity, and farmisher service to the consulate on the smellest margin of profit.

ity, and farmishes service to the confit.

Public Utilities are taking the public into their confidence and asking the neeple to share with them in ownership of securities and earnings, thus developing the customer-ownership idea.

To illustrate the magnitude of improvements that are being made in the utility field for the benefit of the public, it is interesting to note threadle that is being laid from Chicago to New York by the Bell Telephone System at a cost of \$35,000,000. Storms that rage in the winter will not interfere with this cable. The convenience to the public will be inestimable but ittle will the man making a telephone call realize the amount of money that was spent to perfect the service rendered to him. And this is just one cable from New York to Chicago. Electric companies are making similar Improvements and the citizen today has a his command for a few dollars permonth, conveniences in his home or office which literally represent billions of dollars worth of equipment. The very elements themselves have been harnessed and tames to do the bidding of mankind.

The Burley Tobacco Growers Ca-

The Burley Tobacco Growers Cooperative Assoliation mail out checks last week to the tobacco growers, members of the Pool. The checks to the individuals were for eighty per cent of the first payment and amount ed to considerable to the growers. The unsold tobacco of the Association is for the insot part of the higher grades. When this tobacco is sold another large watermelon will be cut and passed around to the Burley boys. ê

## INCOME RETURNS FOR STATE DROP

FOR STATE DROP

According to figures made public at Washington, D. C., the income re turns for the State of Kentucky for the year 1921 shows that income returns have dropped—69,486 paid \$4,297,470 for 1921, while 78,255 paid \$7,22,098 for 1920. The somewhat in step with the country as a whole, with 6,662,176 personal return in 1921—597,768 fewer than during the preceding year.

But another thing evealed by the figures is that the average net income of Kentuckians, based on the returns filed, was only \$2,767 if 1921 compared with \$3,116 in 1920.

The average tax to the 69,498 ken tuckians was only \$62; while the tax per return average \$93 in 1920. It was \$168 in 1918 and \$128 in 1919.

Two Big Incomes In State.
Only two persons in Kentucky 11-ported incomes from \$150,000 and three from \$90,000 to \$100,000. There were 25,498 who reported—incomes from \$1,000 to \$2,000 to \$3,000. Only 4,682 reported incomes less than \$1,000.

Total net income reported to Kentucky for 1921 was \$192,373,937 according to figures. This was something of a drop from the \$243,879,230 of 1920. And it was reflected in the tay collected—\$4,297,470. from Kentuckians in 1921, against \$7,292,098 in 1920.

### . THE JUNE WEDDINGS

THE JUNE WEDDINGS
Tradition says that June is a good month to get married in, and the society reporter usually finds her time occupied in this busy month with reports of welding festivities. While she should not use up all her adjectives in writing up these aplendifectives in writing up these aplendifectives the well-benefit in the same timegenerate batchelor that these affairs make a very pretty picture.

these affairs make a very pretty picture.

The most beautiful element in it is not found among the flowers and music and bridesmaids and other stage secerey of such a function. If the young people are the right kind of filks, and have really fored a deep and lasting attachment, there is an element of faith and hope in this union that rises above all else.

Two human lives that will sacrificall other things for mutual affection transcend anything of material beauty that the decorators can provide.

## WHY BE A SUCKER?

The newspapers have recently been filled with numberless accounts of stock swindling operations. The old saying that a sucker is borne every minute seems to be more than borne out.

out.

The average man knows nothing about investments and too often seems adverse to securing advice.

If the uninformed citizen before giving up his hard-earned money for a scheme about which he really knows nothing would consult a bond house or banker and learn the actual facts in the case, the fake atock seller would soon disappear.

## SHORTAGE OF FARM HELE

SHORTAGE OF FARM HELP
Complaints are heard in many localities as to shortage of farm help.
Some farmers may agree with those
manufacturers who think the immigration law is too strict, and that
more aliens should be admitted to
this country.

The farmers however are not as a
rule enthusiastic about alien help
that can not understand English. It
is not merely annoying, but extremely interrupting-to-work, when you
ask a man to go up to the barn to
get a monkey wrench to mend a machine-with, and he comes back in
half an hour after a long search, with
arake or a hoc.

The real trouble is not the lack of
that kind of laborers. It is that
many of our boys who understand
the meds of farm life and can perform its tasks with the minimum of
friction, are hustling to cities to get
high wages paid just, now by factories, which ay or may not be permanent.

The boys would not quit the coun-

ies, which ay or may not be permanent.

The boys would not quit the country towns in any such numbers, were it not that farm conditions have not as yet recovered the prosperity that aha come hack to the manufacturing-industries. While the factory work ers are getting high wages for a short working day, the farmers are still having to sell their product for a figure fairly well down toward the prewar costs. But the prices of everything they have to buy remain 60 to 75 per cent above the pre-war figures.

### THE HOME PAPER

THE HOME PAPER.

A few of the reasons why the home folks should support it:

1.—Because when you were born it was the home paper that introducted you to the world.

2.—When you grew up and graduated the home paper gave you another write up.

ed you to the world.

2.—When you grew up and graduated the home paper gave you another write up.

3.—When later on you found your life companion and were hanoily massived, the home paper gave.

4.—When sickness and misfortune invaded your home, the sad news was carried to your friends and neighbors by the home paper.

5.—When you had been successful in business venture, or had been promoted, it was the home paper that heralded your chility.

6.—When you sold out or moved to another-location the home paper that heralded your chility.

7.—When some unscrupulous person tried to injure your character it was the home paper that came to your aid.

5.—Because the home paper boosts your town and its institutions, its people, its schools, its churches and helps to promote good fellowship in the community.

9.—Because the live merchants offer money-making bargains and protect you from catch-penny mail order houses.

10.—And last, when you are finally laid away, it is the home paper that prints consoling news of your demise and that extends pour virtues so that hearts of those that mourn are made to feel thankful that home paper stuck by you from craille to the grave.

## A STRAY BULLET.

A DIRAY BULLEI.

A bullet from a 28-coliber pistor or life crashed through a window or the north side of L. C. Weaver's residence about 4 o'clock, last Saturday afternoon, and striking the wail of the room glanced off striking aglass door on a china closet smassing it. Just who fired the shot is impstery, and had there been some one at the window at the time they would have been killed. This lesson should be a warning to the reckless firing of fire arms within the corporate limits of the town. Mr. Barlow and his son-in-law, W. P. Beemon, were sitting in the front part of the house and were startled by the smashing of glass and at once started to investigate when they found the broken window, and the bullet lying in a plate on a shelf. It is the supposition that the shot was fired by some one shooting at birds or a target. Be careful how you point your gun when firing it off in the town limits.

### LEARNING THE BIRDS

LEARNING THE BIRDS

One of the greatest satisfactions of rural existence is to make friends with the birds. Their cheerful and melodious songs represent a higher form of melody than any tones man has invented. No concert vocalist can produce a note as liquid or entrancing as that of many of our finefeathered singers.

It adds a great deal to the pleasures of country life to learn who sill these birds are, and find out something about their hebits. Then every bird call heard will seem like the voice of an old friend, and you will listen for them day by day as to a member of your family. But the cheerful melodies of the birds which continue through fair weather and four are a constant uplift to a tired man or woman, and suggest thoughts of good cheer and hope.

AUTOMOBILE.

Many people seem to think that the possession of great numbers of automobiles by the country folks is a sign that they are making a lot of money and that the difficulties the farmer is supposed to encounter are largely imaginary.

Many people living in outlying districts, however, can testify that the automobile is an absolute necessity for them. With their old team of horoses it might have taken them half a day to go to the market town and back again. But with the automobile they can usually do it in half the time. Time ir worth a great dend for help. Gasoline and tires on his fivuer are cheaper than the pay of a form hand from her process.

### AMBROSE MARKSBERRY DEAD

AMBROSE MARKSBERRY DEAD.
Ambrose S. Marksberry, aged 23 years, passed away at the home of his father J. P. Marksberry, on the Florence and Union pike, Thursduy afternoon, after a lingering illness of tuberculosis. Funeral services were held at the Erlanger Baptist church Saturday afternoon by the Rev. Sporing of Ft. Thomas. The Junior Order United American Mechanics held their services at the grace in High land cemetery. Funeral arrangements were in charge of Underker Philip Tailaferro, of Erlanger.

## **BOONE COUNTY JURY**

### Awards \$2,500 Damages To W. L. Gaines.

### EZRA WILHOIT, DEAD

Ezra M. Wilhoit, aged 63 years, passed away at his home near Florence early Friday morning. Funeral services were held at the late residence Sunday afternoon at 3 o'dook by Rev. Carter, in the presence of a large concourse of relatives and friends, interment following in the Stephens family cemetery above Florence.

Mr. Wilhoit had been in poor health for several years, but failed rapidly during the past six weeks. An autopsy was performed by Dr. Sayre, assisted by Dr. Gladys Rouse, to determine cause of death.

The pall-bearers were Mr. Gray, Newt. Haley, Robt. Rouse, Robert Snyder, Milton Carpenter and J. G. Renaker. Undertaker Philip Taliaferro, of Erlangre, had charge of the funeral arrangements.

### **MEMORIAL SERVICES**

### At Petersburg Attended By Large Crowd Who Join In Making Day Notable.

Last Sunday was an ideal day for Decoration services, the day set aside by the citizens of Petersburg and community as the day on which they would hold appropriate services and decorate the graves of departed ones. The Odd-Fellows, Modern Woodmen and K. of P. Lodges were joined by the large crowd of people present to make the day notable. John J. Howe, of Carrollton, delivered the Memorial Day address, after which the graves of loved ones were decorated with flowers—which tell us that remembrance still fashions the nation's heart to loving recall of the various dead. They unfold that which is even sweeter than the perfume which they bear—and that is that not even selfishness has as yet withered the flowers of memory which we have kept blooming in the garden of life. Memorial Day imposes a certain lesson—a lesson of greater love an tervice we should give those around use those who, in the great current of life's activities, find it hard, some times, to stem the sootning tide. It is ours to give the cheering word—to lend the helping hand. Thurwevery, day should be Decoration 14, some times, to give the cheering word—to lend the helping hand. Thurwevery, day should be Decoration 15, some of purpose would unfold in sweeter flower of ennobling deed, and above rill of sordial greed the great doctrine of low would supervene. Last Sunday was an ideal day for

## AMERICAN LEGION MEETING

American Legion meletirus All members of Boone Post No. 4, Arjerican Legion of Kentucky, are erged to attend r Special Meeting of the above lost to be held in the court house on oMaday night, June 18th, 1923. Annual elestion and etc.

## A WEEK'S NEWS.

### REPUBLICAN CONVENTION

The Republican voters of Boonsounty are respectfully requested to county are respectfully requested to meet in mass convention at Burlingston, Ky, Saturday, June 23rd, 1923, at the court house, at the court house who intend to affliate with the Republicant house which is the court house ho

Miton Beemon, 87, who resides on the Burlington and Florence pikenear the Geo. Rouse bridge, while oaa ladder, last Thursday, stoppingholes in his residence to keep theEnglish Sparrows from building, felk
from the ladder and injured himselfquite bally. He was found by hiswife, who summoned help and he wascarried into the house, and a physician was called, who found that hehad broken the large bone in hiship, and badly bruised otherwise. Aulast account he was getting alongvery nicely.

Governor Morrow, one day last week granted conditional pardons to 300 residents of Taylor county and 150 of Green county, who were charged with violating the dog license law. The pardons to become effective provided the taxes are paid by the dog owners before the cases are called for trial in the circuit courts.

More than 1100 spring lambs have been docked and altered on Trimble county farms this spring as a result of demonstrations put on by County Agent E. H. Darnaby and the extension division of the College of Agriculture at Lexington to show farmers how to put their lambs in the best possible shape for market.

Nearly every Sunday at this season of the year a great company of city and town residents line the banks of Gunpowder and Wooper creeks trying their luck with the finny tribe that infest those streams. With automobiles to use on these excursions, they can travel many miles and enjoy the day's outing.

The city of Harrodsburg has adopted a most excellent system in oiling their streets, which eliminated the carrying of the oil in the homes of the citizens. After the oil is spread on the street it is then given a cost of sand, which cements and makes a dust-proof and a hard-surface street.

John Q. Elstun, until a few years ago, a citizen of Union precinct, died at the home of his sister at New Richmond, Ohio, Thursday, June 7th, aged 79 years. His remains were interred in the cemetery at that place, Saturday, June 9th.

C. A. Fowler wife and son, Jerry, Meadames Genie Blythe and Martha Hawes spent Sunday with Edward Hawes and family in Covington. This is the first time Mrs. Hawes has been outside of the town of Burling-ton in forty years.

Clinton J. Snyder, formerly of Hobron, but now Assistant Cashier of the First National Bank, Lettow, was badly injured, one day 1st week, when an automobile in which he was riding on the Ludlow highway was hit by another machine.

Chas. Westbay killed a black snaker laying on the side walk in front of Jack Eddins' residence, last Thursday, that measured six feet in length. Now, this is a genuine snake story—there is no "moonshine" about it.

Some counties throughout the stater report the presence of the seventeen-year locusts in great numbers and that the fields and forests vibrate with their singing. So far we have not heard of them being in this counties.

Besides the regular feature at the Burlington Theatre next Friday night Manager Porter has secured another treat for his patrons—a 3-red cons-edy, "Among Thore Present" by Har-old Lloyd, all for one price.

Mrs. J. M. Lassing and son, John, and Mrs. R. A. Brady, who spent the winter at St. Petersburg, Fla., arrived at their home in Burlington, last Wednesday night.

### GUNPOWDER

Sunday, June 24th, will be "Go forounds at Florence on Saturday, to-Sunday-School" day at the Methodist and Baptist churches in Burlington. Nobody can be more welcome than you will be at either of these Sunday Schools Be sure and attend Sunday School on Sunday, June 24th.

Filiah Stephens are

DERBY DAY SURPASSED ALL RECORDS

[Lonisville Conrier-Journal Editorial, June 4.]

THE KENTECKY Jockey Club has closed at Churchill Downs one of the most successful race meets ever-held in America. Fields have been large; quality has been first class; stakes and purses have been liberal; the contests have appended strongly to the sportsunanship which is the American's hardly less thun the Englishman's. Derby Day surpassed all records, adding to the fame of a great race, famous the world over. On the day that it was run hiere was no spit on earth to which so many eyes were directed a great race, famous the world over. On the day that it was run hiere was no spit on earth to which so many eyes were directed in the fame of the stake was hardly more than a bown of the saw thereographed in the State of Kentucky. Today nothing advertises Kentucky so much as its thoroughireds and its Derby.

The development of this race is but one feature of the development made it. ... ILLABERY Jockey (10b. Hundreds who saw the race this year, when Zev won a stake of more than \$50,000, remember it when the stake was hardly more than a Downs purse is now. Always it has been contested by the best three-year-olds, though its which has the same of th

DERBY DAY SURPASSED ALL RECORDS

## THE 49th KENTUCKY DERBY AT CHURCHILL DOWNS

## A MULTITUDE OF SEVENTY THOUSAND WITNESSED THE STIRRING CONTEST

### **BIGGEST CROWD AND THE GREATEST RACE** IN THE HISTORY OF THE AMERICAN TURF.

THE 40th renewal of the Kentucky Derby, Saturday, May Mill ever stand for all that is clean and high and worthy in racing. This who largest gathering that ever visited flatstoric Churchill Downs. It was a perfect day; the multitude, drawn from all over America, was orderly said happy; the hest horse won the trich purse to which the Kentucky Jockey Chih added \$50,000.00 and a \$5,000.00 light gold cing as a souvenir, and ZEV, the winner, was bred in old Kentucky at Hamburg Place, by J. E. Madden, as were his sire and dam.

1

The Medical Peru Berkers of the Section of the Sect

before 0 o'clock the pligrims had congregated at the place, several thousand strong, to secure vantage points from which to obtain a view of the race. The noon hour found all roads from the city to the track congested as never before, and thousands, unable to board the overcrowded street cars, decided to make the journey afoot. Long before the first race a seetling, throubling stream of motor cars had flowed lato the space provided for parking purposes, and the cargo of humanity that arrived hy that route was soon engulfed in that which came by street car, dray and afoot. Once inside, men of affairs shounded with men in humbler walks of life—all latent upon a single purpose—that of getting a line on the Derby starters, and getting a wager down on the horse of their choice.

The enlarged clubhouse, with its broad halconles and apactous lawns, attracted a brilliant assemblage of happy, care-free people, socially promelnent, not only in Louisville and Kentucky, but in many other cities and states. The numerous private boxes overflowed with many gay partles, comprising the local socially promenent and their distinguished out-of-town guests.

A number of folks who live in foreign fields remembered their relatives and friends who peacefully sleep in the Burlington cemeteries, by driving in their automobiles from their homes Memorial Day to their homes Memorial Day to their graves and appropriately decorating their graves. We should always remember the dear ones who have passed over.

The election of Ben M. Stapleton (Dom.) as Mayor of Denver, defeating Mayor Bairby (Rep.) by 6,130 mority, is not only a large overture in municipal politics, but its regarded to their graves and appropriately decorating their graves. We should always remember the dear ones who have passed over.

An editor dreamed one night that he had decided for once in his career of this daughter Mrs. Charles Henricon, Sunday afternoon, June 3d, 1923. Funeral services were held the larger that was entirely satisfactory to all. Every item was passed over.

An editor dreamed one night that he had decided for once in his career on this daughter Mrs. Charles Henricon, Sunday afternoon, June 3d, 1923. Funeral services were held the larger than disabout to negotiate and submit to negotiate and national ticket, but that it will insure the defeat of Senator Phips was the chief backer of Maying in their and children that his recipion of the city in his vife and children that his recipion is better than his preaching, he has mistaken is calling.

## As the Editor Sees It.

Who i, the sweetest woman in this

Was i, the sweetest woman in this community.

Name her, and you will find a woman who has a good word and a chee. I smile for every one, a woman who makes friends where others make acquaintances, one who hijects surshine into the daily lives of her acighinors, a woman who is a distinct-benefit to the community and to the world in which she lives.

Such women make good wives, good mothers, good neighbors, and good friends.

Who is the biggest grouch, chronic or otherwise?

or otherwise?

Name him, too—and then forget

num.

It requires a lot of sweetness to
dispet the gloom that one grouch can
throw over the people with whom be
comes in contact.

We as a people are not slow in providing healthy sports for our young boys, because we know that they aid in making them manly men. But we need to be prodded up to the point of doing as much for the girls.

One reason why Americans are a

the point of doing as much for the girls.

One reason why Americans are a hardy and progressive race is the fact that our women have more freedom than they have in other countries, and therefore secure more benefit from the open air and the natural exercise incident thereto. When we arrive at the point where we provide the girls with opportunities for mental and physical development equal to those enfoyed by tro-boys we will have an even harding and noisy progressive race than we have ever had before.

We owe more to motherhood than noist people realize.

school a visit.
You were flattered, either consciously or unconsciously, because artention from "grown ups" is pleastention from "grown serves to stimulate its ambition and places it upon
its mostile.

ulate its ambition and places it upon its mertle.

Have you a child in school?

Jo you ever go near the school?

Does the child know from your actions that you are taking an active daily interest in its scholastic welfare?

Perhaps it is none of our business, but such questions occasionally fire!

Iodgment under our hat.

It isn't good to have a life that is all sunshine, and it is exceedingly bad to have one that is all shadows. To thoroughly enjoy-and make the most of the sweetness of life we must experience some of its bitterness. Remember the good and forget the hand, and you won't seel entirely a stranger when you get to heaven. Your life is in your own hands. Others are taking care of their Jwn.

### COMMUNITY SPIRIT

COMMUNITY SPIRIT
Lite to each of us consists mainly of what we make of it. We can east the soft rays of sunshine and happiness over our existence, or we can fill cut lives with the shadows of streed and avarice, and insatiable forging for those things which we anay not possess.

Our town is our home—the place where most of our lives will be spent—where memory is dear to us. Shall we seek to cast out what there is of spirit of greed and suspictor, and ungenerous rivalry among men?

Shall we sumbast it with each of the seek to cast, with the seek to cast, which we shall we sumbast it with each of the seek to cast, and ungenerous rivalry among seen?

shall we supplant it with one of indness, of telerance, and of good ill toward each other? Shall we make honorable thrift he watchword of our community? It is the ideal existence, and 's ossible to any community where the share in a supplementary in the state of the control o

possible to any community where the people have the will and courage, to follow the path of honor and gen-aleness wherever it may lead.

### MEDICAL ETHICS

MEDICAL ETHICS

Physicians do not advertise; chiropractors do There is a decided conflict between these two schools of faculting, and the medical profession, we believe, is making a mistake in not presenting its side of the case in the newspapers. If the medical profession has a duty to the public, not hen ewspapers. If the medical profession has a duty to the public, nor fact of the newspapers. If the medical profession has a duty to the public, nor fact of the county should be towarn it against any health heresic which come up, as well as to protect fits own good name. It need not be than a summer of the county associations. The public, at least, a large part of the individual profession in the summer of the county associations. The public, at least, a large part of the individual profession is the summer of the county associations, and while it would not be interested one whit in any technical details, it is quite probably that it would be interested one white in any technical details, it is at stake. Churches advertise, books by the best authors are advertised, the medical profession should take-advantage of this medium for reaching the public.

I heard of a man who frightened the people at a camp meeting be-cause he hollered "Amen" so loud, and then he got in a fight with a tack driver on the way home.

Sweden was one of the first na-tions in the world to allow women in its national law-making lody.

CARS, TRUCKS AND ROADS.

CARS, TRUCKS AND ROADS.
The automobile is rapidly turnin, nis country into one vast expans for good roads—up to a certain point When the first primitive car made show to the public a few years ag in highways in rainy weather repesented mile after mile of mud an ush, through which horse drawn we ides had to plow at a snail's pace.

hicles had to plow at a small's pace, lock, where he had a paved roads are gradually replacing them.

The present system of road paving, lowever, is only a temporary makeshift. The roads are entirely too aurrow for safety and are not made to stand up under heavy traffic.

It is only a question of time when public hichways will be paved the chird with a foundation and surface sufficiently substantial to accommodate any kind of heavy traffic.

The automobile alone will not bring this greater improvement, but the motor truck will eventually force its adoption.

The time is coming when much of

is adoption.

The time is coming when much of ur freight will be hauled in motor racks, with great caravaps of these monsters recling foff the miles at reight train speed.

This will relieve the terrific hand-car, caused by car shortage, under that the country is staggering to ay.

day,

Coming into direct competition
with the railroads, it should also re
sult in a material reduction in freight salt in a material reduction rates.

If you think the motor indust will not compel the widening and paying of all of our country reads lust hang on to life for another this.

last hang on to regard with the years. You may be so pleased with the fransformation you will not want to led e it even for the sake of driving through the pearly gates.

## WORK AND PLAY

WORK AND PLAY.

We work because it is necessary to work in order to live.

We play because it is necessary to give mind and body that relaxation which keeps them in condition for the performance of our daily labors.

When at work the wise man centers his mind and his energies upon that work to the exclusion of everything in the realm of play. It is this concentration of thought and action that enables men to accomplish the things that stamp them as successful in life.

that enables men to accomplish the things that stamp them as successful in life.

It is the same when the wise man plays. He puts the cares of business away from him for the time being, and enters whole-heartedly into that physical and mental exercise which develops the body and strengthens the mind and keeps him in condition to withestand the wear and tear of his hours of toil.

The wise man knows and observes these necessary laws of nature, and geach the substance of life.

The foolish man observes them not—and toddles around in his own shadow.

### HYPHENATED HISTORIES

Are our American histories pro-American, or are they pro-British?
This uestion is being vocteroasly agitated in sime sections of the coun-try at the present time.
During the war somebody discover-ed that our histories were pro-Ger-man, and immediately a roar went up demanding that they be degerman-ized. It made good copy for the newspapers.

demanding that they be degermanized. It made good copy for the
newspapers.

Now Mr. Hearst and his papers
have discovered that our histories
are pro-British, and the howl this
time is at the expense of England.

If our histories were pro-German
during the war, and if they are proBritish now, why is it so, and who is
acting the "swag," and why is 't
not-possible to find some one in this
country who has a sufficient amount
of brains and patriotism to write a
history that is pro-American?

Either our historians are un-American for writing them, and our school
a thorities and teachers are unAmerican for using them, or sometry is talking through a big hole
in Lichau.

## GIVE THIS A THOUGHT

Every morning when we wake no now, the sun is shining, and birds are chirring as welcome to the new-born day. Why not fall in line—arise and shine—smile and perk up at the call of this delightful spring. If we want to grunt and mona, of course, we can do it such the sun will shine just the same for those who have enough sense to erjoy it. Old Dann. Nature has fixed things up so that there's no chance for the fellow who keeps out of step putting the whole procession on the blink. You might just as well bow to that old dans and march along.

and march along.

The loonger a calf is allowed to marse the cow the harder it will be to teach it to drink from a pail, says the Laited States Department of Agriculture. However, the first milk, or colostrum, has properties that normal milk does not have and which are necessary to give the calf the best start. For this reason the youngster should always receive the first milk. If it is left with the mother 48 mours it will get enough of the stimulating first milk and may still take to drinking from again without much trouble. A week calf may be left with the cow a little longer, but more patence will be required to teach it to drink.

### GOV. SMITH TRUE TO FORM.

It is both just and proper to credit overanor Smith with having noted in thorough accordance with his con-ictions when he signed the repealing act by which New York refuses a saist in enforcing a law of the 'Inited' States within its borders. In formal memorandium Gov. Smith ets forth his reasons for approving his measure, but his convictions were now convincingly expressed and his

sets forth his reasons for approximates this measure, but his convictions were more convincingly expressed and his attitude more clearly indicated some months ago when he declared it to be his ambition to "put my foot on a brass rail and blow off the froth." If political expediency had swayed him, he would have vetoed the repealer. The governor must be credited with the courage of his convictions.

With the signing of the bin announcing that New York State will not co-operate with the national Covernment in enforcing prohibition there arises in the national cavital a new resolution that the supreme law of the land shall not be flouted. In any part of it and that enforcement will be strengthened adequately. One part of the country cannot be dry and the other wet, while the Eightheenth Amendment to the Constitution stands.

The President of the United States has committed himself definitely to a program of enforcement of this as other laws on the statute books, in New York as well as in Kansas or in the Dakotas. If the federal government is compelled to enter upon the territory and jurisdiction of the state and set up the police and judicial authorities required, trying situations and condicts will undoubtedly arrise. New York state does not propose to assist in the enforcement of the 18th Amendment. That puts the hurding the federal government and usual conference of the concrete and set law the propose to a distinct linear of the Federal government and usual conference of the Congress convenes it will have to do the best it can with the machinery at its command. There will be a distinct linear of the Federal government and usual conference of the Congress convenes it will have to do the best it can with the machinery at its command. There will be a distinct linear of the Federal government and usual conference of the Congress convenes it will have to do the best it can with the machinery at its command. There will be a distinct linear of the Federal government and usual congress convenes are supposed to the Con

and 35 wanted the Borial coats compromise.

The Republicans though no less strongly opposed to isolation gave, by opinions of the dailies, 15 to 177 against the League, and 33 to 155 against the League even with reservations. The vote for the Hughes Court was 150 to 51, while 36 would accept the Borah plan. The Republican weeklies followed the same trend. Only 72 answered "no" to each of the four questions.

## THE ONE THING

(Answers London)

Every time the teacher asked
Johnny a question she always got the
same answer, "I don't know."

"Johnny," she said, "what is twice

"Johnny," she said, "what is twice cight?"
"Don't know."
"Well, then, four times six?"
"Don't know."
"Who was the husband of Queen Victoria?"
"Don't know."
"The teacher became exasperated.
"Is there anything you can answer?" she asked sardonically.
"Yes'm," he replied.
"And what is that, pray?"
"The telephone, m'm."

CHICAGO'S MAIL TERMINAL EUILDING

BUILDING

To speed up the handling, distribution, and dispatch of all paper, caralog, and parcel-post mall orientating lu Chicago or passing through Chicago destined to Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesseta, Missouri, Olito, South Dakota, Tennessee, and Wisconsin, there has been recently placed in service in Chicago a monster mail terminal building which is without a parallel—anywhere.

This building is of brick and steel, approximately 800 feet long, 75 feet wide, and six stories, and basement tall. On one side are tracks which have a capacity for 61 railway mall cars—one track running the full length of the building inside. On the other side is a 30-60 of driveway bordering on which is unloading space sufficient to accommodate 60 mill wagons at one time.

The entire first floor is server.

accommonate or many accommonate or many time.

The entire first floor is gewent tout to the receipt, dispatch, and storage of mail; another floor is devoted to the distribution of pare-lopest mail; another floor is used for the handling of paper mail, and so on. One floor is necessarily an operating or service floor—for the proper maintenance of the plant, and contains the office of the superlutendent and his force, machine shop, carpenter shop, stock room, enfertrial, first-aid, study, and rest rooms.

About 970 persons are employed in the work of handling mail matter, while about 80 additional employees and 25 clerks and officials are required to look after and operate the building and its machinery.

Four statrways, three passenger and ourteen freight elevators facilitate movement between floors. The mail-middling equipment herelades about 1,590 trucks of various kinds and sizes, several hundred sorting tables, sack racks without end, and a small fleet of electric tractors. Most of the work of distribution is done by means of some eight miles of nechmient between or some eight miles of nechmient between of some eight miles of energy with an energy of some eight miles of nechmient between of some eight miles of nechmient between of some eight miles of energy with an energy of the source of the superline and the super

work of distribution is done by me of some eight inlies of mechanical I conveyors which function with amazing rapidity and an uncanny so ness. These conveyors, some of wh are 41 inches wide and 650 feet to curry mail between divisions, here floors, and dumn it on these floors, and dump it on distributing tubles from which they also carry it to chutes which drop it to dispatching platforms.

platforms.

This terminal ultimately will handle an average of 26,000 sucks of parcel post and 18,000 sucks of parcel post and 18,000 sucks of paper mail every 24 hours—or 1,823 sucks per hour. According to an official of the railway mail service, through this one building will pass more mail than originates in the entire Dominion of Canada.

CONTROL OF SHEEP PEST EXPLAINED IN CIRCULAR.

Lexington, Ky.—How farmers and sheep raisers can rid their flocks of stomach worms, which are said to cause a greater loss in the sheep industry of Kentucky than all other parasites combined, is the subject of a new circular which has just come off the press at the College of Agriculture. While there is much to learn about the treatment for and control of the worms, enough progress has been made to assure control of the parasite, provided proper precautions are taken, the new publication points out.

The precautions, as outlined in the circular are: 1.—Divide the sheep into small flocks of not more than 3w head cach 2.—Provide as much parter ordation as possible. 3.—Dreach the flock regularly as a preventive of stomach worms. 4.—Breed ewes to lambs early. 5.—Treat the flock before it is turned on new grass in the spring.

The publication discusses the origin of stomach worms in the spring.

The publication discusses the origin of stomach worms in the spring.

The publication discusses the origin of stomach worms; how to recognize them; the symptoms and diagnosis of stomach worm infestation; their life history and sources of infestation; how they injure sheep and the treatment for them. ## "IT CAN'T BE DID"

June 11th, 1923.

To the Fiscal Court of Boone Co:
Burlington, Ky.,
Gentlemen:

In order that the much debated question of the change in the Eastern Dixie Highway south of Richwood Kentucky, may be finally set at rest we desire to say that Mr. B. H. Riley County Attorney of Boone County, and Mr. John L. Vest, of Walton, Kentucky, appeared before the State Highway Commission as a committee from Boone County and madak known to us all of the facts and circumstances surrounding the situation and the trouble that the Boone Fiscal Court is having relative to this change, and asked this Commission to rescind their former action in making the change and place the Dixie Highway on the old Covington and Lexington pike from Richwood to Walton.

After their departure we took up this matter at great length, although we have given it careful consideration-before this date and have had it up at different times with the Bureau of Public Roads at Washington and this Commission of the Bureau of Public Roads at Washington and this Commission that a change back to the old road cannot be considered at all.

We have this day awarded to John Wroe, Dayton, Ohio, contract for the building of the concrete highway from Richwood, Kentucky, south through Walton and Kenton county to the Grant County line near Crittenden, but have omitted the three miles which leaves the Covington and Lexington pike at Richwood an lagain intersects it north of Walton. This three mile section will be leit blank until such time as the Fiscal Court of Boone County secured for us the right of way along the proposed route and will not be constructed on any other route except that depignance by the Bureau of Public Roads. We regret our inability 70 comply with your request to makthe change back to the old road. Very Truly Yours, Heger Chairman.

Sunday school every Sunday at 10 festival and Industrial Exposition which were famous years ago, and is spending \$500,000 on the gizantic Festival which opens August and closes September 8. Thousands of dollars by the communion Services Sunday May Communion Services Sunday May 27th.

BURLINGTON

Cincinnati has revived its Fall Festival and Industrial Exposition which were famous years ago, and is spending \$500,000 on the gizantic Festival which opens August and closes September 8. Thousands of dollars will be spent in advertising this Festival in Ohio, Indiana, Kentucky, Virginia, West Virginia and Tennessee.

Virginia, West Virginia and Tennessee.

The size of the Cincinnati Fall Festival can hardly be realized. The buildings will cover a territory of 10-city squares. The famous Cincinnati Music Hall will be devoted to special Fall Festival features and Washington Park, one of the city's most beautiful open spots will be the scene of a marvelous electrical display costing nearly \$50,000, to be seen within a radius of thirty miles.

Cincinnati citizens are guaranteeing the money necessary to build the great exhibition halls and an army of carpenters have already creeted two squares of buildings and arbridging the principal streets.

The site of the Fall Festival includes ten squares of what was once the historic Miami and Eric Canal and what today covers the gigantictubes of Cincinnati's new subway, now being built.

Edwin Duncan, who graduated from Naval Academy, Annapolis, Md., the first of the month, is spending a month's vacation with his parents, Dr. E. W. Duncan and Mrs. Duncan. He graduated with rank of an Ensign and after his vacation he will be stationed at Washington (or a while and will then be assigned to the new battleship, West Virginia, which is nearing completion.

George Espenshide, of Covington, spent several days last week with Glen Crisler and family, down on Gunpowder creek. George tried his luck with the finny tribe, but on account of the heavy rain muddying water he did no good.

The number of farmers selecting their seedt corn in the fall of 1922 according to reports to the U. S. Department of Agriculture, was increased by over 108,000 through the demonstration work of county agricultural extension agents.

A report has gained circulation that there will be no fair at Florence this year, this is a false report, as the director and officers have been busy for some time getting ready for the 1923 fair, which they say will be bigger and better than ever.

Mrs. Carroll Cropper and Miss Mary Bess Cropper united with the Burlington Baptist chirch dhring the murning services, last Sunday.

## TO RETIRE SPEED DEMONS

A Chicago judge gave four speding motorists their choice to go to Jail or quit driving for one year. They chose the latter.

A good precedent. There should be some way to detect the speed fiend before he does any damage, and deprive him of the right to drive. Failing in that, the next best thing is to withdraw his driving privilege when he is found out.

Only it might be better to double the thing up and send them to jail and deprive them of the right to drive too. Something has to be done—that's certain. Fortunately there are a few bables being born—otherwise the population would steadily dwindle on account of the automobile slaughter.

Only it might be better to double the thing up and send them to jail and deprive them of the right to drive too. Something has to be done—that's certain. Fortunately there are a few babies being born—otherwise the population would steadily dwindle on account of the automobile slaughter.

The dairy barn belonging to August Drinkenburg, Jr., of Florence precinct, was struck by lightning one day last week, and considerably damaged, and four hogs that were nerry the barn were killed outright while quite a number of others were badly injured. Mr. Drinkenburg carried insurance on the barn and all other stock except his hogs, which is a complete loss. This is a warning that farmers should have all their stock insured.

## FULL BLOOM STAGE BEST FOR ALFALFA HARVESTING.

Lexington.—Alfalfa cutting is just getting under way in Kentucky and. wilkin, the next two weeks the first cutting will have been made in practically all parts of the state. Farmers ordinarily get four cuttings of the crop cach year, the hay being harvested at intervals of a month or five weeks, but a late spring this year probably will reduce the number of cuttings to three, crop specialists at the College of Agriculture Say.

the weeks, but a hite spring this year probably will reduce the number of cuttings to three, crea psecialists at the College of Agriculture asy.

The most hay length to the first share the life of their attails atands, keep down weeds and eare money in harvesting, farmers should cut their affalfa when it is in full bloom stage, according to Ralph Kenney, one of the croave or commendation frequently made that affalfa must be cut by the time the new shoots arising from the ground are a couple of inches high to prevent them from barden and the cost of reasons are considered in the life of an affalfa stand can be indefinitely prolonged if the crop is a state of the control of

In ancient times the Latins had a proverb; "Ad artra per aspera"—
"up to the stars through rugged ways." It has come down to us through the ages and is preserved as the motto of Kansas.
From Socrates to Edison, every forward step taken by mankind thru revolving centuries, every advance by humanity towards the ultimate goal, has been led by some valiant dreamer who followed a star.
Just now there are thousands of young men and women going forth from college and from ceasod—going to somewhers.
Maybe you this kyou are not ready to go just yet.
But my dear fellow, you are going right along, going somewhere, to

THE GREATEST DRAMA OF THE STATE GOVERNMENT OF KENTUCKY, 1922.

Washington, D. C.—The Department of Commerce announces that according to reports made to the Bureau of the Census the costs of government for the state of Kentucky for the fiscal year ended June 30th, 1922, amounted to \$18,836,479, which was a per capita cost of \$7.71. In 1918 the per capita cost was \$4.55 and in 1915, \$3.69, the totals for three years being \$10,879,539 and \$5,970,980, respectively. The per capita costs for 1922 consisted of expenses of general departments \$5.12; payments for interest, \$0.16; and for outlays, \$2.44.

Revenues.

Revenues.

The total revenue receipts for 1222 were \$17,916,665, or \$7.33 per capita. For the fiscal year the per capita excess of governmental costa over revenue receipts was, therefore \$0.38.

capita excess of governmental costs over revenue receipts was, therefore \$0.38.

In Kentucky property and special taxes represented 63.2 per cent of the total revenue for 1922, 64.5 per cent for 1918, and 65.8 per cent for 1915. The increase in the amount of property and special taxes collected was 32.3 per cent from 1918 to 1912. The per capita property and special taxes for the three specified years were \$4.64, \$2.93 and \$2.25, respectively.

Earnings of general departments, or compensation for services rendered by state officials, represented 8.3 per cent of the total revenue for 1912, 1922, 193, and 18.6 per cent for 1915. Receipts from business licenses constituted 22.6 per cent of the total revenue for 1915. Receipts from business licenses constituted and the service of from insurance and other incorporated companies, while those from mobusiness licenses comprise taxes on motor vehicles and amounts paid for hunting and fishing privileges.

Indebtedness.

Indebtedness.

The net indebtedness (funded and Costing ded.' has winning fund assers) of Kentucky wes \$1.01 per capita for 1922, and \$1.08 for 1918, and \$1.03 for 1915.

Assessed Valuations and Tax Levies Assessed Valuations and Tax Levies. For 1922 the assessed valuation of property in Kentucky subject to advalorem taxation was \$2,106,726,051; the amount of taxes levied was \$8,334,386; and the per capita levy, \$3.41.

## WASHINGTON COMMENT.

The real American needs to be told to reverence and respect his flag. No real American ever falls, in showing respect to the Stars and Stripes. But sometimes a real American may fall in respectful reatment of his flag from lack of knowledge that what he does is not respectful. There is occasion to decorate. Thirtieth of May, July the Fourth, Washington's Birthdaty...no matter what. Mar. American citizen gets out a lot of American flags and drapes his place of business or his house. He drapes the flags in rosettes, in feathers and the drapes the flags in rosettes, in feathers and the drapes the flags in rosettes, in feathers and the drapes the flags in rosettes, in feathers and the drapes the flags in rosettes, in feathers and the drapes the flags in rosettes, in feathers and the drapes the flags in rosettes, in feathers and the world, and wants to honor the cocusion with his flag. It doesn't occur te him that he is doing wrong, or that his pretty curlicues and intertwined streamers are a desceration of his flag.

It is therefore unfair to blackguard him as unpatriotic, or ridicule him for lack of taste; what is to be

orderly pursit of happiness by free men.

"The established doctrine is that this liberty may not be interfered with, under the guise of protecting the public interest, by legislative action, which is arbitrary or without reasonable relation to some purpose within the competency of the state to effect. Determination by the Legislature of what constitutes proper exercise of pelics power is not final nor conclusive, but is subject to supervision by the courts.

"Practically education of the young is only possible in schools conducted by especially qualified persons who devote themselves theret. The calling always has been regarded as useful and honorable, essential, indeed, to the public welfare. More knowledge of the German languaga an not reasonably be regarded as harmful. Plaintiff in error taught this language in school as part of his occupation. His right thus to teach and the right of parents to engagehim so to instruct their children, wethink, are within the liberty of the amendment.

### A VISIT TO SHAKERTOWN

American flag the most beautiful in the world, and wants to hower the cocasion with his flag. It doesn't ceru te him that he is doing wrong, or that his pretty curlicues and intertwined streamers are a descration of his flag.

## G. A. RYLE DEAD.

UTAH UPHOLDS CONSTITUTION.
The recent Utah legislature, encated a statute providing that: "It shall be unlawful for any person or persons acting singly or jointly with another or others, by means of any kind of force, threats, coercion, intimidation, or violence, to cause or induce or to attempt to ause or induce, any person engaged in a lawful occupation to quit such emigorment." The penalty for violation of this law shall be a fine not exceeding \$300, a jail sentence of six months or both.

Utah is determined to give every man his constitutional right to work at a lawful occupation. This may be objectionable to dictators but it is a fine thing for the ountry.

A VICIT TO CHAKEDTOWN

SUNDAY SCHOOL OUTING

A GREAT EVENT OF FORMER YEARS.

It was a great event Homeburg years ago, this time the school of in to make their annua learts that abeen gent stopped when the personages entered. Seen today, they woo ordinary villagers and in the eyes of childhout a search of the school assembled at the church at 9 a. m., and proceeded by automobile to dictators but it is a fine thing for the ountry.

A VICIT TO CHAKEDTOWN

gram consisted of ganes, readings, barn yard golf and ball games by the ladies and boys. The game of ball played by the ladies was the important feature on the morning program. The game was very exciting, Duncan did the twirling for one nine and Poston for the other, this game proceeded at a rapid gate as those who participated had spent quite a time in practice, and some fine ball playing was attempted, possibly not finished. The umpires for this contest were Duncan Umpire in Chief and Tolin was assigned to the base; Some discussion was had when the umpires were announced as the Umpire in Chief was the some grand and glorious game, and if any one knows just what the score was when all decided to quit the Recorder would like to have that information. The ladies who paticipated in this game have decided to take a week's vacation in order that they may recuperate from their day's activities. We understand that a some future time, if all the play ers recover, an attempt will be made to complete the game.

The game was not completed but that at some future time, if all the play ers recover, an attempt will be made to complete the game.

The game was not completed but that at some future time, if all the play ers recover, an attempt will be made to complete the game.

The game was not completed but that at some future time, if all the play ers recover, an attempt will be made to complete the game.

The game was not completed but that at some future time, if all the play ers recover, an attempt will be made to complete the game.

The game was not completed but that at some future time, if all the play ers recover, an attempt will be made to complete the game. For the ladies Mrs. Plummer, Mrs. N. W. Carpenter, Mrs. J. E. Smith and Mrs. M. L. Riddell were among those most proficient in the game. For the ladies do complete the game and the game of the decider of the non-ing and an automobiles and motored to the High School campus where the afternoon program was held which consisted of the ball game by the men and a cont

fan hot reasonably be regarded as harmful. Plaintiff in error taught this language in school as part of his occupation. His right thus to teach and the right of parents to engage him so to instruct their children, we think, are within the liberty of the amendment.

GOOD PRINTING.

Economy is a good thing in business, but there is such a thing as overdoing it. One way to carry it to far is to stint on printing and sent out poor looking stationery. Sending out a letter on unattractive stationary is like sending out a slucchfar is to stint on printing and send out poor looking stationery. Sending out a letter on unattractive stationary is like sending out a slucchfar is to stint on printing and send out poor looking stationery, and his includes farmers too. By buying country business man needs; good looking stationery, and this includes farmers too. By buying enough to last several years the cost of printing can often be saved. The Review Language of the country and the saved and the regard of the country in the library of the last several years the cost of printing can often be saved. The Reverse years who have taken to Bellev the pattern of printing can often be saved. The Reverse years the cost of printing can often be saved. The Reverse years who have taken to Bellev the pattern of the proposition of printing can often be saved. The Reverse years who have taken to Bellev the pattern of the printing can often be saved. The Reverse years who have the proposition of printing can often be saved. The Reverse years who have taken to Bellev the pattern of the pattern of the pattern of the printing can often be saved. The Reverse years who have the proposition of printing can often be saved. The Reverse years who have the proposition of printing can often be saved. The Reverse years who have the proposition of printing can often be saved. The Reverse years who have the proposition of printing can often be saved. The Reverse years the cost of printing can often be saved. The Reverse years who have the proposition of pr

FORMER YEARS.

It was a great event back in old Homeburg years ago, when about this time the school committee came in to make their annual visit. The hearts that had been going pit-a-pat alost stopped when these awsome personages entered.

Seen today, they would look quite ordinary villagers and farmers. But in the eyes of childhood they were armong the world's great men. Their penetrating eyes seemed to bore intended to the facility and failures of school life.

Later years taught us that this

do all the facits and failures of school life.

Later years taught us that this dreaded examination day was only a kind of advertising propagands for the benefit of the school, and that the stern and harsh old committeeman. was only a good natured sort of a fellow who liked children and want ed to see the kids do well.

It was a great and beatific moment when the recitations were over, and those mighty educators arose to distribute the annual compliments to the blushing school teacher, the grinzing youngsters, and the adorning parents. Them was the happy days!

## TOO MUCH URBANISM.

A very thoughtful address was delivered a few days ago, as a baccalaureate sermon to the graduating class of the Massachusetts Agricultural College. If it could be generally read by the American people, it would set a lot of them to thinking.

The speaker, Dr. Roberts, commented on the drift of people to the cities, and said that it produced a condition of "over urhanism." He felt that the massing together of tomany people in city centers was tending to injure the basic institutions of country life which are essential tomational welfare. When'you injure country life which are essential tomational welfare. When'you injure country institutions, he said, you climinate the flow of rich red blood which vitalizes the cities. He felt tomaintain the strength of country, attitutions, the city people must pourmen and money into the country.

It may be said that much of the recent drift of people into the cities is natural and unavoidable, as a result if the difficulties the farmers have encountered during the past few years. But if the country institutions had been given more assistance by city people, if the cities in maintaining good schools and good roads and like facilities in country towns, the rural industries would turn out young people so much better equipped for country life that they could succeed where their fathers had failed. When you put these rural institutions on a better basis, you make rural industry more efficient, which will enable it to surply its products to the cities for very moderate price.

It will be very poor policy for the cities to fail to support rural progress, for the cities must depend unon the country for a reasonable priced food supply, and for the best of the young people who are going to operate the city industries.

## **BIRTHDAY DINNER**

BIKTHUAY UNNER

W. R. Rogers and sisters, Misses Sallie and Elizabeth, spent Sunday in Walton, and attended a birthdey dinner given in honor of Miss Lizzie Roberts, at which there was one guest present for each year of her age—seventy-eight. It was a great surprise to Miss Lizzie, as she knew nothing about it until the guests with well filled backets, had arrived at the home of Miss Graham Roberts, her next door neighbor, and a bountiful dinner had been spread when she was given an invitation to come over and partake thereof—the table fairly groaned under itsheavy load of salads, chicken, ham, pies, cakes, pudding and ice cream, at which exercise the control of the company 
## PEACE OF WAR SHIP FOR **SOLDIERS AND SAILORS**

Pews of Grant and Dahlgren Silver

Washington, June 14.—The First Presbyterian church of the Capital City has dedicated for the use of the soldiers and sallors, the pews once occupied by General Grant and Admiral Dahlgren.

These pews are marked by silver plates bearing the names and dates of their attendance, and on each is placed the insignia of rank then in use in the service.

General Jackson attended the First Presbyterian Church almost the entire term of his office. President Jaz-K. Polk attended from 1845 to 1843, and President Pierce in his term of office. The late D. Harvey Lindsly, James Buchanan, President Cleveland, and Senator Thomas H. Benton were regular attendants. Webster and Calhoun, Rufus Choate, Sam Houston, and many notables, including Henry Clay, spoke in the upper room.

Under Dr. Eyron Sunderland, for nearly 48 years its pastor, the church sprang into national fame and drew to its doors the eminent soldiers, sailors, and statesmen of that age.

The cornerstone of the new church was laid on the present site with impressive and dignified eremonics—fthe Grand Lodge of Free Masons of the District of Columbia, Tuesday, April 19, 1827.

## INDEPENDENCE DAY

Why de we continue to celebrate the 4th of July with undiminished fervor as the years go by?

Because July 4, 1776, represents the birth of our nation—the day on which Continental Congress threw off the British yoke and brought in to official being the United States of America.

And because from that day to this these same United States have grown and multiplied and flourished until they absorb every inch of space from the Atlantic to the Pacific, and from Canada to the gulf.

And because we have grown from the original handful who fought for oand won their freedom to a nation of one, hundred and ten millions of people—stronger, richer and more powerful than anyother country, the system than the people of the system of t

## JEFF WILLIAMSON, 77

## Passes Away After an Illness

of Several Weeks.

Jefferson Williamson, aged seventy-seven years, died at the home of this brother, Don, near Beech Grove school house, at 4 o'clock last Sunday morning, June 17, 1923, from a stroke of paralysis he suffered about two months ago.

He was the first of nine sons born to the late Alfred Williamson and wife, to pass to the Great Beyond. Besides his eight brothers, all of whom are citizens of the county excepting one, who left during the Civil War and has not been heard of since. He leaves many friends and relatives to mourn his death.

Jeff Williamson was a good citizer and neighbor, and the writer who knew him for many years always found him to be worthy, conscientious and upright. Being a quiet and unpretentious man he did not lack any of the qualities that go to make up a good citizen, and we are sure that all will join with us in saying that the community never lost a more honorable citizen.

The remains were taken to Belleview, Tuesday morning, and after services conducted by the Masons, at the grave, were quietly and neacefully laid beneath the sod in the cemetery at that place.

Mr. Ford in the Dearborn Independent, says:

Mr. Ford in the Dearborn Inde

Mr. Ford in the Dearborn Independent, says:

"If our officials feel that they areaded to go over and straighten our Europe, what can they do for the US? Usefulness should begin at home. This country has a number of problems to solve and it does not look well to run away from them nor to obcure them with a smoke-screen of foreign politics. A swing around the country would reveal that nearly every section has a serious, unnecessary and unjust burden to carry. Not merely a political disastifaction, a partisan prejudice nor a conversational ground, but a daily painful burden originating in some form of government action of neglect of action—and nothing is being done about "While Europe is getting integrable them, and the state of the state

## A WEEK'S NEWS.

REPUBLICAN CONVENTION

The Republican voters of Boone county are respectfully requested to meet in mass convention at Burling-ton, Ky., Saturday, June 23rd, 1923, ton, Ky., Saturday, June 23rd, 1923, at the court house, at one o'clock p. m., for the purpose of selecting five delegates to attend the Republican State Convention to be held at Lexington, Ky., Tuesday, June 26th, to nominate candidates for State offices. All Republicans and those who intend to affiate with the Republican party in the coming election shall be cligible to vote and are cordially invited to unite in the selection of delegates in said county convention.

A. R. EDWARDS,
Chairman County Committee.

ol3jume 3t.

Dr. W. O. Rouse, wife and daughter, Miss Rachal, of St. Petersburg, Florida, arrived in Boone county last week, and after spending a few days with relatives and friends here left, last Friday. Miss Rachel will stay in Boone with relatives during the summer and will return to St. Petersburg, Fla., in the fall to complete her school course and graduate in the spring of 1924. Dr. and his wife will visit to Chicago, Winnepeg, Van Couver, Skagaway and to Da 7-son—their trip will cover about 560 miles on the Yukon River and return by boat to Seattle by train to San Francisco, Los Angeles, Phoenix, Pleasant Hill, Mo., here they will visit Mrs. Rouse's father, and then return to St. Petersburg, Fla.

return to St. Petersburg, Fla.

With capital of \$5,000,000 a company has been formed to erect achain of woolen mills extending, from Rockhampton, in Queenland, to Perth, West Australia, to be known as Amalgamated Textiles Lbd. The plans include the erection of mills at all the state capitals, as well as other large centers. It is centended that the present state of affairs, by which Australia, although one of the world's great wool growing countries, ships its product 12,000 miles and then had to purchases \$45,000,000 cf manufactured woolen goeds from abroad every year, is economically c farce and industrially a tragedy. In each center local capital is to be secured for the erection of the mills.

A St. John's day services will be held at Burlington Baptist chureament Sunday June 24th, 41 members of the Masonic Lodges in the county have been invited, and a large crowd of Masons and their friends are expected to be present at this service. A special program has been prepared consisting of appropriate songs and an address by Bro. W. W. Adams. All Masons will assemble at the church at 10:30 a. m.

Eight men, four of whom are Americans, have been released by the Chinese bandits who captured a train more than a month ago, and took 77 prisoners. The captives were released without the payment of a money ransom. Several of their Chinese prisoners were hurled to their death from the cliffs, just to show the authorities that they meant business.

V. P. Kearns, of Walton, was in this section of the county last week soliciting poolers to the Burley Tobacco Growers' Co-operative Association. He secured a number of new poolers. The organization in Boone county was more than 75 per cent strong last year and will be much stronger this year. He was accompanied by Mr. Geo. M. Penn.

Mrs. W. T. Ryle, of Petersburg, is visiting her daughter, Mrs. Hubert Gaines out on the Petersburg pike. Her husband Mr. W. T. Ryle is quite poorly at the home of their daughter, Mrs. Bernard Rogers, of Belleview.

Tax Commissioner J. S. Cason, was stricken with appendicitis the first of last week, and has been under the care of a physician, who thinks he will be able to pull him through without an operation.

The sweet girl graduates look fine in their new dresses, but it is hard for a marriageable young man to conceal his admiration when he learns they made 'em themselves for \$4.48.

H. E. White from out on R.-D. 2 slipped and fell out of his corn crib one day last week and injured his side and back which has caused him considerable pain.

adopted.

—00— John Hansen, formerly a World War soldier, lost his life recently when he attempted to save his twelve-year old nephew, Oscar Anderson, from drowning.

Hansen was spending the summer on the beach near Cleveland. With another man and the boy, he was in a launch on Lake Erie, when waves from a passing vessel swamped their craft. All three were thrown into the vater, the other man being rescued by a passing croiser, But Hansen and the boy were drowned to gether.

He was a member of Lake Erie Post of the American Legion in Cleveland, and his comrades of the organization participated in the military funeral conducted for both victims.

Columbus, Ohio.—Twenty thousand vetrans of the World War in Ohio have failed to apply for compensation granted them under provisions of the state act, according to reports to Americah Legion officials. A totalo f 225,000 claims have been filed with the board, and records show that Ohio was accredited with 243,000 men in service during the war. A campaign for filing of all claims has been undertaken by the board, through American Legion posts in the state.

## CASSINA A TEA SUBSTITUTE

A new drink called "Cassina" may give tea a run. It is brewed after the manner of tea from the leaves of the cassina shrub, which grows abundantly along the South Atlantic and Gulf States. Its active principle is effacin. Cassina contains less cannin than tea, however, and is less harmful to the system on this account. The average of all analysis of cassina made by the bureau showed a content of 1 per cent of caffein, and some samples ran as high as 1.65 cassina made by the bureau showed a content of 1 per cent of caffein, and some samples ran as high as 1.65 per cent. The highest amount found in coffee is given as 1.80 per cent, and for tea the percentage runs as high as 3.50. About a year ago Congress appropriated \$5,000 for the investigation of the possibilities—of the cassina plant. The Bureau of Chemistry, using this money and a lot of old tea manufacturing machinery which had been used in the Government's long and futlle' attempts to grow tea at a reasonable cost in this country, set up an 'experimental station for the manufacture of cassina near Charleston, S. C. The shrub grew wild in the vicinity, and the bureau's experimenta hinged largely about the manufacture from its leaves; of a product from which the caffein containing drink could be brewed economically and on a commercial scale.—Scientific Aerican.

President Harding is in favor of abolishing war, but he will be making war on the democratic candidate in the next campaign.

There will be a meeting at Union Saturday June 23rd, at 8 p. m., to discuss the road question and to appoint overseers for Union precinct overseers for C. C. SLEET.

PROSPECTS FOR DOUBLED

SOY ACREAGE IN FAYETTE

Lexington, Ky—Fayette county will have an acreage of soybeans this year almost double that of last year, if demonstrations being carried on by farmers in cooperation with County Agent W. R. Gabbert in the extension division of the College of Agriculture are taken as an indication of the increasing popularty of the crop in this section of the star-last year soybean hay demonstrations in the county involved approximately 100 acres, but this year there will be close to 250 acres in the demonstrations which farmers will put on to show the value of this legume as a hay crop. Demonstrations in the county involving the horging down of soybean—took in 20th acres, while this year there will be approximately 300 acres in similar demonstrations. Twenty-five farmers will conduct demonstrations to show the value of the beans for hogging down soybean hay demonstrations. Twenty-five farmers will conduct demonstrations to show the value of the beans for hogging down soybean hay demonstrations to show the value of the beans for hogging down soybean hay demonstrations to show the value of the beans for hogging down soybean hay demonstrations to show the value of the beans for hogging down soybean hay demonstrations to show the value of the beans for hogging down soybean hay demonstrations to show the value of the bears for hogging down soybean hay demonstrations to show the value of the bears for hogging down soybean hay demonstrations to show the value of the bears for hogging down soybean hay demonstrations to show the value of the bears for hogging down soybean hay demonstrations to show the value of the bears for hogging down soybean hay demonstrations to show the value of the bears of the demonstrations to show the value of the bear happend that a man would get the hope of the bears of the hogging down soybean hay demonstrations to show the value of the bear happend that a man would get the hope had been demonstration to the form of the hope had been demonstration to the form o

The fact that many farmers are calizing that they can fatten their gas they can fatten their giss cheaper by hogging down soveans is held responsible for much the increase in the popularity of le legume in this county. Many farers also have learned that there an important place for the beans their crop rotation systems when over freezes out, as was the case a many farms this year. Several of e demonstrations in the county this are will be designed to show how ybeans can be used to improve the milty of silage.

Two men were recently convicted of selling worthless materials to the government during the war. They were sentenced to serve one year and two years, respectively. Today their sentences have been cut in half. Contrasting this sentence with that of so-called political prisoners who are serving from ten to twenty years, for the sole reason that they were outspoken in their views concerning the war.

There are at present fifty-three zuch prisoners still within the walls of the federal penitentiaries of the funded States, and not one of them commitmed an overt act against his government. Every other country which took part in the World War released its war-time prisoners years ago. All the enemy spies and the agents who tried to wreck the industries and shipping of the country have long since been freed. But Annerica's political prisoners are still incarcerated.

Almost every organization having the present of manking at the present of manking at the present of the p

licarverated.

Incarverated.

Incort every organization having the welfare of mankind at heart have petitioned for action in this matter. It is a plea based upon the Constitution which guarantees freedom of speech. It is a plea which should be granted on the ground that justice, worthy of the name, must be tempered with mercy.

## PUBLIC SCHOOL

PUBLIC SCHOOL
SAVINGS BANK.

Nearly 2,090,000 public school children in 376 cities and towns in 24 states today have banking accounts of their own and are earning. In the 3,000 and more schools which have inaugurated savings systems, Tuesday morning of each week is banking day. For 10 minutes each week every school room becomes a branch bank, every teacher a receiving teller, and every pupil a real or potential depositor.

On October 18, 1921, boys and girls in the public schools of Pittsburg, Pa., opened 56,250 accounts, this being the largest number of individual banking accounts ever opened in a single day in a single city. The total deposits for the day include 600 pounds of pennies. Six years ago a boy in a small town in Pennsylvania started an account with a deposit of one cent. He has never made a withdrawal and the Jan. 1, 1923, balance on his account was \$54.02.

A ten-year old girl in Akron, O, started an account with a dime when the system was instituted in her school seven, years ago. Last spring, when she was graduated from high school, she drew from the bank \$840—the accumulated amount of heswings bank. In a mining town in Indiana, 50 boys in one class room are all earning the pennies and nickels and dimes for their weekly deposits. One boy in the class, physically unable to work, is hired by the others to act as monitor and collect the books on banking day, so that the, too, may have some money to denies do the source of the collect the books on banking day, so that the tooks on banking day, so that the posits. One one of the day in the others to act as monitor and collect the books on banking day, so that the posits. One one of the day and devised by J. Robert Stout and Res T. Stout, president and secretical day.

deposit.

This method of school savings was devised by J. Robert Stout and Rex T. Stout, president and secretary of the Educational Thrift Service of New York.

### WHAT SELLS GOODS

portunity to such a store. The increased business such a store is doing enables it to accept chances to buy large stocks at reduced prices, so that it is in a position to offer low figures. Also when it increases its volume, it reduces the cost per article of doing buriness.

ticle of doing buriness.

If it doubles its sales, its overhead and selling expenses do not usually double. Hence the charge that must be made against each article has not correspondingly increased, and it should be less than it was when the store began advertising. Thus the advertised store is in a position to make low prices and help its patrons reduce the cost of living.

### GROP REPORT.

GROP REPORT.

Kentucky's crop prospects, compared with last year, indicate a probable sharp decrease in that state's production of hay and fruit, a slight decrease in total wheat production, and an increased production of oat, rye and barley, necentling to the June crop report for Kentucky issued by the U. S. Bureau of Agricultural Economics, in co-operation with State Commissioner of Agriculture W. C. Hanna, General crop conditions in Kentucky June 1 were 1.3 per cent below the 10-year average with the principal field crops varying from 3 to 14 per cent below their condition a year ago.

These conditions muicate the probable production in Kentucky of approximately 7,378,000 bus. of west; 4,006,000 bus. of oats; 170,000 bus of barley; 243,000 bus. of rye; 1,190,000 tons of hay of all kinds; 3,250,000 bus. of appels; and 661,009 bushels of peaches. Actual yields may turn out more or less than these foreconditions are particularly favorable or unfavorable between now and the time these crops are harvested or gathered. In 1922 the production of Mentucky was 7,476,000 bus. of apples; and 61,000 bus. of barley; 230,000 bus. of five; 1,470,000 tuns of hay of all kinds; 3,670,000 bus. of hay of all kinds; 3,670,000 bus. of spapels; and 1,218,000 bus. of peaches.

Many young people who are this month graduating from schools and colleges, ...d who have done faithful york in the tasks laid out for them, will before long see the fruit of their labors. Up to now, they have not got much applause from their own crowd for their industrious efforts. The fact that they were good scholars did not make them much more popular among the other students. To get that kind of popularity they needed to be star ball I layers or pretty girls or graceful dancers.

layers or pretty girls or graceful dancers.
But now the various types of character enter the testing ground of life. The athletes will have gained some benefit from the quick thinking that games develop. But the greatest reward comes to those who have learned to stick faithfully to a laborious task. Those who have acquired that habit may have been obscure in the student life, but they will get recognition in the business world.

### THE COST OF WEDDINGS

THE COST OF WEDDINGS

Some people groan when they receive an invitation to a wedding, feeling it means they must offer a suitable present. If these complainers are married, their home equipment probably includes a number of useful and ornamental articles which were a considerable lift in the early days of their wedded ife. Having received, they should gladly give. If unmarried, their turn will come later.

The most serious objection to the wedding gift custom is that many teeple buy odd and freakish things that are of no use. The young couple use entering matrimony have a heavy bill to pay for their outfit. Their gifts ought to be largely practical ones which they would need to over some objects of beauty like pictures and books to enrich their homes. But such offerings should be carefully chosen and correspond with good taste.

The pathetic fate of many wedding gifts is to find a way to the

The pathetic fate of many wed ding gitts is to find a way to the runninge sale within a few years, due to the fact that the present was not worth the room it occupied in the little home.

not worth the room it occapion in the little home.

50 PER CENT DID NOT VOTE

The National League of Women Voters recently passed a resolution calling on men and women to take part in primaries and elections. They noted that less than 50 per cent of the men and women eligible to vote exercised that right, and the proportion of those who vote at primaries is still less.

Woman suffrage has somewhat increased the proportion of nominating people. Many good folks who stay at home on primary and election day should reflect that the selfish folks are all working at the polls to accompish their ends. If the good folks want a government that will protect them from the evils of the times, many of them will have to wake up from their confortable indifference.

### RED GROSS NEWS.

A new production quota has been sent Boone county workers. This is sewing for Porto Rican children and the time set for completion is March 1924.

The Red Cross sent \$2,000 to aid acceptives of bandits held at Lincheng,

There are nearly 5,000,000 Juniors in the United States and 300,000 of these enlisted during the last year. Boone country accounts for about 200 of these.

Lieutenant W. J. Sandford and family, of Covington, were in Bur-lington Tuesday.

Mrs. Cora Rouse, of Midway, Scott county, is visiting her brother, L. A. Conner and family.

Children's Day exercises will be held at the Builitsville Christian church next sunday

Radium will make a real diamond sparkle in the dark, while it has no effect on animitation stone.

## As the Editor Sees It.

What is said to be a national campaign is on to rid the country of "bucket shops" which have fleeced so many unsuspecting lambs in the invertment field.

'and is good. Such piratical buzzards ought to go out of business and into jail.

But why ston at bucket shope?

On the boards of trade and similar podies under other ways.

On the boards of trade and similar bodies under other names will be found just has hig knaves as any bucket shop ever boasted.

Men with millions at their command corner markets and force the prices my to lizzy heights, and whethey reach the hughest possible point these manipulators quietly unload and leave others who are less astute to hold the bag when the bubble bursts—as it always does. And all of this time millions of consumers are heing gouged in order that the specuative gang may rake in additional profits.

Men devoid of principle week.

profits.

Men devoid of principle wreck each other on boards of trade with out qualms of conscience or the bat of an eye. They call it shrewd financing, and because of their ability to crush and destroy they are honored among their fellows, as wel.

A robber is a robber, whether he has his air in a bucket or in a gilded cage in a skycenner.

No town is ever successful when the inhabitants indulge to any extent in criticising and backbiting each other.

Fighting is commendable, if you expend your prowess against a foe who is endeavoring to destroy your, yours, or your country.

Criticism is uplifting, when it is directed against the forces of evil.

Backbiting can be tolerated, if you confine yourself to biting your own back.

note the laws of this country are.

not impartially enforced by our public officials.

But Mr. Average Citizen seldo a

takes the time or trouble-to-solve the
problem of why these laws are not
properly enforced.

It does not occur to him that instead of Jowing around and finding
men who are not smenable to political boss rule he simply makes his
seection from among those whom the
bosses obligingly shove into the limelight.

bosses outlings snove into the nine-light.

It is difficult to induce a reall: honest, energetic and capable man to run for public office, but it is even more difficult to prevent the shift less and incompetent and unscrupulous political parasites from running by the wholesae.

Mr. Average Citizen is a mighty good fellow as we find him, though a little queer, but he is vtill, politically in the juvenile class.

Don't waste your thoughts on what hers ought to do for you. It's what u do for them that will help to ost you into heaven.

CARE OF THE SCALP.

Among the minor ills—those, name ly, which do not threaten life or impair physical efficiency—there is perhaps none that ocasions more distress than the various twoubles that affet the hair of the head. "A woman's glory is her hair," and man's glory is her hair," and septit lin most cases he could keep it if he would only begin to care for it soon enough, but grod hair is like good health; we seldom appreciate it or think of means for prezerving it until it begins to depart, and then it is eften too late.

Many of the trovilles with our hair—lack of lustre, hrittleness, dandrue. Hand of the sealy, unlike the skin of the rest of the body is stretched over a bony surface, so that its blood supply must be brought from a distance and is almost completely shut off by the rest of the body is stretched over a bony surface, so that its blood supply must be brought from a distance and is almost completely shut off by the rest of the body is stretched over a bony surface, so that its blood supply must be brought from a distance and is almost completely shut off by the rim of a man's straw hat or his derby. The stiff hat, by the way is undoubtedly the main heason that so many more men than women grow bald—The few mistances of baldness in women can usually be explained by iack of care or by neglect of some decases of the sealp.

The great think in earing for the sealp is to maintain a good supply of Libod. For nourishing the hair oulbs. Massage—that is, vicorous rubbing, ment and untorning combined with put ling the sealp, which hen greatly. If that is done fultifule from —early life, a gam may, if he avoids the art take retard or not ent its becausing good.

Many a man the spring of youth drifts into the autumn of age vainly waiting for the epicetunity that never finds him.

In that one short sentence the secret of life's success or failure is told.

In that one short sentence the secret of life's success or failure is told.

IT THAT NEVER FINDS HIM HIM.

Instead of going out and searching for opportunity, which is easy to find he waits for opportunity experience to the season of the se

the inhabitants indulge to any extent in criticising and backbiting each other.

Fighting is commendable, if you expend your prowess against a few ho is endeavoring to destroy you, yours, or your country.

Criticism is uplifting, when it is directed against the forces of evil. Backbiting can be tolerated, if you confine yourself to biting your own back.

But the moment we begin to inject personalities into community affairs we begin to retard the growth of a progressive community spirit.

And without aggressive progressiveness a community will be a community—but nothing more.

Suppose you are lonesome, and want to talk to somebody, just to put yourself in a better and pleasiveness a community will be a community—but nothing more.

Suppose you are lonesome, and want to talk to somebody, just to put yourself in a better and pleasiveness are of mind.

You see two friends, each of whom you know equally well.

One is bright, theefful and smiling—an invitation to share in his fellowship.

The other issient, gloomy and forbidding—an invitation to share in his grouch.

He is continually complaining because the laws of this country are not impartantly enforced by our public officials.

But Mr. Average Citizen selds of the feeling so that he may exercise fand develop his jaw. Rubber rings and teething articles are condemned, they are dirty. Try to keep fingers that are attributed to teething, Some I times I may be nessessary to lance a difficulty in cutting his teeth, Dry to took first way be given the baby after in his feeding so that he may exercise fand develop his jaw. Rubber rings and teething articles are condemned, they are dirty. Try to keep fingers that are attributed to teething, Some I times I may be nessessary to lance a down of the properly end of the p

crice for them.

## GARRARD FARMERS TO FATTEN PIGS WITH BEANS AND CORN

pigs with beans and corn lancaster, Ky.—The practice of planting soyheans with corn for hoging down in the fall is to be firmly established on Garrard county farms this year, if plans being made.—by farmers and County Agent C. E. Houk materialize, Sixty-two farmers will cooperate with him after extension division of the College of Agriculture at Lexington in conducting demonstrations on their farms to show provide the combination. In conducting the demonstrations they will keep accurate resords of the gains made by the hogs and determine the cost of producing pork by hogging down beans and corn. Approximately 1200 acres will be involved in the 62 demonstrations.

The United States Treasury will soon lasue certificates of indebted. The College of the current year. The certificates will mature in six months.

Lexington, Ky.—The bulk of Kentucky's 1023 crop ofturke \*\*\* will be hatched this month. The state now ranks fifth among all states in the number of turkeys on farms, but stricter attention will have to be paid to sanitution and feeding methods in the raising of the young birds, if this standing is maintained, according to J. H. Martin, in charge of poultry work at the College of Agriculture. Discases, lice and overfeeding cause the heaviest losses in young turkeys.

Diseases, lice and overfeeding cause the heaviest losses in young turkeys. he says
"Most diseases of poultry can be avoided by not allowing them to rui on the same ground for more than a week" or ten days at a time. A good plan is to keep the mother hen in a coop and move the coop about the pasture or orchard. If it is desired to confine the poults, four yards of equal size should be used and the young birds changed to a fresh yard every trn days.
"Poults shoud not be fed until they are 48 hours old and then only a picee of stale light bread two inches square and an inch thick to each 20 poults about five times a day. The bread should be soaked in sour milk to which some clean, sharp sand has been added and the milk squeezed out before feeding. It is best to put the feed on a clean board.
"It is not advisable to keep mil: or water before the young turkeys, as they get enough from the feed and the dew on the grass. If they have plenty of range, the poults should be fed only, twice, a day after they are about three weeks old. A good plan is to feed bread in the morning and baly chick feed in the evening, giving no more feed than the young birds can clean up in two or three minutes."
"Lice sometimes are hard to locate on the poults, but usually are

order can clean up in two or three minutes."

"Lice sometimes are hard to locate on the poults, but usually are found between the flight feathers. To kill them a very small amount of lard should he placed just back of the comb on the poult's head and the turkey hen dusted with sodium fluoride in the morning."

## SCHOOL DISAPPEARING

SCHOOL DISAPPEARING

Costs of education are mounting.

A higher percentage of the population is being enrolled in high schools yearly. Each year more communities are demanding opportunity for their children for a good high school training. The people are demanding that the high schools offer a wider range in courses of study so that the interests of students having other than college preparatory aims be met. Can we finance the program? We can through elimination of the small high school. We cannot if we attempt to maintain effective High Schools for 15 or 20 pupils. Cities maintain effective high schools at perpulication with the second of the small high school we cannot if we attempt to maintain effective High Schools for 15 or 20 pupils. Cities maintain effective high schools in the west offer country children as good facilities for high school training as the best of our cities at reasonable per pupil costs because schools servolarge numbers of pupils. Many country high schools in the South are providing good facilities at a reasonable per pupil costs of over \$1,000 per year for 1921. The country cannot finance such a program as this. Careful organization in the interest of economy as well as effectiveness is becoming more and more a necessity. Larger units of sup port must displace the small district high school.

## DIFFERS FROM WORK IN WEST

Visits to all Eastern States made by representatives of the Biological Survey, United States Department of Agriculture, during 1922 to determine conditions of rodent pest infestation showed that in most of these States considerable experimentation would be necessary in order to adapt control methods used in the West to Eastern needs.

West to Eastern needs.

Many experiments were accordingly undertaken during the past year. The most important of these was the development of a satisfactory field mouse bait. Other experiments dealt with the control of pests peculiar to certain regions, as the land crabs, roundtailed muskrats, "gopher turtles," and swamp rabbits in Florida. An efficient repellent and tree wash was sought for protecting young fruit trees from depredations of contontail rabbits. Investigations were clothail rabbits. Investigations were calso conducted with the use of carbon bisulphide and hydrocyanic gas in fumigating woodchucks in their burrows. Teats were made with proprietary poisons and repellents.

### ZION NATIONAL PARK

ZION NATIONAL PARK

Zion National Park is in the extreme
southwestern part of Uth, Zion Canyon, its dominating feature, bisectis
the park from north to south. This
canyon is fifteen miles long, varies in
width from 50 to 2,500 feet and its
wails runge from 800 to 2,000 feet light,
Crooked as a snake's trail, topped with
many splendid and enormous domes
and peaks and aglow with color, this
canyon is one of the striking seenic
sapon is one of the striking seenic
spectacles of Western America.
Zion is off referred to as the "Rainbow of the Desert"—its color scheme
being a mixture of grays and reds and
browns and yellows which shift into entirely new and unexpected combinations of varying degrees of intensity as
the sunrise, sunshine and sunset come
and go.

tions of varying degrees of intensity as the sunrise, sunshine and sunset come and go.

This egion was first known to white man when pioneered by Mormons who were taking stock of their holdings in 1858. The Mormons colonized here and Drightma. Young, their leader and prophet, termed the pinee "Little Zion—a sacred place for his people where they might find protection if need be from the Indians who never entered its sacred precinets." The Indians; called Zion Canyon Mu-kun-tu-weap (Valleyor Many Waiters). Zion was fittle known, however, because of its inaccessibility, until Uncle Sam preserved it for the enjoyment of his people in 1919 by proclaiming it a national park. The great walls of the templed peaks, extending from the high plateaus to the depths of the canyon, display about 10,000 feet of sandatone strata which has been painted by the brush of time in every shade of plak, gray, brown and yellow, striped sometimes with darker colors, covered sometimes with darker colors, covered sometimes with a layer of white. Shadowed by green trees and ennopled by a deep blue sky, this scene presents a color scheme of marvelous beauty.

Wille visualizing such a startling panorama in n desert world, remember that the walls of this curyon have

White visualizing such a startling panorama in a desert world, remember that the walls of this canyon have been fashioned by the crostons of centuries into an endless maze of huge forms—arches, domes, towers, spires, alcoves and natural bridges of many styles and sizes and your mind will undoubtedly reach the conclusion that Zion is an out of the ordinary piace. One of the show pinces produced by nature in building the formation which we know as Utah, Zion presents an unusual appeal.

of them, tell the whole story.

The Recorder Stands For-BETTER FARMING, BETTER CIT-IZENS, BETTER HOMES"

The Recorder is authorized to announce C. F. Thornton of Grant county, as a candidate for the Democratic nomination for Representative from the 67th Legislative District, composed of the counties of Grant and Boone, in the primary election August 4, 1923.

The Recoorder is authorized to an-nounce Wm. Simpson, of Grant Co, s a candidate for the Demeratic commander for Representative from he 67th Legislative District, com-osed of the counties of Grant and soone, in the primary election, Au-ust 4th, 1923,

## This and That,

Glory comes to the man who

All the world loves a lover-but not as much as the girl does.

Never look a gift horse in the outh. Look it all over, instead.

The top of the ladder is never far away to the fellow who keeps on climbing.

Judging from the language often heard, the golf courses should be called golf curses.

This is the year, when the arrival of summer did not witness the departure of winter.

The wets never will be satisfied until they get the streets lined with filling stations again.

A school diploma is a fine thing, but so far it has never been accepted as a through ticket on the train for Business Success.

Claimed that there is a great dis-respect for the law in this country, and certainly a lot of men are re-fusing to obey their wives.

The sen of the man who used to go barefoot to save money, is now probably inquiring the price of white kid shoes and silk stockings.

Why go to the trouble of stealing a hasty kiss, when the chances are she would be quite willing to prolong the cause of her indignation?

After reading the political opinions expressed by many people, one has the feeling that the appropriation for insane asylums is none too much.

HAVE A DECENT CHANCE

Two children are born side by side, free and equal. One within the city limits, the other just across the imaginary corporation line. The one will go to school in the city in a modern, well heated, well ventilated school building under the direction of many professionally trained teachers for nine nonths in the year. The other may go to a little, ramshackled, one-room school, poorly heated and lighted, insanitary floors; taught by one uncouth, medioere teacher, who has thirty-five recitations per recitation, for a period of sonly five or six, months in the year. The one has Sunday Schools, society, hears good preaching and is constantly in touch with all the broadening influences of the entire country. The other lives like a terrapin, sticks out his head, looks about and goes backinto his shell to live his narrow existence.

Where these conditions are found there is often an estranged feeling.

into his shell to live his narrow existence.

Where these conditions are found there is often an estranged feeling which exists between the people of the cities and the people of the rural districts. Such sections ought to have one board of education, and one sugerintendent of schools to administer justly, fairly and equally to all its citizens, both within and without the city.

citizens, both within and window.

It is difficult for us to understand how some people now fight the building of roads, schools, and churches with the excuse that their tax burdens are greater than they can bear. If it is necessary to double, triplor quadruple your taxes today in order to give your children a decent chance to live a full and happy life, then there is no way by which you can sidestep the issue.

### KENTUCKY NEEDS 150,000 ACRES MORE OF ALFALFA

ACRES MORE OF ALFALFA

Lexington, Ky.—The 56,000 acres
of alfalfa now grown on Kentucky
farms should be increased to at least
200,000 acres, in the opinion of Prof.
George Roberts, head of the agroiomy department of the College of
Agriculture. In the interests of
improved farming practices there
should be a big increase in the acreage of this forage crop in the bluggrass section, the limestone region
of southwestern Kentucky and in the
river bottoms throughout the state,
he says.
"Summer seeding of alfalfa, usual-

The wests never will be satisfied until they get the streets lined with until they say the stapens have again.

They say the stapens have about quit stapping. They are looking for more thrilling sports.

The country is turning out a lot of good looker girls, but there are not so many good cookers.

Principal sign of fertile soils in some people's gardens is the number of weeds that are growing.

Never become discouraged over a failure Successful men get their start by overcoming such trifles.

Claimed the modern girl does not know how to blush, but she gets considerable help at the drug store.

Things won't go right in this country until the number of hose equals the number of bose equals the number of base ball bats.

With all these automobile accidents, a week-end trip becomes a life end one for a good many people. Jazz has replaced the long hair of the average musician. No one coull stagger along under both and survive.

To convince yourself that they world is full of undiscovered wealth just consider your own value to therest of humanity.

A school diploma is a fine thing, lut so far it has never been accepted as a through ticket on the train for as a through ticket on the train for whenever it becomes crusted or seed the seed had so proposed at ince, if possible, by further disking and rollinf. After the seed bed is prepared, the surface whenever it becomes crusted or world the seed had is prepared, the surface whenever it becomes crusted or world the seed had is prepared, the surface whenever it becomes crusted or world the seed had in the seed had a surface the seed had a surface the seed had a surface the seed had in the say. "Small grain stubble should be broken early in June, or as soon as the grain crop can be removed to that prepared seed bed. It should be removed so that prepared seed bed. It should be should be prompted and firm—azed pulverized and firm—azed pulverized and firm—azed pulverized and firm—azed pulverized

weedy.

"If clover sod is plowed for alfalfa the breaking ought to be done as soon as the hay crop is removed. It is not advisable to sow alfalfa rugrass sods, especially bluegrass sod. A cultivated crop should come between the sod and alfalfa. Where alfalfa follows a cultivated crop, it the preparation for seeding is necessary, provided few weeds are present.

## INTERNATIONAL COLUMBUS

a hasty kiss, when the chances are she would be quite willing to prolong the cause of her indignation?

After reading the political opinions expressed by many people, one has the feeling that the appropriation for insane asylums is none too much.

Prominent among the evils of the country that must be remedied the tough and chewy strawherry shortcake that some cooks put over on you.

Those bootleggers who stole \$50,000 worth of booze from the cellar of a Chicago millionaire ought to be able to sell it back to him for at least \$100,000.

There are many people who can tell just what to do to straighten out the world economic situation who can start up their own fliver who she gets stalled.

Many people can't name the victories won by the American forces in our historic wars, but they know just when the home ball nine beat the neas by towns.

Despite the reports that building is decreasing in volume the Aberthaw index number shows an increase of three points in coass. Using 1914 with 100 as at be assis of each the index has advanced 37 per cent during the past year and it noves stands at 307.

INTERNATIONAL COLUMBUS

A magnificant monument to Christopher Columbus by the whole of the Americas was endorsed by twentone colories to the New World at the recent Pan-American Conference. The project Is to erect, a Santo Domingo, in the West Indies, a great "Columbus Light," perpetuation the fall of the give farmer who stately proportions.

It is generally conceded that the memorial should be situated on the siland of Haiti, for that island was peculiarly his own. There in 1492, he founded the first settlement of white men found on this side of the Aberthaw index number shows an increase of three points in coass. Using 1914 with 100 as at be basis of country the past year and it noves the index has advanced 37 per cent during the past year and it noves at a 307.

3 COWS RETURN OWNERS \$5,381 ABOVE FEED COST

S COWS RETURN OWNERS
\$5.381 ABOVE FEED COST

Lexington, Ky.—How six Campbell county farmers used the county to convesting association to put their dairy herds on a basis where each cow in them is doing the work of about cight average. Kentucky cows, is shown in yearly production records on the six herds which have just been compiled by E. M. Prewit, the dairy extension specialist of the College of Agriculture.

During the year the 63 cows in the six herds gave a total of 522, 469 pounds of butterfat, thereby returning their owners a total of 522, 469 pounds of milk and 229 pounds of butterfat, while the average profit from each cow above feed costs was \$85.42. % whimated that the average Kentucky cow gives about 2750 pounds of milk and 121 pounds of butterfat a year, while the profit from her above feed costs is around \$1.0.

Results obtained in the Campbell county association are similar to those being obtained in other cow testing associations organized by the college. By showing farmers which cows are the unprofitable ones that should be gotten rid of and encouraging them to feed balanced rations, and take better care of the cows that are left, these associations are proving an important factor in building up the dairy herds of the state. The Campbell-sunty association was organized in 1919.

Maid, owned by George Wanner, was the best milk producer in the six herds, on which the yearly records have just been compiled. She gave 16,333 pounds of milk and more than 464 pounds of fat during the year and returned her owner a proving an important factor in building up the dairy herds of the state. The Campbell-sunty association as organized in 1919.

Maid, owned by George Wanner, was the best milk producer in the six herds, on which the yearly records have just been compiled. She gave 16,333 pounds of milk and more than 464 pounds of fat during the year and returned her owner. Profit of \$188,70 above feed costs. The best butterfat producer in the

### BEST SEASON TO PRESERVE EGGS FOR WINTER IS HERE

BEST SEASON TO PRESERVE EGGS FOR WINTER IS HERE Lexington, Ky.—Just now, while eggs are plentiful and cheap, is the best time of the year to preserve them for home use during the wintermonths when the price is much higher them for home use during the wintermonths when the price is much higher them for home use during the wintermonths is cr., Berlie Winton, poultry extension specialist of the College of Agriculture, says. Eggs properly preserved will keep for -from eight to ten months and can be used for the same purposes as fresh eggs. The use of water-glass, or sodium-silicate, is-the best method for preserving eggs. It is best to use the water glass more than once.

The ateps outlined by r. Winton for the preservation of eggs are: 1.
—Select a five-gallon crock or jar, clean it thoroughly, scald and dry it. 2.—Heat a quantity of water to the boiling point and allow it to cool. 3.
—Measure out hine quarts of the cooled water, place it in the crock or jar and add one quart of the water glass, or sodium silicate, which may be purchased at any drug store, Jar and add one quart of the water glass, or sodium silicate, which may be purchased at any drug store, Jar and add one quart of the water glass, or sodium silicate, which may be purchased at any drug store, Jar and add one quart of the water glass, or sodium silicate, which may be purchased at any drug store, Jar and add one quart of the water glass, or sodium silicate, which may be purchased at any drug store, Jar and add one quart of the water glass, or sodium silicate, which may be purchased at any drug store, Jar and add one quart of the water glass in the solution cover the eggs at all times. 5—Place the crock or jar cooled water, place it in the crock or jar and add one could be appeared to the solution cover the eggs at all times. 5—Place the crock or jar cooled water, place it in the crock or jar and add one quart of the water glass, or sodium silicate, which may be purchased the proper solution to the proper solution to the proper solution to the prope

REV. G. R. TOMLIN, Pastor FLORENCE

Florence and Burlington Charge First and Second Sundays 11 a m. Sunday school every Sunday at 10

Dr. Raymond Cropper and wife, of inchester, are the guests of his other, Mrs. Lorena Cropper,

Mr. Joseph Huey of Union, is the proud owner of a Willys Light plant installed by H. R. Leidy.

Dr. Nunnelley and wife, of Bullittsville, were calling on Mrs. Lorena Cropper, ast Sunday evening.

Mr. and Mrs. Chester Grant, of Bullittsville neighborhood, spent last Sn day with her mother, Mrs. Lo-rena Cropper.

Thomas Poston (colored) who was operated upon for appendicitis at Christ's hospital a few days since, is recovering nicely.

The fine rain of last week gave the obacco growers another season, and bout all the tobacco was set, and eplanting all finished.

Earl Cropper, who is traveling for a large Dry Goods firm in Cincinna-ti, is spending his vacation with his mother, Mrs. Lorena Cropper.

Mrs. Carrie Riddell and her niece, Mrs. G. L. Alford, of Louisville, spent Sunday with Mr. and Mrs. Howard Huey at Petersburg.

SOME DAY IT WILL COME

A flying flivver, which carries you sixty miles on a gallon of "gas" and can be manufactured in 'quantities at \$400 apiece! It is being successfully demonstrated in our country by Georges Bargot, its French inventor. Compare with the cost of driving a car. Bargot's baby plane weighs only four hundred pounds. It is shipped "in the knockdown—came from France in a crate. It's a tiny motor in twelve horse power. But it's powerful, Bargot claims it can climb more than a mile up into the air in thirty minutes. This baby plane carries only one passenger. A machine to carry more would be a simply matter of multiplication. Bargot splane has tapering dragonfly wings, braced internally to cut down the air resistance. These wings have a spread of ship forty feet. That's about the width of the garage, you'require. Later on, the inventors probably will discover how to do away with wings entirely. Seems impossible. It once seemed equally impossible, the idea of an ocean-going ship without rails. Only the wild visionaries in those days pictured anything like a ship propelled by steare engine and screw. Barbot's plane may or may not turn the trick, but it's just a matter of time until the flying fliver will take the place of the auto as the main vehicle of transportation. The auto, of course, will continue in widespread use in the Airf Age, like the horse in the Auto Age. But the real roads of the future will be in the air. No paying taxes! No tire bills! Before the air-plane come to general use, it must be cheap. Barbot demonstrates cheap ness is possible. It must also bable to rise and descent in a straight up-and-down line. The helicopter machine is the key to this. The universal auto also must be fool proof. Some invention like the gyroscope will prevent its falling, even when their planes stalled in the air. It is not beyond probability that our descendants, when their planes tall in the air, will have to use a rope ladder to get own to carth, under cretain conditions of machinery out of order.

RADIO IMPROVES
RIVER SERVICE.

The rapid development of radio and its use in commercial life are illustrated in its application to the operation of steamboats on the Massiesippi river from St. Louis to New Orleans—1100 miles.

One of the great objections to river traffic in the past was its isolation. Today all of the steamboats and self-propelled barge units used on short auxiliary runs as feede are equipped with wireless. They report their positions several times aday and their movements are watched as closely as are transported in a dispatcher's office.

Radio Is revolutionizing Mississipir river shipping and speeding up the arrival and departure of freight through putting the shipper and the boat companies in close touch with each other, thus obviating delays in louding and unloading freight or in waiting on the arrival or departure of toats.

In this matter radio supplies a missing link in our inland water ways transportation.

## ASSOCIATION MEETING.

ASSOCIATION MEETING.

Covington—By unanimous action of the Co-operative Pure Milk Association members at their annual meeting held June 14, at Odd Fellows Temple, Cincinnati, it was decided to complete the whole milk pool effective July 15, thus callling in the entire milk production of the 2,100 farmer members of the Association. At the same time it was decided that the dealers be notified at one that on or about July 15, all milk signed under contract to the Association shall be sold or delivered that the Association, that the present supply after supplying the Association plants will be regerved until June 25, for the dealers in the Cincinnati, Hamilton and Middletown markets that unles the dealers are heard from by June 25, arrangements will be made for other disposal of the supply after July 15. These decisiona were passed unanimously by rising vote anid cheers and applause.

It was also decided to place in operation that section of the contract known as Section H by September 1, 1923. This means that such producers who do not sign the contract theore that date are to be placed in a separate pool for a period not exceeding one progressive the fluid state.

### SECOND SUMMER

By Dr. Annie S. Veech, Director of Child Hygiene, State Board of

of Child Hygiene, State Board of Health.
Louisville, Ky., June 9th.—There is nothing to fear for the baby in his second summer any more than in his first or third summers if mothers understand how to properly care for the baby. He should be entirely weaned from the breast when he is a year old. Many mothers think it necessary to nurse the baby during the second summer even though he has passed the first year. This is a mistaken idea and often causes the baby to be ill because of the effect the heat has on the mother as well as her inability to furnish sufficient nourishment through her depleted milk supply. This results very often in an under-nourished baby with no resistance to disease.

in an under-nourished baby with no resistance to disease. The baby should get a quart of fresh cow's milk a day from a clean safe milk supply; also fresh vegeta-bes each day, such as carrots, beets, spinach, greens, fresh peas, aspara-gus tips, etc., and some cooked fruit, well cooked and mashed through a

gus tips, etc., and some cooked fruit, well cooked and mashed through a sieve.

Be regular about all of his habits including early bed-time and hours for bathing, feeding, and naps. The latter should be taken out of doors whenever possible. Put the, baby in kis luggy away from the hot sur and cover with mosquito bar to keep flies and other insects away from him. Do not dress him too warnt or he will be fretful because of his discortfort. A cotton shirt, napkin and muslin elip is sufficient in very hot weather. Do not handle the baby any more than is necessary, and do not allow others to do so.

If you would keep your baby we'll do not take him to moving picture theaters or other crowded paces. Avoil all excitement and keep him just as quiet as possible. If the baby should show my signs of illness, consilt a doctor at once—he knows much more than your neighbor.

GOOD PROGRESS ON ROADS SEEN AS 1923 SEASON OPENS.

The 1923' road-construction season opens with the prospect that there will be about the same amount of road construction as last year, which was a very satisfactory one, according to the Bureau of Public Roads, United States Department of Agriculture.

Returns from 21 scattered States show that in these States there will be available \$288,000,000 for road work as compared with \$273,000,000 spent in the same States last year. On Federal-aid work, which constitutes something like half of the total construction, there was underconstruction on arch 31 work estimated to cost \$258,000,000 as compared with \$233,000,000 12 months previous.

### House-Cat Fur in **Great Demand**

House-Cat Fur In

Great Demand.

The increasing use of furs, due almost wholly to the dictates of fashion, threatens to cause the extermination of the most important furbearing animals throughout the world. Furs are no longer worn mainly for comfort and protection in winter; the whims of style encourages their being used during the entire year.

Few people have any conception of the number of animals that are destroyed every year for the fur market. So widespread is the demand, and so numerous are the places where they are bought and sold, that only a part of the petits reach the main fur centers, and hence it is impossible to ascertain the total number that are kilieu animais.

St. Louis, Mo., has ranked for many years as the largest fur center in the world, and at the auction held there in 1919, lasting one week, the astounding number of 5,086,303 dressed and undressed fur skins, as well as 550,000 pounds of New Zealand and Australian rabbit petits were offered for sale. If the number of skins sold at one place is so large, what must it be for the entire world?

The more valuable fur-bearing animals have already greatly decreased in number, and therefore, other species of the mammals are killed to meet the demand stimulated by fashion. As an example, at this Saint Louis auction over 40,000 house cats were sold; a firm in Chicago stated that—they themselves handled over 48,000 cat skins in 1922. While this may be pleasing news to the lovers of bird life, it will hardly be conductive to the fur wearer's peace of mind, for, of course, no "tabby" skins are retailed under their true name. Over 1,000,000 muskrat petts were listed as "Hudson Seal."

THE COMMUNITY
TROUBLE RAISER.

this system of government, a higher degree of happiness has been created than anywhere else in the work.

More than 380 dairy cows recently were tested in Boyd county in one month in the campaign which is being conducted to rid herds in that section of the state of tuberculosis, County Agent L. M. Amburgey reports.

The kids of Burlington are getting ready to show their ardent patriciam on July Fourth by deafening the old ladies with their noise.

JUNE

No 37

A well known fraternal order has just adopted a resolution calling upon. Congress to modify and "make easier" the immigration laws of the United States on the ground that many desirable citizens are excluded under the literacy tests and the quota law.

Nothing is said about the many more undesirable citizens which these

When the automobile first came into use it was a vehicle of pleasure for the rich.

Now it is one of necessity, in universal use, and saving time that is worth many times its value.

It is a commercialized vehicle of transportation, and is the direct cause of a wave of road building that has swept the country from one end to the other.

Ask the hundreds of thousands of farmers why they own their own

Ask the hundreds of thousands of farmers why they own their own cars? They will tell you that the horse and buggy is too slow—that they lose too much time. And is is so in every other sphere of life.

Before the advent of the automobile our country roads were a disgrace to the nation. Today they are a thousand per cest better, and additional improvements are constantive being added.

grace to the nation. Today they are a thousand per cest better, and additional improvements are constantly being added.

The automobile has done it, and the automobile and truck will continue to be power behind road improvement until we reach the pinnacle of perfection in this line.

Everybody profits from the automobile and the good roads it brings—the farmer hauling his crops to market, children going to the community school, the erchant who sells more goods because people go todown cftener, the tourist who is out seeing 'the country, in fact everyone who uses a public highway in any manner.

And yet there is one fly in the olithment, ad he is a big one, a bad one and a dangerous one.

That fly is the speed maciac who-is unable to control. his empty brain, the man who wants the whole road while others get off into the ditch—or worse.

Swet the 8y and all will be well.

worse. Swat the fly and all will be well.

## THERE'S MUSTO IN THE AIR

A favorite song, much enjoyed by comantic people of former years, began with the words, "There's mosic in the sir." Many a crowd of young people used-to sing it as they sat on shady porches on moonlight nights, or rowed over still surfaces. It was to them a bit of sentimental dreaming, but it never occurred to them that it was literally true.

Today the invastaries of radio con-

them that it was literally true.

Today the mysteries of radio connect the human ear with this marvellous etherial communication. The air in our own homes is discovered to be thanburg with the music set loose in cities thousand—of miles distant. Never were the maginations of poets better verified by the plain facts of every day life.

Such a wonder numbt to make

facts of every day life.

Such a wonder ought to make skeptical people doubtful of their own little wisdom. The thing that is called impossible today, and is only dreamed of by mystics and visionaries, may be just the commonplace of the day our sons and daughters

Very few people realise that the treat majirity of the inflates of risons in the United States are men under 25 years of age. It is costing he people of our country about 200,000,000 a year to maintain the visions of the United States.

## **WORK OF A FORMER** . BOONE COUNTY BOY.

EDUCATION CHIEF SIGNS 6.201 DIPLOMAS FOR SCHOOL GRAD-UATES.

Just as the hands of the clock pointed to 4:37 o'clock Wednesday afternoon, W. W. Gaines, president of the city board of education, laid down his pen and sighed a deep and contented sigh of relief.

contented sigh of relief.

He had just completed his task of signing hijplomas for the graduating classes of this year, the total number of diplomas being 6,201. This included diplomas for graduates of the four senior high schools, the Atlanta Norman Training School; the Boys' Special School, night schools and the high seventh, low seventh and high sixth grades of grammar schools, every one of these diplomas was signed by President Gaines in his own handwriting.

writing.

"The signing of these diplomas," caid Mr. Gaines, "was quite a task," and took the good part of a week, bht I am glad to Mave done it. Many suggested that I sign with a rubber stamp, but I thought that boy cre girl who studied several years in earning a diploma was entitled to the consideration of a genuine signature which, at the most, would require only the fraction of a minute."

—Atlanta Constitution.

## ARE YOU TAKING ADVANTAGE OF THE FREE BOOK SERVICE OFFERED BY THE STATE?

Any group of people in a small wn at Taral community without Any group or people in a square town of "...al community without free library service may borrow a group of fifty books, fetton and non-fiction, from the state, the only charge being \$2.00 to help defray transportation charges. ## NATIONAL UNIVERSITY SEEN FOR WASHINGTON

Capital to be Center of America

Washington.—The National University project, originally fostered by George Washington, and again put before the country by the program of the Supreme Council of the Ancient and Accepted Scottish Rite of Freemasonry for the Southern Jurisdiction of the United States, is receiving much attention from Capital City educators.

Dr. Abram Simon, president of the board of education of the District of Columbia, believes that a national university is assured for the city and Naton in the near future. He believes that the present Geo. Washington University will be the necleus around which the national institution is built, and that with the establishment of Junior universities paralleling junjor high schools, working nonnection with the national university, the Nation will she an educational center in Washington which will profoundly accet and greatly stimulate the cause of education throughout the country.

"The junior universities must come," Dr. Simin said, "because out large universities are overcrowded; because they are too extensive. They will have to come to all the large cities of the country for this reason, and although Washington is not an industrial city, it, too, will have them incorporated into its school system.

"I believe every large city will have to develop an educational program that will carry the pupil from the first grades to the university. These junior universities also will give the pupils enthusiasm for the college degree.

"The pupil enters the junior high school in many instances firmly convinced he neither needs nor is able to finish the full high school course. However, after he has completed the junior course and receives his divioma he is eager to continue the senior diploma.

"In the same way the junior universities will add stimulus to education. The pupil will say that he carnot take the junior quiversity course and see want it is like. After he has received the spinor quipersity course and see want it is like. After he has received the junior olipoma he will want the senior college di

## FEDERAL FORCES TIGHTENING THE SCREWS.

FEDERAL FORCES
TIGHTENING THE SCREWS.

Roy A. Haynes, Federal Prohibition Commissioner, says-that "federal forces are now functioning upon the Lasis of present appropriations. Every effort is being made to stimulate co-operation from municipal, county and state officials to the extent that an early date local authorities may be depended upon, in the main, to care for minor violations, as was contemplated under the concurrent power section of the Eighteenth Amendment to the Constitution, and then the federal forces will be more free, to deal with larger conspiracy violations, coast and lorder problems, and to stop illegal traffic at its source."

An increasing tendency on the part of courts to measure heavier penalties to violators of the prohibition laws and to grant so-called "padlock" injunctions closing liquor musances; a large decrease in withdrawals of liquor from warehouses as a result of more rigid requirements for permits, and better co-operation between state authorities and the Federal Government, particularly in the West, to enforce the dry laws are prominent points in his report, which particularly praises the activities of western states.

ORIGINAL THINKERS

### ORIGINAL THINKERS

One point that has been frequently made in the addresses to graduating classes of students, is that they ought to try to be original thinkers.

The majority of people get their opinions ready made. They obtain

The majority of people get their opinions ready made. They obtain them from favorite newspapers, or from people whose judgment they trust. It is difficult to get a new idea into the heads of such folks.

There are many persons however, who are constantly reading and thinking and drawing their own conclasions. Sometimes they early after originality too far, and will not listen to the opinion of competent authorties. But in the main this class of people govern the country. Many of them occupy humble positions, but their good information and ability to express their views enable them to take a large share in shaping public opinion.

opinion.

The people who have had the benefits of education can share this position of influence if they maintain habits of study and reflection.

Country towns can not usually boast many handsome houses of specially fine architecture. There is not money enough in such communities for them to branch out in many dwellings having exceptional and distictive beauty. The majority of their residences are usually plain; and simple homes, which did not cost a great deal of money.

Yet such a town does not have to forego the idea of beauty. It must get it in some other way, and the most practical manner is to make special efforts ti cultivate flowers.

The people of former generations had the reputation of having to work very hard to live under their difficult conditions. Yet a lot of them found time to cultivate a flower garden. A great many of their homes had liberal spaces laid out in beds for phlox, larkspur, roses, geraniums, hollyhocks and other varieties that have been favorites for many years.

Many country folks say that they labor so tolsomely that they could not possibly find additional time in which to run a flower garden. Perhaps if they tried it, they would find that it did not add anything to their labors. People's wearlness is caussimore by mental and nervous conditions than by physical effort. If people have having interesting and rewarling experiences, they do not seem to get much tired, even if they work long hours.

Gardening has that effect upon a multitude of people. The sight of the next the added pride

long hours.

Gardening has that effect upon a multitude of people. The sight of the pretty flowers, and the added pride it gives them in their homes, makes them so much happier that it seems to make teir work easier. The actual labor of tending those flowers so re lieves their lives, that it adds nothing to their labors, but actually makes their burdens grow lighter.

THE GRAUATES.

Many exhortations are handed out to the school and college graduates reminding them of the great benefits conferred upon them by the education they have received in Kentucky and other commonwealths, and the obligations to good conduct and citizenship thereby conferred. This line of thought is needed by all these young people.

Something also should be said of appreciation to every faithful structure of the work such a person has done. These graduates, it mugh be remembered, are only a minority of the younger generation. Those who drop out prematurely, who are content with very limited educational courses, far outnumber them.

Some of those who thus quit do so for good reasons, because their parents must have the money they can earn for their own exigencies. But a great many of these young people who quit scheol too early do so because they have become sick of study and they want to be making some money for their own use. This represents in many cases a lack of energy and industry.

Many of these people who have extended the supplementation of the services and they were the schools have at

resents in many cases a lack of energy and industry.

Many of these people who have kept on through the schools have at times been tempted to quit. They see their classmates going to work at paying jobs, were they would have plenty of spending money. But those who stick at their Books in spite of such lures are entitled to much credit. Even if their action is taken purely in 'their own interest, it shows a certain foresight and intelligence which the community should appreciate.

For many of these graduating students

For many of these graduating students, their course has been one of solid and substantial work. They have had to dig at their books and papers while others played and frolicked. The resolution and determination thus manifested are splendid qualities, and the community will compensate them later by rewards appropriate to honest and painstaking effort.

## ON A VACATION.

Alfred (Pete) Jones, who handles the mail for Uncle Sam on Routanton of Burlington, is taking a two week's vacation, and his brother, Wallace, is carrying the mail while he is taking a much needed rest. Some suspicion that before the two week's vacadon is over he will have joined the large caravan of "Housekeepers." If this be trur we congratulate the bride to be, for "Pete" is a young man of wonderful fascination and a remarkable attractiveness, with a manner as enchanting as the wand of a siren and a disposition as sweet as the door of flowers, and spirit as joyous as the caroling of birds, a mind as brilliant as those glittering tresses that adorn, the brow of winter and with a heact as pure as the dew drops trempling in a coronet of violets, he will make the home a paradise of enchantment, where the heaven-tuned harp of muriage shall send forth those strains of felicity that thrill the senses with rhythmatic pulsing of exatatic rapture.

## THE COUNTRY FLOWER GAR- BOONE CO. REPUBLICANS

### In Mass Convention Instruct For Dawson for Governor.

The Republican Convention held Saturday, June 23, was called to order at one oclock p. m., stardard time, by A. R. Edwards, Chairman of the Republican County Executive Committee for Boone county, the call for the said Mass Convention was read.

read.

A temporary organization was effected by electing J. H. Stephens, of Burlington, Ky., as Temporary Chairman, and D. B. Wallace of Walton, Ky., as Temporary Secretary. On motion and second, the temporary organization of the Convention was made the permanent organization with the Convention.

Chairman appointed a Committee on Resolutions, which Committee of fered the following resolutions which were adopted:

BE IT RESOLVED by the Remu.

BE IT RESOLVED by the Reputants of Boone County, in Conve

licans of Boone
tion assembled:

FIRST: We renew our allegiance
to our party, our faith in its prointing of the second our belief that as a political organization it will continue to
be that which it has always been, the
most powerful egoncy in our State
and Nation for the preservation of
our institutions and the progress,
growth and development of our country.

growth and development of our country.

SECOND: We heartily endors: and approve the Administration of President Warren G. Harding and the State Administration of Governor Edwin P. Morrow.

THIRD: That for the purpose of casting the vote of Boone County in the State Convention at Lexington, Ky., on Tuesday, June 26th, 1923, the following named persons be and they are hereby selected by this Convention as the delegates of said country, to-wit:

hey are hereby selected by this Consention as the delegates of said county, to-wit:

the convention and are further instructed to vote as a unit on all
messions.

## WASHINGTON'S CHURCH OBSERVES BIRTHDAY

Old Pohick Edifice One Hundred and

Washington.—Pohick Church is one hundred and fifty years old. This is the famous old edifice near both Mt. Vernon, Washington's home, and Alexandria, Va., of which George Washington supervised the erection and of which he was warden of the yearty.

washington serves was warden of the vestry.

Other names famous in the early history of the church were George Mason, of Gunston Hall; George William Fairfax, and Daniel McCarty.
The church has maintained its active interest in the country's welfare, as evidenced by the unveiling last year of a tablet to the young members of the congregation whose lives were sacrificed in the world war. Mrs. Harding, wife of the President, participated in the birthday celebraton ceremonies, which included addresses by noted divines and an elaborate musical program.

## A WEEK'S NEWS.

In an advertisement in this week's issue of the Recorder, the Burley-Tobacco Growers' Co-operative Marketing Association announces that Sign-Up-Week will be June 25-30. Duing this period every burley to-bacco grower who is not already a member of the association is urged to become one.

That the association has made the prices for the past two years there is not a fair-minded man will deny-Had it not been for the burley organization and had tobacco been sold in the old way the growers would not have received one-half as much for their crops as they have received. We make this statement without fear of contradiction from any person who will say what he believes, whether he is a pool member or not. The burley organization has proven itself a success. It has demonstrated that prices for tobacco combe maintained at a fair average thrus the organization.

A card received last week from Prof. J. C. Gray, one of the teachers at the Boone County High School, requesting his paper be changed from St. Bernard, Ohio, to Detroit, Michigan, he says: "Since leaving Burlington I have had my abode for a short time in Cincinnati, Cleveland, and Detroit. Had a trip on the D. & C. Line via Lake Erie from Cleveland. Am teaching in a Daily Vacation Bible School for a month." The Professor will be back in the falt, having been employed to teach next, fall and winter by the school board.

Everybody who is loser at Latonia-can get even at Erlanger. Despite-his efforts to keep it a secret, the clockers have discovered that Romie-Respess has been secretly preparing Snookum for the pony race at the-fair. Romie has been trying to keep Snookum's work quiet, but the boys-have discovered Snookum's condi-tion and he will be an odds on fav-orite. Romie should take a few les-sons from his dad on how to fool the clockers.

While performing his duties as Commonwealth Attorney at Williamstown June 20, Jno. J. Howe, Jr., received a telegram stating that the Grand Lodge K. of P., had unant-mously elected him as one of the representatives to represent Kestucky in the Supreme-Lodge K. of P. This is quite an honor for one who was not a candidate for the office.

Circuit Court Clerk, R. E. Berk-shire, escorted his father, B. H. Berk-shire, of Petersburg, to the Cincin-nati Zoo, on Thurnday of last week. This was Ben's first visit to the Zoo, and it is said he enjoyed watching the elephants eat peanuts and our an-cestors swinging by their tails as much as did his grandchildren.

The Burley Tobacco Growers' Cooperative Association of Carrolf
county will give a big barbeeue at
Easterday, on July 4th. Speaking
by prominent officials of the Burley
and other Co-operative Associations,
and all directors of the Burley Cooperative Association will be present,

W. P. Beemon, of the Pleasant Valley neighborhood, shipped to the Cipcinnati market, one day last week cipcinati market, one day last week a veal calf seven weeks old that weighed 250 pounds, and said to be, by the commission men at the stock yards, the best veal calf ever brought to that market,

We invite you to favor this office with items of news. Close application to the mechanical workings of the RECORDER precludes the possibil-ity of our getting out and "landings" news that otherwise escapes us.

The farmers of Boone county will begin cutting their wheat crop next week. The crop in Boone ciunty is small, but the quality is extra good, and the yield bids fair to be a heavy

The tobacco set in this county started off growing nicely and that farmers are plowing that which was set two weeks ago. About an aver-age crop will be raised in the coun-

The publishing of a country newspapers in a small town, and personally at this season when items of importance are few and far between, is a difficult and wearisome job.

According to weather reports Friday of last week was the hottest day experienced in this part of the country since 1874. The mercury reached 98.

Next Wednesday being Indusence Day (July 4th) there wis no rural mail delivery that day

L. L. Stephens, wife and son Oal-ley, have united by letter with the Burlington Baptist church.

## INDEPENDENCE DAY TO BE CELEBRATED

nt At Cynthiana July 3 and

tion Men And Their
Families.

Members and friends of the Burley Tobacco Growers' Co-operative Association will celebrate Independence Day this year by giving a pageant near Cynthiana, in the Snodgrass grove, where an all-day meeting will be held, and a barbecue and burgoo near Carrollton, where the celebration will be held in the grove on the farm of Mrs. Nannie Tandy. A basket pienic will be a feature of the Cynthiana event and at Carrollton there will be enough beeves, sheep, chickens and all the necessary ingredients of burgio to provide, an ample dinner for 5,000 persons or more.

President and General Manager

MElleview boys kindly let them have their catcher, "Shiner" Ryle, who put the shine catcher, "Shiner" Ryle, who put the catcher, "Shiner Catcher, "Shiner Catcher, "Shiner Catcher, "Shiner Catcher, "Shiner Catcher, "Shiner Catcher, "Shi

A basket pienic will be enough beeves, sheep, chickens and all the necessary ingredients of burgio to provide an ample dinner for 5,000 persons or more.

President and General Manager James C. Stone will speak at Cynthana in the morning and in the after noon the pageant will be given. The directors and officers of the Burley Co-operative will attend the meeting. At the Carroll county barbecue there will be a number of addresses, all short and to the point, and each of the nine precinct locals of the county will give a stunt, local putting on the best stunt receiving a prize of \$25 given by Director if Warebouses Ralph M. Barker. Each local also has invited a speaker as its representative. Director Barker, Miss Verna Elkinger, director if Warebouses Ralph M. Barker. Each local also has invited a speaker as its representative. Director Barker as its representative. Director Barker said that two members of the Association would be at the entrance of the grounds ready to sign up any non-members who might desire to attend the Carrollton meeting with their families, and that all would be welcomed, the sole requisite to participation in the celebration being membership in the Association, however recent. The expense of the celebrations, but at all would be welcomed, the sole requisite to participation in the celebration being membership in the Association, however recent. The expense of the celebration being mompted by the continued throughout the week in every county of the Burley district. Chief William Collins, of the field service, has asked the leaders in each county to do their best during the week to enroll every grower not now a member.

STORM DOES DAMAGE.

Two Barns Burned and Live Stock Killed.

A heavy rainfall accompanied by thunder and lightning passed over the northern part of the county, about 7:30 last Sunday evening and did considerable damage in different parts of the county about 7:30 last Sunday evening and did considerable damage in different parts of the county, about 7:30 last Sunday evening and

A heavy rainfall accompanied by thunder and lightning passed over the northern part of the county about 7:30 last Sunday evening and did considerable damage in different parts of the county, although it brought relief to the sweltering heav period.

Two barns were struck by lightning and burned. The barn of E. I. Rouse on the Hebron and Limaburg pike was in flames immediately after it was struck and it was with difficulty that those present succeeded in removing from the burning hern any of the machinery. Besides the barn there was destroyed a hayrake, harness, lot of corn and hay. The heavy rainfall prevented the fire from spreading to other buildings near by. The barn of H. M. Holladay near Idlewild was also struck by lightning and injectives with all its contents destroyed. Mr. Holladay had in the barn about 30 tons of hay, 500 bushels of corn and a lot of farming implements.

Robt. Aylor, of East Bend, had

Dusness of the implements, Robt. Aylor, of East Bend, had two cews killed, and Walter Florence of near Hebron, lost a team of horses that were struck and killed, Harvey McGlasson, of Hebron also had a new killed.

Mrs. Stanley Palmer, of Fort
Wayne, Ind., who has been visiting her parents, Mr. and Mrs. and Mrs. and Mrs. and Mrs. L. R. Mclegrachies at Petersburg for several days, was stricken with appendicitis sunday and was taken to a hospital in Cincinnati Tuesday afternoon where an operation will be performed.

## United We Stand, Divided We Fall

The growers of burley tobacco have obtained good prices for their tobacco the past two years simply by following the maxim at the head of the advertisement.

mbers of the Burley Tobacco Growers' Co-operative Aswhen memoers of the Burley Touacco Growers Co-operative As-sociation delivered their crops to the Association last fall and winter they were paid about \$18,600,000 in cash.

On June 4, they were paid another \$15,000,000, making a total paid on their 1922 crop of \$33,600,000.

The growers of the burley district received for the last crop they marketed under the old auction system of selling about \$11,000,000 less than we have pald our own members for their 1922 orops, and these members have another payment coming to them when the rest of their tobacco is sold.

000,000 more money into the burley district in two years than otherwise would have been pald the farmers.

FOR YOU FARMERS WHO HAVE CHOSEN TO REMAIN FOR YOU FARMERS WHO HAVE CHOSEN TO REMAIN OUTSIDE THE ASSOCIATION WE HAVE MADE THE PRICE THE PAST TWO YEARS. MOST OF YOU ADMIT IT. WE HAVE HELPED YOU TO TWO GOOD, PROSPEROUS CROP YEARS. WHY NOT JOIN WITH US NOW AND MAKE STABLE PRICES FOR OUR PRODUCT CERTAIN FOR ALL,?

## Sign-Up week will Be June 25-30

An intensive drive will be put-on all over the Burley district.

Get in touch with your county or local chairman and help out.

Every present member should do his part and at least solicit again his noighbors and friends who have not signed. Contracts have been printed in the last two issues of the Burley Tobacco Grower. Out phese out or write in for more.

LIMITED USE OF LIMESTONE

Lexington, Ky.—Soil specialists of the College of Agriculture again are celling the attention of Kentucky farmers to a special plan which can be put into effect in the near future. To make the growing of clover possible with the use of a small amount of limestone. Outside of the central bluegrass region, very little land will grow clover without liming, but there are thousands of acres of farm lands to far from railroads, or served with oads so poor, that hauling limestone to use on them is almost out of the question when the material is used at the rate usually recommended two tons to the acre. The plan for limited liming is based on tests made by the Kentucky Agricultural Experiment Station and will produce clover except in seasons that would kill electric under slmost any soil treatment, according to Prof. Go. Roberts, head of the college agroncry department.

Details of the plan as outlined by Prof. Roberts are: "Mix finely ground limestone, or completely slaked lime, and acid phosphate at the rate of 700 pounds of lime and 30 pounds of phosphate at the rate of 700 pounds of lime and 30 pounds of phosphate at the rate of 700 pounds of time and soil phosphate at the rate of 700 pounds of time and all possible and critical properties.

Details of the plan as outlined by Prof. Roberts are: "Mix finely ground limestone, or completely slaked lime, and acid phosphate at the rate of 700 pounds of time and 30 pounds of phosphate and critical properties. The plan as outlined by the first properties are the properties of the properties to weigh a half pound. Who and by the Kentucky Agricultural Experiment to its maximum capacity, trying to get 1,000 pounds of the mixture to the acre. If necessary, cover the land twice, sowing the grain the last time over. If a fertilizer affective with the properties of the current of the question when the material is used at the rate of 700 pounds of the college agroncery and the properties of the current of the question when the material is used at the rate of 700 pounds of the col

and and disk in.

"In February or early March sow on the frozen ground red and alsike clover mixed in the ratio of two to one, using about eight pounds of themixture to the are. Inoculated sweet clover may be used, especially on very poor land. Leave an unlimed strip for comparison. If lime cannot be gotten in any other way for the demonstrations builders' lime may be used after complete slaking.

"If the soil has had an application of 400 to 500 pounds of acid phosphate to the acre on the preceding crop, the lime may be drilled without the phopials. It is not claimed that this small amount of limestone is at affective for as long a time as larger amounts, but the treatment is easy and comparatively inexpensive and could be applied each time clov-

Each year thirsty Americans consume 4,000,000,000 bottles of soft drinks, and this total does not include beterages such near beer made from cereals, says the department. These drinks come from 10,000 bottling establishments and over 110,000 sodal counters. The skilled chemist has provided a host of flavors which the consumer can not distinguish from the original. The aroma as well as the color and flavor of fruits is being imitated. These modern beverages contain nothing dangerous to health, but the food and drugs act demands that such products be libeled for what they are.

The Campbell-Boone Cow Test Association had a total of 15 cows to make the Honor. List during the months of April and May. Mr. E. B. Brown, testor for the Association sail that Bessie, a Holstein owned by C. O. Hempfling & Sons, Taylorsport, produced at the age of two years and 18 days 12,550.4 pounds of milk and 428 lbs., fat in 365 days. This record makes her a State record cow, beating the record formerly held at the Experiment Station at Leaington.

Egg production has been increased 40 per cent in the past four years in Williams County, Ohio, thru the adoption of methods of care and feeding of poultry advocated by agricultural extension workers, according to reports to the United States Department of Agriculture. This county had been producing previously an annual average of 1,500,000,000 dozen eggs.

During May 553 persons filed with the department written agreements to use pure-bred sires exclusively in their live-stock breeding operations and kinds of animals rept, including poultry. This number is more than twice that for the preceding month and much above the average for the entire "better sires better stock" campaign. The total number of live-stock owners now operating in this work is 10,964.

Ben Hewett, of Delhi, Ohio, was the guest of his brothers, Will and Len of Woolper creek, last Sunday. Will accompanied him home for a short visit.

Mrs. Steve Gaines, of Petersburg neighborhood, was the guest of Mrs. Lucy Cloud and family, last week, at her home out on the Belleview pike.

Miss Katie Kirkpatrick, of Cincin-nati, spent last Saturday night and Sunday with her mother, Mrs. La-vina Kirkpatrick and family.

Some person or varmint got into Mrs. Geo. Penn's poultry yard, one night last week, and swiped thirty-five young turkeys.

is said about the "call if the lowadays, and it is often when the angry yells to the get out of his mowing field.

The prohibition law, intended to free the country from the blight of booze, has, apparently, fastened upon us a bligt of grafting prohibition agents, especially in some of the large cities. Of course there are exceptions, as there are some honest enforcement officers. It is simply a case of too much politics.

exceptions, as there are some longest enforcement officers.

It is simply a case of too much politics.

Instead of selecting agents because of their known fearlessness, integrity and ability to enforce the law, officialdom has been unable to break away from the greatest of all American curses, the appointing of men to these positions through political pull—and that means because of the number of votes they can deliver at election time.

Thus we find many men occupying these positions who have no business there at all—men who will not vigorously and impartially enforce the law through fear of incurring the displeasure of powerful politicians. And some will conveniently close their eyes for a "consideration."

These men may possibly go into office with good intentions, but experience has taught us that they do not possess the moral courage to wistand the giltering political and monetary blandishments that "arcontinually dangled before their cyces by the bootlegging fraternity. But nothing else can be expected from men who, after going into office, are compelled to do the bidding of politicians "higher up" in order to hold their jobs.

There are good, honest and canable men among the prohibition agents, but they are fast falling into disrepute through the actions of the sidesteppers and the foreflushers and the grafters in the department.

been popular with a large number of people, and now the farcical manner of its enforcement is becoming naus eating to many who are firm believers in the complete abolishment of

booze.
It is bad enough for people to violate the law, but for law enforcers
to condone and wink at such violations is a thousand times worse.
Kick the grafters and sidesteppers out of the department and into jail, where they belong.
The public confidence is becoming
sorely strained.

### THIS YEAR'S GARDEN

THIS YEAR'S GARDEN.

The selection and arrangement of vegetables for exhibition purposes is an art. The successful exhibitor first will select those that are true to type. For example, tomatoes should have the same degree of ripeness all over and should be of solid color. In the second place, the individual specimens should be uniform in size and shape. Another important point is to see that all vegetables selected for exhibition are free from blemishes caused by insects, diseases or mechanical injury. "he skillful judge will pick up each individual plate and examine it carefully for such blemishes and immediately throw out the plate that shows any evidence of defects. Finally, all vegetables to be exhibited should be clean.

The catalogue of the show were

etables to be exhibited should be clean.

The catalogue of the show usually will give the number of specimens required for an exhibition, as five tomatoes on a plate, peck of potatoes or dozen carrots. An effort should not be made to pick out the largest specimens, unless that is called for in the catalogue. Specimens that renresent the real type the vegetables should have are the ords to put in the exhibit. The name of the variety of the vegetable should be given, if possible. Different varieties should not be mixed since each variety has its characteristic form, size and color.

Now is the time to expect damage to vegetables from insects and diseases and the gardener who would be successful must be prepared to stop such damage just as soon as it starts. Arsenate of lead and paris green will control biting or chewing insects. Tobacco decoction will control most of the sucking insects. Tobacco decoction will control most of the sucking insects. Bordeaux mixture is good to control most diseases.

### A STUDENT AT 57

A STUDENT AT 57.

It was an interesting incident at the graduation of Pennsylvania state college a few days ago, when a lady 57 years of age, Mrs. S. S. Farley, was given a degree in the botany course, after three and one-half years of study. She is the oldest person ever graduated from that institution.

If more people at that age were willing to take up new things and prepare themselves for the situations in life\* that they have to meet, much would be added to the happiness and the achievement of the world. To many people at that age feel it is too late for them to begin new undertakings, and they drift into a period of elderly life where they acromplish but little, and sometimes suffer privations. The people who at that age prepare for future usefulness usually live longer and more successfully as the result of keeping up with modern life.

I will oversee the work of repairing the Burlington and Belleview pike from Burlington to Commissary.

SHORT-WEIGHT CARTONS INBUTTER TRADE ELIMINATED.

One of the first benefits to the public brought about by the packers and stock yards act as administered by the United States Department of Agriculture was the discontinuance on the part of one of the large packing companies of the use of the sherrich weight butter cartons in certain states of the Southwest The cartons had been devilgned to hold I pounded of butter each, but actually contained only 16 cunces. The statement on the lebel had been changed to conform with the capacity of the package, but other packers and distributors of butter contended that it was an unfair practice and if continued would force the rest of them to adoptsimilar fractional cartons in order to maintain their trade.

Informal discussions were held with the national organization of American Meat Packers and a committee was appointed consisting of representatives of the industry, of the national organization of creamery-butter manufacturers, and of the packers and stock yards administration. The committee decided that the practice should be discontinued and indorsed the principle of standard containers. It recom-

cided that the practi continued and indor cided that the continued and indorsed the principle of standard containers. It recommended for butter that the contents of retail cartons be on the basis of pounds, half, and quarter pounds The two national organizations in dorsed the decision and the company in question immediately put that

DO NOT GET GOOD START

DO NOT GET GOOD START

Lexington, Ky.—Failure to give pigs a good start just after weaning is a profit-losing practice, Grady Sellards, swine extension specialist of the College of Agriculture says. With the hog market down to a low level, many farmers think that it is more prollabe to feed their pigs little or nothing just now and then fatten them for a later market. Once a pig is stunded, however, he seldo, ever recovers from it, and it is therefore unwise to hold back on the feed just after weaning. Pigs should be feed good for at least a month after weaning and then if pasture is abund ant a liquited feed can be given, as long as the pasture is good, Mr. Sellards says.

A feed of corn and tankage, or

ant a liquited feec can be given, as, slong as the pasture is good, Mr. Sellards says.

A feed of corn and tankage, or corn, middlings and tankage, is a good one to start the pigs with. When the corn and tankage are fee, one pound of tankage should be fed with every nine pounds of corn, or about every 18 early with the corn, middlings and tankage ration should be made of six parts of corn, three of middlings and tankage ration should be weight. If the second ration is fed beyond the first month after which the pigs are weaned, the middlings may be left out, inasmuch as cheaper gains usually can be made with the corn and tankage alone.

After the pigs have been given that the with one of these rations they can be put on pasture with a light feed, but should be put back on full feed just as soon as the pasture begins to get coarse and dry. On full feed pigs usually eat about four percent of their live weight daily in grain. A 100-pound pig then on full feed would consume about eight earz of corn and four-tenths of a pound of tankage a day. The amount to feed the whole herd can be figured on this, basis. The corn and tankage ration is the best one to feed after the pigs are taken off pasture and put on full feed.

The value of mineral mixtures should not be overlooked in getting

put on full feed.

The value of mineral mixtures should not be overlooked in getting pigs ready for market. A good mixture may be made at small cost from 10 parts of wood ashes or ground limestone, 10 parts of bone meal or acid phosphate and five of salt. This should be kept before the pigs at all times.

Over 62,000 negro farm girls in the 15 Southern States enrolled in agricultural extension clubs in 1922 to learn better methods of food preparation and preservation, construition and dare of riothing, dare of the home, poultry and dairy work, and gardening. More than 70 per cent of these club members, according to reports to the United States Department of Agriculture, completed the entire year's work as planned by agricultural extension agents.

The last consignment of quail from Mexico was entered at Laredo, Texas, on April 14. Owing to the restrictions imposed by the Merican authorities, the season for the importation of quail, which would have extended to April 30, was brought to an abrupt close before the middle of the month. The total number of birds imported the most of the month. The total number of birds imported the special to the smallest number imported in any secon since 1918, states the United States Department of Agriculture.

FOREST SERVICE ANNOUNCES SALE OF TIMBER IN IDAHO

A sale of lodgepole pine from the Moose Creek district of the Targhee National Forest in northeastern Idaho is announced by the Forest Service, United States Department of Agriculture. The stand in question is ticesetimated to contain 1,800,000 railroad ties and some saw logs and mine timber, which is very old and contains considerable defect, was sold at the rate of 8½ cents for each railroad tie, 50 cents per thousand boart feet for saw logs, one-fourth of a cent per linear foot for mine timbers, and 25 cents aper cord for fuel wood.

The total estimated volume to be

fuel wood.

The stotal estimated volume to be cut in terms of board fact is 62, out of the selection or partial cutting system will be followed and the brush disposed of as is the brush disposed of as is the cutting this type of timber. All of the young and thafty trees will be left starding and only the mature trees will be gremoved.

## SYSTEMATIC PROGRAMS

A very far reaching movement is on foot in 65 counties of Wisconsin for impriving agricultural conditions. Among the projects to be pushed are the following: Marketing, live stock development, soil improvement, boys' and igirls' club work, orchard management, farm poultry produltin, riothing and home conveniences. Farmers meetigs are being held as widely as possible to secure co-operation. The result ought to be a long step toward improved marketing and proddetion methods. If the problems of country life ciuld be attacked in this therough way in every state a big increase in American farm production could be, secured.

America's Marvels NATURAL AND OTHERWISE

Not merely does a terrible lot of money have to be spent on the automobile roads, but the vences have to be repaired so as to hold the speeders in.

Considering that 50,000 people tramped through the White House within four days recently, Mrs. Harding must have had quite a job sweeping the floors.

The savage races of the earth will not probably Meet if the civilized peoples kill each other off by wars, and so teave the best parts of the globe untenanted.

"In God we trust" was the historic motto under which our country was developed, but the present generation seems disposed to change it to "We should worry."

Brother Burne, allows was allowed.

"We should worry."

Brother Bryan claims man didn't originate from the monkeys, but a lifete monkey blood would be quite heipful about now in climbing up after the high prices.

monkey blood would be quite take the place of textbooks in the ter the high prices.

The Eike Magazine prints a fine cen with the lines "When freedom on the line when freedom with the lines "When freedom with the fine mountain hight, with reakings of the morning light," but abbilly many printers will set it up atckings of the morning light.

## PENDLETON COUNTY.

politicians of both old parties are framing the tickets for the people again. Will the voters ever assert themselves and cho-se those who shall govern them according to their wish and the best interests of this Commonwepth?

J. M. Mason, the local agent for the Metropolitan Life Insurance Co, is trying to locate Thomas Wilson and pay him \$200 due on an insurance policy in this company in 1903. He paid four premiums and let the policy lapse. He is entitled to \$200, but so far the gentleman can not be found.

policy lapse. He is entitled to \$200, but so far the gentleman can not be found.

"The Burley Tobacco Co-Coperative Association has been ridiculed by certain elements not favorable to the pool for buying the warehous-priperties in various cities in the district at exhorbitant prices. Our Tuesday two pieces of this property not needed by the Association were sold at public auction in Falmouth, at a price which was higher than the original cost to the Association. This shows that Manager Ralph Barker who was in charge of the buying and selling for the Burley Association. This shows that Manager Ralph Barker who was in charge of the buying and selling for the Burley Association in Falmouth. We predict that within a few-years every piece of properly owned by the Association in Kentucky will be worth 'a good deal more than was paid for it.

The daily press has been devoting considerable space of late predicting that the farmers in general would be more prosperius in the near future. This might be regarded as a signal for the retail and wholesale dealers in the cities to lift their prices on products which the farmer must have. It is true that the farmers are more prosperous than they used to be, but it is not because they used to be, but it is not because they used to be, but it is not because they used to be, but it is not because they used to be, but it is not because they are getting so much more for what they produce; it is because they used to be, but it is not because they used to be, but it is not because they used to be in the products which more for what they produce; it is because they used to be, but it is not because they used to be, but it is not because they used to be, but it is not because they used to be in the products which more for what they produce; it is because they used to be, but it is not because they used to be the methods of farming, and have put farming on a scientific basis. As a general thing, the farmer in this day and age.

prospect is not very bright for him who would exploit the farmer in this day and age.

FEMALE PURE BREDS SHOW
RAPID INCREASE IN REPORT
When farmers' adopt pure-bred sires to head their herds and flock; it is not ong before the percentage of pure-bred females increases notably. This encouraging tendency toward more rapid improvement of live stock has been brought about by the United States lag.—treen of Agriculture in the "Better Sirea.—Better Live Stock" campaign.
Of a total of more than 300,000 female animals listed by farmers who have agreed to keep nothing but pure-bred sires, more than 35 per cent are of pure breeding. On these farms scrubs have practically disappeared. For the larger animals the reports show that only 2.4 per cent of the females are scrubs and, of course, the males are of pure blood, as that is the basis on which the farms are listed.

The poultry flocks owned by trese farmers are particularly well bred, only 1.3 per cent of the female birds being listed as scrubs. More than 68 per cent of a total of 610,000 birds are entered on the list as standard bred. Among the herds of swinsthere are very few scrub sows—only 1.1 per cent. Nearly two-thirds of them are pure bred.

This Federal-State effort to improve the live stock and poultry of the country has now brought in a membership campaign that represents nearly a million head of animals and poultry. Farmers who have become members have sent in interesting accounts of their experiences in improving their animals and their bank accounts. Other farmers who are taking part in the work are invited by the department to send in their individual experiences as well as those of community organizations engaged in the improvement of live stock. Definie facts and figures should be included whenever possible.

HIT OR MISS

## HIT OR MISS

The alien ship owners will not be allomed to take into our ports any liquors. They will simply "take their medicine."—Columbia State.

Most peiple go to the same place on their vacation, and that's broke.— Lansing State Journal.

It seems that no one has had time of figure out how many pedestrian in be run over per gallon. Evans lille Courier.

Well, a prima donna wants a sent in the Hiuse of Commons, and we are for it. Anything that will give one of them a voice.—Detroit News. The Brooklyn-Bridge is forty years old. That's quite a span.—Dayton News.

## HAMBONE'S MEDITATIONS

DE DEBIL'S LAK ENNY-Y ELSE -- HE KIN DO A HEAP MO' WORK EF HE GOT A GOOD MAN T' HE'P 'IM!

### STATE NEWS

Ten beeves, twenty head of sheep, 150 chickens and a large quantity of potatoes, cabbage and other vegetables will be necessary for the big barbecue to be given at Carrollton July 4th, final arrangements for which were being made today at a meeting of members of the general committee at Carrollton with Ralph M. Barker, director of warehouses.

Etherage Sears exhibited at this office last week a large ginseng plan which he found near Buck creek, not far from Haynes postoffice. The plan weighed when green three-fourths of a pound, and was said to be 12 years of age by those who "know seng." The large roots were left on exhibition at the Citizens' National Bank—Somerset Commonwealth.

Seventeen-year locusts are appearing in great numbers, according to those who have been in the country. As one correspondent recetly wrote the Times. "They sound like horses running away with a mowine machine."

Veyetation and fruit are attacked by the horde with a big "W" on their wings.—Glasgow Times.

## WINNING OF THE WEST

Senator.
Colorado elected a Democratic Governor who has since appointed a Democrat Senator to succeed a Republican.

Kansas elected a Democratic Gov-

ernor.

Wyoming elected a Democratic Governor and re-elected a Democratic Senator.

Utah re-elected a Democratic Senator.

tor. Montana elected a Democratic

Washington elected a Democratic

enator. Oregon elected a Democratic Gov-

Oregon elected a Democratic Governor.

Practically all these States went Democratic last year because of disaffection on local issues, mostly agricultural. Political lines disappeared. Men and women voted against regular Republican candidates, or for radical Republican silke Brookhart, or for Farm-Laborities like Shipstead, as an expression of discontent with the first year and a half of Republican control at Washington. It is not essentially a rebuke to Mr. Harding, but it was indisputably rebuke to the Republican party.

Senator W. E. Borah, of Idaho, in whose state the President will speak, declares: "Mr. Harding will find that party spirit has vanished in the west. Political labels out there don't mean anything nowadays. The President's hope of making an impression rests entirely on his ability to offer a program. Viters have lost, faith in them today except concrete policies.

## 75 PER CENT OF DAIRY BULLS IN U. S. GRADES OR SCRUBS

IN U. S. GRADES OR SCRUBS
Seventy-five per cent of the dair
bulls in use in the United States are
either grades or scrues. They are
bulls from ancestry that has not
been bred generation after generation for large and economical production of milk and butter. fat. This
fart. says the United States Department of Agrirulture, alrounts for
the low average production per row
in this rountry.

In 1921, there were less than S0000 pure bred bulls lavley registered
by the breed associations. But this
probably does not represent half the
pure-berd bulls born in 1921. The 80,
000 or wore that were not registerde, in addition to a part of those that
were revisitered, were probably
slaughtered bedause their breeders
were not able to market them profitably. This is because the average
farmer is not yet convinced of the
addinatages to be derived from the
use of pure-bred sires. If every purebred bull calf born in this country. adfantages to be derived from the use of pure-bred sires. If every pure-bred bill calf born in this country were raised, it would take a three or four years crop of calives to replace the grade and scrub bulls (numbering approximately 80,000) that are being used in dairy herds. When it is considered that not all pure-bred calves are worthy of being used, even on grade herds, and allowance is, made for the normal death rate and other factors that enter to cut down the number of pure-bred bulls raised, the above estimate of three or four years could safely be increased to five or six years as the time that would be required to replace the scrub bulls.

## THE CECIL RHOPES TRUST

THE CECIL RHOPES TRUST red CECIL RHOPES TRUST red CECIL Rhopes and a manual dinner at Oxford lost week, at which angle of Republican control at Washington. It is not essentially a rebuke to Mr. Harding, but it was indisputably rebuke to the Republican party.

Senator W. E. Borah, of Idaho, in whose state the President will apeak, declares: "Mr. Harding will find that party spirit has vanished in the west. Political labels out there don't mean anything nowadays. The President's hope of making an impression rests entirely on his ability to offer a program. Viters have lost, faith in them today except concrete policies.

With "the winning of the West" in sight for Mr. Harding, as his friends earnestly believe, they save there's nothing surer in politics than that the President will be triumphantly renominated by his party in Type.

fess.

America has evideced its friendship for Great Britain n.many ways but there yet remains more or less of that old spirit exhibited by our Constitutional forefathers that may be dangerous to strain beyond a given point. In any event, an argument against pure Americaniam whether in the favor of Anglo-American duty or otherwise, is a agument that some men are yet serving terms for expressing, and "Yankees" will be loth to draw a line or a distinction.

but now a citizen of Cincins in Burlington, last Saturday hands with old friends.

either.

If you are a christian and close your mind to Masonry. If you are a Mason and have declared forever against being a protestant church member, if you will not let facts reach you, you better leave. For in the words of my brother Mason and minister made Dec. 29, 1797 at Northfield, England, introducing his sermon to Masons, said: I am a plain man. I must deal in plain truths. I am an Embassador of Christ. A messenger of God" and I invite all honest men, all thinking men to hear me.

Considered historically do we reverence John the aBptist as an eminent Mason?

inent Mason?
All religious people had a custom.
Pagan, every temple, altar, sacre i
place is dericate to some divinity. The
dedication was a festival day, Jews
dedicated sacred places, their private homes, not to Gods, but to God,
Jehova.

Jews sted s

vate homes, not to Gods, but to God, Jehova.

Jews made a distinction, consecrated sacred things, as churches, to God. Dedicated profane things, private houses to some beloved person. We consecrated our lidges to God, dedicate them to some patron.

A philosophical consideration is that the day is really derived from a reverance for the sun, the master light of day, A "spurious free Mason worships the sun Egyptians, sun God Noeria. Phoenicians sun God Adoris Persians sun God Miethras. Pure free Masons, the sun is not worshipped, it is a symbol. Every Mason will remain the search of the sun is an essential symbol in the lodge is vested in three superior officers who are seated as as to represent the rising meridian and setting aun.

To Pagan, Jupe 21, and Dec. 21st when the sun reaches the most northern and 'southern declination, with changes of season, not astronomical phenomena, but work of detites Gods. So these were featival occasions. Masons have taken them over as festival days but given them a christian significance by dedicating them to the two Str. John, St. John the Battist and St. John the svangelist. The dates are June 24 and Dec. 27. The decilication occurred in the 16th century, so the origin of St. John's day, first of all philosophical and secondly

Enjoys St. John's Day Services continued and the control of the peak to the pe

mank or cast among Mason: glory in our future. We hav victories in the past. God has v in the past, God will use us if future.

in the past, God will use us in the future.

Speaking as a minister I give you the highest truth. Masonry, my country. My church all founded on the Bible. Church all founded on the Bible. Church member, christians not Masons hear me. Masons are doing a noble work. Do not take from the: glory till the church rises up and does this work. Masonry is founded on the Bible and we take our oath upon the open Bible. Masonry does not profess to be a substitute for the church, it is not a religion. We do not set ourselves above the church of the living God, but Masonry makes better churchmen. The church with its millions is a mixed multitude. Masonry with its millions is especially selected from those who knock—at its doors. The church can not say "Nay" when a man offers himself for membership, with the lodge it is different. Do not condemn Masonry because some Masons are failures. their failure must be charged to the wickedness of their own nature.

Brother Masons not christians hear

wickedness of their own nature.

Brother Masons not christians hear me—you believe in God and dedicate your lodges to St. John—God sent John to prepare for Jesus. Jesus was the son of God. He 2-1 to redeem all who believe. He built the church. Masonry existed before the church. If Masonry had been enough to save ones soul Jesus would not have died and built another institution on his death. I have given "ou the hear" at Masonry and the Bible. In line with this truth back me up, back up Masonry, back up—the churches with your aympathy, your actions and living. God will bless you. God will save you.

NOTICE.

There will be a meeting of the Boone County Farm Bureau Directors in Burlington on Monday, July 2 at 10 a. m.

## CHRISTIAN RELICS IN JAPAN

It is reported that Marquis Kokujum Tokugawa has discovered among his helrhooms a large stock of old hooks and other articles relating to Christianity in Japan during its officiality in Japan during its officiality of the Tokugawa era. These will be donated to the Moseum of Tokio and that of Mito, the native city of the marquis. The books will be placed at the disposar of studenis of Christian history in Japan.

Since the time of the Third Shogran there had been in the Tokugawa tressures a series of large bores known as "ever-closed cabinets." The present marquis, upon deciding to open them, was surprised to find a number of books and personal effects that included copies of the Bible written in Japanese kana and representing the original sounds of, foreign language, while the dresses were those worn by Japanese Christians at the time of the Amatusa Christian rebeillon.

Up to now relies of the Christian ran in Japan consisted of paving stones engraved with a cross upon which Christians were forced to walk, rosaries and statues of the Madonna and Child under the form of Kwanon, Goddess of Mercy, holding a child to avoid detection. These are found chiefly in southern Japan, where Christian remote on the mountains, dating from the time of the persecution.

Presents from the pope to the lord of Sendal, who received them upon the occasion of the first Japanese embassy to Rome, are preserved in northern Japan.

Counterfeiters Foiled.

To foll forgers a new type of banknote has been designed for Issue by the
Bank of Ireland, which, it is claimed,
cannot be counterfeited. The secret
lies in the selection of certain shades
of green and blue which fail to register,
when photographed, thus rendering it
impossible for forgers to duplicate the
eigraving exactly. The new notes are
available in the denomination of one
pound sterling. The central design
consists of a large oval bearing the
word "One," surrounded by a sunrise
effect made up entirely of tiny letters
spelling "one pound." The fererse
keeps the same coloring, but the design is a star, with a picturesque representation of "Erin," the most ancient
name for Ireland, and rays composed
of the words, "Bank of Ireland."

Affidavit should Go With This.

## HIRD OF FARM HENS STOP LAYING AFTER JULY, AUGUST

rule, these early mouters do not start laying again until the following spring.

The poor layer usually shows a number of characteristics at this time of the year that make it easy to pick her out of the flock. Her pin bones—arec close together, one finger's width or less apart, her vent is yellow and puckered; she has a pale, shriveled comb and wattles, and her beak and shanks have a deep yellow color. In contrast to the poor layer the heavy layer's pin bones are wide apart; her vent is pale and pliable; she has a large, full, bright red comb and wattles, and her shanks and beak are pale yellow to white in color.

All hens that stop laying at this season of the year are not poor layers, a number of causes being rea, sponsible for hens going into a moult. Among these are sickness, improper feeding, broodiness and lice mites. However, if the flock has teen properly cared for and fed a good laying ration any hens that stop laying are fairly apt to be the ones that should be culled.

### HOG CHOLERA LESS BUT HERDS MUST BE WATCHED.

hog which remains in good health from the day, he is farrowed until he is loaded on a market-bound train is usually a satisfaction to the farmer, the packer, and the consumer. But there are many diseases and parasites which beset him during the few months allotted for his economic performance. If this performance is, to be a reeditable one save the U.S. Department of Agriculture, the hog-grower-must keep-close watch over his herd and learn to know something of the symptoms which indicate the possible approach of dangerous disease.

Hog cholera is the great enemy of the swine industry, although it has been diminishing in importance as a result of wide-spread use of anti-hog cholera serum. It has been reduced by about 60 per cent from the losses during the most disastrous years, but with greater care and better understanding of the plague it could be reduced to a much greater extent.

With the gradually increasing control of this disease, it is important to of this disease, it is important.

extent.

With the gradually increasing control of this disease, it is important that swine growers give attention to the many other ailments which cause losses, some of which are frequently confused with cholera. Among the diseases with simptoms confused with those of cholera are anthrax, epilepsy, gastroenteritis, necrobacillosis, pleursy, pneumonia, poisoning swine plague, tuberculesis, and worms.

worms.

When there is any deviation from the normal in gait, appetite, or digestion, it is time for the owner to take measures to prevent possible losses. Minor ailments often can be successfully treated by the owner, but in case of doubt it is the part of wisdom to call for a veterinarian.

### A SOLDIER'S PLEA

A SOLDIER'S PLEA

A Boston soldier wounded in France makes this plea for the League of Nations:
You, who have never seen the horrors of war, who have never seen men disappear, literally blown to pieces, on being struck by a shell, who have never heard the shrieks of wounded human beings, who have never heard the shrieks of a man as he gazes at the stump where bis hand war a moment ago, who have never heard the cries, the groans, the sweering, the praying of men with festering wounds, waiting for ambulances, can you say that we should stop at anything to prevent this frightfulness, this savagery, this horror from occuring again? Is there any other way than by a League of Nationa? Is not the League elastic enough and broad enough whatever its defects to insure its holding together in the future and to insure world peace. Is it not a step, and the only possible step, in the right direction? I firmly believe so. If there is another way, speak it out. If not for God's sake, stop opposing this one remedy.

### LEGION NOTES

Lexington, Ky.—Four years of culling demonstrations in Kentucky with thousands of flocks have shown that one-third of the hens in the average farm flock are poor layers that should be culled out and disposed of in July or August, according to J. H. Martin, in charge of poultry work at the College of Agriculture. This poorest third of the flock should be culled out not possibility of using these poor layers as breeders next year, he says. Culling usually can be started as early as the middle of July this being the time when low producers first sour — a moult. With proper culling the egg production of the average flock can be held up to the point where all the hens in it each are laying an average of an egg every other day. Heavy layers lay through the summer and moult late, in October or November, after which they grow their new feathers islowly during July or August. As a rule, these early moulters do not start laying again until the following spring.

The poor layer usually shows a number of characteristics at this time of the year that make it easy to pick her out of the flock. How the continued in the state of the provided for each should be entirely an expectation. desceration.
Ottawa, Canada—Veterans of alied nations now residing in Canada are receiving special consideration from the Department of Soldiers' Civil Reestablishment. United States World War fighters, through this agency, which co-operates with the the American Legion and the U. S. Veterans Bureau, may benefit by the provisions of the law in their home, country though they live in Canada. If an American veteran in Canada is in need of medical service, the Dominion Director of Medical Service will afford this treatment. Compensation, claims lowered, are handled direct through the Veteranss Bureau.

Georgia continues to lead all other departments of the American Legion in increase over membership for last year, according to latest reports of the Legion's national treasure. With a total if 8,573 members, the Georgia department has a percentage of 1,808 in comparison with last twe-order, are Arizona, Idaho, Uta', South Carolina, New Jersey, New York, Arkansas, South Dakota and New Hampshire.

Eighty-five out of a possible 95 eligible veterans are members of the American Legion post at Nappannee, Ind. The post has raised money for the establishment of a city park and for the installation of play ground equipment for the benefit of the community.

community.

A bet made in the last days of the Argonne, was paid off in Salem, Ore, recently when Walter H. Lilley, a Sacramento, Cala, business man, formerly a sergeant in the 148ti Oregon Artillery, called on George A. White, adjutant general of Oregon and one of the founders of the American Legion.

Oregon gunners were firing on the tiwn of Mousey when Gen. White, then a lieutenant colonel, told them they would be through fighting within ten days. Lilley doubted it, and the two wagered the best dinner in Oregon when they should return home. White won the bet.

St. Paul.—Conservation of the

home. White won the bet.

St. Paul.—Conservation of the wooded lake shores and forests of Minnesota and the planting of trees to replake those rut down are items on the program of the Minnesota department of the American Legion according to a recent bulletin to all posts of the organization. During the last two years American Legion posts have exhausted the supply of trees for planting made available by the forestry department. The vetrans have set trees along many of the important highways of the State in memory of those who died in the world war.

world war.

Indianapolia.—The Navy Department has approved a schedule providing for the anticipation of battleships and destroyers of the United States Navy in the naval show to botheld in connection with the American Legion's national convention at San Prancisco, October 15-20, according to a recent letter received by Lemuel Bolles, legion national adjutant from Assistant Secretary of the Navy Theodore Roosevelt, Jr.

Included in the fleet will-be nine battleships, thirty-eight destroyers and a number of armored crujsers, destroyers tenders, hospital ships and other auxiliary craft.

Des Moines, Iowa.—More than 50,-

and other auxiliary craft.

Des Moines, Iowa.—More than 50,000 lowa veterans of the World War received their state bonns money, totaling mre than \$10,000,000 according to information obtained by the American Legion. Iowa will pay her 110,000 ex-service men a bonus of 50 cents a day for each day of service with \$350 as the maximum for any individual. The bonus law was written by the legislative committee of the Iowa Legion.

Indianapolis. Ind.—Graves of the

mittee of the lowa Legion.

Indianapolis, Ind.—Graves of the American World War dead in Europe are never to be forgotten, because of efforts of the American Legin in raising a fund to provide annual decoration in perpetuity for these resting places. The Overseas Graves Endowment Fund, sponsored by the Legion, has now reached \$110,999.99.

### TYPICAL SPORTS MODES

Sports hats have the privilege of being bright and daring as well as practical. They are chosen with ref-erence to the demands to be made upon them, but in any case they must be becoming and afford some protec-

tion.

Two very pretty models pictured here portray elegancies in hats of the sports type that add to their fascination. One of these models is of light-colored feit, faced with straw braid and trimmed with leaves cut from feit. The other is of fancy straw draped with a scarf of printed Persian silk.

Treasurer Robert H. Tyndall of the organization.
Contributins still mount. Completion of campaigns in the many states and countries cause the total to increase daily. Fourteen Legion departments, six in foreign countries, have passed the quota set. The first southern state to report a fund in excess of the amount set is Mississippi, where a successful campaign has been completed.

### CONTENTED COUNTRY WOMEN

CONTENTED COUNTRY WOMEN.

At a reent convention of the United Farm Women of Manitoba, facts and figures were presented showing rural progress in that Canadian province. The belief was stated that one requisite for successful agriculture is a contented wife in the home. The results of a survey made of conditions in the homes of the farm women in that province indicated in few respects have those women any cause to enry their sisters who live in cities. In 30 per cent of those homes there were automobiles, a still larger per cent had musical instruments. The provincial government distributes books and moving pictures throughout the rural districts. If this condition of contentment prevails among the women of this remote province, it should exist a great deal more in Kentucky, which can show still more comforts and advantages in the possession of the rural population.

Some people never practice what they preach—because they don't preach.

Never try to justify your actions.
If they are right they do not need is. Meation; and if they are wrong no amount of justification will suffice.

When sowing their wild oats the young men should think of the cost of harvesting the crop.

The man who reaches the top of the ladder of life is in a sad way. He can't go forward, and he doesn't want to go backward, and he doesn't know which way to turn.

If you have any good advice to give away, use it up yourself and you will have fewer complaints to make over the way the world uses you.

If you think your husband is a paragon of goodness just keep on thinking so. The rest of un need on ething over which to crack an oc-casional grin.

### Commissioner's Sale.

BOONE CIRCUIT COURT Henry Oelsner's Admrx.

against John Oelsner, et al. " Defendant

John Oelsner, et al. Defendant By virtue of a Judgment and oder of Sale of the Boone Circuit Court, rendered at the April Term thereof, 1923, in the above cause i shall proceed to offer for sale at the Court House door in Burlington, Boone County, Ky, to the highest bidder, at Public Sale on Monday, the 2nd day of war, 1288, who was a contract of Six and Twelve months, the following property to-wit:

Parcel No. 1—Beginning at a stone at the edge of the Covington and Lexington Twenshie Rand (now Dikie Highway at said Oelsner's old corner, near his old abop; thence along the edge of said road n20w 30 feet to a stone, a corner with John Oelsner's lot; thence \$55 \pm 102 ft. thence \$5

kice, for the executors of the estate of John Stephens, deceased, dated April ——1857.

The Master will sell a strip on the north side next to the Finch property sufficient to pay the debts and interest amounting to \$596.80; he will then sell the remainder as a whole. The dividing line will run at right angles to the Dixie Highway to the zear line.

For the purchase price the purchaser—with approved security or securities, must execute bond—, bearing legal interest from the day of sale until paid, and having the force and effect of a Judgment, with a lien retained therein until all the purchase money is paid. Bidders will be prepared to comply promptly with thems, terms.

It is not so long ago that the universal use of fireworks and firecrackers, by, cannon and gunpowder, left a train of accidents, deaths, burnings, raimings and blindness as the sad reminder that we celebrated, indeed, "not wisely, but too well." In the larger cities the custom has had an enforced passing; wise police laws prohibit the sade or use of explosives in unskilled hands, and demand that the burning of powder be a municipal, rather than a private privilege. But all over the country are smaller towns and villages, where the city and the country are smaller towns and villages, where the city fathers say, "Oh, let the children have their fun," as if any "fun" which may blind or kill a child is a good kind of fun to use toshow rewerence for the flag and gratitude for liberty!

An Independence Day which is only an excuse to make a noise, would better not be celebrated. Independence Day celebrations which foster patriotism, which bring forth and emphasize the slory of liberty, the privilege of freedom, the precess heritage of heroism and patriotism which the fathers of this country left us; they are well worth while. But that may be done, and better done, without risking a single finger, a single eye, a single life, by leaving the loweness of patriotic fireworks and the thrill of the boom of cannon and bomb, to skilled hands hired by the municipality.

APPLE BLIGHT WIDESPREAD

## APPLE BLIGHT WIDESPRE

IN ORCHARDS OF KENTUCKY.

Leington, Ky.—Apple blight, also known as pear, blossom, twig or fire blight, is widespread throughout Kentucky this season and is causing considerable damage, according to W. W. Magill, fruit specialist of the College of Agriculture. Spraying is of no value in its control, he says.

Cutting out the diseased twigs and disinfecting both the cut and the shears wift corrosive sublimate often is recommended, but commercial growers in this part of the country have found that this method is not practical and therefore leave the blight until the dormant season and then prune out the dead wood.

Many orchard men have found it advisable to destroy pear trees and quince bushes in or near their apple orchards, since these trees and bushes are more susceptible to the blight than apple trees. There are numerous fake methods for the control of blight, but as yet none of them has been found effective, Mr. Magill says.

The warm, rainy weather of the

cous fake methods for the control of blight, but as yet none of them has been found effective, Mr. Magiil says.

The warm, rainy weather of the iate spring and early summer this year has been highly favorable for the spread of the blight, single trees have been making a rapid aucculent growth, but little further damage is expected with the hot, dry season that usually comes in July.

Transparent, Wealthy, Winter Banans, Fall Queen and Rome are among the varieties that are most susceptible to the blight, but this season it also is causing serious damage on Winesap, Stayman, Golden Delicious, Delicious and Black Twig. In fact, no variety seems to be immune.

It is a common belief among farmera that the dead twigs caused by the blight have been stung by sime insect but this is not the case. The blight is caused by a Dacterium which passes its entire life history underneath the surface. The bacteriam which passes its entire life history underneath the surface. The bacteriam putting rapidly in the spring, a sticky mass, full of bacteria, oozing from the diseased parts. It is believed that bees, flies, bugs, aphids, leaf hoppers and beetlgs may infect the healthy tissue by carrying this secretion.

Washington.—An increase in the consumption of milk in the United States is reported by the U. S. Department of Agriculture, due in part to the better quality now delivered to the better quality now delivered to the consumer and also in part to increased knowledge on the part of the consuming public regarding the value of milk as a food.

Reberta, the youngest child of Mr. and Mrs. R. E. Berkshire narrowly escaped being killed by an automobile, on the streets on Wednesday of last week.

Comment on the weather of last week is hardly necessary, as it apoke for itself.

Walter States of this country over 12,904,821 acres of public landstrough issuance of patents giving them complete ownership. The total equals the acreage embraced in the States of Connecticut, Deisware and Maryland.

## RED GROSS NEWS.

Early preparation for the annual Roil-Call was stressed at the recent conference of Regional Chairmen—— Washington Division.

A suggestion lately received, is that volunteer workers take up as a summer task the manufacture of Christmas bags for American solders overseas. There are 38,225 soldiers, sailors and marines now serving in American insular possessions and foreign countries. Boone county made ten of these kits last year.

## REPORT FOR JUNE

## LEGION TO TEACH REVERENCE FOR FLAG

"STAR S PANGLED BANNER"
TO BE LEARNED AND RESPECT FOR BUNTING ENFORCED.

Washington—The recent action of the American Legion in drawing up a second condition of the American Legion in drawing up a seponsive chord in the hearts of all lovers f the Stars and Stripes. This code, covering proper civilian usage of the American bag and conduct in its presence was adopted at the conference of natinal organizations cailed by the American Legion, and a permanent committee authorized ti disseminate it throughout the country.

THE TEACHERRS' VACATIONS.

An impression prevails that school teachers are a highly favored class of people since they have a long vacation averaging 10 weeks or more. But if the truth could be known, a lit of these women and girls work extremely hard through this period of theoretical rest.

Lamy go to their homes, and take hold and help their parents doing housework. Many work as waitresses in hotels. Some run gift shops and other enterprises. A good many take summer courses and find they have to do a lot of studying to keep un with the times. Probably not many of them just sit around and have a good time, as some folks may think.

The Recorder extends its heartlest good wishes to the teachers of this county and it hopes that their vacation is going to have some real funnough to straighten out any incipient wrinkles that school problems may have started. They have earned a real rest.

Detailed plans for the complete celetrication of the United States, worked out in the form of an atlas by Frank G. Baum, an engineer of San Francisco, were recently exhibited at the convention of the National Electric Light Association in New York. The most striking feature of there plans, which are the result of 20 yearss' work, was a map shiwing a system of 220,000-voit, transmission lines covering the entire country and paced vith reference to exactly the country and paced vith reference to exactly industrial centers and rail-road lines.

### COUNTRY PUPILS BEST

Prof. Deich of Simpson college, Iowa, recently has been surveying the honor pupils of Iowa high schools to see where these fine students mostly come from. He finds that out of 316 honor students, 217 come from the

honor students, 217 come from the country.

This is what country people have claimed all along, that rural I ife produces the greater share of the brains of the nation. It makes people, both wing, and old with the country children are learn task. While the city boys are loafing around the streets without occupation, the country children are learn songready seed, years, and provides the country children are learn songready seed, years, and provides the country children are learn songready seed, years, and provides the country children are learn songready seed, years, and provides the country children are learn songready seed, years, and provides the country children are learn songready.

specially children and devote the more complicated, owing to the grant way for priminal of automobile and the special way for grant way to grant the best motor equipment of the special way for grant the best motor equipment of the special way for the IN GERMANY

Mr. Irving T. Bush, builder of the big Bush Terminals, New York, has just completed an extended survey of Russia and Germany. He says: "The conditions of Germany are so critical today that the voice of the American people should be raised in favor of, finding a solution of the difficulties of Europe and ending a situation which is bringing rûn to the next generation of hard-working people. I am convinced that France damands the crippling of Germany and the creation of a series of Balkan states from the former German-Empire. England is struggling against such disaster and Belgium hangs in the balance. At least America cân voice its disapproval and exert its moral force against the creation of a situation, which will breed trouble and revenge for generations to cime."

## AT DAM AT MCVILLE

Raymond Jolly, aged 21, of Aurora, Ind., was drowned at dam 35, being built across the river at McVille, on Wednesday of last week. Jolly was working on the coffer. He had one foot braced against a railing while he was pulling a heavy rope attached to a barge. The railing broke and the young man was thrown into the river, his head striking the coffer as he went down. He passed out of sight under the barge, but soon came out and aparently made an attempt to swim. His actions indicated that he was dazed by the first., io his head. Other workmen plunged into the river in an effort to save him, but to no avail. He was working with his father at the time the accident took place.

Jally had been married but a short.

Gene Stratton Porter, the gifted novelist, writes in the Indianapolis News in regard to the training of young people. She complans that "the youngsters of the country very frequently evince not the slightest interest in the bird or flower life about them. They consider it plebelan to fish in the brooks and ride the horses." This may be true in some localities, but one hopes it is not so in Boone county, Our impression is that the great majority of our boys and girls love these natural pastimes. They should be encouraged to go in for them. Teachers and parents should urge them to study birds and flowers, to enjoy all the country sports. It is one way of winning their affection permanently for rural life

CRIES "FAVORITES."

President Harding's action in pardoning twenty-seven of the federal prisoners convicted of violating purely war-time laws will be welcomed as most auspicious and opportune by hundreds who have watched the fate of these men for many months past. The joint Amnesty Committee is not satisfied with President Harding's release of 27 out of 50 so-called prisoners. "All are free speech cases," the committee says. "and the selection of certain ones "esuits necessarily in unfair discrimination." George Wharton Pepper, United States Senator from Pennsylvania, who first reveiewed the Chicago case involving 21 of the men who were ordered released said, after compieting his review of the case, that the men were convicted at a time when public sentiment was such that if really prevented a fair trial. Mr. Pepper repeats the statement re' garding the trial heid at Sacramento. He has recently said of this case that the presence of these men in jail is a challenge to, an American lawyer's loyalty to his profession.

### FEDERAL AID.

## 1.554 MEMBERS ARE ADDED TO BURLEY POOL IN A MONTE

TOTAL OF 85,368 FARMERS' CON TRACTS ON RECORD AND SEV-ERAL HUNDRED OTHERS ARE STILL IN HANDS OF WORK-

Chief of the Field Service Division William Callins, of the Burley Tobacco Growers' Co-operative Association reported 1,454 new contracts received this past month up to June 28, and that the total membership now is 85,368.

This report, however, does not include several hundred contracts counties before the intensive drive set for June 25 to June 30, started. Some of the workers for the association have been holding contracts already signed in order to exhibit them to prospective members and this second to the field service office.

Among the Kentucky counties reporting the field service office.

Among the Kentucky counties reporting the largest number of additions to the membership were: Taylor, 101; Campbell 147, Franklin, 65, Owen, 51; Boone 48; Grant, 38, Barren, 37; Metcalfe, 26; Scott 23; Carret, 20; Harrison, 13; Bracken, 102, Montgomery, 10; Adair, 102; Henry, 98; Green, 51; Monroe, 50; Harr, 43; Carroll, 37; Clark, 30; Mason, 24; Lewis, 21; Bullitt, 19; Bath, 12; Fayette, 10.

The report does not include the counties of any of the five Burley states except Kentucky, J. H. Vantrease, working in central Tennessee counties, has signed up a considerable number of Burley growers, and John Clark and Tom Miller, in the West Virginia territory about Huntington, have added to the membership in spite of, a hard fight against the cooperative in that territory by speculative interests.

Ohio and Indiana workers also have added a number of Burley growers, and John Clark and Tom Miller, in the West Virginia territory about Huntington, have added to the membership in spite of, a hard fight against the cooperative in that territory by speculative interests.

Ohio and Indiana workers also have added a number of Burley growers, and John Clark and Tom Miller, in the west Virginia territory about Huntington, have added to the membership in spite of, a hard fight against the cooperative in the state of President James C. Stone to these states.

### OUR 60-CENT DOLLAR

After making allowance for all the improvement in industrial conditions throughout the country, it is found that the dollar is still worth only 61 cents, compared with its purchasing power in 1913. Dr. Irving Fisher, professor of economics at Yale University, declares. This figure expresses the dollar's purchasing power in terms of all commoditions.

at Yale University, declares. This figure expresses the dollar's purchasing power in terms of all commodities. The farmer's dollar is worth even less.

The cost of living under a Republican profiteers' tariff explains the depreciation of the American dollar when it is used by American dollar for food, clothing, shelter, fuellight, furniture, equipment, utensite. This is illustrated in the case of srgar, which codld be puruhased for at least two cents a pound iess than the honsumer is now paying but for the duty imposed by the Fordney-McCumber law for the benefit of the Beet Sugar Trust.

## CHURCH HOME COMING.

About 200 people attended the Home Coming of the Christian church at Petersburg, last Sunday, At the noon hour a bountiful dinner was spread on the banks of the river which was greatly enjoyed by all present. After a business haveting by the church board Rev. R. H. Carter was emfloyed to preach for another year. Mrs. Campbell, States Secretary, of Lexington, and Mrs. Pine, District Secretary, of Newport, of the C. W. B. M. were present and made interesting talks. Mrs. Campbell is a near relative of Alexander. Campbell, founder of the Christian church.

church.

Chas. McKim, widower, one of the town's old citizens, who lives alone in the north part of town was found in a serious condition last. Sunday morning by Kirtley Rice who happened by and stopped in to see him. Mr. McKim had been confined to his bed since Saturday morning suffering great pain. A physician was surmomed and he was given relief, but had it not been for Kirtley's friendly call he would have died before any one knew of his sad plight.

## ERLANGER FAIR

WILL BE HELD THIS YEAR

## July 9th to 14th Six Big Days and Six Big Nights

SIX RUNNING RACES EACH DAY

Besides this feature the Fair will have an agricultural exhibit for farmers of Northern Kentucky.

One night will be given over to the display of Jersey Cat-tle and one night to Holstein cattle. The premiums will be large and will at ract the breeders of Dairy Cattle in this section of the State. The saddle horses will also be given recognition at one of the night sessions.

The Erlanger Derby will be run on July 13th.

The Erlanger Fair has always been popular with the people of Boone and all adjoining counties, and this year the management gives an exhibition worth the money. The night fair is held to give the busy farmers and laboring man a chance to attend.

The catalogs will be out for distribution in about ten lays, and one will be mailed to anybody by dropping the secretary a card.

## ANCIENT ART

the Cave Men.

Some of the most striking cartestuces extant are from the hand of Leonardo du Vinci. They are satisfical portraits of his contemporaries and distorted impressions of characters encountered during a busy day by the many-sided Italian gentus; they might have been made for a modern magnatise, so vimit are they, crucily drawn, so vitally interesting. But it was long wold Vinci's day that the cave men who had their rugged abodes in the caverns of France and Spain, about which M. Elle Faure has written so fascinating-ly. It has remained, however, for the modern mind to evilve, a style in caricature that makes of it a distinct and engaging art. of the most striking caric

\*\*The \*\*Logon and Spain, about which ME life Faure has written so fascinating ly. It has remained, however, for the modern mind to evitee a style in caricuture that makes of it a distinct and engaging art.

Goya and Daumles were of the cult in its finest manifestations. Gustave Dore, who never really learned to draw with precision, has bequeathed to use some gorgeous caricutures and among the nonprofessional artistativitor Hugo has shown himself possessed of a spirited gift for the dinention of grimly humorous portraits drawn with a sureness of touch worthy of Gavarni.

In our own country caricature has become an integral part of the daily press, not cartooning, which is a branch of drawing as distinct from caricature as passel painting is distinct from etching, but the simon-pure depiction of well-known futures in/the mays; humorously stressed and keenly accentualing their facial and bodily characteristics. If we are to have a national sclool of caricaturists of the card, Carlo de Fornano, Airfed Freub, Ernest Haskell and Olivel.

Some day it may occur to some wastive privace of the card, Carlo de Fornano, Airfed Freub, Ernest Haskell and Olivel. Hereford.

Some day it may occur to some wastive privace of the card, Carlo de Fornano, Airfed Freub, Ernest Haskell and Olivel. Hereford to decide the state of the card to the card to the card to the state of the card to the daily press, not cardent we must remain study and the state of the card to the

carer. Given a caricature with the punch of an idea behind it and you can work wonders of righteousness. But any one can 'draw a distorted face; the real art of caricature is that in which there is purpose and a discernment of such frailties as profininent flesh is helt to.—Perriton Maxwell in Arta and Decoration.

Couzens' Philosophy,
"My philosophy of life," says James
Conzens, United States senator from
Michigan, "has been to let the future
take care of itself. You cannot derote
your mind or time to scheming and
planning for your own future withour
injury to the work you have on hand
at the moment. You must do what you
can the best you know how each day.
Obviously, you cannot have your mind
absolutely absorbed in what you are
doing and at the same time be worrying or strategizing about your own
future activities or ambitions.
"A man must get his reward from
his work. Work itself is the best, theonly reward.

"The right kind of man, with the right kind of record, seldom has to seek position or office. Usually the seek position or office. Usually office seeks him."—Forbes' Maga-

office seeks him."—Forbes Magazine.

A New River.

There has been discovered in the Mont Bianc region a great subterranean river with a volume of about 50,000 gallons per minute. It runs from the base of the moust...a's under the Saleva and Jura Alps. This river, which has been named "Baux-Beltax" sands out many branches, which have formed little lakes and wells of pure and exteenely cold water in the north-read exteenels of the moustain subsequence of the "Baux-Beltax". It is said that the weters of the "Baux-Beltax" at a depth of from 75 to 100 feet, have carried out under the mountain when the said that the weters of the "Baux-Beltax" at a depth of from 75 to 100 feet, have carried out under the mountain when the said that the weters of the "Soux-Beltax" at a depth of from 75 to 100 feet, have carried out under the mountain when cavered out under the mountain when the said that the weters of the "Soux-Beltax" and stalagmites. Some of the caveren sear Genera see 90 feet high and 150 broad.—Exchangs.

## LEGION NOTES

Indianapolis — Georgia continues to lead all other departments of the American Legion in membership gain over 1922, according to latest reports from Legion National Headquarters. Other leading states, in relative order, are Arizona, Idaho, Utah, and South Carolina. In total membership, the five leading states are New York, Illinois, Pennsylvania Iowa and Ohio.

SAYS G. C. WAGGONER IN SOMERSET SPEECH.

In the first speech of his itinerary
in behalf of Congressman J. Campbell Cantrill's candidacy for governor, Rev. G. C. Waggoner at Somerset last Saturday enumerated fourteen reasons for supporting his fellow Scott countain.

The fourteen reasons given by
Waggoner are:
"First, Because I believe him to be
the very best friend the farmer has
ever had in the American congess.
"Second because he has a simple,
definite platform which covers the
principal issues of the state.
"Third, because he is making no
rash political promse beyond the possibility of fulfilment.
"Fourth, because his untiring services for the Democratic party thru
the years deserve the active appreciation of every Democrat.
"Fifth, because his promises relative to taxation are just and sensible
and possible of enactment and enfreement.
"Sixth, because he champions the
cause of education, promising to do
his part to advance our system.
"Sixth, because he takes a sensible view of the coal tax problem,
proposing to solve it in justice to
both state and the operators.
"Eighth, because he stands for the
road bond issue which will left Kenrock and the coal tax problem,
proposing to solve it in justice to
both state and the operators.

## As the Editor Sees It.

Here is news that, if auther is have an important bearing tuture market value of fore

The future market value of foreign bonds.

A sated editor and writer is back from Europe, where he made a special study of existing conditions.

He says England is taxing her george he heavily and paying her debts. That will inspire greater confidence fin English bonds, and they will find a readier market.

Europe, he says, is raising money to earryon the government by negotiating new loans, instead of by taxition—running deeper into debt. In view of this information French bonds will not be so attractive to the American investor.

Russia, according to him, is being systematically misrepresented by certain powerful newspaper ests. They are, he says, making satisfactory progress toward government by the people. This statement illuminating, in view of the harriconing stories we leve been reading sense the war.

illuminawing stories we leve occ..
nee the war.
Aorman Hapgood is the editor in
estion—a brilliart writer and well
neven in this convery.

An agilator rises to remark that it is industrial struction in this country is bad because a million men are saut of work.

He is wrong, He is even misrepresenting the facts of the case.

Listead of being bad, our industrial quantion is marvelous, considering the chaotic condition that existed immediately following the close off the war.

Trial situation is marvelous, considering the chaotic condition that existed immediately following the close of the war.

Doubtless there are a million men out of work, but that is not an unsual number when we consider that there are one hundred and ten millions of people in this country.

There always has been and always will be large numbers of people out set employment for the simple reason that about a certain per cent of the population don't want to work and can not be induced to work. They are tramps, bums, crooks, drones, augitators and general all round undesirable citizens.

There are others who would will-aingly work, but are physically incaparianted.

There, we rethers who, if they can

angry work, but are physically incaparitated.

There are others who, if they can not find work in one particular trade will not work at anything else.

Still others find it more comfortiable to allow their wives and children to perform the manual labir while they enjoy a life of ease.

We have every reason to be satisfied with existing conditions. They are not perfect, never have been and sever will be perfect, but they are satly better than anywhere else in the world today.

This country is rich and prosper-wus and our people are happy, be-cause as a rule we attend to our own mairs and do not meddle with those of other countries.

of other countries.

We will become richer and more prosperous and happier as time goes on if we continue our policy of non-interference thet has proven so wise and successful in the past. We are capable of handling our own affairs. The Old World should do the same.

Foreign entanglements do not appeal to a majority of the American people.

President Harding declared in a secent speech that a reduction in freight rates can only be brought about by the consolidation of the railroads of the country into a small summber of systems, under "rigorous government supervision."

He has our permission to try the experiment. Any old port in a safety of the system is better than no port at all.

What is regarded by many yoliticians as the opening boom of a presidential boom for Senator Hiram Johnson of California, perhaps as a third party candidate, is to be stagsed, in New York upon the senator's return July 23 from Europe. Six thousand-invitations to dinner are be large sent out.

American business, for the first me in a decade, is on an even keel, aded straight for an era of pros-rity which should have a long run but no element should "rock the st."—Gaorge E. Robests, Vice-endent, National City Bank.

### LET 'EM SQUIRM

iem when within the territorial jur-diction of those governments. When the United States enacts with the same principle should apply citizens of other countries when lose citizens reach American terri-

laws the same principles when those citizens reach American territory.

These are statements of common tairness and justice that no self respecting person can question.

Congress has passed a law which prihibits any American ship from carrying liquor on board. The same law prohibits any foreign ship from entering an American port with liquir on board, except for medicinal purposes.

Foreign ship owners (and we suspect some of their governments, as well) are endeavoring to flagrantly diaregard that law and the authority of the United States of exarrying a full supply of liquor, that for voyage home being sealed by consular agents, to be opened after the ships leave American waters for their home ports.

It is a shrewd trick, and if allowed to succeed will drive American passenger ships from the seas unless the law is amended.

Here is the meat of the cocoanut. If a British ship, for instance, is allowed to disregard the law it will have plent of "wet" goods for its passengers as soon as it passes out of American waters.

An American ship making the same trip, would be required to obey the law and require no liquor on board, except for medicinal purposes.

Which ship would get the business and how long could an American

poses.
Which ship would get the business
and how long could an American
ship continue in commission under
such discriminatory conditions,
If foreign ships entering our
ports can not obey the law they
should be forbidden the right of entry. Either that, or American
ships should be placed on an equal
footing.

ships should be placed on an equal footing.

The government should stand pat and compel a et-int observance of our laws as long as they are in force. Only an imbecile would be guilty of slicing off his own nose.

### ON THE WRONG ROAD

ON THE WRONG ROAD

The history of some boys is worth a few minutes of study.

When very young their mothers teach them that there is a God.

Later they learn that there is a devil, and he appeals to them.

When well along in their 'teens they become young devils themselves. As men they try to outdo the devil. When death overtakes them and the devil gets them they realize that he is no friend of theirs.

False friends are of no value, whether in life or death.

## OUR SUBLIME FAITH

The celebration of Independence Day in America was notable this year, as it has always been since our forefathers signed the Declaration of

forefathers signed the lindependence. People from abroad who witnessed the celebration in various sections of the country were attracted by one particular feature which transcended all others. That feature was the sublime faith of Americans in America. sublime faith of America... America. It is such faith that makes tions and peoples great.

When a rich man of sixty marries a young woman of twenty he should be satisfied with supplying the cash. That is all that is expected of him.

A writer remarks that drinking it a man's health will not prolong his life. He might truthfully add that it will not prolong the life of the drinker—if modern booze is con-

## MARVELOUS RESULTS OF

### BETTER **ROADS**

TESTING SKEW-ARCH BRIDGE

Reinforced Concrete Structure ed to Find Means for Streng ening the Arch.

(Prepared by the United States De of Agriculture.)

A reinforced concrete skew-arch bridge one-fourth the size of a full-size bridge has been built by the bureau of public roads of the United States Department of Agriculture and is being "tested to destruction" to gain information that will make possible the building of stronger structures of this type.

Testing a Skew-Arch Brigge.

explain. Under such condition distonary ito build what is known a skew bridge, and when that a an arch, the arch is known skew arch, the aburments or su dineers can design right arches very nomically, but there is a great dif-tence of opiniou with regard to the nomical design of the so-called

terence of opiniou with regard to the economical design of the so-called skew arch.

The principal difference of opinion among engineers is with regard to the number of the state of the state of the shade of the shade of the shade of the shade for each foot of length, but on the skew arch this probably is not the sace, and the important question to be settled is the distribution of the load from one end of the abutments to the other.

It was with this object in view that a series of tests has been started on kew arches by the bureau of public roads. At the present time the bureau has a series of tests has been started on kew arches by the bureau of public roads. At the present time the bureau has a series of tests has been started on the ward of the shade of an actual structure. The archidate have the base of the abutments. The crown or midpoint is 2 inches in thickness and the barriel of the archidate of the ar

ars bent very carefully into the corvect shape.

The arch is being tested with a uniform load and this loading is being
accomplished in a unique manner, as
follows: Forty-two spiral springs,
each capable of carrying a load of 1,
500 pounds, are placed at uniform in
tervals on top of the arch and each
spring supports a 2-inch pipe, which
in turn bears against a solid overhead
attructure. By adjusting the lengths
of these pijes the springs are deflected
and the amount of load applied to the
arch may be controlled by the amount
the springs- are compressed. In this
way it is possible to obtain fine adjustiments in the amount of load appiled without the necessity for piling
on-heavy weights Ag the load is increased on the arch it deflects and the
concrete and steel are deformed or
strained, and the engineer wants to
know how these strains are distribted.

For the mensurement of strains in the concrete a device known as a strain guage is being used. With this device it is possible to detect strains with an accurrey of 9002 of an inch. By carefully measuring the strains throughout the arch it is possible to determine the manner in which the stress is distributed, and it is believed that through a series of such tests enough information will be obtained to enable the englineer to formulate rules for the economical design of skew arches.

In addition to determining the strains in the arch, the observations include measurements of deflection of the arch under load as well as a measurement of the stress in the tie rods hetween the abuttments. For the measurement of strai

## America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

THE GRASSHOPPER GLACIER

THE GRASSHOPPER GLACIER

Near the ancient town of Cooke City,
Mont., northeast of Yellowstone park,
there is an immense glacier or ice
field. This glacier is composed of
thousands of strata. These strata, or
layers of ice, are filled with a species
of insect, locally referred to as "grasshopper" for want of a better name,
and now extinct.

The scientific explanation of this
peculiar phenomena is that, no one
knows how iong ago, this section of the
country was visited by a plaque of
these insects; that while flying overthe mountains of the Bear Tooth
range, in what is now known as the
Bear Tooth National forest, they were
ceught in snowstorms, carried down
eerth and died. The passage of these
swarms of insects continued at intervals year after year. Winger after
winter, millions upon millions of these
insects were caught in the snowstorms, and
perished.

This gracier is approximately one
mile wide and upwards of half a mile
ing. Because of the fact that it lies
in a rock-rimmed, bowl-shaped space
on the shoulder of a mountain, at an
elevation of about 11.500 feet above
sea level, no one can accurately determine just how thick it is. Its depth
may be as great as 1,000 feet.

The layers of lee which make up this
glacier are alternately light and dark
in color. This, it is thought, is accounted for by the fact that each year
the snow which fell during the period
after the flights had ceased, being
pure, containing no insects, fell, froze
and formed a "light" strata, wherea
the snow which formed the succeedmine flights, contained countless numbers of 'their carcasses and formed a
"dark" strata.

Certian it is that there is not a simthar spectacle in the known world.

## Many Stockmen Speed Scrub

"I disposed of a grade bull and am buying a pure-bred bull calf to take its place."

"I have found that grades and some done third as much as pure-bred at disposal sales of live stock."

"Inferior sires do not breed pro-fitably."

"I disposed of one scrub buil by slaughter."

"I disposed of one scrub bull by slaughter."
With such comments as the forecoing constantly reaching the United States Department of Agriculture from persons who enroll in the better store campaign, the number of pure-bred sire users continues to increase. In one day recently 84 names of persons using pure-bred sires exclusively were certified to the United States Dapartment of Agriculture by County Agt. H. C. Wilk; of Pocahontas County, W. Va. The following day 36 additional pure-bred sire users in various counties in Vermont filed their declarations to discein the use of scrub area for all times. Thus evolution in live-stock impra-ment is rapidly taking place.

## COLLEGE STUDENTS AS FARM HANDS.

The labor shortage is seriohs on the tarms all over the country. It is a tig question how this year's crops are to be harvested. With the restriction of immigration, it seems probable that farm hands are going to be searce for a good many years, or until the immigration policy is changed. That being the case, the country must look to other sources for the extra supply of labor needs: for the extra supply of labor needs: for the extra supply of labor needs: for work on the crops through the summer.

summer.

The farmers of many sections depend largely for such labor on a wandering class of men who drift from one locality to another in the search of work as the seasns change. This is not the most satisfactory class of labor.

It would

This is not the most satisfactory class of labor.

It would seem as if college students constituted a great potential working force that could be drawn upon much more than they are. They were utilized to a large extent thrusthe war. Systematic plans ought to be formed in all the colleges to enlist as many of their students as possible for this purpose.

These fellows could be of more benefit to the farmers, in many cares, if they could have leave of abortion they are they could say out a few weeks later in the fall to compete their farm work. Fellows who are active and industrious could make up for the time lost. They would get many benefits out of the farm labors, in the shape of healthy bodies strengthened by vigorous work in the open air, and the knowledge of practical things that they would get from doing these tasks that are so badly needed. It looks as if the farmers would have to make great use of college labor from now on.

Some of the farmers complain that boys are terribly green at farry the boys are terribly green at farry

from now on.

Some of the farmers complain that
the boys are terribly green at farm
work, but bright fellows like these
outsit to be able to earn their pay
with a fair amount of coaching.

If the politicians would keep hands of the railroads long enough to let them get fairly on their feet they would all be building extensions as at once, insurance reserves must be fine the good old days before supering the good old days before supering the regulation strangled them.

COVINGTON, KENTUCKY.

Judging by Looks.

I was spending my summer vacation selling books. I had a different speech for each member of the family. There was one for father, one for mother, one for the daughter, and one for the son. One day I rapped at a door and was greeted by an elderly looking woman who would tip the scales at 200 plus. She ushered me in, where I met a slender young woman of dfteen summers. I began my canvass to both of them, but addressed my appeal to the elder. The young kirl gave me an enthusiastic hearing and wanted the book badly, whereupon I made an especially ardent appeal to the other to buy the book for her daughter. She listened for a while and then curtly informed me that she was a niheren-year-old sister to the younger girl. I missed the sale.—Erchange.

the sale.—Exchange.

How Snow Coriplicates.
When two feet of snow fell in the neighborhood of Boston recently the effect on business was sorious. The blockade was felt more keenly than would have been the case twenty years ago, for then automobiles and trucks were not depended upon for the movement of traffic. A Boston bistorian-receals that two hundred and six years ago in February snow fell to the depth of 20 feet in the Boston district. He assures the Yankees that this sort of thing is certain to occur again, and wants to know how they will be able to keep going when all of their movements are effected by the ald of gasoline. The absence of heavy snows is, in fact, one important industrial advantage which the western states will utilize more and more in the futuro.—Lincoin Joarnal.

Lincoin Joannal.

United States Birds.

The most abundant birds in the United States are the robin and the English sparrow, but several others are common enough to make their total numbers run well into the millions. The counts so far show that the most abundant bird on farms in the Northenstern states is the robin; next to tild is the English sparrow, followed by the cathful, brown thrasher, house wren, singliff and bluebird, in the order named. The densest bird population anywhere recorded is near Washington, D. C., where a careful count in 1915 showed 135 pairs of 40 species on five acres Two city blocks, well supplied with trees, in Alken, S. C., harbored 65 pairs on ten acres.

C., harbored 65 pairs on ten acres.

Fur From Wool.

A newly hwented process, wherehy certain kinds of fleeves not well adapted to apinning can be manufactured linto a rich, furlike material, which is supposed to present valuable hygienic advantage over skin furs for clothing because the naterial is mounted on a wool foundation, is reported by Consul General T. W. Sammons, from Australia. The inventor claims that this material has an excellent appearance, that it is suitable for all purposes for which fur is utilized, and for clothing where the utmost warmth, the least weight and the maximum of protection are demanded.

Advises Use of Latin.

To universalize the Latin language is a suggestion seriously made by Cardinal Bourne. He reviews the difficulties to be surmounted by the variety of tongues and as a means of overcoming the difficulty proposes that the Latin-contains all the elements for world use. He believes many world misunderstandings will vanish if the ancient tongue is brought back into use.

the orator. "He looked neither to the right nor to the left, but pressed forward, moved by a definite purpose. Neither triend nor foe could delay like nor tour him room his course. All who crossed his path did so at their own peril. What would you call such a nan?"

"A truck driver," shouted someone from the audience.

Keeping Up the Custom.

"When I was a boy I sent my present wither, who was then a girl, a 10-cent valentine. That is how our romance started. I send her a valentine like it

"For 10 cents?"
"Yes."
"Yum! I started off with American beauty roses."

Mispiaced.
"The sermon was good, but I didn't ink much of the choir," suld Mr.

think much of the choir," said Mr. Grumpson.

"The soprano was a beauty."

"Maybe so, but the place for a pretty woman who can't sing, but who goes through the motions, is in musical comedy."

No Harmony.

Poetic Husband—I'm afraid we will have to move, my dear.

Wifle—But you said this was such a lovely apartment.

Poetic Husband—I know I did. But the wallapper clashes with my poetic imagination and I can't write.

Boy, Page the Eye Doctor!

"How did you ever get caught in such a position, Betty?"

"Well, he wanted to see what color my eyes were."

"That's harmless enough."

"Yes, but he's so darned near-sighted."

'down.
Sweet Young Thing—Weli, how you saved?
Old Sait—I got me a cake of and was washed ashore.

WELL, HARDLY EVER dith—So that's Mr. Blank. That's Edith— ur ideal

A Timely Epitaph.
Here lies the body
Of Gertle Green;
She lit the fire
With kerosene.

Just So.
"Another thought appropriate to the

season."
"What is that?"
"The cherry tree has provided a great deal of material for people on the stump."

Asking Too Much.
An official of the weather an outcus of the weather bureau asys it will soon be possible to fore-tell the weather for a month. We don't ask that much. We'll be satisfied if they'll arrange to get it fairly accurate for a day or two.

"That lady is beautiful, No use in

trying her."
"Perhars not," said the prosecutor.
"Still, our case may have some merit,
We have two pretty witnesses on our side,"

Complexion.

"Bluebelle has some complexion,"
declared Stella.

"Peaches and cream," suggested Va-

nessa.
"I've seen her cream, but he she apply the peaches?"

Handlers of Money Would De That it Would Discourage Coun-terfeiting of Money.

REMEMBER FACES ON NOTES | JUST A LITTLE STEAMSHIP COMPANY CRAFT.

COMPANY CRAFT.

Commissioner of Immigration W.

W. Husband, strenuously assails the
prevailing custom at Ellis Island
and other points of the U.S. treasury paying for the up-keep of detained immigrants brought here by
steamship companies regardless of
the fact that the quotas have been
exhausted. Mr. Husband proposes a
remedy which he will lay before the
next Congress, putting on the steamship companies whic. From the transportation, the entire expense of
caring for them. He says: "Let us
give up providing hotels for the
passengers of foreign ships. The carrying of immigrants is a commercial
proposition. The United States does
not provide storehouses for freight
nor piers for the examination and
storage of baggage, but the steamship companies provide these things
for themselves.

Why should the United States
United States smedi its good money. That it Would Discourage Counterfeiting of Money.

The raising of United States currency has become so serious that the secret service division of the United States Treasury department is warning hotels, banks, merchants and others who handle any amount of money, to memorize the portraits which appear on the different denominations of the federal reserve banknotes, writes Carl H. Getz, an authority on the subject of forgery and counterfeiting, in Hotel Management.

"Nincty per cent of the money in circulation in the United States is in the form of federal reserve banknotes," he says. "Ninety-five per cent of the raised currency to circulation are these same notes. Crooks succeed in changing the fiveres and the letters but they can't change the portraits it bank tellers, department store cashiers, railroad ticket sellers and others who handle large sums of money would memorize the portraits which appear on the different denominations of federal reserve banknotes, where would be very little passing of raised currency.

"This ought to be easy because the portraits which appear on the different denomination," on a \$2, Jefferson; \$50, Grant; \$100, Frankini."

Mr. Gets points out that the average mag and woman can't tell from memory the difference between a \$1 and a \$50 little and with his of no practical value to the united States government ought to issue currency with each demonination, distinctly different that ever one could quickly tell the difference between a \$1 and a \$50 little and with the south of the cover the coefficient is on the increase been seed of the case with which countried its are one with the countried with the south of the countried with the co

The continued wet weather has put the farmers behind with their plowing and some of the corn fields and tobacco patches are getting mighty weedy.

E. Foster, after a week's structurington, left last Saturday from in Jacksonville, Fla. E

### BASE BALL.

Burlington ball team journeyed to Beleview Saturday afternoon with a full determination to defeat the Bellieview boys, but rain prevented them from so doing—rain of hits from the bats of the Belleview nine. Hits, singles, doubles and tripples, good for sixteen large tailies. The Burlington aggregation could deliver only a shower of hits for ten runs. Everybody will take a day off and will settle down and play ball in the next game.

The second team from Belleview came up last Saturday afternoon and were defeated by the second team of Burlington in an exciting game of twelve injungs 9 to 8. From a glance of the scores of the two Burlington teams, one is convinced that the "First should be last and the last should be first."

There will be a game of ball at Taylorsport next Sunday afternoon when they will play the Cincinnati Ambulance team, considered one of the strongest teams of that city. Taylorsport has secured as their battery for the remainder of the season Haynes Bruce and Wm. Christy. Better games is assured the fans.

The horse shows to be exhibited at the Erlanger Fair each evening will be the best attractions at the fair to be held July 9-14. Special rings of saddle horses will be shown. Secretary Bower says that the bast saddle horses in Kentucky will compete for the premiums.

The Dixie Highway is open for travel from Florence to Devon. The contractor has less than two miles to construct. The concrete will be laid to the Richwood railroad crossing by Billier & Oliver for the new con-tractor, so it is reported.

Mr. and Mrs. Cleveland Snyder and son, Mr. and Mrs. N. W. Carpen-ter, Mr. and Mrs. C. L. Gaines and children and Miss Amelia Corbin spent Sunday with Mrs. Alice Sny-der.

Misses Isabelle Duncan, Mary Bess Cropper, Bernice Grant, and Galen Kelly and Sue Hopper, are with Miss Sue Renaker at her home near Dry Ridge, Grant county.

The home is the aim of our social system, says President Harding. Along about green apple time, how ever, the kids think it safer to aim at the barn.

## BIRTHDAY SURPRISE.

L. A. Smith, of the Petersburg neighborhood was greatly "trprised last Sunday when relatives to the number of about forty assembled at his home with well filled baskets of good things to eat to assist him in celebrating his 74th birthday anniversary. The day was very pleasantly spent by all. The men engaged in horse shoe pitching and the children enjoyed themselves horeback riding, while the women passed the time in the usual line of gossip. At the noon hour a spacious table-laden with the contents of the baskets was spread beneath the shade on the lawn where the inner cravings of all were most bountifully satisfied.

The guests all lingered until the

the inner cravings of all were most bountifully astisfied.

The guests all lingered until the sun was nearing the western horizon when they departed for their several homes, feeling that the day had been well spent, and wishing that the hour of departing could have been prolonged. Among those assembled were E. A. Grant and family; Irvin Rue and family; Grant Williamson and family; Willis A. Smith and family; Mrs. Henry Smith and family; Mrs. Henry Smith and family; and Mulris Bett Smith and family; and Aubrey and John Finn.

## BAITING THE SUPREME COURT.

There is much being said these days in criticism of the power exercised by the United States Supreme Court.

ciaed by the United States Supreme Court.

Here is what Chief Justice Marshali gave as his view of it, and it is the commonly accredited view:

"It is a proposition too plain to be contested that the Constitution controls any legislative act repungmant to it; or that the legislatury may after the Constitution by an ordinary act. Between these alternatives there is no middle ground. The Constitution is either a superior, i aramount law, unchangeable by ordinary means, or it is on a level with constitution is either a superior, i aramount law, unchangeable by ordinary means, or it is on a level with other acts, is alterable when the legislature shall please to alter it. If the former part of the alternative between the legislature shall please to alter it. If the former part of the alternative between the legislature acts and attempts, on the part of the people, to limit a power in its own nature illimitable."

This doubless will be the American constitutional view, in contrast with the British supreme parlamentary idea, so long as the governmentary idea, window and intelligence of the republic is able to withstand the dittacks of those who would have the polifical wisdo mand intelligence to open a standard of wisdom and intelligence to a standard of misdom and intel

In most sections of the state late plantings of cabbage, celery, Irish potatoes, beets, string beams and sweet corn may be made around July 16. The cabbage that is set at that time will be plants started about June 1, while the celery will be plants started about May 1.

Crobby Egyptian and Detroit Dark-Red are good varieties of beets. They, require from 60 to 80 days to mature.

Red are good varieties of beets. They require from 60 to 80 days to mature.

Winter Green, Giant Pascal and White Plume are satisfactory varieties of celery. When set in the open around July 18 to 20 they require from 120 to 150 days in which to mature.

Irish Cobbler, Green Mountain and Carmine No. 3 are good varieties of Irish potatoes. They mature in from 90 to 140 days when planted around the middle of July.

Stall's Evergreen, Country Gentlicman and Golden Bantam are varieties of sweet corn commonly used. They mature in from 70 to 100 days. In transplanting cabbage and celery plants to the open it may be necessary to cover them for a day or the sweet corn commonly used. They mature in from 70 to 100 days. In transplanting cabbage and celery plants to the open it may be necessary to cover them for a day or the control of the leaves from the young plants will help save moisture and increase their chances of living. If it is necessary to water they young plants a thorough application should be given and then no more watering done until the plants need it. This is better than putting on a little water every day.

Saving moisture is one of the important things in the garden at this time of the year. Thorough and frequent cultivation is needed to keep a dust mulch and conserve as much moisture as possible. The ground should be stirred as soon as it is dry enough after each rain.

ARSENATE OF LEAD IS BEST PALSON FOR TORACCO WORMS.

## ARSENATE OF LEAD IS BEST POISON FOR TOBACCO WORMS.

Lexington, Ky.—Arsenate of lead has come int. Section 1 which is the last few years as a poison for tobacco worms and in some sections of both the burley and dark tobacco districts is used almost exclusively instead of paris green, one of the older controls for the peste, according to E. J. Kinney, a member of the agronomy department of the Kentucky Agricultural Experiment Station. Both poisons, if properly applied, are effective in killing the worms, but arsenate of lead has several advantages which account for its increasing povularity.

Unlike paris green, arsenate of lead is practically harmless as far as injury to the plants is concerned, as it may be applied in large quantities with little danger of burnion tobacco. It is not irritating to the skin as is paris green and sticks tighter to the leaves of the plants, thus being effective longer than the skin as is paris green and sticks tighter to the leaves of the plants, thus being effective longer than the paris green. The lead poison also will continue to kill the warm after rains that have washed off practically all paris green. Arsenate of lead costs a little more than paris green, but most men who have given it a thorough trial are-convinced that its greater safety more than makes up for the additional cost.

Using the proper quantities of the poison and getting an even distribution of it over the plants are the two important points in Jusing either and must be mixed with some lighter substance—wood sahes is best—before it can be spread with a bellows duster or any of the smaller fan machines. About equal quantities of very dry, screened ashes in best—before it can be spread with a bellows duster or any of the smaller fan machines about with a spread without mixing with anything else.

Arsenate of lead should be applied about twice as heavily as paris green, that is, from three to six pounds to the accent is not advisable to dust for ten days to two weeks before the crop is harvested. Worms will give little further trouble, if a good application is mad

John W. Slack, of Silver Creek, N.
Y., who survisted a bid of \$1,051,
Y., who survisted the sory of the proposition for the New York Times. Mr.
Slack says the attempt of the Columbia Postal Supply Co, of which the is president submitted the bid in good faith, but was satisfied that the good faith, but was satisfied that the Suppling Board was not sincere in its offer to sell. In fact a Washington Pany was told that the Government would not sell for five billions in cash. Mr. Slack critizes the Shipping Board officials for holding this bid up to ridicule, when, in fact their own advertisement was not sincere.
Mr. Slack asserts that a reasonable price, for the government propert would be about \$250,000,000 and this was lanlly admitted by the Board. He says that the Shipping Board at that time had a 'eash balance of \$125,000,000 which would have become the propositions and Lasker's offer to sell at double that figure becomes ridiculous.

The Japanese beetle is a dangerous.

SUGGESTIONS ON DAIRY CALF

Great Care and Attention is Necess to Raise Animal Successfully on Skim Milk.

on Skim Milk.

In dairying tite interest should raise his own caives. Many farmers are not successful in raising them on akim milk. Whole milk may produce the best caif, but not necessarily the best cow. As good an animal can be produced on skim milk as can be produced for should nurse its mother for the first few days, after which it should be removed and fed by hand. Whole milk, warm and fresh from the mother, should be given for tendays or two weeks at least. Ten to tweive pounds per day in two or three feeds should be given at first, and the length of time that it should be continued depends upon the strength of the calf. Ordinarily ten days to two weeks will be required to make the change from whole milk to skim milk.

Gradually substitute skim milk for Gradually substitute skim milk for

of the calf. Ordinarily ten days to two weeks will be required to make the change from whole milk to skim milk, Gradually substitute skim milk for whole milk, increasing the former until the whole milk is entirely re-placed. This may be a week, or it may be a month. Skim milk should

months, depending mainly upon the supply. It should be given until the caif is five months of age at least.— Extension Service, Colorado Agricul-tural College.

## SMUTTY SILAGE FED SAFELY

No Harm Follows Test Made by Ex-pert in Feeding Tainted Material to Holstein Heifer.

to Holstein Heifer.

Smutty silage can be fed to live stock with no danger of lil consequences, says T. W. Guilfickson of the dairy husbandry division at University farm, at St. Paul. Not so long ago many inquiries were being received at the dairy division headquarters regarding the advisability of feeding smutinfested corn in the form of ensitage. To answer these questions authoritatively Mr. Guilfickson had collected some 800 pounds of pure corn smut which be ran through the ensilage cutter and put in sacks which be placed in the silo and covered with about ten feet of ensilinge. A few months inter the corn smuf in the bags was substituted for the reptin rilange ration and feet to a Holstein heifer at the rate of 18 to 80 pounds a day. The heifer was not forewarned of the abthe rate of 18 to 39 pounds a day. The hefter was not forewarmed of the ab-rupt change in her diet, but took no exceptions to the corn-smir menu, ap-pearing in fact to relish it. Mr. Gul-lickson says the feeding of the smut was continued for three weeks, during which the helfer remained normal in every prespect.

## PUMPKIN SEEDS NUTRITIOUS

There is a tradition among some farmers that pumpkin seeds increase kidney secretions, tend to dry up cows, and therefore should not be fed. There is no real foundation for such an opinion. Pumpkin seeds are nutritious and should not be wasted. There is no danger whatsoever in feeding them to dairy cows.

## CAREFULLY WATCH ALL COWS

Animai Losing Flesh Rapidly Prot Needs More Feed, or More Balanced Ration.

Watch the cows The animal that ioses flesh rapidly probably needs more feed, or a more perfectly balanced-ration. When a cow takes on fat instead of giving a full flow or milk, it is probable she needs more protein and less earbohydrates in her ration.

Lacking in Cow Ration.

It is a well-known fact that limmand phosphorus are the ash condition that are frequently lacking in the ration of the average dairy cov and especially during the dry period.

Keep Quarters Clear, Dairy cattle quarters mus be clean and the manure remov a from the stalls.

## Established 1886 Your Harvest Money

The Dollars chai you invested in seed and work raising your crops, and which were returned to you many fold when you sold these crops, should now be placed in this Bank where they will yield another crop of interest.

Successful farmers everywhere follow this plan of making their money work the year 'round for them---so why not start an account here today.

We pay 4 per cent interest.

## SAVED HER SAFE

Resourceful Woman Also Foiled Would-Be Robbers.

Post Office Official Took Coney and Stamps Home With Her-Was Taking No Chances.

Taking No Chances.

She didn't want her nice, new safe all mussed up by new'y robbers!
Recently one of the contract postal stations in the District was robbed, but owing to the habit of the woman owner of the store in which the station was lodged, the robbers got no postal funds.

This woman was in the habit of taking all the money and postage stamps home with ber each night, as well as the receipts of her store, because she had no safe or other place to leave them in the establishment. It perhaps should be explained that a "contract station" is merely a small post office branch located in a store, which the owner agrees to rum on a contract bats.

Well, when the officials at the city post office hard of the robbery of the store, but safety of postal funds and stamps, they interviewed the woman. "You must have a safe, by all means," declared the officials. "You not only need one for your own business, but you must have it to safe-guard. Uncle Sam's money and stamps. The presence were needed.

guard Uncle Sam's money and stamps."

So the lady agreed to buy herself a safe. She got a nice, new one, really a fine affair, all enamel and gilt, with a ship dial and all that sort of thing, "Now," declared postal officials, with a sigh of relief, when they glimpsed that branchew safe, "No burgiar can get in now, and you will be saved the danger of taking all your own funds as well as postal moneys and stamps home each night."

Several nights later light-fingered gentry got into the store again.

When postal inspectors hot-footed it to the establishment they found the new safe with its doors wide open and not a single note, coin or stamp in the safe.

safe.

"Cleaned!" gasped the inspector,
looking into the empty safe. "They
didn't leave a cent—took it all."

Postal officials moaned.

"How much did you leave in the safe?" they asked the woman proprie-

The latter smiled sweetly.
"I didn't leave anything," she said.
"What!" yelled the postal inspec-

tors.

"You see, I was afraid the burgiars
would get in again," explained the
woman. "And I had read how they
blow often safes. And my safe was so
nice and shiny, I didn't want them to
burt it when they blew it up."

"No you—"So you—"So you—"Yes, sir, I just took my money and stamps home with me each night, but as I have always done, and left the door of the safe open a bit, so that if the burglars got in they would see it and so that we to blow it all up," explained the woman. "It's such a pretire safe."

plained the woman. "It's such a pretplained the woman. "It's such a pretty safe." (Bibert Pearson, president of the
National Association of Adubbon Societies, has started on a trip to the
Bahamas in the hope of saving the
last survivors of the flame-colored
flamingoes which were once numerous
in the Bahamas and Florida.
The colonies in the United States
have been completely wiped out, and
it is estimated the, 'only 1,200 of these
splendid and stately birds remain in
the Bahamas. They are all on the
Island of Andros, the largest and most
densely wooded Island of the group.
The flamingo is easy to see, easy to
kill and essy to est. The flamingo
tongue was one of the most prized
delicacies of the table in Roman times,
but the whole bird is esteemed in the
Bahamas as formerly in Florida, and
nothing, but careful protection on a
bird refuge can save the few which
men.

remain.

Mr. Pearson has established sanctuzites for sgrets and many other fine
American birds and expects to have
no difficulty in obtaining funds from
bird lovers for the upkeep of such a
refuge on the Lisiand of Andros, if the
local government will co-operate in
protecting the bird.

## CHANGES CAUSED BY PLOW FATHOS

gricultural Implement Made Revolution in Agriculture Farming From the First Time of Its Use.

First Parcel Post.

Mrs. Grover Cleveland, wife of President Cleveland, received at the White House in 1857 the first article ever sent by parcel post, according to an old record discovered in the files of the Fost Office department. The article was a feuthered fan from the Island of Jamaica.

Although the date of establishment of parcel post is generally fixed at 1913 (the year of its adoption for domestic mails), the system actually started with the conclusion of parcel post conventions by the United States with foreign countries, says the Post Office department, the first of which was negotiated with Jamaica in 1857. To celebrate the adoption of the treaty Jamaica officials sent the feathered fan to Mrs. Cleveland,

WASHINGTON COMMENT.

July Fourth the Nation expressed its love for its country and its flag; bands played, speeches were made, fireworks wrote their measurements of the second of the s

we express!

Mr. American Father, read these
two quotations to your children this
day, that they may learn that patriotism is not only for the celebration of Independence Day.
Said President Harding at Salt
Lake City:
"War brought us the lesson that

said President Harding at Salt Lake City:

"War brought us the lesson that we had not been so American in spirit as we had honestly pretended. Some of our adopted citizenship wore the habiliments of America, but were not consecrated in soul. Some to whom we have given all the advantages of American citizenship would destroy the very institutions under which they nave accepted our chospitality. Hence our commitment to the necessary Americanization which we too long neglected. The American Legion, baptized anew it the supreme test on foreign battlefields, is playing its splendid part. Those who bore war's burdens at home have joined, and all American must fully participate. It is not enough to enlist the sincere allegingten of the source provided to the practices which cnabled us to build so successfully and avoid the error. This country the right of the children of the state to receive at the hands of the state an elementary education is almost as firmly rooted in our system of government as are the gnarantees of protection to life and liberty and safety of persons and property.

"There are now agencies in our country that attempt to subvert the right guaranteed by our laws and Constitution, and even the rights guaranteed by our laws and Constitution, and even the rights guaranteed by our laws and constitution, and even the right to place its authority over the state in the matter of compulsory education in our public schools, for when they attempt to take this percogative from the Government, then we no longer have a free Government with the power to insure the protection of our children by saving that education is none of the state's business. Surely no one has the right to place its authority over the state in the matter of compulsory education in our public schools, for when they attempt to take this percegative from the Government, then we no longer have a free Government as a more provided to the provided the form of the state of th

"With religious discussions we have nothing-to do. Masory grants to all men the right of religious liberty, as each of us insists on our own rights of conscience and form of religious worship, but we do claim and insist thot our Government shall be left free without religious dictation to exercise centrol over the education of the child, that the true democracy established by our fore-fathers may go urward and onward, and that cur futre citiens may be thoroughly imbued with the spirit of patriotism and loyalty, so that all our people will have the same opportunities for knowedge to fit them for their duries ar citizens of our country." and the nothing to do. Masory grants to all men the right of religious liberty, sa each of us insists on our own rights of conscience and form of religious worship, but we do claim and insist thot our Government shall be left. free without religious dictation to exercise centrol over the education of the child, that the true democracy established by our forefathers may go upward and onward, and that our futre citisens may be thoroughly inbued with the spirit of patriotism and loyalty, so that all our people will Lave the same opportunities for knowedge to fit them for their dylines ar citizens of our country."

ERILS OF THE ROAD

A sharp reminder of the perils of motor travel was given a few days go when an automobile occupied by members of President Harding's party went over the edge of the road in the colorado canyon, and two of its occupants were killed. While such accidents may be regarded as peculiarly likely to happen in a mountain region where roads are apt to marrow and cliffs high, yet there are in a great many places, diches and steep banks where danger of serious accident exists if the car goes over the edge. A large part of the motor mishaps are due to this cause.

In mountain roads drivers usually take special precautions, so that the danger of accidents in such locations is not perhaps any greater than in ordinary locations where operators run at high speed close to the edge of steep banks. A fall of a few feetover an ordinary bank where the car rolls over may be fatal just is well as a drop over a mountain cliff. While defective steering goar or other breaks in a car may lead to such accidents, an happened to this predictable, and happened to this predictable and the product of the product properly or put in the legal requirement of butter fat Any mixture of milk ordinary locations where operators under the product properly or put in the legal requirement of butter fat Any mixture of milk ordinary locations where operators under the product properly or put in the legal requirement of butter fat A

## MILK CHOCOLATE.

## MOURNS DEATH OF SUMNER I. KIMBALL

Saved Thousands of Lives and Mil-lions of Property.

All official Washington mourns the death of Summer I. Kimball, father of the United States Life Saving Service, and its first and only superintendent. Long before Mr. Kimball's death, the service was merged with the Revenue Cutter Service to form the present Coast Guard.

For more than 44 years Mr. Kimball was connected with the life-saving service. He was educated in the public schools of Sanford, Maine, and had a degree from Bowdoin College.

Ing service. He was educated in the public schools of Sanford, Maine, and had a degree from Bowdoin College.

His work in making efficient the life-asving service was begun in 1875 President McKinley appointed him chief of the service, in which capacity he stayed until 1915.

His life is an inspiring example of patriotic effort. Through his laborathe United States has world-wide fame for the efficiency of its life-saving service, which has snatched untold thousands from death when ships are wrecked along the coast. He made merit and fitness for the job the tests, through him the service received recognition in the form of medals awarded for extreme bravery through his efforts the best brains of the country were focussed upon invention and discovery of apparatus through his work an esprit corps was fostered, which has made the life-saving crews stand, the world over, as synonymous for absolutely selfiess courage and daring.

With natural endowments and abilities which would have carried him high in the world of commerce, Sumner I. Kimball stayed a poor man at a most moderate Government salary all his life, because of the service we could render his country. The monument he huilded must endure far longer than one of stone for never a man shall be saved from a wrcck but all who love him will bles and revere the memory of the may who made a science of courage and ar at of-bravery.

## GIRLS AND BOYS OF FORMER DAYS.

The middle aged man observes with admiration the fine educational opportunities offered today to the young people of Kentucky and other communities. Yet-mas the letter benck on his own life in some simple old fashioned town, he realizes that with all its meagerness of advantages, it had many deightful aspects which the young people of today sometimes miss.

The training for success in rural

all its meagerness of advantages, it had many deightful aspects which the young people of today sometimes miss.

The training for success in rural occupations was wretchedly inadequate them. But the boys were mostly satisved just to work on at their father's farm or store, the girls were well pleased to help their mothers. Few of them planned for ambitious carters away.

There was plenty of hard work in those days. Yet there was no end of fungoing on. No automobiles werdy and the store was not the store of the store was not the store of the stor

People who dislike flies used to be thought fussy and lacking in ability to stand small annoyances. Some of us can remember how in our chidhood, our old country homes were swarming with these dirty pests. They would gather in ucoks on kitchen and dining room tables, carrying poisons to human life.

Today flies are known to be the carriers of disease and every homo ought to fight them. The farm home with horses and swine will always be a fly breeder, but people wo have windows and doors tightly screened and keep garbage well covered an leet-plenty of fly traps, can greatly reduce this peril.

When you are sure that you are

HOW TO USE VACATION

The chief business of the child for the first twelve or fourteen years of his life should be to grow strong physicelly. During the school term of cight or nine months he is usually living in a more or less unnatural way, sitting still for longer periods than he should, following out processes of logically arranged thought, and much too often things in which he has little real interest. His natural growth, physical ond in many cases mental, is more or less interfered with.

sicelly. During the school term of cight or nine months he is usually living in 2 more or less unnatural way, sitting still for longer periods than he should, following out processes of logically arranged thought, and much too often things in which he has little real interest. His natural growth, physical ond in many cases mental, is more or less interfered with.

Vacation time gives a good chance to overcome some of the drawbacks of our schools. Three months of long hours, in the fresh air and sunshine tramping, swimming, hunting, fishing, and playing, a moderate amount of physical labor for which the child is held resonable playing a moderate amount of physical labor for which the child is held resonable playing and offer which the school cooled not possibly give him. His interests will be widned, his muscles and mind will be strengthened, and he will have learned how to use his leisure time.

Floating Debt Statement for State Showr Credit Equals Paper Out

CHARITIES BOARD RECORD

Frankfort, Ky.—At the close of the last full fiscal year under the Stanley Administration, Kentucky's floating debt represented by interest bearing warrants was \$5,953,081.71.

The debt on June 30, 1019, the child in their community? was almort out turned into a thing of the past last of high the world and rever been a murder committed in their community? was almort out turned into a thing resident of Cleves there had never been a murder committed in their community? was almort out turned into a thing of the past last of high was a staken from the lose at the knowledge of the loldest living resident of Cleves there had never been a murder committed in their community? was almort out turned into a thing of the past last of high was a staken from the following an argument of the following resident of the Nation Hanks, \$8 years Logol, Mound avenue, was shot and probably fatally wounded following an argument of the foot, was a state of the hard was a feat of the last full fiscal year under the Stanley Adm

Charities Board Bright Spot
The Department of Charities and
Corrections and the Department of
Education are the bight spots in thefiscal records of the administration;
for while the state is deeper in debt
than ever, the Department of Chartities and Corrections cut down expenses and the first full month under the new contracts, May, revealed the Reformatory paying its own
way and the Eddyville Penitentiary
a smaller institution with necessarily a relatively highes overhead,
promising to do the same.

The Department of Education has

lly a relatively highes overhead, promising to do the same.

The Depatment of Education has wiped out a floating debt of five years' standing and it shows a balance of \$1,892,516.90 to its credit, with only \$5,531.37 unredeemed war rants outstanding against it.

The per capita distribution of the school fund for next year has been increased form \$6.10 to \$8.

Last fall State Superintendent George Colvin caught the State fiscal departments borrowing money from the school fund for the general fund and paying State salaries in cash, while interest-bearing warrants were being issued for teachers' salaries subject to current discountrate and the school fund was charged with the interest on the warrants. This he required to be paid back to the school fund.

Teacher's to Get Cash

The \$1,802,516,90 to the credit of the school fund fit is not agree.

Teacheri to Get Cash

The \$1,892,516.90 to the credit of the school fund, if it is not again borrowed, will issue the payment of the first installment of teacher's salaries in cash in the fall.

aries in cash in the fall.

Part of the school fund and the general fund balances are attributable to a windfall in the form of the judgment in the Bingham tax cases amounting to nearly \$2,400,000, of which 9-20 went into the school funds and 3-8 into the general fund. Outstanding warrants June 30, 1922, amounted to \$5,052,940.68. They have increased \$900,141.03 during the year.

ws: General fund \$2,590,470.14. Schoil fund \$1,892,516.90. Road fund \$151,303.74. University \$28,315.46. Sinking fund \$26,186.78. Eastern Normal \$10,112.67. Western Normal \$10,112.67.

## THOUSANDS ATTEND **GROWERS CELEBRATIONS**

Great Throngs Witness Pageant At Cynthiana and Participate In Barbecue and Burgoo At

Crowds variously estimated at from 7,000 to 10,000 witnessed a beautiful pageant at Cynthiana July 3, given under the auspices if the Woman's Auxiliary of the Burley Tobacco Growers Co-operative Association as a partayal of the history of tobacco in this icountry and as large crowds attended and took part in the barbecue and burgoo xt Carrollton July 4th.

At Carrollton, Director of Ware-

carroitton July 4th.

At Carrollton, Director of Ware-houses Ralph M. Barker presided.

Nore than six thousand persons were fed at noon, the barbeeue and burgoo being prepared by N. Dud Lawrence, of Lerington, and served in an orderly way in an hour and a half.

The feature of the program was a song, set to the music of "My Old-Kentucky Home," written for the occasion by Miss Ella Gaines, and surg as a duet by Mrs. J. Ge. Williams and Nathan Hill.

The women of Carroll county Local were assisted by the men. of Carlollton and the county, practically all the time of the 150 employees of the R. M. Barker Tobacco Co., having been given to the preparations for the event for a week.

## Fiscal Court Orders.

The Fiscal Court Orders.

The Fiscal Court at its meeting last Thursday appointed Esgas. B. C. Kirtley. and C. C. Sleet to meet a committee which had been appointed by the Gellatin county fiscal court to prepare plans and specifications for a concrete crossing at South Fork near Bud Normania. This is a very bad crossing and the courts believe that a concrete crossing can be put in at much less expense than a bridge would cost. The crossing can be used except during very high water. The court also ordered a contract made for carpet treating the Beaver and Richwood and Burlington and Florence pikes. This treatment of tar and gravel will hold all the medal on these roads.

Mrs. Auna Piper, widow of Geo.

Mrs. Anna Piner, widow of Geo.
Piper, many years ago a citizen .
Taylorsport, and mother of W. E.
and Geo. F. Piper, who were residents of Burlington in the eighties,
died at the home of her son W. E.
Piper in Seattle, Washington, July
2. Mrs. Piper was about 85 years
of age, and befer her marriage was
a Miss Loder. The two sons have the
sympathy of their many friends in
this county.

While the women folks

While the women folks are morping up the floor in the hot weather, the men folks can't do much but sit sallie and Elizabeth, spent the 4th with relatives at Walton.

## A WEEK'S NEWS.

A TILIM J. W. Holter and.
Mrs. Wright Holter, of Connersvile.,
Ind., Mrs. Mary Webb Ross, of Indianapolis, Ind., and Frederick Webit.
Ross, of New York City, were in Burlington a day or two the latter part of last week. They sopped at the Boone House, and were seeking information in regard to Edward and Dock Webb, deceased, former webit.
Nown citizens of Burlington, and who in later years owned the farm on the Ohio river now owned by C.
O. Hempfling. In the early Bixues Lewis "Bock" Webb was clerk of the Boone county court.

A very pleasant day was spent on the 4th at the home of Mr. and Mrs. L. T. Clore, by the following guests: Mrs. Alice Snyder, Mr. and Mrs. J. L. Kite, Mr. and Mrs. R. S. Cowen and Rev. W. W. W. Adams, of Burlington, Mr. and Mrs. Grover Snyder, of North Madison, Ind., and Mrs. Grover Snyder, of North Madison, Ind., and Mrs. Cleveland Snyder, of Wainut Hills, Cincinnati.

Enzign Edwin R. Duncan, after as month's vacation spent with his parents, Dr. and Mrs. E. W. Duncan, left last Friday evening for Washington, D. C., where he will be stationed until the latter part of August. From there he will go to Newport News and will go on the U. S. S. West Virginia when she is put its commission.

What are you going to do on Friday, July 27th? Do you like fruit? Something new and of interest to every farmer will be the Orchard Field Day to be held on several farms in Boone county on that day. There you will see the actual orchard practices, sucessful and otherwise as they are being used.

Henry C. Latham, a former well known citizen of Burlington and Florence, many years ago, but now of Hillsboro, Ill., was visiting relatives in Burlington a day or two last week. Although Mr. Latham has passed his four-score-ten yesrs, belooks hale and hearty for one of his years.

P. G. Cropper and wife, of Louis-ville, arrived in Burlington last Pri-day morning to visit his mother, Mrs., Fannie Cropper and his brother W. D. Cropper, Perry retuned to his home that evening, but his wife ro-mained for a visit of several days.

Fonnie Easton, from out on the Belleview pike, was taken to a hos-pital in Cincinnati, last Saturday af-ternoon, where he was operated up-on for appendicitis that evening. At-last account he was getting along-as well as could be expected.

The producers are havng difficulty-now in getting buyers to pay forty-cents a pound for raw wool, although that is only 9 cents more than the duty per pound. The tariff on wool seems about to become as futile as the tariff on wheat.

While farmers are getting, less for their livestock and poultry consum-ers in the cities are paying more for all kinds of meats and fowl. The Re-publican tariff doesn't help the pro-ducer but it's a fine thing for the profiteer.

Frank C. Laws, a former well known citizen of Petersburg, died at his home in Belleville; Kansas, Friday, June 22, 1923. He is survived by his wife, who was Miss Lida Terrill, and six children.

Cincinnati Masons have raised as fund of \$1,500,000 for a splendid temple and club house to contain every modern improvement and the best equipment for fraternal activities.

Mrs. J. M. Thompson, of Aurors, Indiana, and her daughter, Mrs. Elmer McWethy, of Memphis, Tenn., spent the fourth with Mr. and Mrs. R. E. Berkshire.

Mrs. C. C. Roberts, of Covington-spent several days the past week with her brother and sisters, W. R. Rogers and Misses Sallie and Eliz-abeth.

W. M. Chaplin from out on the Petersburg pike, was a business vis-itor to the Heb, last Saturday, and made the Recorder office a pleasant call.

J. M. Powers, one of the leading citizens of Verona, died last Thurs-day, July 5, after a linpering illners of paralysis and other ailments.

Outside of the firinp of a few fire-crackers and sky-rockets, Independ-ence Day was very quiet in Burling-ton.

with each other in showering with attentions.

V. P. Kerns, of Boone county, and Dawson Chambers, of Kenton county, spent several days in Pendieton recounty last week securing members for Burley Tobaco Growers Association. They were accompanied out in the county by Harry Dougherty, local secretary of the Association, and were sudcessful in securing a number of signers. The new members are principally farmers who have not grown tobacco for some years. We estimate that more than 95 per cent of the growers in Pendellotton have signed up.—Falmouth Outlook.

No efforts are being spared to make the lub boys and girls of this and Kenton counties have a profisable and pleasant time at the Junior ence Fair grounds. These club work era assemble into camp Monday afternoon July 30th, and will continue there the three following days. From the first roll call until camp breaks early Friday morning it will be a conflets between tribles. Most club members are sticking close to the bush now, in order to have this few day leave from the farst roll call until camp breaks early Friday morning it will be a conflets between tribles. Most club members are sticking close to the bush now, in order to have this few day leave from the farst roll call until camp breaks early Friday morning it will be a conflets between tribles. Most club members are sticking close to the bush now, in order to have this few day leave from the farm with their fellow club members.

Miss Francis Pace, of Cincinnati, a nonline and will be sent the Boone County Recorder for publication and a copy sent to his some for many years.

James A. WILSON, J. D. Mene Et. W. W. T. McMULLEN.

## WHY GREAT BRITAIN IS GREAT

WHY GREAT BRITAIN IS GREAT

(From the Baltimore Sun).

In the United States we trace to the Declaration of Independence our claim to human equality, and honored to be a supported to the Declaration of Independence our claim to human equality, and honored in England the day that makes all men and women equalis to that in which the greatest of all equine contents, the Derby, is run, and the thing that makes them equal is not politics but sport.

Since the close of the Napoleonic wars Great Britain has never been loaded down with such a Pellon-on-Ossaplie of problems, has never faced such apparently impossible tasks as now. A sever our great beautiful the such as the such as parently impossible tasks as now. A sever our great beautiful to start a revolution in more nervous and hysterical nations. All these things in Great Britain, however, are only part of the day's work. In settling the details of their working program the Britishers light each other with brains and body, but these clashes are merely in the interest of the such part of the day's work. In settling the details of their working program the Britishers light each other with brains and body, but these clashes are merely in the interest of the clash such as the suc

## As the Editor Sees It.

Now they are beginning to show our teeth.

their teeth. Creating covernments are beginning to granuble and intimate that trave possibilities will cease as a result of compelling alien ships to obbey our booze laws when they ensure mercican ports.

Amercan Plan on Crop Reports.
Over 60,000 crop correspondents distributed throughout every agricultured county in the U. S. send in to the department of agriculture a monthly report for their localities. This brings under personal observation a very large proportion of the total farm afea. About twice that many correspondents report less frequently on special subjects. About 100,000 send reports monthly or annually, giving the condition on their country of the condition on their country for the condition and to sample-large areas by personal field inspection.
The cords are also collected of cotton ginnings, mill receipts, shimments from country points, official inspections, and annual state cuminate from country points, official inspections, and annual state cuminate from country points, official inspectons, and annual state cuminate from country points, official inspectons, and annual state enumerations of acreages planted. Besides acreage, yield and production, the service collects and published data covering quality, variety, gradular as thoroughly and accurately. Comprehensive records of the movements of livestock data are gathered just as thoroughly and accurately. Comprehensive records of the movements of livestock here bring accumulated as a basis for later forecass. Of probable movement in the great amount of detail secured in most valuable for its purpose of any similar service in the world.

The docking of sixteen this with 18,000 immigrants at Ellis Island in one day is a little short of a trapely—for many heartbreaking everyoccurred. Some one is responsible to this unprecedented and entirely increasing condition and it is a second of the condition and it is a second

### IN AID OF THE FARMER

IN AID OF THE FARMER

In his speaking tour President Illarding has been advocating co-operative measures to aid the farmer in disposing of his crops to better advantage and in the buying of machinery and supplies at lower rates. If there is any class of people on earth who need aid and protection in these two essential matters it is the American farmer.

He is shout the only man who earns his living by manual labor who is not thoroughly organized in some manner or other, and because of this lack of organization he is at the manner or other, and because of this lack of organization he is at the manner or other, and because of this lack of organization he is at the manner of rother, of the course, of the course, of the course, of the course of the course, and the president is wise in advocating such a course.

There should be in every city of any size and importance a co-operative unit for the distribution of farm products direct to the retaler, and these units should be operated by the farmers upon an actual cost-basis. This would eliminate the millions of dollars in profits that are now gebbled up by middlemen, and soaid aid the consumer as well as the farmer.

how generally as well as the farmer.

And if congress would pass a law anking it a criminal ogense for any person to buy or sell farm produce for purely speculative purposes, that would also agord wonderful relief to the farmer as well as to the consumer.

Of course board of trade gambers and speculagos would bitterly oppose such a haw, but it is about time to quit running this country for the benefit of such gentry.

nore such a law, but it is about time to apit running this country for the benefit of such gentry. Without the farmer the rest of us would starve to death. Why should we allow a gang of \*specultures and gougers to take the bread from his mouth?

### WHY WAIT ON GEORGE?

WHY WAIT ON GEORGE?

This is a pretty good town, as towns go. We all admit it, and are proud of it.

But there is one fly in the community ointment that prevents us from advancing as rapidly as we should.

Everybody is willing to have things done, but wants to 'let George do it," and when George-reaches a certain point he balks. He gets tired of carrying the whole load.

What we need is a greater spirit of co-operation, willingness on the part of each one to do his or her share in the advancement of our community interests.

In every community, there are always a few who are willing to work for the public good. They are the Georges.

There are also a lot of others who

for the public good. They are the Georges.

There are also a lot of others who are willing to let them. do it. They are not Georges.

Once in a while we read of some town that keeps booming and shoins right along regardless of conditions or handcaps.

Such a town is full of Georges, and because the Georges are so numerous none of them are overworked and there is no occasion for balking. Why can't we all be Georges in this town,

There is room for improvement, and we have plenty of people with the brains of a George.

## Government's Radio Market News.

Government's Radio Market News.

The United States Department of Agriculture is extending its market news service to the country's main market centers from coast' to coast. To do this it is establishing one of the largest commercial leased telegraph wire radio telegraph systems in the world at a cost of approximately \$700,000.

The leased circuits are in daily operation from 6 a. m., until 6 p. m., except Sunday, and through the development of code are more intensively useful and controlled the tree Washington office and is rationally to the Washington office and is rationally to the Washington office and is rationally to the Washington office and is rationally and the tree Washington office and is rationally and other facts. This information is sent to branch offices next morning.

Following this, live-stock reports are dispatched and information in regard to agricultural products, market quotations and other matters of interest are sent out.

At the end of the day market summaries on all commodities are dispatched and information. The information received nother states are sent out.

At the end of the day market summaries on all commodities are dispatched and the producers and the trade by televraph hoadcasting stations and trans mitted to offices of distribution.

The information received over the wire at the various branch offices is immediately communicated to producers and the trade by televrone telegraph, radio and the press. Consummy centers are also advisionate to the supplies of various profuses. The enables groducers to equitate shipments so gas to prevent the glotting or undersupplying of teachers.

### STARVE MITES IN HEN HOUSE

the March Settle Department of Annal Settle Department of Annal Settle Department of Annal Settle Department of Agriculture some mites an aboutone of the the poultry has been removed. In test made by the United Stutes Department of Agriculture some mites were still after after 113 days in an abundoned hen hoise. The nests indicated, too, that the nates live longer in damp locations than in very dry conditions, which accounts, in part at least, for the iden that mites are worse in damp, beatfoir than in very dry conditions, which accounts, in part at least, for the iden that mites are worse in damp, beatfoir should be talken down, and the state of the settle department of the settle depar

Commercial carbolheum, which con-sists essentially of a hibba-grade an-thracene oil, has proved very effective readust ratios. The Rilling power of this subsuarce, which is derived from real tar, lasts for several months, and after which may be inclined to come a from other buildings are repelled for a long time. This material costs, ordinarily, \$1 a gallon, but as its re-

Spraying interior of Hen House for Mitea.

suits are superior to those recorded with any other material, and the treatments required are fewer, its use is strongly advised.

Crude petroleum, while not so effective as carbolineum, retains its killing power for several weeks, and in most places is very cheap. Since it does not dry into the wood so rapidly it is more likely to soil the fewis and the clothlug. Both of these materials can be sprayed better if reduced with kerosene at the rate of about 1 part of kerdsene to 3 parts of the other materials. Both often contain foreign particles which should be strained before the spraying. Is begun.

It has been found that one spraying with either of these materials often will completely eradicate the nites, but ordinarily it is advisable to make a second application in a month, and in some cases a third treatment is needed. Poultry should be kept out of the houses until the material is well dried into the wood. It is advisable to spray or paint chicken coops a few days before putting broods of young chicks hot them.

### AVOID CROWDING OF CHICKS

Bad Practice With Fowls of Ages, but Especially With Very Little Fellows

Avoid overcrowding. It is had practice with fowls of all ages, but especially with youngsters. Chicks with mother hens or in brooders often are crowded at night. When they get out in the morning most of them take cold and this often develops into roup, which is awailly fatal in the case of young chicks.

### Five Poultry Factors

There are five major factors in profitable poulary production, anys N. E. Chapman, poultry specialist at University farm—breeding, feeding, bousing, manegement and care. "These are the essentials; combined they will put the poultry business basis," he says "A start can be made with batching eggs, day-old chicks or a few head of breeding drock of high production. The surgest way to success is to grow late the poultry business.

## America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

WYANDOTTE CAVE

The demand for gunpowder during the war of 1812 was so pressing that large quantities of the nitrous earth in the caverns of the bluffs along the Qhio river in Sainan and Obio were used for manufacturing saltpeter.

One cave was so productive that it fell heir to the name Indiana Saltpeter Cave. Later this was changed to Wy-andotte Cave. After the war the manufacture of saltpeter became unprofication of saltpeter of the walls and frooting of natural epsom salts covered extensive areas in this underground wonderland. Also, that when removed, this froating rapidly reappeared. Sulphate of Ilme plaster of paris, and niter also were found here. Subsequent explorations brought to light the astonishing fact that in size this cave all but rivuled the Mammoth Cave of Kentucky.

The outstanding characteristics of Wyundotte Cave, in which it is said to excel all other American caves, are the unusual bigness of Ils corridors and vanuited chambers, unbelievable quantities of falen rock, and the massiveness of its stone columns.

The "Pillar," upwards of a mile from the entrance, a magnificent column 25 feet tall and 15 feet through its one of the show places. Another spectacular formation, Columbian Arch, is an almost perfect turnel, half circle in shape, and 75 feet fong. Near one end is a "chunk" of limestone, estimated to welsh more than 500 tons, which ilosoned and dropped from overlead no one knows how long aco.

The Senate Chamber measures 150 by 600 feet, its terraced sides of limestone culminating in a grent dome. From the center of this room there rises a great pile of rock. From the top of this rock pile an enormous fluted column of saths par extends to the world.

Certain shape, 71 feet around, this mastodonic pillar is said to exceed in size any like formation in any cuve in the

Certain sightless animals make their home in this ever. Thousands of buts which may he observed hausing head down from the roof, make their winter homes in Oud Feliows Hall. This great chamber is 90 feet wide, 210 feet long, and 65 feet high.

Wyandotte Cave, formed among the rugged hills in Crawford county, is near the point where the Blue river flows into the Ohio.

#### This and That,

If brevity is the soul of wit, the 23 bathing-suit must be extreme-

Some people's idea of friends is that they are principally valuable to borrow money of.

It's quite true that the Lord pro-vides our daily bread, but He ex-pects us to do the eating.

Another thing this country needs is to get rid of some of the bootleggers and to get some more bootmakers.

Some of these folks who are indif-ferent about running for office, yet read the political forecasts quite carefully.

Used to be considered that corn was the most distinctive American product, but now it is probably ice cream sods.

About now the family reunions begin, and the relatives love each other tremendously after they have had a big feed.

#### TREATMENT OF DIABETES.

TREATMENT OF DIABETES. Diabetes, or diabets mellitus, to give it its full name, is a disorder of the nutritive apparatus, in consequence of which there is an excessive production of sugar, which circulates in the blood and is exercted through the kidneys. That is the most evident symptom of te disease. Other symptoms are rgeat thirst, a sweet lish odor of the breath, loss of flesh and strength, indigestion and often an efuption of carbuncles or a crop of toils.

an Strength, indigestion and often an Stupition of carbuncles or a crop of to loils.

The underlying cause of diabetes is in tunnown: probably the disease depends upon a variety of causes such as carl'onle-acid-gas poisoning, meningitis. Evan tumor, severe nervous shock, an njury to the head, acection of the adrenal bodies and, most common of all, disease of the pancress, an organ that is largely concerned with preventing excessive for of sugar that is largely concerned with preventing excessive for of sugar in the liver and its consecuent circulation in the blood.

The disease may occur at any ago the control of the advertise of the patient is. The teatment was formerly dictary and still is to a large extent. Of course the cause is to be removed if it is known, but that is not ordinarily possible; usually the physician's efforts must be directed to restricting the intake of sugar-forming meerial, which, contrary to the former belief, is more of the control of the contrary to the former belief, is more in often animal food than it is starch. The total amount of food is restricted, or at least overeating is forbidden, and meat may be taken in moderation, and scheese is permissible—indeed it is advisable; the rest of the time the patient's diet should be almost wholey in the patient's diet s

was the most distinctive American product, but now it is probably as the product of the most it is probably as the product now the family reunions begin, and the relatives love each other tremendously after they have had a big feed with the product of the control of the product of the produ

#### HAMBONE'S MEDITATIONS

YOU DON' HATTER POLOGIZE WEN YOU GIBS A MAN A DRINK O' BAD LICKUH--- HITLL POLOGIZE FUH IT-SE'F TIME HE GITS DOWN!!

#### LUXURIOUS LASKERISM

Laskerism continues to spread its contagion. Ambasador Geo. Harvey and Secretary of Labor Davis are the latest victims. The story of their affliction makes interesting summer reading, especially for the workers in the wheat fields and corn fields of the West. Listen to this from the Washington Post, semi-official organ of the Harding administration:

"James J. Davis, Secretary of Labor; George Harvey, Ambassador to the Court of St. Jame's, and Albert D. Lasker, former Chairman of the Shipping Board, have engaged first-class passage (on the Leviathan sailing July 4th. They will occupy premier suites, which have two bedrooms with baths, living room, sun parlor and breakfast room, and are listed at \$4,950 for a one way trip."

All three are traveling at government expense; Secretary Davis tothy the immigration question, Ambassador Harvey, presumably with his 21 trunks, returning to his post and Mr. Lasker as a representative of the Shipping Board—\$14,850 fare one way.

Laskerlsm comes high, but this administration apparently is out for a good time.

Country and City Babies

Recent statistics show that mod
ern sanitary measures have reduced
the infant death rate in cities 24 per
cent, while the infant death rate if
the country as been cut only 15 per
cent.

the country as been cut only 15 per cent.

Such figures show the need for sail itary measures existing in many rural-communities. The fresh air and wide spaces of Boone country are very healthful for child life, and the majority of our people are careful in sanitary matters. Yet there are aways some who fail to care for sources of infection. Medical authorities say much would be accomplished for infant life if every family had an ice supply. It is not easy to keep milk in the condition needed for infant food without such ceoling.

#### New Trial.

New Trial.

The court granted the Common wealth a new trial in the condemnation proceeding against W. Lee Gaines and others. This is the case that was tried a few days ago in which the jury found for the defend ant \$2500 for the land taken and damages for the construction of the Dixie Highway through their lands along the right of way of the Southorn Railway near Walton. The Commissioners appointed by the county court had fixed the amount to be paid to the defendants at \$975.

THE PRE-SCHOOL CHILD

Louisville, Ky.—Why is it that four years of a child's life, during which time many permanent habits are being formed, are almost completely forgotten in our efforts to care for babies and school children? It is nit a pleasant fact to ackniwledge, but is a fact, nevertheless. For years we have been concentrating on infant feeding, health rules, for infants, clothing the baby, reports on infant incentify, and numerous other subjects pertaining to children up to two years of age. Then comet the gap—and our nextilerest is health habits for school children. It cannot be 'hat we care less for the toddlers, so it must be that we do not realize that it is just as necessary to have he lith regulations for this age as it? for those in the younger and olner groups. Ann these regulations serve as the connecting link between the baby and the school child.

As with the infant, a steady increase in weight is indicative of health; and efforts should be made to see that tis increase is effected. Twelve horrs of undisturbed sleen, with a rest period during the day, plain, well-cooked food, served at regular intervals; plenty of oht-door exercise clothing suitable for the season and frequent use of good water, in drinking and bathing, will help the keep the toddler well, and help to improve the condition of those who are not up to standard.

So while we cannot lessen in the care of our babies and school children, let us make the work with them all the more effectual by giving an equal amount of time to the dear little run-ahouts.

Will Start Promptly at 2:45

#### BASE BALL.

Walton and Petersburg broke even in their Independence Day double header at Petersburg, Petersburg winning the morning game 11 to 9 and losing the afternoon game 8 to 1. Huey for Petersburg and Benson for Walton both pitched great ball in the afternoon game and had Huey been given good support the score would have been different.

At Bellewiew Hebron was unable to do anything with Black's offerings and Bellewiew took the afternoon game, 12 to 0. Hebron won the morning game 10 to 3.

Walton ball team will play at Beleview, Saturday, July 14th. This will be a good game as both teams are putting up fine ball playing.

are putting up fine ball playing.

\*\*E## Taylorsport will play at Burlington this coming Saturday, July 14th. Be sure to attend this game. The management assures that it will be started promptly at 2:45 for the reason that the Taylorsport team will arrive on daylight saving time.

#### HIGHWAY DEPARTMENT TURN OVER.

HIGHWAY DEPARTMENT TURNOVER.

In an average session of three months the legislatures of our rtates have more or less completely overturned fourteen highway departments. This is. about 30 per \_cont turnover — ligure fairly comparable in size with those wrich are turning gray the hair of contractors and other employers of labor. Of course such a turnover in highway administration is not recorded every year. Last winter was open season for highway departments and the political pot-hunters were active. It is not however the percentage of turnover that is significant, but the fact that is significant that compliaisance the disrupting if a business organization of the magnitude of a state department of highwafs. The four-teen states which have changed partly or wholly their highway executives and managers are each doing an annual business associations would take a high hand in correcting a situation regarded as dangerous to industrial and commercial similar turnover should occur in private business of a highly specialized character doing an annual business which turnasses in mency tule all but a few nation-wide private enterprises. Changes in perconnel, citen, and even drastic reorganization, occasionally, are required in highway departments, as in other business organizations of a highly specialized character doing an annual business which required in highway departments, but neither popular impulse ner noticeal expediency should be the insperation for such action. Both were large influences in this year's change.

From reports now being published the receipts and distribution of

#### ALBEN

#### W. BARKLEY FOR GOVERNOR

If has been clear for some weeks now to all latelligent observers that Alben W. Barkley has been making wonderful gains in his candidacy for the nomination for Governor, and there will be so doubt of his nomination if those voters who favor him and the principles for which he stands will go to the polls on the primary election date, cast their votes and use their influence to see that he gets a fair count. That is the way and the only way to defeat the powerful and corrupt interests opposing Mr. Barkley in this campaign.

palgn.

Those interests succeeded, under the leadership of Maurice Galvin, the highest salarled attorney of the race track gambling interests and of other interests, in dominating the recent Republican State Convention, and in nominating Mr. Galvin's candidate, Charles I. Dawson. The same interests under the leadership of Mr. William Klair are now turning their attention to the Democratic Primary.

There is no issue be-

to the Democratic Primary.

There is no issue between Mr. Galvin, the Republican leader, and Mr. Klair, the Democratic leader. They stand for the same things and represent practically the same interests. With Mr. Dawson as the Republican nominee, and Mr. Cantrill as the Democratic nominee, those interests would be safe no matter which one was elected, as their representatives would work together in both parties as they have

Mr. Dawson and Mr. Cantrill may have some trivial differences on the Tariff question, the League of Nations, or some other training questions, but uppa issues in the State of Kentucky we know of no question upon which they differ. In the election of either one, the race track gambling interests would prevail for another four years, the foreign coal barons would continue to draw the wealth out of Kentucky while paying practically no taxes to the State or Connities, and the same influences that have controlled Kentucky in recent years would continue in power. The nomination of Mr. Darkley offers to the Democratic party and the people of Kentucky to rombat and overthrow those corrupt influences. He is clean, capable and courageous. His nomination would inspire enthusiasm among the Democratic voters, and attract to his support thousands of honest Republicans who are dissatisfied with the nomination of Mr. Davson and a continuation in power of the interests that are backing him.

we, therefore, call upon all the Democratic men and women of Kentrcky who want clean, honest, economical and progressive government, to rally to the support of Mr. Barkley and make doubly sure his nomination on August 4th.

## HARD ON NERVES

Squeaky Shoes One of Mankind's Greatest Afflictions.

Only Way to Be "Dead Safe," It Would Seem, is to Wear Pair of Rubber Boots.

The only way to be certain that you will not some day find yourself walking through some still and choing church for hall in a pair of squeaky shoes is never to go anywhere except in a pair of rubber boots. There is no sure way to cure a pair of shoes of squeaky green to go anywhere except in a pair of rubber boots. There is no sure way to cure a pair of shoes of squeaky green one by giving them away to the nam who tends the furnace.

A shoemaker can take a pair of squeaky shoes apart and put them together again until he is biue in the face, but if that squeak lan't ready tog oit won't go.

But you can give those shoes to the furnace man and he can sit down and put them on and rise and walk away and make no more noise than if he were walking in his socks.

Sometimes squeaky shoes are cured by other means than furnace men, but not often, and the process in that case is pretty wearing on the nerves, observes a writer for the New York Sun.

A man once bought a pair of \$15 shoes. He said that he would try high-priced shoes for once in his life and see if they would last long enough to be worth it. He put them on one Sunday morning and went to church, and he was a little late and was forced to walk to his seat, through the comparative quiet of the minister's opening shortation. And right at that point those shoes began to let out noises that were worse than a guinea hea going somewhere in a hurry, and the minister single shortation. And right at that point those shoes began to let out noises that were worse than a guinea hea going somewhere in a hurry, and the minister single shortation. And right at that point those shoes began to let out noise that were worse than a guinea hea going somewhere in a hurry, and the minister sopening shortand and walked where we will as death up the shoes to be place he bought them and told the shopkeeper sent them to the factory and had them fixed. Next Sinday the man again wore them to the factory and had them fixed. Next Sinday the man squin wore the worth to stop the singing and s

Indo-China.

Both Chinese and Maiays In Indo-China had reached a high stage of civllization before the arrival of the
French and have preserved, language,
literature and religion almost exactly
as they existed before Khal Dink, emperor of Annam, astonished Europe by
his education when he came to visit
France last summer.
Commerce flourishes in Indo-China.
Cotton and rice are exported in large

commerce flourishes in Indo-China. Iton and rice are exported in large antities to China and Iapan. Rall-ys exist on an extensive scale. Sal-in Cochin-China has become one of big ports of the French empire, saling of docks, wharves, European Idlings and first-class hotels. Lord ritchliffe, when he visited the city ortly before his death, was loud in praise of the French administrate.

British Electric Ships.

Three vessels of a very unusual character are shortly to be built in a British ship-building yard. Each will be about 4,000 tons and especially designed for the fruit-carrying trade. They will be fitted with oil engines of a special type designed in this particular yard and recently tested under ocean-going conditions with most satisfactory results. These engines will drive electric generators which will sapply current to electric motors placed on short propeller shafts at the stern of the vessel. This arrangement will give greatly increased space for cargo and is expected to result in a considerable saving in fuel consumption, hesides giving great flexibility of-leontrol.

ENGINEER IS KEEDED SORELY

Better Highways to Relieve Congestion of Cities Will Open Door to Farm Life.

(Prepared by the United States Department of Agriculture, who is advocating that a big increase be made in the acreage of this legume forage crop during the August planting each son. Without the nitrogen-gathering bacteria on its roots the crop draws on the world for its middle of cities of more than 25,000 population far end wide into the outlying open country, and thus in some appreciable way o relieve congestion American cities," declared Dr. C. J.

Marchael of the country of t

Calpin, United States Department of Agriculture, at the second annual conference on highway transportation education heal at Washington.

"A large factor in decentralizing city homes is the transportation problem and challenges the genius of highway engineers," Doctor Galpin said. "Less than one-third the entire population of the United States is on farms. Sixty eight cities of more than 100,000 population each contain nearly another third. The 30 odd millions of peoplitying in cities of 25,000 population and over are being brought into immediate contact with the commodities of illying, the skill of service, and the institutional wisdom of the world whereas those who live on farms receive few of these advantages."

A system of complete terming towis connected by rail or water twholesaling cities, and by an adequate highway system to groups of farm population is Doctor Galpin's solution for "taking the curse off farming, and opening the door to a good kind of life on the farm."

SOLVE FARMER'S PROBLEMS

Good Roads to Local Markets Reduce Cost of Distribution of Various and perspective preparation, seeding at the worns, time of poor seeding lamb to use of poor seed are held largely responsible for the low returns, which farmers of the state get on the important point in buying seed is to get it early so that the best of the cities of the content of th

Good Roads to Local Markets ReducCost of Distribution of Various Products.

The joint commission of agricultural
inquiry sees in good roads one of the
ways of solving the farmer's difficultural Crisis and its Causes," the commission says: "Good roads to local
markets, joint facilities at terminals
connecting rail, water and motor
transport systems, and more adequate
facilities at shipping points will materially contribute to the reduction of
costs of marketing and distribution to
the mutual benefit of producer an
consumer."

SAME MATERIALS ARE USES

Same Essentials Wars Employed in
Construction of Roads as Are
Being Used Today.

While we know little about the
roads that existed prior to the Roman
empire, we do know from revords re
maining that not only the Romans but
the Egyptians, the Carthagenians, the
Sumarians, and other ancient peoples
employed much the same materials
that we are today using in highway
construction. There is a evidence that
both the Romans and the Egyptians
used a mineral cement. The Bible
tells of the low returns
which farmers of the state get-on
this crop.

The important point in buying
seed is to get it early so that the best
obtainable can be had, since the type
of seed used may determine to a
large etent the returns form the crop.

Mr. Kinney says, "Wheat containing,
the total request the set of the country and the very called of poorer quality grain than
would have been obtained from
would have been obtained
from fields an pearly free as possib

NEW THINGS IN WRAPS

Knitted fabrics account for the beauty and dignity of certain new wraps for spring. They are usually designed so that they afford a glimpse of the costumes under them, lest we forget the brilliance and importance of blouses.

These knitted to

ferget the brilliance and importance of blouses.

These knitted fabrics are lustrous and decorative in themesives, requiring little embellishment. Drop stitching paints, putings of the material and handsome clasps, tell the brief but brilliant story of their decorative effect, and the handsome wrap pictured of theavy, crepe-knit fabric is typical of the styles.

MORE GOOD THINGS

A good way to sorve mutton and one which will be new to many is:

Serbian. Mutton.—Tut a conk in of rice on to a conk in boiling saited water and cook until soft. Chop one small onion and cook this in two or three tablespoorfuls of bacon fat until brown. Add one pound of mutton cut from the leg, the meat to be cut in cubes, then cook in the bacon fat and onlon, turning until well browned on all sides. Place a layer of cooked rice in the bottom of a baking dish, cover with two tomatees cut in silecs, or a cupful of sifted pulp; then add one-half of the browned meet and onlon; over this one thin sileced green pepper. Froceed with another layer of rice, tomatoes and meet and pepper. Fill the dish with seasoned gravy or stock, cover and bake in a hot oven thirty minutes.

dish with seasoned gravy or stock, cover and bake in a hot oven thirty minutes.

Maxican Stew.—'tut one pound of calfs liver in one-inch cubes and saute quickly in a hot frying pan in a very little fat. Cook together in a saucepan one plut of affred tounties with three onlons very finely chopped, two tablespoonfuls of flour and one-topped green pepper, one-half teaspoonful of salt, one-fourth nesspoonful of cloves, the whole rubbed smooth in three tablespoonfuls of softened butter. Stir over fire until thick, then add the cubes of browned liver and allow the whole to simmer for ten minutes. Serve in a deep pintter, graitshed with baked browned potatoes and strips of brolled bacon.

Chinese Cabbage, Raisin and Green Papper Salad.—Boll one-half cupful of raisins in carage fulce until soft, for soak over night in the fulce. Arrange this alices of green pepper on Chinese cabbage and the prepared raisins. Hard Sauca.—Cream two tablespoonfuls of butter, add one cupful of powdered sugar and such flavor as desired, fold in one-half cupful of whipped cream and serve.

## Necie Maxwell

Some of the Louisville Republicans who could not control the Republican convention and secure the nomination of Mr. Colvin, are now exerting their best efforts to and using treir influence to the advantage of one of the Democratic candidates, Mr. Barkley, Hon. Helm Bruce, a Republican and a staunch supporter of Mr. Colvin, is now speaking in the interest of Mr. Barkley according to press reports from Louisville.

347 EAST THIRD STREET CINCINNATI O

Governos Albert C. Richie, governos Albert C. Richie, governor of Maryland, and president of the Maryland Bar Association, wants to see one more amendment which would require that no future amendments be ratified by any state legislature unless at least one house there of is elected after the amendment has been proposed and unless the act of the legislature in ratifying the amendment be subject to a referundum to the people of the state.

amendment be subject to a reterundum to the people of the state. \*

Well meaning men and women all over the country propose dozens, hundreds of amendments to the Constitution. They have the zeal of the reformer, and in their hands is a torch of fervent love for people and for country. But a torch can burn as well as give light; it is for us all to see that unskilled hands do not hold that torch too close to the document which makes this country what it is. There are other remedieg for ills than constitutional amendments.

The fruits of the Constitution have been ripe, and sweet. Let us consider carefully before we attempt to graft new species on the vine planted to firmly by the founders of this Republic.

#### HAYMAKING.

It is hard for the overworked farmer to see poetr. In his laborious tasks. But the visitor to the farm finds picturesque and even poetic aspects in all the occupations of husbandry. Take hay making, for instance. Not as musical as in the old days, when the swish of the old the old days, the long windrows dividing the field into green gray stripes, the scent of the new mown grass, as fine perfume as any rose or violet, the refreshment of the workers as the cool ginger water is passed around, these are suggestion; of color and life that have sweetness and charm. Many city boys look back with pleasure to the wholesome old days of haymaking that looked totalouse at the time.

#### BE AN OPTIMIST

being an optimist instead of a pessimist.

An optimist has his reverses, just as other people do, but he doesn't crawl into a cloud of gloom and stay there the moment trouble appears.

He rises above trouble and continues to hammer away until he succeds. It is his ability to do this that enables him to achieve success where others meet failure.

When conditions are not as they should be, and others become disheartened and slow down, it is the optimist who cheers them up and jollies them along and lightens their burdens for them until conditions become normal again.

An optimist is a valuable asset to any town, for he sows pep while the pessimist sows weeds.

#### COMMUNITY PICNICS

WASHINGTON COMMENT.

"By their first ye shall know them."

The fruits of the Constitution of the United States are liberty, equality, justice, educational and commercial opportunity, freedom from oppression, right to worship God as one pleases, the right to happiness and its puryuit in one's own way and Breawer injure not one's neighbor; the fruits of the Constitution of the United States are the ideals of America.

Probably the Constitution isn't perfect; it is the work of human hands and brains. But it is far too perfect to be "tinkered with" with out very careful thought, and sober ity, solemnly, fearfully.

The United States will make the price as prevailing during the war, when under the Pittman Act, the Government made purchases at the hamphitheater at Arlington until the Amphitheater at Arlington until the man it commemorates has been dead at least ten years; time must be the test of his fame, not emotion. Yet it is emotion, and not time, or thought which begets most of the Maryland Bar Association, wanted to see one more amendments to Constitution.

Governor of Maryland, and president of the Maryland Bar Association, wanted to be a many proposed and unless the act of the legislature in ratifying the amendment be subject to a referund was the reposition of the monthly exports of reflect of a silver into India and Constitution.

Governor proposed and unless the act of the legislature in ratifying the amendment be subject to a referund was the reflect of a silver hollion of the tourn the constitution of the monthly exports of constitution.

This method of stabilizing the producers with the constitution of the monthly exports of constitution.

This method of stabilizing the price and market for silver is also demanded by the action of the monthly exports of the dumping of India's wheat on the world market in competition of the committee in the proposed and unless the act of the legislature in ratifying the amendment be subject to a referund the proposed and market for silver is also demanded by the action o

the financial condition of that country and upon American trade with China.

This method of stabilizing the price and market for silver is also demanded by the wheat producers of the nation. When the proposition comes up in congress, it is probably that wheat and silver will travel together—or both propositions wilfall.

#### STATE BOARD OF HEALTH

Louisville, Ky. — When the big "prairie schooner" drawn by four horses left Louisville Thursday to invade a stronghold of tachoma in south central Kentucky, the State Board of Healtb was carrying sunlight to hundreds of little children and grown folks who live in the valley of darkness.

and grown Jolks who live in the valley of darkness.

The cavacade is under the general-ship of Dr. Charles B. Kobert, director of the Trachoma Bureau of the State Board of Health, those in the party being Miss Antionette Kaelin and Miss Cordelia Bickett, his assistanta, and a medical student, a muleteer and a cook. Besides the canvas covered wagon there is a light truck which will accompany the party of health evangels until they strikerough roads. At that point, extra wagons will be added to carry equipment.

From Louisville the carry equipment.

SELLING CANNED STUFF.
Young women and girls who are anxious to earn a little money for themselves might consider the chances in the sale of canned stuff. Such a girl might secure a portable canning outfit and go about from home to home to do the work. Or she might advertise to do carining in her own home for those wishing to bave fruit and vegetables preserved.
Or she may canvass the grocery, and food shops in some city or large town in her section. An advertisement of canned stuff in the Recorder might bring all the orders that a young woman could bandle, and a few insertions of such an ad in a city paper often brings good results. There is an almost unlimited demand for good canned fruits and vegetables and preserves of all kinds.

COMMUNITY PICNICS.

In many towns it has become customary to hold a plenle once a year to take in the whole community. In others such affairs are held for churches, Sunday schools, and other organizations. They are mighty joily affairs, and people do well to quit their usual occupations and attends few of them every summer.

The busy man may say he could not possibly drop his work and attend any picnic. Yet if he went, had made the possibly drop his work and attend any picnic. Yet if he went, had made the summer of the settlement shows the manual to all funds collected by the Sheriff of Boone county. In this issue, and people who could tall him how the summer social occasion, gets to talking with folks who tell him how to take the grindstone every minutes are to calking with folks who tell him how to the inclease a previous for the mount of the superintendent, and all the calking with folks who tell him how to the inclease a previous for the superintendent, and all the calking with folks who tell him how to the inclease a previous for the superintendent, and all the calking with folks who tell him how to the inclease a previous for the superintendent, and all the calking with folks who tell him how to the inclease a previous for the superintendent, and all the calking with folks who tell him how the inclease a previous for the superintendent, and all the calking with folks who tell him how the inclease a previous for the superintendent, and all the folks who tell him how the inclease a previous for good canned fruits and impressive of good canned fruits and impressive

#### COVINGTON MERCHANTS

# Celebrate Liberty Day, Saturday, June 21st.

"Covington Merchants' Liberty
Day" will be celebrated Saturday,
July 21, in honor of the opening of
the new \$250,000 Liberty theater on
Madison avenue.
The largest number of merchants
assembled in Covington in many
years, met at the Industrial club Friday and formally designated Saturtday, July 21, as "Covington Merichants' Liberty Day." Incidentally it
was the first formal meeting of the
newly, organized Merchants association. William Macklin of the Coppin
company, was elected president; Geo.
L. Hill, grocer, vice president; Chas.
Bracke of the Luhn & Stevie company secretary, and Thomas Conry,
queensware merchant, treasurer. The
new association is composed of all
retail merchants, auto dealers, real
estate agents and bankers.
The word "retail" was eliminated
and the name "Covington Merchants'
association" formally was adopted.
More than one hundred Covington
business men have been enrolled in
the new organization. President William Macklin has outlined a programme. Regularly monthly meetings will be held.
To Give Souvenirs.
The merchants decided to distribute souvenirs in their respective
stores on the day of the opening of
the Liberty theater, between 2 and 4
p. m. Bombs will be exploided in the
forenoon and at the hour of the
opening of the new theater by the
merchants. The merchants will carry
double-page advertisements in news
papers, advertising the sale of special bargains on this date. Every advertisement will be certified to by a
special committee to be appointed to
determine the value of the various
bargains. These advertisements will
be displayed on the screen at the
Liberty theater. There will be a band
concert and all the stores will be
decorated for the oceasion. The various window settings will suggest
"Liberty Day."
The local merchants will advertise
"Merchants' Liberty Day" in all the
surrounding counties, and it is planned to make the event an epoch in
the history of the city. "This. is
going to be Covington's biggest day,"
said President Macklin.

Extra street cars

wagons will be added to carry equipment.

From Louisville the party headed toward, Bowling Green. From there they go to Morgantown, Butler county on Green River. Trachoma clinics will be held in Butler, Obio, Edmonson and Grayson counties, the party expecting to return to Louisville late this fall.

The party arrived here last week from the mountain section of the State where clinics were held and many cases of partial blindenss and hundreds of cases of trachoma in itsirs stages were operated upon.

Trachoma, acording to Dr. Kobert, is a form of ganulated eyelids, its spread being rapid and more fatal to sight than some other forms of granulations.

This is the third year Dr. Kobert has started out in -his mule-drawn wagon and returned to Louisville this trip to only replenish aupplies.

SELLING CANNED STUFF.

Young women and girls who are anxious to earn a little money for themselves might consider the chances in the sale of canned stuff. Suchaging land the control of the delaystem and conveyed overthem to be considered unfeasible, due to the lack of privacy. The new system connects Gatalina islands off southern California not only with the wireless voice also can be switched in the elaborate main trunk lines of the Bell Telephone system in perfecting such apparatus, giving no radio phone science a full degree of commercial activity. The use of radio for phone messages has long been considered unfeasible, due to the lack of privacy. The new system connects Gatalina islands off southern California not only with the wireless voice also can be switched in the delaystem and conveyed over the radio telephone has now reached the stage of privacy. By mean of a scrambing process in treasmission and an unscrambling process in treasmission and an unscrambling process in reception, wagnetic wave is kept fee from outstances. Success has crowned the efforts of exprive and understances and understances of radio for phone messages has long been considered unfeasible, due to the lack of privacy. The new system connects Gatali

#### TRYING IT ON THE DOG

TRYING IT ON THE DOG

President Harding remarked in his address at Helena, Montana, that apart from the tragedy of the thing, he was glad that Russia had been making the experiment of trying out communism. He felt that the miserable results and suffering created by that mad experiment were going to stablish anew the faith of Americans in their own principles and social order.

When there are a certain group of people in a country who want to try out some foolish idea, it is a relief to have some other nation try it out, and demonstrate its folly by actual to have some other nation try it out, and demonstrate its folly by actual experience. Thus Russia has consented to be the dog which submit to this rash trial.

From now on those who think that communistle ideas would improve human welfare can be invited to remove to this land of so called equality, and see how it works from actual practice.

Claimed that women are going to

Claimed that women are going to rule the world, and as they have been governing the men for some

THE MOTOR CAR THIEVES
A considerable number of people seem to have reached the conclusion in these times that if they can obtain, ... zwien of an automobile, they can thereby avoid the necessity of having to cultivate or buy vegetables. With roomy bags and the favor of a dark night, they can hiethemselves to some distant rural neighborhood, and descend upon a well tended vegetable garden or or chard while the owner is sleeping, and stock up their homes for days to come.

The meanness of fellows who thus prey on the results of other people's industry is too despicable for words. If this kind of thing goes on, many farmers will equip themselves with shot guns, which when well aimed act as an excellent deterrent. A watch dog with sharp teeth is a good protection for the country folks, as he will wake when the gardener is sleeping.

will wake when the gardener is eleeping.

SATE COURTS AND
THE 18th AMENDMENT.

Enforcement of the 18th Amendment is receiving both support and jolts at the hands or various State Supreme Courts. The American Medical Association is largely responsible for one decision to the effect that neither the alcoholic content nor the quantity prescribed by physicians can be limited by law.

The Massachusetts Supreme Court has rendered a decision that recognize the right of any municipal courr or trial justice to issue warrants for the arrest of offenders against than atonal prohibitory act, and to bind them over to the U. S. Court. It also asserts that "the entire police force and the entire criminal court machinery are available by law for the enforcement of the National Prohibition Act."

Several other states have render ed varying decisions, and still others have questions to pass upon. Federal enforcement officials may soon need a digest to know what's what.

#### COUNTRY TOWN LIFE

Country town life in a state like Kentucky is an ideal condition for the development of average people. Our commonwealth has turned out plenty of geniuses too, and they thrive and get their start in the in spiring surroundings of wholesome rital life. But the average person gets a better chance for development under rural conditions than he does in a city. The country town of America is the place of democratic opportunity.

does in a city. The country town of America, in the place of democratic opportunity.

In cities where a mass of people assemble, there is a tendency for civic and business and social life to come under the leadership of a few people of great ability, but for the masses of the people to remain unnotired and neglected. Unless a person has a certain supreme self-confidence, it is extremely hard for people to make themselves felt under city conditions.

In that kind of life, many people who possess a modest nature, who have fine abilities but who dislike to thrust themselves forward, are entirely overworked. They are lost in the shuffle, forgotten and neglected, and their abilities are given no chance to assert themselves. People of this type are often of superior capacity to those that forge shead to promisence, but as the result of lack of assertiveness they remain unknown.

of assertiveness they remain unknown.

The country town gives every person the chance to make his own merits manifest. The quiet person of real ability is encouraged to do what he can.

In country towns one sees a type of people holding public office, taking official positions in societies and churches, getting up plays and entertainments, promoting business and farmers associations, who in cities would remain shut up in their shells. Thus country life becomes a great field of opportunity for the average man and woman.

The first thing to do in a campaign to build up a bigger retail field is to see that the territory covered by the home newspaper or newspaper is reached through advertising.

Wherever a newspaper has a good circulation, the merchants of that town ought to have a good trade. If a lot of people in the district covered by the home newspaper are not trading at the place where these papers are published, it suggests that the stores of that place are falling behind their competitors in soliciting business through the press.

Advertising does a kind of pionesiwork in opening up new trade relations for enterprising stores. It goes out into towns where a store was not previously well known, and opens up new country for the operations of the live merchant. It conveys information about buying opportunities not known before, it sets the people travelling in a new direction in search of their home and business supplies.

President Harding is said to be out taking the nation's pulse, and be should also examine its feet and see if they'e ranot getting cold.

#### JULY CROP CONDITIONS.

Kentucky's 1923 total acreage of tobacco of all types is approximately 567,000 acres compared to 526,000 acres last year, and the Kentucky wheat crop 7,325,000 bushels compared to 7,475,000 bushels produced last year, these are the features, of the July crop report for Kentucky issued today by the United States Department of Agriculture in co-operation with State Commissioner of Agriculture W. C. Hanna. This decrease of 150,000 bushels from the final 1922 production of wheat in Kentucky is due to decreased acreage which was nearly 5 per cent less than in 1922. This months estimate of the acreage and condition of corn in Kentucky indicates a crop of about 36,185,000 bushels compared to 88,060,000 bushels last year, 3,145,000 acres, but the crop is extremely late, Based on records of previous yields of tobacco in Kentucky this year's acreage of 567,000 acres, with reasonably favorable conditions from now until cured, would produce about 592,887,000 pounds the state of this season, and estimates of production based on these acreage estimates will be subject to revision either downward or upward as the season progresses, depending on favorable weather or other conditions bereafter.

Oats in Kentucky are estimated at 5,027,000 bushels compared to 4,282,000 bushels compared to 4,28

as the season progresses, depending, tons bereafter.

Onts in Kentucky are estimated at 5,027,000 bushels compared to 4, 282,000 bushel last year. Oats in some parts of the state were damaged by rust and some were very short. Rye for grain is estimated at 243, 2000 bushels compared to 223,000 bushels compared to 223,000 bushels last year, parley 157,000 bushels compared to 168,000 bushels last year, Parley 157,000 bushel compared to 168,000 bushels last year, Frail y 157,000 bushel compared to 168,000 bushels last year. Hay bas been poor in many counties and is not estimated at 1,307,000 tons compared to 1,497,000 tons last year. Fruit is very irregular, but generally a fair crop in Central and Western Kentucky, but short in pears 25 per cent. All these 1923 estimates are subject to revision either downward or upward as the season progresses, depending on weather and other conditions.

Hog Prospects.

An increase of nine tenths of one per rent in the number of pigs saved from farrowings in the 6 months ending July 1, 1923, as compared to the number saved during the corresponding period last year, is indicated in reports gathered by runal parts of the Postoffice No. 1000 hog raisers in all parts of the country.

For fall pigs, hog raisers of the writize United States have expressed

country.

For fall pigs, hog raisers of the entire United States have expressed an intention to breed 28.3 per cent more sows than actually farrowed last fall; for the Corn Belt stats this increase is indicated as 25.5 per

#### TWLLVE-HOUR DAY TO BE ABOLISHED

TWALVE-HOUR DAY
TO BE ABOLISHED.

In a letter forwarded to President. Harding at Tacoma the Steel Trusc announced that the 12-hour day would be abolished, "when there is a surplus of labor available."

President Harding took occasion to pubicly congratulate the steel in dustry on this important step, saying, "it will heal a sore in American industrial life which has been the cause of infinite struggle and bitterness for over a generation and, it marks an accomplishment from the conscience of industry itself, a recognition of responsibility from employer to employee, that gives us faith in rightful resolutions of the many tagled problems that are the concenitant of rapid growth of America.

Samuel Gompers, head of the American Federation of Labor, takes a different view. He advises the steel workers not to expect too much as the result of this statement. He says that Mr. Gary, with the grace and tact of a born diplomat puts in question marks, "when there is a surplus of labor." Mr. Gompers asserts that:—"the whole thing is tained with bluff and insincerity. The steel trust will cater first to profits and it will not do anything that will even hod the possibility of jeopardizina profits until driven to either by irresistible public opinion or the force of organization asmong the steel workers."

In any event, the 12-hour day will soon become a thing of the past.

organization among the steel workers."

In any event, the 12-hour day will soon become a thing of the past, but it is probable that another powerful union will first be perfected ashong the stee workers.

Twenty-nine years ago, last Monday night, July 16th, a mob took Louie Lafayette from the Burlington jail and hung him on the limb of talree oak tree on the Bullittwills road about % of a mile from town. An inquest was held by Erq. Beemon and a jury composed of the following gentlemen: R. D. Finnell, Jud. L. Sandford, D. Beall, J. M. Edding, B. Serkshire and W. L. Riddeil. July two of the above named are now livings. J. B. Berkshire and J. J. Eddina.

July 13th, Supt., Colvin's address at Chapel. Come to hastern for greater inspiration and greater interest in the education of Ameican youth.

Martha Cleek, aged 70, died at herhome near Walton last Saturday.
She was the widow of James Cleekwho died several months ago. She
leaves a son, Jacob Cleek, a brother and two sisters to mourn her loss.
After a funeral service by Rev.
Hampton Adams, of Covington, the
remains were interred in Walton
cemetery. A large number of relatives and friends were present to
pay their last tribute of respect to
this good citizen.

The Louisville and Nashville Rail-The Louisville and Nashville Rair-road Company, with a tangible valuation of \$44,414,784, leads all Kentucky railroads in value, according to the annual report at Frankfort. The franchise value is \$22,889,280, making the total \$57,404,064. Kentuckf railroads were assessed at \$177,828,823 in 1922. This amount was distributed between \$125,234,264 for tangible and \$52,594,559 for franchise.

The committee on education of the Masonic Grand Lodge of Texas is conducting a state-wide campaign of open meetings in thirty-five cities and towns. Afternoon meetings will be open to the public, but the evening gatherings will be limited to Master Masons. The programs will consist of music and talks on good citizenship, character building, public schools and civic ideals.

Some of the citizens of the town witnessed the burning of a fiery cross on the hill just west of Burlington, last Thursday evening about 9:30 o'clock. Just what the meaning is of these demonstrations, we are unable to state, but the scene of the blaze is said to have been very pretty. It is rumored that a Ku Klux Klan was organized in the town a few nights ago.

The oldest Mason Dr. Joseph Hal-stead of Brockenridge, Mo., who is 105 years old and was made a Ma-son at Lexington, Ky., in 1842, He-therefore has a Masonic history cov-ering eighty-one years. He was fam-eing leighty-one years. He was fam-ily physician for Henry Clay and re-members seeing Lafayette upon the-occasion of his American visit in 1824, Lafayette was made a Mason. by Washington.

The Boone County Pooled Wool
has been sold to M. Sabel & Son,
Louisville, Ky., to be delivered beginning August 21st.

Further notice of the time and
place of delivery will be given later.

J. H. STEVENS.

There will be an Ice Cream Sup-per and Entertainment given at Big Bone Springs on the night of July 25th, 1923, by the Big Bone Camp of M. W. of A. No. 12088. Everybody Invited.

## As the Editor Sees It.

The promoters of the big prize fight in Shelby, Mont., are said to be short about \$80,000.

They pay heavily for a few minutes of thrills and a few days of newspaper publicity.

Eighty thousand dollars is a goodly som. It would build a very fine church, where souls could be saved; or a handsome school building, where children could be educated; or it would give many poor children dehightful vacations in summer camps. There really is no end to what might be done with that eighty thous and dollars.

But of course a man's money is

It costs a farmer considerable time and money to get his crops to market. This expense naturally re-duces his profits.

If he hauls his product in a mo-tor track, and the roads are bad, his engine consumes enormous quanti-tive of true.

Sometimes the editor of a paper is criticised because some legitimate item of news has been omitted.

The critics do not stop to remember that an editor is human—that Lord has only blesed him with one pair of eyes, with a like number of case, with one tongue, two hands and a couple of feet, and that he is not even gifted with second'ssian. Add to that the limitation of only being able to be in one place at a time, and you have a fair conception of the xerage editor—just a plain citizer like yourself.

This ought to appeal to your imagination, if not to your patriotism. British military official says that in the next war there will be fighting craft that fly like hawks, swim like ducks, waddle like armored tanks, and dive like seals. It is a battle of wits between nations, be tays and the work of invention and creation is being rapidy carried on behind closed and closs by guarded doors.

What is America doing?

# TAKE POLITICS OUT OF POLITICS

payers.

A public official elected by the peo-ple, in order to discharge his sworn duty to those people, should fill the jobs at his disposal by men or wo-men most competent to fill them.

It is to be expected, of course, that people of the same political party would be appointed to those posi-tions. That would be legitimate pol-tica, with which no reasonable per-sone could find fault.

But that is not the way they do at.

But that is not the way they do it.

palities.

Our elected to office, they begin to build fences for a re-election, and the rails of a political fence are composed of appointees who have "delivered the goods" in the past or can do so in future—at election time. Thus we see hundreds of thousands of men filling offices where brains are required and only flatheads are in evidence.

That is "political" politics, and it suggests the taxpayer to pay the ball.

ere are exceptions, of course, they are about as numerous as uitoes in the dead of winter.

Hew times do change! In the old ups before the war foreign princes ad dukes and barons had only to at their eyes caimly over the mer-ageable women of great wealth in marica and take their pick of the ab. Now about the only pick they gramp with their delicately mani-

CONSIDER THE HOME MAN

He is a banker, a merchant, or a contractor, or in some other line of business.

He lives in our town.

He knows you and you know him.

He buys from other dealers in the flown town for the needs of himself and his family. The money he thus spends stays here.

He pays taxes, and supports the churches, and gives to charity, and is always "handing it out" for some tworthy local cause.

His employees live here, and the money he pays them keeps on circulating around among us.

The goods he sells are as he represents them, for he could not afford to work off an inferior article onto you—even if he would.

He can not afford to overcharge, because he would soon lose his tradelif he did.

In every way he is an asset to the community—a convenience and an actual benefit to you.

Can you afford to pass up the man who means so much to you?

HAY FEVER.

#### HAY FEVER.

The costs a tarmer consucerable time and money to get his crops to market. This expense naturally reduces his profits.

If he hauls his product in a motor track, and the roads are bad, his engine consumes enormous quantities. If it is moved by horse and wagon the load must be lightened and the speed reduced, thus consuming more time—and time must be paid for it the hire of his men and in the feed for his horses.

Any way you look at it bad roads are a nuisance and an expense.

For this reason every farmer in this community chould be solidly and insistently behind the good roads mevement.

What if it does cost him a few cents? It will be worth a dollar for every penny it costs.

Is the intelligence of the United States on the decline? A noted payshologist as crist that it is.

The poorer classes of many foreign countries do not enjoy the educational advantages of their brothers on this side of the big water. In a new sense are they the equa of the average edition of a same class.

And yet we let down our bars and taxey pour into this country in great borders.

How can we expect to retain our high standard of intelligence whose interactions of news has been omitted.

The criticised because some legitimest item of news has been omitted. The critics do not stop to remember that an editor is human—that the is not finely and the decline of a paper is criticised because some legitimest item of news has been omitted. The critics do not stop to remember that an editor of a paper is criticised because some legitimest item of news has been omitted. The critics do not stop to remember that an editor of his paper will be to be in one place at a time, and not have a fair conception of the verification. After the trouble has criticisate because some legitimest item of news has been omitted. The criticisate for the most many formation of the mouth and at the sides to determine the proposition of the work of the mouth and at the sides to fee the proposition of the same than entire the same time they sew steer, often and the pro

DOCKED, ALTERED LAMBS DRAW PREMIUM OF \$1.25.

Lexington, Ky.—How much it means to the farmer in actual dollars and cents to dock and alter narket lambs so as to put them in the best shape for the consumer is brought out in a striking way in figures compiled by County Agent W. R. Gabbert in cooperation with the extension division of the College of Avviculture on the weekly cooperative lamb sales being held by the Fayette county farmers' organization.

Acticulture on the weekly cooperative lamb sales being held by the Fayette county farmers' organization.

More than 6,980 docked and altered lambs disposed of in the early sales have brought about an average of \$1.25 more a hundred pounds than lambs not docked and altered, and altered animals weighed more, had superior quality and had considerably fewer seconds in their number than the vintrimmed lambs did. Many farmers and sheep raisers feel that it does not pay to dock and alter lambs that go en the market before the middle of June, but the results of the sales show that the profits on even early lambs can be increased by these two operations.

Trimmed lambs sold in the sales to date have brought 65 cents more a hundred pounds than untrimmed lambs and altered lambs have sold for \$15.34 a hundred, while the lambs not so treated have average! \$14.69 a hundred.

The average weight of the trimmed lambs to date has been 76.5 pounds each, while the unaltered animals have weighed an average of 77 pounds, a difference of a pound and a half in favor of the altered animals have weighed an average of 77 pounds, a difference of a pound and a half in favor of the altered animals have weighed an average of 77 pounds, a difference of a pound and a half in favor of the altered animals, despite the fact that they were almost eight per cent early lambs.

Less than five trimmed lambs out of every 100 were thrown out as seconds, while more than 12 out of every 100 untrimmed lambs were graded as seconds in the trimmed lamb whan there were in the untrimmed nones, this point giving the farmers who docked and altered their lambs 40 cents a hundred more on all their lambs than was obtained by those who did not dook and alter.

### America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

THE AMERICAN SPHINX

THE AMERICAN SPHINX

Set high above the shummering waters of the picturesque Rock river on the shoulder of a huge bird near Oregon, Illinois, ninety-nine miles (by rail) froin Chiengo, and looking our over a country that is indeed good to look upon, is the solosani statue of the Indian Chief, Blackhawk-the largest concrete monument in America, if not in all the world—the American Sphinx.

This statue-is the endearing tribute of the scuiptor, Lorado Tart, to the American Indian. It depicts the famous chief standing erect, with folded arms, garbed in a long, flowing robe or blanket, which foldes gracefully shout the figure, gazing allently and in farewell attitude e'er the fertile valley which the members of his tribe were wont to roam.

The attention-inviting location and pleasing proportions of this mute figure lend to its bigness a nobleness of polse that is in complete accord with the "ourage disolayed in-the counternance of this splendid warrior,"

This American sphinx rises from a huge concrete pedestal which rests upon the solid rock of the river bird and weighs something like 300, tons. In its construction approximately 400 brarrels of cement and 4000 pounds of twisted reinforcing steel rods were used.

cations excited extraordinary attention.

In order to insure the preservation of correct proportions a working model six feet in height was made. This model was then enlarged seven times. Then a mold was built over it. Afterward the model inside of the mold was dismanted and removed. Then the mold was filled with concrete. Plus grantle dust or screenings was mixed with the concrete. This process gave to the finished figure a grantic-like appearance. This muss was next allowed to set. After the setting process had terminated, the mold was razed and carried away and to there emerged and stood in all its glory in everlasting memorial to the passing of the Red Man—the American Sphinx.

Farnished on application. The value of the RECORDER as an advertising medium is unquestioned. The character of the advertisements now in its columns, and the number of them, tell the whole every.

The Recorder Stands For BETTER FARMING, BETTER CIT-IZENS, BETTER HOMES

#### FOR REPRESENATIVE

FOR REPRESENATIVE

The Recorder is authorized to announce C. F. Thornton of Grant county, as a candidate for the Democratic-nomination for Representative from the 67th Legislative District, composed of the counties of Grant and Boone, in the primary election August 4, 1923.

The Recorder is authorized.

The Recorder is authorized to announce Wm. Simpson, of Grant Co., as a said of the first principle of the Democratic and the 37th Legislative District, composed of the countles of Grant and Boons, in the primary election, August 4th, 1923,

#### This and That,

The fellowwith a loose tongue soon

empties his head.

Yes, we believe in a hereafter, but we hope it is a long way off.

The man who butts into a family quarrel is generally kicked out.

Now everybody has heard of Shebby, Mont, and some wish they hadn't. It's quite true that Jack Dempsey is a great fighter—in times of peace.

Why worry over your last complexion? You can always buy another.

nothing, eat grass. It's fine for cattle.

cattle.

Some people never appreciate their home cimmunities because they never leave them.

Taking beauty sleeps is all right, but buying it from the druggist is a whole lot quicker.

What's the use of having our good deeds recounted after we die? We can't hear the praise.

can't hear the praise.

Many a man is short when he has plenty of cash in his jeans. The Lord made him that way.

When a man imagines that the wir le world is going to the bad he is become u too good to Jive.

Claimed the country needs a new bill of rights, but many people are getting all the bills they can pay now.

To become all right, just imagine that other people are setting you a good example and go them one better.

The modern child should be gen-tle with his parents and not enforce the rule if strict obedfence too sternly.

The girls are cultivating sylph like forms, but it is not claimed this will help them run the vacum cleaners any better.

When they turn the hootch out in the streets, they should look out that it does not eat the concrets pavements.

that it does not eat the concrete pavements.

Never refer to a man as dishonest because he has failed to return your borrowed 'umbrella. You may convict yourself.

Much said about the moaning waves at the summer resorts, but it makes folks moan to look at some of the hair waves.

With the delights of summer only fairly upon us' we are confronted with the perplexities of another winter's supply of coal.

The modern workman should be careful not to work too hard, as he might strain himself if he really duginto it for eight hours a day.

President Harding would better

into it for eight hours a day.

President Harding would better use the treasury surplus right off in paying debts, before Congress gets back and finds it lying around.

The voices of the night about which the poet writes are all very well save when they rise from the neighbors aving a ome brew party.

The local wise man who says that a rich man can pever enter the kingdom of heaven speaks without knowledge. He has never been there.

The scorching rays of a siziling summer sun have no terrors for a girl with one of those new fangled winte capes they wear all summer.

If your best beau is backward at

winte capes they wear all summer.

If your best beau is backward at
lovemaking, girlie, just kid him
along. Most fellows will exert themselves to any extent to avoid being
kidded.

sided.

My be all right for the business girl to make themselves as attractive as possible, but they should not try to get their beauty sleep in the office.

PRIZE FIGHTS—
EDUCATION—JOURNALISM

During the first week of July the National Educational Association, with a membership of 130,000,000 in the United States, held one of the greatest and most important conventions in the history of this or any other country, at San Francisco. At the same time and place was held the World Conference on Education, with leading educators from Aver fifty nations, including India, Chins, England, Canada, Italy, Germany, Mexico, Japan, participating. This conference resulted in the organization of the world's five millions of teachers under one head.

It is interesting to note that the proceedings of these two great conventions have harnly been noticed by the press associations, while a prize fight in Montana commanded page after page of jazzy detail.

The Christian Science Monitor made a survey of leading American newspapers in regard to this matter, and the results are both interesting and illuminating.

On July 5th eight New York newspapers devoted 70 columns of space to the prize fight, and there columns to these great educational conventions. Seven Chicago papers devoted 40 columns to the prize fight, and 8 inches to the educational conventions. Four Philadelphia papers devoted 32 columns to the prize fight, and 8 inches to the educational convention. Four Philadelphia papers devoted 33 columns to the prize fight and not one word of information as to the greatest of mover of the prize fight and not one word of information as to the greatest of the prize fight and not one word of information as to the greatest of mover of the prize fight and the prize fight and not one word of information as to the greatest of the prize fight and not one word of information as to the greatest of educational convention in history.

tory.

And yet 23 editors of these papers pose as representing current journalistic judgment as to what is

Journalisate Jaugusta.

The national news service of the South did not cinsider the World's Educational Convention worthy of mention. As a result many papers through the South issued extra "fight" editions but not a single line of the important news from San Francisco.

The national news service of the South did not cinsider the World's Educational Convention worthy of mention. As a result many papers through the South issued extra "fight" editions but not a single line of the important news from San Francisco.

The Pacific coast papers devoted more space to the prize fight that the convention—even in San Francisco.

The Pacific coast papers devoted more space to the prize fight that the convention—even in San Francisco.

The Several colleges conducting classes in "Journalism" have here a practical lesson that should be utilized. It involves the question "What is Journalism" have here a practical lesson that should be utilized. It involves the question "What is Journalism the question with the outcome and are that it will be only a step. For the appetite of the convention for the advantage of its readers, publication of prize fight news, and of even less savory incidents of the life of the underworld, may be accepted as an efficient step to that end. It will be only a step. For the appetite of theor. '22 is this sort of journalistic diet grows, life that of the drug user, with that on which it feeds. A newspaper's constituency can be educated upward, or downward. Each days "sensations" in a paper requires a still more sensational paper tomorrow if the circulation is to be kept up. #### BASE BALL.

A small crowd witnessed one of the best ball games that has been played on the local grounds for a long time, when last Saturday afternoon the strong Taylorsport club defeated the Burlington club by a score of two to one. Black for Burlington-and "Cannon Ball" York for Taylorsport were in great form. York struck out 12 men and allowed five hits, while Black struck out 13 and allowed 7 hits. Burlington scored one run in the third when Berkshire, the first man up doubled, Herzog fanned, Clore got a base on balls and Kelly out. They made a strong bid for another run in the ninth but failed to score when on a double by Myers and an eror.

Taylorsport scored one in the 4th when Anderson trippled and scored on a sacrifice. They made their final score in the 7th on a tripple by H. Sprague followed by a single by York. York gave one sac on balls. The score by Innings.

this week.

Next Saturday Burlington team
will journey to that little river town
—Belleview and play the strong club
of that place. It is always a pleas,
ure for the boys to play, there as they
are a bunch of good clean sports and
play the game for the sport there is
in it.

In it.

Kirb Tanner, who resides about two miles from town on the Burlington and Union road, had a narrow escape from being killed, last Monday afternoon. While raking hay his team of horses became frightened and ran off, and he was throw from his seat in front of the rake which rolled him a considerable distance before he was released. Fortunately he escaped, but sustained severe and painful brulese before the rake bounced over him and released him from his perilous condition.

Mr. and Mrs. Ed. Hensley and Mr. Roberts and Mrs. Ed. Hensley and Mr. Roberts and Edease Eddina and daughter ter Miss Myrite, united with Burlington Baptist church Sunday.

LEGION NOTES

Indianascici.—Falsabasa and district and the Legion has desired and the Legion has desired from the water to drink. Unring the summer water drunk piece to drink. Williamstown was a regular hot deep thin a cool place.

Avoid overstatique, overstatique, overstatique, deverstatique, 
Lexington, Ky.—The peach tree borer, a white grub which works the bark under the ground, kills more peach tees in Kentucky than any other pest, accorling to Prof. C. W. Mathews, head of the horticultural department of the College of Agriculture. Fortunately, the insect can be killed and trees saved for a cost of about two cents each by using paradichoro bensine, the new chemical control for the borer, he says.

Trees attacked by the grubs are greatly weakened, fail to bear fruit and often are killed in a year or two. Fumes of paradichloro benzine, which is a white crystalline substance that looks like coarse salt and smells like moth bals, are deadly to the borers, sphough thry are not dangerous for the person applying the treatment.

The method of using the chemical, as outlined by Prof. Matews, follows:

"Between September 20 and October 10, when the soil is dry and warm scrape the grass and weeds from around the base of the tree trunk with a sharp hoe, leaving the ground level but firm. Do not dig up or loosen the sol, use one ounce of the paaradichloro bensine for each average six-year old tree, placing the chemical in a ring about the trunk so that it is not closer than two inches to the bark at any one point. After the material is applied in this manner, it should be covered carefully with several hovelsful of dirt to make a cone-shaped mound and the dirt then packeu hemly with the back of the shovel. After five or six weeks the mound should be torn away, leaving the ground level for trees the amount should be greatly reduced and applied with caution, Paradichloro bensine can be bought at drug stores or obtained direct from the manufacturers, if it is needed in quantities."

GERMAN WORKARS AT POINT OF REVOLT.

Nearly 300,000 metal workers, employed in 450 plants in the vicinity of Berlin are striking for higher wages based on the increased cost of living. They ask for 1,000 marks an hour, or the equivalent of six cents American money. This the employers refuse to grant. Such a condition inevitably promotes communism or anything else that offerselief.

In a recent interpellation in the Reischtag with regard to the high cost. of living, the Sacial Democratis severely attacked the Government for its finance policy. The Social Democratic severely attacked the Government for its finance policy. The Social Democratis tops was contied of the American money the wages of workmen and salary earner's for that month alone, amount el to 19,200,000,000 marks. The protent wages of workmen and salary earner's for that month alone, amount el to 19,200,000,000 marks. The protent wage defended by a woman, Mrs. Hilliard The riots which have occurred in all parts of Germany are the outcome of the employers refuse to the single of the following the samined, and the Government was warned to find a solution. Before the mobilization of the masses outside of the Parliament would become necessary.

### URGED TO CELEBRATE NATURALIZATION

Making a Man an American Should Not Pass Unnoticed.

That the making of a foreigner into an Ame. In is a cony worthy of public celebration, has long been contended by those interested in Americanization work. This idea received renewed vigor from an address made before the Department of Immigrant Education of the National Education Association at its just closed convention in San Francisco.

National Education Association at its just closed convention in San its just closed convention in San Francisco.

Mrs. nne M. Godfrey, educational representative of the Naturalization Sorvice of the Department of Labor, said in part:

"Citizenship in the United States should be conferred upon an alien resident with the highest honor and signity at the command of the Government.

"No matter what other ceremonies are conducted by schools, or civic organizations, there should be a brief ceremony at the actual time of naturalization. This is necessary to bring a true realization of the value of American as well as the man of foreign brith, and aids greatly in impressing upon the alien the greatness of the step which he is taking. Such a ceremony is outside the province of the nationalization service, but rests upon the cooperation which the alien is naturalized and the naturalizing judges.

"There is no reason why the community should not, in such a ceremony, bring to the thought of the native American a realization of the ideals which the man of foreign parentage has to give the U.S. as well as to the foreigner the ideals which the wan of foreign parentage has to give the U.S. as well as to the foreigner the ideals which the think of th

#### **COUNTRY TOWN OPPORTUNITIES**

The tendency of city life is for people to flit from one thing to another. There are so many temptations for people to fritter away their time, that they are apt to fail to perfect themselves in anything.

The students who were practicing debating in a certain rural high school had acquired a successful as a result one of the leading colleges of the section thought they would like to send a team out to debate with these country young peope. They looked at it that they would have a kind of a lark and win a victory without effort.

But when they got there, they found they were completely floored by the country young people. The rural crowd had been concentrating their whole thought on public speaking, while the college crowd had had so many different things to think of that they had failed to concentrate. The country high school team put it all over a team of older and supposedly more educated students.

Similarly in many towns women acquire skill in such a game as bridge whist. Feeling the need of some improving recreation, they go in for such a game in a scientific way. They do not neglect their work, but they use the game is a recreation and mental training. They acquire greater skill than they would be likely to gain if they were city women flitting like butterflies from on thing to another.

Country bands, orchestras and choral societies, often develop state wide reputatiins, because the members thereof concentrate attention on the development of musical skill. If these folks lived in cities, most of them would dip into one thing first and then another and would acquire no special skill at anything. Modern country life gives people a fine opportunity to develop their talents and acquire superiority.

TURN OUT THE FARMERS.

Camp Dix, N. J., is used as a training camp for reserve officers of the army. It is situated near Wrights-

ing camp for reserve officers of the army. It is situated near Wrightstown. A few days ago Wrightstown was swamped by a horde of bootleggers who were awaiting the arrival of the reserve officers. They had arra... for a veritable lake of booze. The governor threatened to use the state troopers against the bootleggers, but the threat failed to frighten the clandestine dispensers of wet goods.

The military commandant at Camp Dix fired a verbal barrage, but that shared the fate of the gubernatorial threat.

Mere governors and generals were not terrifying to the bootleg fraterity.

Then the old Quaker mayor of Wrightstown casually remarked that he thought he would swear in fifty young farmers of the community aspecial constables, arm them with ten guage shotguns, and order them to "mop up."

It worked—quickly and beautifully.

Fifty determined young farmers armed with ten guage shotguns was too much for even a bootlegger. They fled—panic stricken—and rumor has it that they are still going strong.

This information is respectfully passed on to prohibition enforcement officials who are unable to enforce. Turn out the farmers everywhere, arm them with ten guage shotguns, and tell them to "mop up" and keep mopping.

and tell them to "mop up" and keep mopping.

Even the three mile limit in the Atlantic ocean won't stop a fleeing bootlegger with a ten guage gun pointed at the rest portion of his anatomy.

#### LEARNING TO SEE

Cases occur not infrequently where biys who never had any advantages in the way of education or family associations, will yet go ahead fast in the business and dustrial world and attain a big success. How odes it happen?

There is one form—of—education that may be going on all the time in the mind of a boy who has no apparenta dvantages, and that is the training that comes from the faithful use of the powers of observation. A young man may have an excellent classical training, and be extremely intelligent in matters of literature and history. But if he had no scientific training, ad if you asked him to look through a miscroscope —some organism, hewever, signs and indication that would discover signs and indication that would throw light on the source from which that organism came.

So it frequently happens that a boy who has come up through difficulties and handicaps, is yet training the faculties by which people and the objects of daily life. He becomes a keen thinker about the pracical things. He is making observations daily in regard to people and the objects of daily life. He becomes a keen thinker about the pracical things. He iterarhs how to get along with people, what they will do under certain conditions, how to hander the processes of industry.

You put that fellow in any kind of a job, and he thinks out better ways to do the work and perform the service. That fellow is getting educated all the time, though he may have quit school at very early age. He will suffer in many ways from his lack of schooling, but has gained through form of power.

Book education is extremely valuable, but feeds to be accompanied with this power to see and observed to be serve, or its results are likely to be limited.

## CLEAN COUNTY FAIRS.

It is to be hoped that everything possibe will be done this fall so that all county fairs and cattle shows shall be run on an absolutely clean unddd ddd dddd ddwk wogafagafa basis. There are many gambling schemes and immoral shows that are always trying to get a chance to appear at such exhibits. They may be willing to pay roundly for the privilege, but the money they give is not clean money, and it will bring a curse where it is accepted. It may be objected that a gambling device only takes amall sums away from people and that they get fun enough out of it to pay. But if it plants in the minds of the boys and girls the luse of this vice, it will cost high in the ong run. The uncean shiw must tend to make young people discontented with the sweet and wholesome influences of a good town.

## SURVEYING THE MERCHANDISING FIELD.

SURVEYING THE

MERCHANDISING FIELD.

The business men of a live town will not be satisfied in their effort to extend their merchandising field, until they know about where the trade of the surrounding country goes. If they feel that they are not getting all the trade they should from certain towns within their reach, it would seem well to do some personal solicitation in such communities. The merchants of a city might well co-perate to send out through such towns a party of solicitors, to call from door to door, and talk with people and learn where they do their trading. Or business men can do the same thing individually. Thus they would come into personal contact with a lot of new people and find out what towns and what stores get the business and why. Such a thorough comprehension of the situation would seem to be a good preliminary step toward a trade boosting campaign, and many people seen by such solicitors would be persuaded to come in and trade.

## WE ARE ALL INTERESTED

WE ARE ALL INTERESTED

Arthur Brirbane says editorially:
"The condition of the cotton crop
is the best for this time of the year
of any crop within three years."
That's good news for the South, also
the North. It shares in southern
presperity.
"The North should not grudge a
fair price for cotton, but pay it willingly. Too low a price will mean
emigration and loss of southern labor, then a crop cut down and much
higher prices."
In these two paragraphs Mr. Brisborne sums up the reason for every
section of the country to support
reasonable policies which encourage
industrial development in other sections. No part of this land is sufficient unto itself.

## Martin-Hall.

Maytia—Hall.

A very pretty wedding was solemnized at the home of Mr. and Mrs. W. B. Hall, of Covington, Ky., on Saturday afternoon, July 14th, when their son, William Reese Hall and Miss Georgia Mae Martin, both of Detroit, Mich., were united in mar rlage, Rev. H. Webb officiating. Oscar Hall, brother of the groom and Miss Bess Arrasmith were their attendants. The groom formerly resided near Burlington. After a visit with their parents and relatives in Covington they will return to Detroit to make their future home.

#### THIS YEAR'S GARDEN

SHRINE IN FRANCE

Belieau Wood to be Memorial to American Boys of the A. b. F.

Washington—The Belleau Wood Memorial Association has occupited the acquisition of the Bois Belleau, the scene of American exploits. It will be transformed into a national anctuary.

The association was founded chiefly with a view to aiding reconstruction in the devastated regions, but when it learned that this site was about to be sold to a private company it decidel to become the proprietor. The villages of Lucy and Horey are being rebuilt. Commentorative monuments and parks are planned; and the whole wood is to protect and harbor for diseases. Further more, if the garden is to produce as it should it is be put in repair.

It is a new thing for America to have abrines of patriotism in other of the propers of the proprietor. The villages of Lucy and Horey are being rebuilt. Commentorative monuments and parks are planned; and the whole wood is the put in repair.

It is a new thing for America to have a hrines of patriotism in other should be carefully a watched and any that show signs of routing should be taken out to prevent have should be carefully a watched and any that show signs of routing should be taken out to prevent have should be carefully a watched and any that show signs of routing should be carefully a watched and any that show signs of routing should be carefully a watched and any that show signs of routing should be carefully a watched and any that show signs of routing should be carefully a watched and any that show signs of routing should be carefully a watched and any that show signs of routing should be carefully as worth anything.

It is a new thing for America to have some carefully and the ground and any that show signs of routing should be carefully as watched and any that show signs of routing should be carefully as watched and any that show signs of routing should be carefully as watched and any that show signs of routing should be carefully as watched and any that show signs of routing should be carefully as

this will not be necessary for a year or two.

Cabbage should be watched carefully to prevent injury from the cabbage worm. This insect eats large holes in the leaves and will damaguthe head in a few days uness controlled by some poison, such as paris green or arsenate of lead. If the heads are going to be used in the near future, powdered heliborashould be used to control the worms, as this polson loses its strength.

Onions should be harvested as soon as the tops begin to dry. The bulbs should be pulled and left in the open for a few days and the tops then clipped or twisted off and the opin of a few days and the tops then clipped or twisted off and the onions stored in a dry place.

## BOYS AND GIRLS CLUB

#### Big Camp Meeting at Fair Grounds July 30 to Aug. 3

The Junior Agricultural Club boys and girls of Boone and Kenton are getting ready for the big club camp that will be held at the Florence Fair grounds July 30-31 and August 1 to

3rd.

Each day a regular, instructive entertaining and recreational program will be carried out at the camp.

Parents are welcome at the camp, at any time but Thursday August 21 will be "visitors day."

OFFICERS AND TEACHERS

The Agricultural Extension, Discounting the camp of the

#### THE PIONEER SPIRIT

Honor was done the other day at Meacham, Oregon, to the early pioneers who opened up that part of the country. The achievement of the men and women who did the pioneer development in the various states is one of America's greatest traditions. Our people now are not swelled.

men and women who did the pioneer development in the various states is one of America's greatest traditions. Our people now are not usually called on for heroic adventions. There is a danger, as a result of comuch easy life, that substantial fiber, is lost out of the national affiner is lost out of the national affiner that the substantial fiber, is lost out of the national and the present generation preserve this ability to endurabard and difficult experiences, which made the Americans of a past generation such a wonderful race?

Many young couple who give ended to the substantial and industry. The young couple who give up luxuitous expenditures, who toil early and late to acquire a home of their own, are showing something of old pioneer spirit. Modern life has provided a wonderful equipment of comforts, but it has not abolished necessity for real work and endurance.

#### DEMOCRATS, ATTENTION

If you want to vote for a dirt far-mer for Commissioner of Agricul-ture, your only opportunity is to Vote for Roger II. Lillard, Lawrence

### **BOONE ORCHARD OWNERS**

#### Boone County Orchard Tour. Friday, July 27th

Practical demonstrations in prusing, spraying and insect eradication in constraints will be made by E.

tural experts in cooperation with local fruit growers on the orchard tour to be held Friday of this week. Although a tour is something new in Boone county, they have proven in Boone county in Boone Co.

Will take part in the tour, County Agent Sutton said today that W. W. Magill, Fruit Expert, College of Ayriculture, Lexington, will be active leader of the tour.

9:00 a. m. Meet at County Agents office, or drive directly to orchard of Sterling Rouse by 9:30.

9:30-11:00 Inspect orchards, observe clean culture versus cover crop in orchard, demonstration in treatings peach borewith Paradichlorebenzine (P. D. B.) Fertilizer demonstration in spraying with power outfit, testing out various types of nozzles and spray gun with dicerent pressures.

1:00-1:15 Drive to J. W. Goodridges' orchard.

1:15-12:00 Inspect peach and apple orchard. Study fertilized demonstration with Nitrate of Soda. Criticism of crowded orchard. Observe management in pruning and spraying. Determine most desirable varieties, Varieties most susceptible to disease.

disease. 42:00-1:00 Basket Dinner.

1:00-1:10 Why We are Here-W. D. Sutton, County Agent.

1:00-1:10 Why we are Here—W. D.
Sutton, County Agent.

## FOUR BIG DAYS

#### Dearborn County Fair, Aug. 15-16-17-18, Lawrenceburg, Indiana.

erection of three ne The erection of three ne., buildings and a concrete grand stand are only a few of the many improvements being rushed to completion for the Dearborn County Fair at Lawrenceburg, Ind., which gives promise of surpassing anything of its kind ever given.

A racing program of exception al value will be put on. The large purses offered are bringing to this fair the very best of racing blood and horsemen.

The Maysville Rove' Pand by the contraction of the pursue of t

fair the very best of racing blood and horsemen.

The Maysville Boys' Band, known as the "Kentucky Cardinals" has been engaged to play. The youthful players—thirty-two boys and three girls—have made quite a reputatiin for themselves thru their appearance at the. Bluegrass Fair, Kentucky State Fair, and the Ohio State Fair the past few years. This is the million dollar band and worth all it ecosts.

lion dollar band and worth all it costs.

Big night fair with plenty of amusements and a big free fireworks display every nigrt.

Look for the advertisement on another page of this paper.

#### Just Wont Consolidate.

For the second time the people of Dry Ridge, Grant county refused to register their votes in favor of con-scilation of the Dry Ridge district with several other districts in an election held at that place on the 14th inst. The proposition was de-feated the first time by 38 votes, and the last time by 3 votes. It is evi-dent the people of Dry Ridge are hout in favor of a convolidated school.

#### A-WEEK'S NEWS.

If the same amount of money that is expended in promoting and patronizing prize-fighting were appropriated to the orphans and the aged needy people of the country, what a blessing it would prove along these lines. P. T. Bergunn, the great show man, was noted for his off repeated remark that "the American people like to be humbugged." From our point of reasoning we think at the prize-fight ringside is a good place to get their desires.

William Wimmer, 42, and Dora.
Laughorst, 40, both of Cincinnati,
was granted a marriage license at
the county clenk's office. last Saturday morning, and were married in
the clerk's office by Rev. W. W. Adams in the presence of a few of the
county officials. They were accompanied to Burlington by W. E. Richards and wife, of Covington.
Mr.
Richards is a brother of J. O. Ricaards, who is well known in this county.

A petition signed by more than two-thirds of the voters of the town of Burlington has been filed in the Boone circuit court at its-August term, asking a judgment annulling the corporate existence of said town. The town when first laid off was called Wilmigaton, and in 1824—one hundred years ago, Burlington was incorporated, and has been an incorporated town ever since, altho it inso been without town officers for many years.

The deadbeat is the hardest kind to successfully meet. He gets trusted all over town and never pays a cent unless his creditor takes it out in trade. His competitor who pays his bills promptly is thus penalized for paying, as he loses a lot of business he would get if he made his creditors patronize him in order to get what is their due. Verily, the deadbeat creditor is the worst kind of competition.

Chairman John T. Adams of the Republican National Committee classifies some of the supporters of Magnus Johnson as Communists, Why should the Republican Chairman use such a harsh epithet to describe persons who were opposing President Harding's chief economic policy while Chairman Adams himself is opposing President Harding's chief foreign policy? Have a heart, John.

The dollar that goes out of town never comes back, and the money spent at home is used to develop the town and help make improvements. If home trading were discontinued entirely there would be no town in the country, and even the occasional dollar taken outside hampers the growth of the community.

Misses Irene Kirkpatrick, Jessio Jones, Marjorie Tanher, Martha Kelly, Rachel Rouse, Beatrice and Kathryn Huey and Mesars. Wilford Rouse, Kenneth Rue, Julius Smith, Arthur Maurer, Russell Rogers, Albert Kirkpatrick and Franklin Huey spent last Sunday very pleasantly on Gunpowder creek.

William Kennedy died at his home near Walton Thursdey of last week and his funeral was held Saturday at Richwood Presbyterian church. He was one of Boone county's staunch citizens, and was well liked by all who knew him. Another good citizen has gone to his reward.

J. M. Botts and A. L. Nichols are building a new house for Mr. Mc-Candless on his farm on the Burlington and Bullitsville road, about one mile from town, in place of the one that was destroyed by fire early in the spring, and occupied by Charles. Judd and family.

Misses Alberta and Ladra May Petitt, danghters of Mr. and Mrs. Albert Petitt, entertained a number of their little friends at a birthday party last Wednesday afternoon. The chldren enjoyed the afternoon sport, and especially the delightful lunch.

The outlook for a good corn crop, this year is said to be very encouraging, at the present time. With fair prospects for a good yield, also of tobacco. The farmers had fine wealter the past week for putting up their crop of had.

There are at the present time four citizens from Burlington and surrounding community confined in Ciucinnati hospitals, and from last reports, all are improving and will be able to come home in a few days.

Miss Kittie Brown, daughter of Mrs. Sarah Brown, of the Jrt. Pleas-ant neighborhood, was taken to a Cincinnati hospital last Wednesday evening, where she was operated on for appendicitis.

Herbert Birkle, who had the mis-fortune of having his left hand cut-off at the wrist by a mowing ma-chine, has returned from the hos-pital and the wound is healing nice-

vs. Belleview Don't Miss It.

Game Called at 3 O'Clock

#### BASE BALL.

Burlington ball team journeyed to Belleview last Saturday and met defeat by a score of 5 to 7. Black was in the box for Belleview and Christie did the pitching for Bur-lington. A very good game was played but our boys were on the short end of the score. "Podge" Al-lowsy umpired a gool game.

Belleview Juniors team defeated Burlington Juniors on the local grounds last Saturday by a score of 4 to 7.

Next Saturidy afternoon July 29, Belleview will play Burlington at Burlington park, and on Saturday afternoon August 4th, Petersburg will be the attraction at the local park.

Two of the best pitchers (if not the best) will perform in the game of ball at Burlington park next Saturday afternoon—Black for Belle view and "Cannon Ball". York, for Burlington, who will pitch for Burlington, who will pitch for Burlington the remainedr of the season. Manager Berkshire has secured a strong line-up for the remainder of the season and will give the fans a good article of ball. Come out and help make the club a success. of the best pitchers (if n

a good article of ball. Come out and help make the club a success.

Joe S. Boggs, State Highway Engineer has replied in part to the charges made against the State road department. He says in his reply that he quotes from the records, and if so, the accountants employed by the Louisville Courier-Journal, wern out accurate in their report. He says that every one knows that a political compact in the Senate defeated the bond issue and not charges against the road department. In this Mr. Boggs is correct. He says that 487 trucks were received from the war department, and given the names of the countries that received all these trucks. He says that Boone county received four trucks and these trucks are now in possession of the country. July 8th the Courier-Journal carried a head line stating 40 trucks worth \$200,000 was unaccounted for in the records of the State Highway Commission. He says that this is a striking example of the inaccuracies and gross injustice of the State Highway Commission. He says that this is a striking example of the inaccuracies and gross injustice of the State Highway Commission. He says that this is a striking example of the inaccuracies and gross injustice of the State Highway Commission. Double of the Bornaries were missing which they valued at \$54,000 and he says that his office has receipts and concrete evidence that all allotments were received by the different ciunties. He states that all rucks disposed of by the state department were sold at prices greater than was received by the Government in the sale of like trucks. He said that the trucks sold to Mr. Nichols were rebuilt by him, that he paid the road department \$29,625.51 and the contor rebuilding amounted \$511,152.75 and they were sold for \$43,796.50 equal to seven per cent on the investment, a low rate of profit. He saks that the public withhold judgment until all of the facts are known.

The new "Gong" for the Burlington M. E. church, purchased in Yokohoma, Japan, by B. W. Campbell, who is having the church remodeled—paying for it himself, arrived last week, and has been placed in the new belfry. The gong is made of bronze and is in the shape of a large iron kettle, which sits on an iron pedestal, and is round by striking with a small hammer, which mew belfry. The gong is made of bronze and is in the shape of a large iron kettle, which sits on an iron pedestal, and is round by striking with a small hammer, which produces a sweet melodious sound that can be heard for quite a distance. During the existence of this old church building of nearly a hundred years, this is its mai belfry and bell.

B. H. Berkshire, of near Petersburg, threshed 950 bushel any other yield reported from that field.

The fans are expecting a good ball game on the local grounds next stated and the bear of the ordinary and the business of the property of the control of the property of the prop

## CARD OF THANKS.

Some of the questions now being discussed in the Governor's race can be acted upon by the members of the legislature and not by the Governor.

Some husbands and wive can sheet agree because they do not resconding the silines and death of my below the second of comfort, the silingers, and C. S. never agree because they do not resconding the existence of a bappy, which he conducted the funeral medium.

## BOONE - KENTON COUNTY

Junior Agricultural Club Camp Florence Fair Grounds, July 30 to Aug. 3.

Red Cross Co-operation
Kenton county is furnishing the
trained nurse, Miss Bess Cochran,
who will be on hand thru the entire
camp. She has just completed
three years work as school nurse in
Virginia. A complete first-aid kit,
furnished by Boone County will be
at her disposal. Immediately after
noon each day (12:30 .130 health
talks-will-be-made by local doctors.
Tuesday Dr. Sayre, Contagious Discases; Wednesday Dr. O. E. Senour,
Union, Home Sanitation; Thursday,
Dr. M. A. Yelton, Burlington, First
Aid Demopstration.

This is the first time the club

Aid Demopstration.

This is the first time the club members of Boone and Kenton counties have had an opportunity to attend one of these camps and it is hoped that every parent will co-operate and spare their boys and girls for these three days. Labor and learning seasoned with proper recreation make for maximum efficiency. Recreation sharpens the mind.

Recreation sharpens the mind.

What others say: The camp;
combine most admirably the ele
ments of work instruction, disciplinand pleasure, and cannot fail to help
those who attend. Our great need in
these parts, especially in the rural
communities, is the night sort of
leadership, and I rejoice in the contribution, these annual camps are
making in this direction.—C. C.
Pugh, Pastor First Baptist church,
Williamsburg, Ky.
Each boy and girl will be furnish-

Each boy and girl will be furnish-ed with a list of equipment and ra-tions. The only charge will be 75 cents each member for cooks etc.

MANAGE MANAGEMENT

COVINGTON, KY.

Card of Thanks—While our hearts are filled with sorrow and grief we are not unmindful of the many kind acts and words of sympath bestowed upon us by our loving relatives friends and neighbors during the sad hours of our bereavement in the great loss of our dearly beloved mother and wife Elizabeth, loltzworth as so to the sad hours of our dearly beloved mother and wife Elizabeth Holtzworth as services were conducted the nurse, Mrs. Mary Howlett for her kind acts and words. Dr. Senour for his services and Philip Taliaferro for the kind and efficient manner in which he conducted the funeral.

Husband and Children.

Many people reach the top, but When you think you are too old only real ones stay there.

## As the Editor Sees It.

Some women are but slaves in their homes, with brdtal husbands lording it over them, while other husbands are henpecked in their business affairs by wives who are more masculine than feminine.

More moral courage and physical pep and determination on the part of the abuser wives and the henpecked husbands would restore the equilibrium and increase the happleness of many homes.

To achieve success, there should be but one master of a business, but one mistress of a home.

The flapper is cutting quite a swath these days. She is making a bunch of noise.

She smears her face with grease and paint, pulls out her eyebrows, bobs her hair, walks with a swagger, cultivates slang, and is languidly familiar with the boys. In addition, she generously concedes to her mother the privilege of washing the dishes, making the beds, scrubbing the floors, doing the washing, cooking the meals, and performing the thousand other duties around the home.

Twenty years more of flapping.

and other duties around the home.
Twenty years more of flapping
will transform the butterfly flapper
into a feminine scarecrow, whom no
man will want to wed.
She who flaps—today, tomorrow
will have to pay.

Do you want to clean up fifty thousand dollars in a hurry?

Take note of the fact that Mr, Bok of Philadelphia has offered to pay that amount for the most practical plan for putting an end to wars.

The plan submitted that appears to Mr. Bok to be the most practical will win the prize: If it is put into execution and works out as expected, another fifty thousand will be paid.

Your plan may be better than

Some people pass a public scho

building and aumer architecture.

Others pass it without notice or thought.

A limited few, in passing reflect upon the splendid work that is being done by the teachers within its walls for the welfare of the rising

In which class are you?

In which class are you?

Which is the blacker of the two, the pot or the kettle? Periodically a reform movement over some great city, Grand juries return indictments against "big men." The prosecuting attorneys are confronted with an embarrassing problem. They must make a showing or be classed among the supporters of crooked politics.

But there is always a way out, for both the pot and the kettle.

Long and expensive trials are held the prosecutors make glow in g speeches bristling with fiery denunciation, and fill the nswspapers with bunk.

bunk. The "right kind" of a jury is selected, the trial drags along until the public becomes weary and immersed in other affairs, and a verdict of acquittal is brought in. The defense is jubilant, the prosecution is discreetly silent, and the public soon forgets.

The "big men" are the pots—the prosecutions are the kettles.

They are both black.

They are both black.

The big steel companies are preparing to abolish the 12-hour day. Labor-saving machinery will be used wherever possible but it will require about 60,000 additional men. The ahogtage of common labor has been relieved to some extent by negro workmen from the South, and by a small per centage of immigrants from Mexico and the Filippino is lands. In several branches the 12-hour day has already been abolished, but it may be several months before the new system of 8-hour shifts will be complete. Meanwhile, the price of structural and other, steel will be advanced from \$2 to \$3 per ton, and the demand for unskilled labor will be utilized to pry the immigration lid off. It is prob able, however, that the 8-hour day, with steady employment at living wages, will attract a sufficient number of American men to fill all requirements.

Attorney General Daugherty asserts that the decree of the Federal
Court, making permanent the injunction asginat the shop workers
strike of last October, will put an
end to tying up interstate commerce.
Samuel Gompers does not agree with
him, however, and asserts that the
strikers who are still out "will continue to exercise the normal activtize guaranteed to them by the laws
und the constitution."

The United States Veteran's Bu-au reports that more than 97 per at of the rehabilitated former ser-ce men were placed in employ-ent during the last year. Of those hor remain unemployed more than if are doing so voluntarily. All d big steel plants many of the au-mobile companies and other big pressions are leading their as-me to good adventage.

Skinning the Government Taxation presses heavily upon the supposed to be master of his business affairs woman the mistress of her home active the property of the common o TROUBLE BREWING IN
THE PHILIPPINES.
Conditions in the Philippine Islands are badly mixed, and because of the intense feeling on the part of natives, scrious trouble may ensue. The start of the trouble dates back to the report of the Woods-Forbes Commission, appointed by the Secretary of War to investigate and pass upon the question of granting independence. Former Governor Geeral Harrison and Taft had recommended that that be done, and President Wilson twice asked Congress to fulfill the promise made in 1916 in the Jones Act. Everything in the Island seemge to be moving in good shape. General Wood an 1917. Forber recommended that the independence be delayed, and shortly afterwards General Wood was apposucced Gen. Harrison as Governot, vetoed some sixteen measures by the Filippino legislature a large number of which related to municipal organizations. General Wood's administration has been very unsatisfactory to the Filippinos and numerous official delegations have filed complaints at Washington. The constant clash has finally resulted in the resignations of the President of the Senate and the Speaker of the House. These two, with Gen. Wood, constitute the Board of Control, and as the matter nw stands Gen. Wood is sheared of much of his power. It is a matter we stands Gen. Wood is sheared of much of his power. It is a matter rougress will have to deal with.

There is no secret in Washington circles as to the fact that Congress.

deal with.

There is no secret in Washington circles as to the fact that Congress believes the Filippinos should be granted their independence, as was promised, but the War Department is determined to keep a grip on the islands at all costs.

The situation is really serious, because of the growing Filippino sentiment that the United States is not sincere or honest in its pretentions for Japan to gain a foothild.

sincere or honest in its pretentions for Japan to gain a foothild.

Maywille Ky.—Declaring himself converted to the theory of cooperative marketing by the speeches of Colonel, Theodore Roosevelt, assistant secretary of the navy, Charles S. Earrest, president of the National Farmers' Union, Trumbo, Snedager, one of the largest tobacco growers of Bath county, today accepted the invitation extended by J. Sherman Porter, clitor of the Burley Tobacco Grower, and "any who desired to repent of their sins in staying out of of the burley cooperative to kneel at the mourner's bench, he forgiven and a cooperative contract."

Mr. Sneadger, who also is prominent in Repulsean politics in the manth district, having been a candidate for Congress against William J Fields in recent years, declared he had been "soundly and sincerely converted," and that he thought he ought publicly to make a statement and not sit quietly by after signing the contract. He said he hoped that others who had remained outside would join him in coming in.

While President Harding and two members of his Cabinet-one of them the Secretary of Agriculture-are in Alaska the growers of wheat, and of wool, and of livestock are faced with encessity of selling their products at or below the cost of production, and this notwithstand my the operation of the highest tare.

#### THE FALL IN THE PRICE OF WHEAT.

The group of economists of Federal Reserve banks, colleges, and farmers organizations who met with officials of the Department of Agriculture last week to consider the farm products situation, recommended that farmers curtail the production of winter wheat. Expansion of wheat growing areas in chief exporting countries, coupled with decreased buying power of Western Europe, was declared responsible for the present price slump.

Gray Silver, Washington representative of the American Farm Bureau Federation at Washington, declared 'as soon as the Government estimates of the crop yield came out the middle-men began to force prices downward. Within the last month the price of wheat to the farmers has dropped from \$1.40 per bushel to 80 cents. The \$1 wheat at Chicago includes the freight charges, which the farmers do not receive.

While the price of wheat to the farmers has been dropping and lifting \$600,000,000 out of the farmers has been dropping and lifting \$600,000,000 out of the farmers and consumers are being filched by the middlemen. The group of economists of Fed eral Reserve banks, colleges, and far

More for Fprm Products.

Reports from the Bureau of Labor Statistics of the Department of Labor for the month from May 15 to June 15 were in the tenor of all those for the last year—the cost of living in the cities is rising. According to the digest of the Bureau's latest report published by the New York Herald, a Republican newspaper, "the cost of living is gradually increasing in some localities, while increasing in some localities, while in others it is hardly perceptible." In Washington, the seat of the national Government and official residence of President Harding, the increase for the month was 3 per cent. In eighteen of the twenty-three cities covered by the report there was a rise of from about one-half of 1 per cent to 3 per cent.

While the residents of the cities and tiwns were paying more for their food and clothing the prices paid to producers of grain, milk, eggs, meats and vegetables were lower than they were in the same month of last year—a fact shown by the Department of Agriculture.

By T. T. Maxey

#### THE FIELD MUSEUM

The exhibits at the World's Fair, Chicago, in 1883, offered an exceptional opportunity for the founding of a museum as an everlasting memorial of this great international affair and to preserve its endless antiquities. To start and further this movement, Marshall Eval Chicago's incompanional donated \$1,000,000, and the exhibits destree were selected and placed on display in the Art palace on the exposition grounds.

When Mr. Field died in 1900 he left \$4,000,000 additional for a building to be erected on a permanent site, and

34,000,000 additional for a building to be erected on a permanent site, and another \$4,000,000 to provide for its maintenance. The great, impealing, spacious-hailed palace of white George and the service of ground, said to be the largest marble, building in the world, which now stands is Grant park on the lake front in Clineago, the Field Museum of Natural History, is the result.

Inside, he world, it might be said, awaits your inspection. One room holds the exhibits which show the advances made by men of ancient times that led up to the present civilization; another displays Exyptian antiquities, without end; a third, by ponce and ancient glassware from Rome. Another section contains displays representing the early races of North and South America and the Pacific islands. A highly instructive exhibit is that which shows various birds, sulmins, fish and reptiles artistically grouped in their natural habitats. One hall is packed with exhibits from China. The habit of growth and structural makeup of many flowers and seeds is shown in an extremely interesting fashion. The display of woods from various parts of the world and the products made from wood is extensive. Numerous examples of meteorites and crystais, and models showing the workings of the world and the products made from wood is extensive. Numerous examples of meteorites and crystais, and models showing the workings of mines of many kinds, are shown. Ethnological and geological collections from Africa, India, Japan and other far-away lands contain many curious objects.

The entire world was searched and everything which the authorities considered as worthy appears to have been brought to this central headquarters for the public to view and study. The major of expense the probably is the ministure seed of some wee plant; an indian medicine wheel; found on a mountain to, surrounded with an air of ceremony, perhaps of sacriface, tor, whall is probably is the ministure seed of some wee plant; an indian medicine wheel; found on a mountain to, surrounded with

its use conjectural, certainly is a most peculiar exhibit.

At any rate, the generosity and foresight of a wealthy public-spirited man has made it possible for future generations to "see the world" in his home town—Chicago.

(6.1913. Western Newspaper Union.)

Claimed the women are slaves of custom, and fortunately for the men they have managed to reconcile themselves to the slavish custom of cooking and serving three meals a day.

In old Indian times the noble red man scared his enemies by decorating in face with war paint, but in modern life this function is taken ever by the girls and young women. About the only thing many of the city people are willing to do for the ceuting districts, is to throw a lot of dust from shelr automobiles only himself.

The fellow who tries to act unart fools only himself.

A report on "Standards of Public to Children in Their Own Homes" has just been issued by the National Children's Bureau. This is a study of the workings of mothers' pension-laws are now in force in all but six states, according to the report. They have proved an economic asset to the community in every case, obtaining for the children of families with insufficient incomes the necessary training and advantages to make them useful citizans. It is better for the community for contribute to the support of a family, deprived of its chief wage carner, the amount necessary to keep it together, than to have its members thrown, derelict, upon charity. Adequate pensions for mothers wisely administered, have been the necessary prop to flousands of homes which would have been broken up if the mother's earnings had been the only income, is the finding of the Children's Bureau.

Case after case came to light where the mother's pension granted by the State had kept together a home otherwise threatened with disruption, had enabled working mothers to keep their children under their own care instead of sending them to an institution, and assured to children a better chance to obtain both the educational advantages and the good times which are the right of childhood.

The basis for the amount of relief granted under the mother's pension laws, estimates food for a woman over 16 years of age from \$9.78 a month to \$12.35 a month, and estimates for young children are several dollars less. The mother staying at home is expected to spend between \$2 and \$5.75 a month for cottes, and children supposed to cover the deficit between the family budget, as estimated, and the family resources.

home otherwise threatened with disers to keep their children under them to an institution, and assured to dichildren a better chance to obtain a both the educational advantages and the good times which are the right of children.

The basis for the amount of relief granted under the mothers' pension laws, estimates food for a woman over 16 years of age from \$9.50 a month to \$12.35 a month, and estimates for young children are several dollars less. The mother staying at home is expected to spend between \$2 and \$5.75 a month for cothes, and children somewhat less they are in school. The amounts granted to families, the most cases based on carefully drawn and up individual family budgets. The puble aid granted was supposed to ycover the deficit between the family budget, as estimated, and the family resources.

POOR SOILS CUT

YIELD OF WHEAT.

Lexington, Ky.—Low yields of wheat obtained in recent years by farmers in the limestone region of southwestern Kentucky have been food in soils of that section, according to a report of Earl who helped work out the plants for the system.

POOR SOILS CUT

POOR SOILS CUT

YIELD OF WHEAT.

Lexington, Ky.—I. X. Jimberlin, earl Springfield, has just put in a natique and efficient water supply system for a total cash outlay of the supproximately \$3.5 which gives him running water in the kitchen, provides from the spring at the top of a hill 100 feet about

ter being treated with an additional 200 pounds of acid phosphate to the acre.

Four other methods of handling wheat land were tried out at the same time. Four pieces of ground the same time. Four pieces of ground the same time and treated with acid phosphate at the rate of 400 pounds to the acre in the spring of 1922 and planted to corn, robacco, soy-beans and oats respectively. After those crops were harvested the oats land was plowed up, while the land that had produced the other crops was disked. Currell's Prolific wheat then was sown on all four pieces of land at the same time and two hundred pounds of acid phosphate to the acre put on at seeding time. The wheat following corn yielded only 9.8 bushels an acre; that following tobacco 16.9 bushels an acre; that following tobacco 16.9 bushels an acre; that following soybeans 10.6 bushels an acre, and that following oats 13.2 bushels an acre, and that following oats 13.2 bushels an acre, and that following results are in accord with those for ten years on seven other soil experiment fields maintained in different parts of the state by the experiment station.

While the Government agencies

While the Covernment agencies investigate price control and warn against possible shortage next winter, owners of West Virginia mines claim to be shipping coal at prices far below the cost of production and scores of mines are reported to have closed. Already more than 100 mines are closed down on the Chesapeaku & Ohio Railroad, which serves the non-union fields of southern West Virginia.

BANKERS DENOUNCE
FLEXIBLE TARIFF
The flexible provisions of the tariff law have been denounced by the newly organized American Bankers, as "giving to speculators and gamblers the same consideration as this engaged in legitimate enterprises in proposed rate changes," In a formal protest to the Tariff Commission, Charles B. Claiborne, president of the league, declared that American protest to the Tariff Commission, Charles B. Claiborne, president of the league, declared that American bankers with investments in domestic industries regard the flexible tariff provisions as a danger to trade, and as injecting an element of uncertainty into the whole industrial world.
"The flexible provision of the tariff act cloud the title to every schedule," he asserted. "They operate as free-trade rider to the Firdney-McCumber law and inject uncertainty into values and fear into trade, and become an able ally to foreign interests and a foe to hame industries. It should be repealed." Mr. Claiborne declared that the American bankers are marking time in their dealings with business interests because of the uncertainty survounding the tariff situation. He called for a "clear statement" from the Tariff Commission as to its procedure under the flexible tariff provisions. Bankers, he said, demand to know what constitutes a basis or re-opening tariff schedules, what constitutes a "legitimate complaint" and who is eligible to ask for investigations by the commission.

Much is said about the busy hum of men, but nowadays meany of theh

#### KENTUCKY

## Swept By Seventeen Year Lo-custs and Thirteen Year Locust at Same Time.

Loieville, Ky. — Kentucky, this year has been swept by the seventeen year locusts and the thirteen year locusts, the insects coming at the same time and both have departed, but in their wake a multitude of letters is flooding the State Board of Health asking if berries, fruits and other eatables have been poisoned during the visit of the plague. The report that the locusts had caused berries to be poisonous had its inception in an article published in a number of newspapers, wheh stated that two Russellville children had been killed by eating strawberties poist-tied by locusts. So widespread is that report, that thousands of persons have foregone eating small fruits, eggs and chickens because the fowls feasted on the insects. Miss Sarah Vance, director of the Bureau of Foods, Drugs and hiotels of the State Board is taking immediate steps to refute this misinformation stating that never in the annals of the edical history has there been a case where a person was made ill or poisoned by a locust in—any manner.

Upon receiving word of the report from Russellville, the State Board began an investigation and learned that the two children were made ill as the result of eating large quantities of green cherries. This is borne out by the death certificates made out by the attending physician which states that death was due to acute intestinal colitis.

Current stories to the effect that Illness or death has been caused by eating of food poisoned by locusts are untrue. Blackberries, eggs and chickens or any thing else can be eaten with safety insofar as these peats are concerned. It is inconceivable that locusts have poisoned a single article of food or caused one case f sickness or death.

LIME SHEDS RECOMMENDED NEAR RAILKOAD STATIONS.

## LIME SHEDS RECOMMENDED NEAR RAILROAD STATIONS.

NEAR RAILROAD STATIONS.

Lexington, Ky.—Cooperative lims aheds established at railroad stations that are within shipping distance of limestone quarres are recommended by Prof. Go. Roberts, head of the agronomy department of the College of Agriculture, as a means whereby farmers can utilize their teams and empty wagons to good advantage after bringing their products to the market and at the same time get a much needed soil building material to their farms at a comparatively small cost.

"Every time the wagon had nothing else to haul it could take out a load of limestone andmany times when farmers and their teams were not otherwise employed special trips could be made for limestone. There are places in the state where farmers are fanding a profit in hauling limestone as much as ten to twelve miles.

"Experiments carried on over a period of from four to eight vesre."

mrs are finding a profit in hauling limestone as much as ten to twelve milea.

"Experiments carried on over a period of from four to eight years on practically all kinds of Kentucky soll show that limestone used in addition to acid phosphate has increased the yield of corn 8 bushels an acre, that of soybean hay 900 pounds an acre, wheat five bushels an acre and clover hay 1500 pounds an acre with corn at 60 cents a bushel, hay at \$12 a ton and wheat at \$1.25 a bushel, the increase due to limestone are worth an average of more than \$6 an acre a year.

"Two tons of limestone to the acre are enough for about six years. At most railroad stations it can be obtained for from \$2 to \$3 a ton, or a cost of about \$1 an acre a year. Through the effect of lime on clover, tobacco yields can be increased about 250 pounds an acre a year. There is hardly any soil in the state that will not grow clover satisfactorily, if treated with limestone and acid phosphate, Clover means good—\$9.0 f all kinds, if the crop properly used. In the bluegrass region there are great possibilities for alfalfa, if farmers will use limestone."

The man who makes good is not always as good as he makes.

A firebug is a terrible thing to have in a town, but no worse than a man who throws lighted matches into rubbish.

#### WASHINGTON COMMENT.

An aeronautical engineer of the An aeronautical engineer of the An aeronautical engineer of the Army has perfected a device, which he calls a cycleplane, whereby he fleet through the air by means of floot propulsion, similar to the pumping of a bicycle. On his first trial have the control of the propulsion, and the pround.

Not very far, and not yery high, but enough for a start.

Some people, upon reading of his achievement, with reactile tides, just as Fulton, and Edison, and Marconi and other great inventors were laughted to scorn during the infancy of their wonderful inventions.

Other pessimists or doubters will become sarcasite and term it another "newspaper yarn."

There are even those who will ponderously and knowingly declare that the inventor has "bugs in his beanery."

But a few of the seriously minded will reserve judgment. It is possible that this army engineer has taken the initial step toward flying without the aid of the unreliable gasoline engine. Man has ever tried to bury and destroy truth, and never, yet succeedd. Roman emperors attempted the stroy truth, but truth destroyed them and with them the civilization they had debauched. Men tried to destroy truth during the Dark Ages, but somewhere, somehow, the torch maintained its fire, and the civilization of today grew out of the ignorance and superstition of the times when learning was anathems. The Bolshevist tried to destroy truth when they burned God in effigy, and made religion a crime; now it is, truth which is destroying Bolshevism. Men gone mad with self-esteem and the "dignity" of their position often attempt to destroy truth, when it is in the form of criticism, but inevitably that which is mighty prevails.

In New Mexico an intrepid editor criticised a court. The court sent him to jail for a long sentense on charges of criminal libel and concept of court. Whereupon Governor Hinkle comes to the rescue with a complete pardon in both cases, holding that the liberty of free speech and a free press had infringed and that the editor was only exercising his rights as a free American citizen when he thought.

The American people had a taste of what suppression of free speec.

zen when he thought.

The American people had a taste of what suppression of free speed.

meant during the war. For politic l and military reasons it was then necessary, now it is no longer necessary, ree criticism can't hurt an honest government, an honest official, an honest court. To deny any mau the right to criticis, is to make the bedy or the man criticised, sacrosant, and, as the old woman said as she looked at the giraffe, "there aim't ro such animal."

All honor to Gaverner Hintel

All honor to Governor Hinkle, whose Americanism includes not only clear thinking, but honest courage!

## **CLINTON B. GROSS**

ominent Luberman and Coal Man. Candidate for Railroad Commis-sioner in Third District.

Mr. Gross being a prominent Lumber and Coal dealer, is in touch with the laboring man as well as with the business interests of his district. He is well qualified to fill this important office, and being from eastern Kentucky will add much strength to the ticket in November. He is a member of one of Kentucky's most prominent Democratic families, and his party will do well to give him this nomination.

He is the kind of a man who will

One of the railroad systems of this country makes a practice of keeping about \$1,00,000 on deposit with local banks along its lines. These banks have instructions roy make loans from this fund to business men who are patrons of the road. Only a nominal interest is charged.

Good horse sense in that kind of railroad management. They might invest the million and a half in others ways and earn more interest. But interest is not what they want. The management wants profits. The million and a half enables many business enterprises to keep moving at increased speed. That in turn produces more freight for the road to haul, and the freight produces the profits the road is looking for. nomination.

He is the kind of a man who will greatly appreciate the support and influence of Democrats throughout the district, and having drawn first place on the ballot will be easily found by the Democrats in all parts of the District.

Cast your ballot for the man who deserves to win.—Advertisement.

CLIFTON B. GROSS.

take establishing the open shop in the entire country.

Unionism has accomplished much in our highly systematized industrial welfare. It has a legitimate place contributed greatly to the common machine, but just as the power of capital can be abused if manipulated by unserupulous persons, so can the power of labor organizations become a tyranny when controlled by radical labor leaders who ignore all thought of the public interest in car rying out their holdup programs.

When any union tries to set itself above the constitution which guarantee aman protection in his right to work regardless of his religious, political or labor affiliations, it is head ed atraight for the rocks of public condemnation.

TOO MUCH GOAT.

Because there is an enormous amount of surplus wheat in this country farmers are facing a tremendous loss through a reduction in the price of wheat, while everything that he buys is still "up in the aky."

The proposal that this wheat be stored in bonded warehouses castered throughout the farming committee the store of the st

### IMMIGRANT SELECTION **EXPERIMENT SUCCESS**

Washington.—Officials of the Immigration Service are keenly interested in the result of an experimen, in the selection of immigrants in this country, at the port of embar!: atton, which has just been tried. Wore than three hundred young Russians were picked from refugees with the cooperation of American consular and Naval officers.

consular and Naval officers.

Iving Squire, secretary of the
Russian Refugee Relief Society, said
he expected 900 nore, to embark as
ships are available throughout the
summer, would as easily pass the
tests of admission.

summer, would as easily pass the tests of admission.

"The fact that these men were thoroughly examined overseas makes all the difference," he said, "and at for the few cases that are held up by the letter of the law, the fact that the word fixing is too unwieldly, unreliable and cit. Pendent upon explosive gas.

When finally perfected it will said through the air with the same ease that automobiles now glide over that the plane of today, because with the plane of today, because of the Russian Community had positive information.

If they claim to have had technical travel today, but as a matter of fact we are only scratching the surface of aeronautical infancy.

MORE THAN INTEREC.

### PERRY G. CROPPER, DEAD.

Perry G. Cropper, the oldest child of Edgar and Fannie Cropper died in Louisville, July 26th, 1923, and his remains were brought to the count yo of his birth and buried in Bullittsburg cemetery last Saturday. He was born in this county November 6th, 1856, and was 56 years, 8' months and 22 days of age at the time of his death. He was engaged in the mercentile business in Burlington and about twenty-five years ago he went to Louisville and entered the employment of the Southern Ralizonad and was in the employment of the Southern Ralizonad and was in the employment of the time of his death. He married Pearl Gaines November 7th, 1899, and to this union two children were born, Mrs. W. E. Carroll and Edgar Gaines Cropper. He was a member of Parkland-logic No. 638 F. & A. M., who conducted the funeral service at the grave in connection with Rev. Campbell. A number of beautiful floral pieces were sent by friends, among them were wreaths sent by his fellow employment as the funeral service at the grave in connection with Rev. Campbell. #### ADDITION TO RACING PROGRAM DEARBORN COUNTY FAIR.

Made Heroes.

Applying their Boy Scout training of meeting every emergency in an efficient and speedy manner, two Lexington Boy Scouts, Edward Dunian, 12, son of Commissioner Wood G. Dunlay and Mrs. Dunlap, and James K. Riley, 12, so f. Mr. and Mrs. Edgar C. Riley, of north Ashand avenue, not only did their daily good deed but saved a truck of the Applegate-Graves' Dry Cleaning Co. from possible destruction by fire at Main and Walton avenue shortly before 10 o'clock this morning.

The boys, on their bicycles, saw the truck burst into flames, caused by a leaking carburetor. Snatching impty laundry bags from the trues and smothering the flames with grass and the begs, they extinguished the flagnes. Fremen called to the scene applied chemicals. The young story, groning the compliments of the rowd that gathered, went on their way Receiving several requests for races in the following class, the Fair Association has decided to add to their racing programs Green Troy. Thursday, August 16th, and Green Pace, Friday, August 16th, and Green Pace, Friday, August 17th. The Association will appreciate receiving entries for the races as early as posible. The addition makes six races daily.

#### Notice to Voters.

SPECIAL DECORATORS

FOR CINCY FESTIVAL

The entire city of Cincinnat will be in gala dress during the two weeks of the Cincinnati Fall Festival and Industrial Exposition, August 26-September 8.

A corps of special decorators will be brought to Cincinnati and wiff the control of the city of the control of the city of the control of the city.

Flags and flowers will be used in the decoration and beautiful lighting effects will bathe the entire city in brilliance at night. Many novel decorative plans are being made and Cincinnati hotels will welcome visitors in festive attire.

The Cincinnati Fall Festival is spending \$500,000 to create a feeting of good will toward it on the part of the towns of Ketlicky, Ohio, Indiana Virginia, West Virginia and Tennesses. Don't fail to vote for James W. Wagers of Richmond for Clerk of the Court of Appeals. He will add strength to the ticket this fall, as he is well qualified and experienced. He is a good organizer, untiring worker and geographically located to strengthen the ticket. We want him and no

#### PROTECTING THE BIRDS

PROTECTING THE BIRDS.
Insect pests are one great obstacle to raising food crops, and they
will continue so until this country
manages to restore the same amount
of bird life that was in existence
years ago. "It should be made a
very serious oftense in every state tokill an insect eating bird.
It seems a strange state of things
when pot husters are allowed to go'
out and kill birds that are needed tokeep down bugs that prey on crops.
The game bag of birds will make a
few ples for the sporty crowd in the
ettices but those birds if keept allvh,
would kill the bugs that are preying
on a whole field of crops.

WILL AMERICA CONSENT?

WILL AMERICA CONSENT?

Both France and England are anxious-to avoid a rupture over the Ruhr situation, and Belgium really holds the key. France now seems willing to go part way to end the deadock, providing England can do the bargaining with Germany. The sessence of the plan now under cansideration is that Germany should pay during the next 10 to 15 years 26,000,000,000 to Belgium, a few billions to other countries and an nuities to enable England to pay America.

This makes a comparatively small sum, which Gerany might exteinguish in 10 to 15 years. Only afterward would the financial situation of the European countries be reviewed for the purpose of ascertaining what sums Germany should still pay on behalf of European debts to England and America. The probability is that conditions would be so changed that accounts could be closed up. This means that France would expect no claims from America for 10 years. Europe could certainly obtain an economic settlement on this basis.

But would America consent? That is one of the questions that Secretary of the Treasury Mellon may have to meet while conferring with European politicians and financiers.

COUNTRY TOWN OPPORTUNITIES.

#### COUNTRY TOWN **OPPORTUNITIES**

OPPORTUNITIES.

Country life has always been a school for developing all round ability, a certain quality of versatility. The od time contryman was a great fellow for turning his hand to anything. He could do any job of work about his place, repair any simple kind f machine, make any household appliance work. He could shingle a house, build a road, doctor a sick horse, handle a swarm of bees, call out the figures for an old faashioned country dance.

Necessity forced him to meet emergencies himself. If he had lived in a city, he would have gotten in the habit of summoning a carpenter or a plumber the moment the least little thing went wrong about his place.

The man who is a jack at all trades.

THE FEAR OF EDUCATION.

Many middle aged people missed their chance at education because their fathers and mothers feared that if they were sent to some high school or college, they would never come back to their home towns. One reason why country life has developed so slowly, is that the majority of country people never had more than a district theol country bengle muderstand as a rule now that this is a mistaken policy. The country people understand as a rule now that this is a mistaken policy. The boy with no education will not usually make a success of contry life. He will become restless and is likely to go off to some city. But give him an education in some institution where they offer instriction in rral indstry, and he will see the possibilities of country life and be more inclined to stay there.

### County

County:

I am a candidate for the Democratte nomitation for the Legislature to represent Boone and Grant
Counties. If elected, I promise to
work and vote for a lower taxation.
I will work and vote for legislation to
improve the roads, and will work
and vote to these legislation that will
leave in the counties the amount of
money that is spent for Automobile
and Truck Heenses. I respectfully
ask for your support.

Very Truly,
W. M. SIMPSON.

#### **BOONE CO. BANKERS**

#### Hold An Interesting Meeting-Officers Elected and Other Business Disposed of

Business Disposed of

The Boone County Bankers Association met in the Court House on Thursday afternoon, July 26th. The mesting was called to order by President R. C. Green of Walton, and upon roll call by the Secretary, A. B. Renaker, of Burlington, the following banks were represented: Verona by O. K. Whitson; Citizens by H. A. Rogers and W. B. Rogers; Hebron by Hubert Conner; Petersburghy Wm. Stephens and O. S. Watts; Florence by J. G. Renaker; Waltson Bank & Trust Co., by R. C. Green; Equitable Bank & Trust Co., by D. B. Wallace; People Deposit Bank by A. B. Renaker and C. H. Youell and Boone County Deposit Bank by N. E. Riddell. The financial condition of our county was discussed as was the Preferred Warehouse stock being offered by the Burley Tobacco Cooperative Society, and it was the opinion of all present that that stock was a safe investment and those who invest will receive a good rate of interest. Any bank in the county will purchase this stock for any one desiring to invest. This stock payed sight per cent. R. C. Green was relected President and A. B. Renaker was re-elected Secretary-Treasurer.

• THE PICKPOCKET NUISANCE

while the peak of the so called 'crime wave' may have passed, yet there is still a tremendous amount of stealing going on, and the tribe of gentry who thive by "frisking" pocketbooks is very large. People need to manifest special care when going into crowds.

Formerly it was thought that pickpockets took advantage largely of unsophisticated people. But they have become so bold and skilful now that almost anyone may be the victim.

The habit of many men who carry money in a hip pocket encourages theft. It is comparatively easy for a group of crooks to press against a man's back, and push into him so hard that he does not notice when his purse is removed. The coat or vest pocket is more difficult for a theft to approach.

#### THE BOY OF YOUR DREAMS

The book of Let it., 8th chapter, 5th verse, says:—"And the cit; shall be full of boys and girls playing in the streets thereof."

But the good old prophet did not mention anything about these boys jumping on trucks and automobiles, frequently losing arms, limbs or lives.

lives.

Zachariah, the prophet, undoubtedly believed that parents would have some jurisdiction and supervision over these boys in the streets. While the prophet looked far into the future he did not see the gutto nor the air-ship; he did not see the growing parental indifference; he did not know that in the afternoon of the 20th century of evilization most parents would leave the education and development of their boys andgirls to the public school teacher, the Sunday school teacher—or to the policeman around the corner.

After seeing one of these bright

policeman around the corner.

After seeing one of these bright
boys crushed under a truck he had
been jumping the question arose:

"What is a boy worth?"

The state and society estimates
that this boy was worth to them,
about \$3,000. This money value increases as he increases in age and
usefulness.

about \$3,000. This money value increases as he increases in age and usefulness.

But boys are nuggets of gold from which the coin of manhamatic wards, and the wide, hearing the wide, hearing the wide, hearing the wide of the wide, hearing the wide and eternity.

"What is a boy worth?" He's worth just what we make of him. Every man ought to know that his boy has a far greater claim on him than his automobile or his business, yet all too any men attend to business to the neglect of the boy. When men shall fully discharge their duties to boys, there will be no more boy problem.

Our boys of today are our business men of tomorrow. Let's get behind it and undertwite that inest able eventuality by keeping them of the streets, by stimulating a personal pride in their deportment; by helping them to select the right kind of associates; by giving him and his friends the freedom of the house in which he lives. His life is big with possibilites. He may make or unmake kings, change boundary lines between states write books that will mould character, or invent machines that will revolutionize the commerce of the world.

The street, with its demoralizing influences and its dangers, is not a fit school for the boy of your dreams. It up to you, Mr. Man.

The people who complain of shertage of houses are reminded the

The people who complain of short-age of houses are reminded that there are a good many vacant dealings out next to the potate patches and corn fields.

#### A WEEK'S NEWS.

Mrs. George Kreylich entertained the members of the Matrons Circles, order of Easten Star, of Northerns Kentucky, at her home on the Burlington and Petersburg pike, 'sse Friday with an all-day outing.

Luncheon was served by the hostess who was assisted in entertaining: by Mrs. Richard Buchanan, of Ludlow. A business session followed them to the control of the con

The following guests spent a very pleasant day, last Sunday at thehome of Mr. and Mrs. Sam W. Aylor, near Constance, it being Mrs. Aylor's 53rd birthday: Jas. W. Kelly and wife, Howard Kelly, wife and son Virgil, Leon'Aylor and family, Albert Willis and family, Perry Aylor and family, James Harrison and Miss Marie Voltz, Miss Sarah E. Tanner. Mrs. Aylor was the recipient of several nice presents. At the mon hour a bountiful dinner was served, and it was late in the evening when the guests departed for their homes, all wishing Mrs. Aylor many more happy birthdays.

many more happy birthdays.

When Fonnie Easton returns from the hospital he will find that the members of the Modern Woodmen and other friends have harvested his crop of hay and worked out his cornifield, and have every thing in as good condition as if he had been on the job all the time. About 40 mem assembled at his resultant assembled at his resultant assembled and corn fields, and before the sun had set behind the westers hills 15 acres of corn had been thingned and a large amount of hay was in the barn.

J. A. Caywood and wife, of Mater, Letcher county, were in Burlington a few hours last Thursday, and their many friends were glad to see them. They were citizens of Burlington from 1914 to 1920, Mr. Caywood being principal of the Boone County High School. They were accompanied by Mr. and Mrs. C. W. Goodridge, of Erlanger, whose guests they had been for a day or two.

Six of the nine years Panama Canal record have been profitable years but the past year's record of receipts surpasses the best of former years by 50 per cent. The total income from July '22 to July '23 seabout \$17,508,000. The total operating expenses are about \$7,000,000. leaving a net profit of \$10,000,000. About one-third of the canal bondi isue has been written off. And this, too, under government ownership.

The United States Department of Commerce in a survey of business conditions during June and so far its July, finds a decided slowing down a lamost all lines of activity. The index cost of building materials dropped from 214 in May to 181 for June, and the number of men on the payrolls of 1428 representative factories showed a decrease of 326,000 in one month.

The annual picnic of St. Paul's church, Florence, py., will be held on the church grounds on Saturday August 4th, afternoon and evening. A fried chicken supper will be served from 3 to 10 p. m. A pony track has been arranged for the kiddles, and retertainment will be supplied by the famed Macon quartette. Friends are invited to come. No charge for admission.

Mrs. A. B. Renaker, who has been with her daughter, Mary Louise, at the Jewish Hospital, Cincinnati, for the past two or three weeks, spent a couple of days at home the latter part of last week.

Mrs. J. E. Smith entertained last Wednesday, Judge Sidney Gaines and wife, of Walton, J. E. Gaines and wife and daughter, and Miss Mallie Smith, of Petersburg.

Geo. Koons and son, of Petersburg R. D. were business visitors to Bur-lington Saturday morning, and while in town Mr. Koons made the Recor-der a pleasant call.

Trouble with a lot of country stores is, that they don't advertise enough so that their home folks realize what good service and reasonable prices they give:

Mr. and Mrs. Geo. Penn returned home last Thursday, after a visit of several days with relatives at Gaussian town.

Grant Williamson has had been residence painted. Martin Williamson was the brush artist.

# **Notice Tax-Payers**

Tax-Payers of Boone County are hereby notified that I, or one of my deputies will be at the places and on the dates named below to collect the 1923 State, County and County School Taxes. I will also collect the 1923 Graded Common School Taxes in Verona, Petersburg, Belleview, Union and Florence Districts. Also the Consolidated School Tax in the Bullittsville and Constance Districts on the same days that other taxes are collected:

Rabbit Hash, Oct. 2nd Big Bone, Oct. 3rd Beaver, Oct. 4th Walton, Oct. 5th Verona, Oct. 8th Belleview, Oct. 9th

Constance, Oct. 10th Hebron, Oct. 11th Union, Oct. 15th Petersburg, Oct. 16th Florence, Oct. 17th

TYPHOID FEVER
Typhoid fever is an infectious disease; it canot occur unless the germ gets into the body and finds there conditions favorable to its growth. The disease is not contained in the strett sense of the word, it is not necessary to come into close relationship with one who is either sick with the disease or has recently had it in order to acquire it, the germs may be carried in food or drink.

The main channels of infection are.

RATES—State 40c; 10c on Live Stock; County 70c; 15c on Agricultural Products
School 40c on the \$100; Poll \$1.50; School Poll \$1.00. Graded School Rates—Verona 60c; Peters
burg 70c; Belleview 50c; Union 40c, and Florence 50c. Graded School Poll—Verona \$1.00; Peters burg \$1.50; Union, \$1.00; and Florence 50c.

All unpaid taxes become delinquent after Nov. 30th. Six per cent penalty due State and County added after December 1st on all delinquent taxes; six per cent Commission is allowed Sheriff for collecting delinquent taxes. Cost of levy 60c, Advertising \$1.00 and Recording 60c.

Please make inquiry for the amount of your taxes before Nov. 15th, as we cannot receive everyones taxes on the last few days of November.

#### A DEALER'S VIEWS

A great amount of misinformation regarding the fertilizer dealer exist, and the proposal is frequently made that he should be eliminated and that the manufacturer should market his product by direct sales to the consumer. That such a procedure 's entirely impractical and that the dealer is a necessary factor in the economical distribution of fertilizers, the following facts should make clear:

the following facts should make clear;

The fertilizer business is a seasonal one, the delivery seasons being covered by approximately eight weeks for fall wheat trade. To prepare for these shipping seasons, the manufacturer must begin the assembling of raw materials, manufacture and process of curing from eight to twelve months in advance, and have large and costly stocks on hand ready for shipment when the demand arises. All these steps require heavy financing, and it will be readily understood that no manufacturer could undertake to accumulate such stocks unless he had a reasonably assured and regular market for the same; and the only regular market can be had through his established dealers, distributed throughout the consuming territory, who, over a long period of years, have created a regular demand for the manufacturer's good.

Competition Is Keen

#### Competition Is Keen

it in order to acquire it the germs busy be carried in food or drink.

The main channels of infection are the water supply and the milk supply. In most of our cities the water is in no danger of being contaminated, and so is the milk in the many cities where it is required to be Pasteurized. As a result the death rate from typhoid fever in cities has falen remarkably; the few cases that do occur come usually through salads and innooked vegetables that have been either washed with impre water or contaminated by flies, which carry the germs on their feet. Flies are active carriers; they make frequent flights from heaps of filth to the first of the defining table and are partial to bowls of milk, which is an excellent breeding fluid for the germs.

Suppose that a manufacturer should eliminate all his dealers and contract with an organization for its entire season's output. Very good as far as that season is concerned; but the next season a competing manufacturer secures the cooperative contract, and the first manufacturer is left with a stock of goods, has lore his retail dealers, and faces—ruin. Under such a plan no industry could long exist.

Competition among dealers is of the keenest kind. As a consequence the dealer's proit is an exceedingly meagre one, and for this small margin he must secure the farmers' orders, unload shipents, provide storage, keep accounts and give credit to reth consumers' as are not in position or do not find it convenient to buy for cash on delivery. Many farmers have been and are still acting in the capacity of fertilizer dealer and can testify to the fact that their profits are very small.

Much Credit-Used

Without the dealer there is no practical plan for granting credit to the fertilizer user who needs it. The cash buyer may think that this does not concern him, but factuality it does. Probably 50 per cent of the fertilizer consumed is purchased on credit. If this protition of the business were climinated, production would of necessity be reduced in like proportion, and as a result costs and prices would soar. Quantity is absoluted to the contract of the fertilizer consumed is purchased on credits. The farmer will best understand this phase by comparing the difference in cost per bushel between a full crop and a half crop of grain on his acres. In respect to credits, the country bank does to the federal reserve bank. A borrower of money cannot secure funds directly from the federal reserve bank bus unust negotiate his loan through the local bank which knows him personally and guarantees the payment of his loan.

It should also be remembered that there are relatively few articles of commerce which do not pass through several hands before reaching the consumer.

Each Commodity Must Pay.

The fact remains that the distribut are partial to bowls of milk, which is an excellent breeding fluid for the germs.

It is in rural districts that the danger of acquiring typhoid fever—is still serious. One case occurring in a farmhouse the drainage from which is into a stream may give rise to hundreds of cases among people who drink the water from the stream or use it for washing, for brushing, their teeth, for cleansing dishes, or rinsing out milk cans or perhaps for washing salads. It is during the summer vacation on the farm or in camp that the city dweller is likely to be most exposed to the disease, and it is then that he should take special pecautions. If you are not sure that the water in the well or in the stream beside which your tent is pitched is free from contamination, you will do well to boil it before either drinking it or washing with it. Don't drink it, suffice the way of the washing with typhoid fever has had anything it do with handling it; don't drink it, that is, without first boiling or Pasteurzing it. Finally, screen your food so that flies scannot get at it before, or especially after, it has been cooked. Without neglecting those ovius rules? I cleanliness you might take the preventive inoculations before leaving home; then you would not have to worry about typhoid fever any more than our soldiers worried about it during the war.

Just 132 years ago Kentucky was idmitted to the Union February with the stream in the war.

#### CARD OF THANKS

We take this means of extending our thanks to the members of the Modern Woodmen Lodge and other friends and helphors for their as-sistance and help during the illness of our husband and father, Fonnie Easton.

The man who is listening all the morning for the call of the dinner hell, does not usually listen very often to the change rattling in his notice.

Keep the community spirit alive.

At wait keep the town alive.

One man alone can accomplish
wonders, but ten men working harmorificulty together can accomplish
ten times as much. There is no limit
has what a whole community can accompalish

But first of all we must have the community spirit, a willingness to work tourselves individually and collectively in the interest of our community of the community of the control of the

amunity spirit keeps the town

ve. The town keeps you alive. Who wants to die?

When a number of dogs see at mice bone within reach how many will retire and leave the bone to others—before they are whipped, or "buffsied?"

The same applies to Europe. Comrercialism—foreign trade—is the bone, and each governmental dog at determined to get the lion's share.

Becaus of this greediness there is no unity of purpose in their advocacy of peace, no desire to settle the raging controversies in a fair and just mannet.

Mr. Wilson's league of nations couldn't do it.

Mr. Wilson's league of nations couldn't do it.

Mr. Harding and his world court idea will not be able to do it.

The hig banking interests of the world could do it, but they won't—necause they fatten on war.

Americans will be safer and more present cous on this side of the water during the next tive or ten years, provided our government has wistion enough to keep out of the European mire.

The cat that crawls into a hot

The cat that crawls into a hotoven must expect to be scorched.

We don't care to be the cat.

We don't care to be the cat.

If you can't think, don't talk.

Talking without thinking does a remendous amount of harm in this world—even in this community.

Very few people are judged by what we actually know of them, for as a rule we know but little—only what we see on the surface. The heart of another is always a hidden anystery to us.

25 at we do judge others by what we hear of them, and we hear that which people have to say, whether they first stop to think or not.

Unkind words are like weeds. You may curb them for the moment, but whey spring up again—because the zoot is still there.

A misstatement may be corrected, but the suspicion still remains with many people.

If you can't think, don't talk.

Some people are exceptionally bright, or smart, or intelligent, or whatever you choose to call it, but they incur enmity because they are too blunt. They say what they think, and their thoughts, though they may be gems of truth, sometimes touch tender spots.

Others know little and say less. They are good listners because they do not nossess the ability to become anything else. Their silent attention is often misconstrued tio a complication to the control of the road. The silent silent is the silent s

An increase in yield of more than 18,000 bushels of wheat without write a labor was the reward of farmers in Union County, Ore., following the advice of the county extension agent last year in selecting the variety of winter wheat to be planted. The wounty agent had carried on an effective campaign calling the attention of wheat growers in the attention of the higher yieldig qualities of the variety Hybrid 128 undistinct tests. As a result, a number of farmers plantable Hybrid 128 and obtained an average increase of 6.1 bushels per acre over all other varieties, according to reports to the United States Department of Agriculture. About 92 acres of the 1922 planting was certified for seed.

Cow With Glass "Veins" To Illustrate Feeding Problem.

The circulatory system of the cow with "blood" actually bowing thruthe arteries and veins, will be Illustrated in a model to be shown by the United States Department of Agriculture at the National Dairy Show to be held this fall at Syracuse, N. Y.

In the large model now being made by the Office of Exhibits liquids will circulate through glass tubes of various sizes, illustrating how nourishment is taken up from the digestive tract and carried to the udder, there to be used in the manufacture of milk.

One of the objects of this visual method is to show the difference in the proteins provided by various feeds. The cow model will be disputed to show how the proteins of the feed are broken up by the digestive system into the constituent amino acids, which are transported in the blood stream to the mammary gland (the udder), where the necessary amino acids are taken out of the blood and built up into proteins of the milk.

By means of this exhibit the Department of Agriculture hopes to bring out foreibly thatist is not only necessary to have in the ration proteins furnishing certain kinds of amino acids be present in the right proportion. This means it is necessary to have the right combination of proteins in the feed. The use of proteins in making milk map be compared to the use of boards in building a house. Boards of various lengths are needed in a house. In the protein of one kind of feed, or at least not in the proper propor tions to prevent waste.

BABY HEALTH TALKS

Dr. Annie S. Veech, Director, reau of Child Hygione, State Bo of Health. VEGETABLES NECESSARY

FOR CHILD GROWTH.

VEGETABLES NECESSARY
FOR CHILD GROWTH.

Louisville, Ky,—In the summermonths when fresh vegetables may be had in abundance, it is a pity more mothers do not understand-their value as food, both for young and older children. Child specialists over the country today are stressize the feeding of vegetables to children of pre-school age beginning with the babys at the 9th month.

In spite of this fact many mothers in horrow exclaim, "What! feed my baby vegetables. No indeed! It might make him sick!" Ihere is some truth in this statement if she does not understand which vegetables are best for the child and how to prepare them.

Most adults like green beans, pena and the leafy vegetables cooked for two or three hours in water with a piece of fat meat. The vegetables may be very palatable to the adul-who likes greasy food, but they are wholly unfit for the child.

At nine months of age a child needs green vegetables because of their valuable mineral content which assist in building bone tissue and this tissue building material is needed on through adult life.

The vegetables best suited to this age are spinach, beet tops, asparagus they, carroats and very young green peas. These should be cooked in salted water until tender which does not require more than one half hour, then rubbed through a sieve, mashed to a pulp and seasoned with a lite butter. The juice of cooked to matoes may also be given. As the child gets older, other vegetables may be added to the diet including stewed celery, cauliflower, green beans, baked potatoes, and lettuce leaves.

Corn and cabbage are only for stills. Everyone should include in the daily diet some green leafy veg-

leaves,
Corn and cabbage are only for adults. Everyone should include in the daily dict some green leafy vegetable and a quart of milk, McCollim, the great specialist in food values, tell us.

#### America's Marvels NATURAL AND OTHERWISE

By T. T. Maxey

FAUNCES TAVERN

Faunces Tavern at the southeast corner of Broad and Pearl streets in New York City is one of the oldest buildings in that great city.

Built in 1719 as a realdence for a Mr. DeLancey, fate decreed that it should play a prominent peri on so many important occasions that it has naturally won for itself a place of prominence among the most distinguished landmarks of our time. History records that in 1757, this building was being used as a storeroom and warehouse. Later it became the property of a West Indian gentleman who was known as "Black Sam," from whom Samuel Faunces purchased to a new owner and in 1708 the organization of the Chamber of Commerce was effected here. Faunces again became the owner of this much-traded building in 1770 and in it conducted a tavern—a gathering place for those gentleman and ladles who wished to favor him with their company.

A shot from a man-of-war struck favor building in 1770 following which Faunces Joined the American army. Later he again secured ownership of this hotel and continued in possession of it for a number of years.

In 1783 General George Washington was bunqueted here by Governor Clinton of New York state, and in this same building during the same year General Washington took his icave of his forty-four diffects.

Faunces sold this building in 1778 and it later passed through a series of ownerships and usages. In §832 the interior was damaged by fire. Twenty years later it becuribe known as the Broad Street House. Subsequently it was deficated by the Sons of the Revolution. Restored to its former appearance and interior arrangement, the present structure is practically as it was deficated by the Sons of the Revolution. Restored to its former appearance and interior arrangement, the present structure is practically as it was deficated by the Sons of the Revolution. When your digestion is poor, teil your wife how beautiful she is. She will be more careful in her selection of yor diet.

of yor diet.

The people who are paying regular interest on their automobile mortgage feel thay are showing splendid thrift.

The young men will take a deep interest in, the cause of education this fall if they have some good looker school teachers.

Solomon was a wise old bird. He accumulated so many mother in-laws they quarreled aong threselves instead of razzing him.

The German mark dropped again.

The German mark dropped again, and is now rated at 400,000 to the American dollar, or 2,000,000 to the pound of sterling.

The Denver and Rio Grande railroad has deposited \$1,400,000 in warlous banks along its system for the Immediate use of farmers and rancamen.

Some time has passed since those joyous times when the butcher always used to throw in a meaty bone for the dog to munch on for several days.

SPECIAL CARE UKGED IN PICKING BREEDING SHEEP

Lexington, Ky. — Farmers and sheep raisers who plan to buy breeding ewes and rams within the next month or two will do well to use special care in picking their animals, according to sheep specialists at the College of Agriculture. Both lamband wood have sold at very profitable prices during the season just past, with the result that there probably will be a heavy demand for ewes and rams during the coming season. With many farmers going into the sheep raising business and ereating a demand for ewes and rams, eareful important, the specialists point out. Animals that are, to make up the breeding herd is doubly important, the specialists point out. Animals that most nearly conform to utility requirements will be far more valuable than just any kind of scrub, if there should be a depression in the market next spring and summer. "The most profitable breeding ewes are from one to four years old. Older ewes may be kept in the flock, provided they are good in other respects, but all "broken mouth" ewes or 'gammers' should be culled. The yearling ewe is ant to have more trouble at lambing time and usually is not as good a mother as as an older anim.

"Udders must be sound. If the ewes heve not been given careful at-

trouble at lambing time and usually is not as good a mother ass an older animal.

"Udders must be sound. If the ewes hve not been given careful attention at lambing time one or both halves of the udder may be caked. If the wes have not been given careful attention at lambing time one or both halves of the udder may be caked. If the ewes are from the western range each should be inspected carefully to see that neither teat has been cut oc in shearing.

"Ewes picked for the breeding flock should be feminine, well grown and rugged; they should have fairly short legs; short wide heads; short necks; thick, blocky bodies; straight backs; wide, loins, level rumps, and deep plump legs of mutton. They should be well covered with dense wool of good quality and of fairly long staple.

The ram first of all must be a purebred. Good breeds to use in Kentucky are the Southdown, Hampshire Cheviot and Shropshire. The best age for the ram is one to four years. He should be selected to overcome the most pronounced defects in the wee flock and among other things should have a straight, strong back, a full heart girth and good width between the front legs."

#### GET ORCHARD POINTERS BY VISITING NEIGHBORS.

GET ORCHARD POINTERS
BY VISITING NEIGHBORS.

Lexington, Ky. — Up-to-date and practical methods of fruit production recommended for Kentucky conditions are being stressed this summer by horticultural workers at the College of 'Agriculture by means of county tours in which interested farmers and fruit growers visit representative orchards in their respective vicinities and see the application of the practices under actual igled conditions. One of the most respective vicinities and see the application of the practices under actual igled conditions. One of the most respective vicinities and see the application of the practices under actual igled conditions. One of the most respective vicinities and see the application of the practices under actual igled conditions. One of the most respective vicinities and the forest in the seed of the tour has just been held in McCracken county which and the major of the most respective vicinities and the seed of approximately 150 people taking part in the utility, which lasted two days.

The McCracken county tour, which was arranged through the cooperation of the McCracken county Fruit Growers' Association, the agricultural act ellege and The Kentucky State Horticultural Society, took in five townserial apple and peach orchards tovering close to 200 acres and involving thousands of trees and brought many new pointers in fruit raising to the attention of those who have the protective vicinities and the seed of the seed of the protection of the thick and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the control of peach leaf-earl; how to cut back and prune trees; the

KENTUCKY AGRICULTURAL EXTENSION WORK PRAISED

KENTUCKY AGRICULTURAL EXTENSION WORK PRAISED

Lexington, Ky.—Work being done by the extension division of the College of Agriculture through subject matter specialists and county agricultural agents to improve farmin, methods throughout Kentucky is on a high plane of efficiency and shows an increase both in quality and quantity for the year just past, according to a statement made by George E. Farrell, field agent of the federal department of agriculture, who is in charge of extension work in the 13 corn belt states, following the recent annual inspection of the division's accounts and activities. Mr. Farrell was assisted in the inspection by T. W. Harvey, also of the federal department.

Mr. Farrell, who made a similar inspection at the agricultural college here last year, pointed out that during the year just past there has been a material increase in the efficiency of the entire agricultural extension organization of the college.

Evidence brought out during the conferences with department heads and extension appecialists indicates that farmers are taking an increased interest in the efforts of the division to improve agricultural conditions, he said. He praised the fine spirit of cooperation that has been devel oped between the Kentucky Agricultural Experiment Station and the extension division, two of the main divisions of the agricultural conditions, and no interest in the efforts of the division division fore is ready to carry it to farmers of the state and show them how to apply it.

Long-tie programs of work that should do much toward improving agricultural conditions are being developed by the extension specialists; county agricultural agants are learning to be teachers and not servants of some commercial organisms.

ization, and there is evidence that the various extension specialists, representatives of the college, ar spending a high percentage of the time in the field working with farmers and traveling in such a way to make their time count for the moin their work, he added.

Indianapolis. — American citizena are interested in the development of a national program for building a higher type of citizen, above the prejudices of hyphenism and bigotry. Advin Oweley, national commander of the American Legion, declared on his return recently to Legion national to the American Legion policies, he said are being received with favor by the general public. He declared that the people are more interested in the welfare of disabled veterans that they ever were before and that the people are more interested in the welfare of disabled veterans that they ever were before and that the people and the the said are being received with favor by the general public. He declared that the people are more interested in the welfare of disabled veterans that they ever were before and that the stand of the Legion for an immigration holiday and in opposition to radicals had struck the chrd of popular approval.

Ottlens of America are in favor of the Legion's stand for a universal draff act, under which capital and isabor and all the resources of America would be conscripted in the next war, according to Commander Oweleyley. The Legion's defense of the occupation of the Ruhr and its war on profiteers also are popular, he said.

Legion members are taking their places in public affairs, Commander

aid.

Legion members are taking their places in public affairs, Commander Cwrley pointed out. He said that three governors, four fleutenant govers, four United States Sengtor and more than thirty members of the lower house in congress are Legionnaires.

About seventy-five people attended a lecture on "Americaniam" is Sale to begin at 1 o'clock sharp.

Mr. and Mrs. Thomas Hensley en-ertained relatives from the city last

Mrs. Martha Hawes, one of the oldest citizens of the town, has been quite sick for several days.

Fonnie Easton, who has be Christs Hospital for several returned to his ohme Monday.

Mr. and Mrs. F. A. Hall spent from Friday until Sunday evening with their children in Newport.

Rue Wingate has a badly lacerated face as the result of a fall he re-ceived at his home one night last week.

Leonard Hewitt, of Cleves, Ohio, was in Burlington Monday. He re-ports his brother William as being very ill.

Miss Julia S. Dinsmore, of Belleview, left Monday for New York, where she will visit relatives for defew weeks.

N-W. Carpenter and Cecil Gaines left Sunday for a few days visit with Grover Snyder and wife at North Madison, Indiana.

Mrs. Elmer Kirkpatrick and chil dren returned home Sunday after spending several days in the Hebor neighborhood visiting relatives.

Misses Nell Martin and Ruth Kelly returned home Saturday from a ten days visit with friends in New York. They visited Niagara and other Eas-tern cities.

The pictures of the summer resort cottages present romantle like-nesses of the wildwood scenes, but they do not contain any liagrams of the pump that won't work.

The oldest circus on earth—John Robinson's will visit Newport August 8th for an afternoon and evening performance. The circus is ow on its 100th tour. This circus has three rings and two performances, and has a large collection of elephants and jungle beasts. The arge number of clowns with the show make fun for all. You should see this circus.

Pinal returns in the Collier's Weekly straw vote showed, Ford 88, 000, Harding 51,000, McAdoo 19, 000, Johnson 18,000, Smith 14,000, Hoover 9,000, LaFolette 7,000, Underwood 3,000, Hughes, 13,000, Leaving Harding out, Mr. Ford polled more votes than all others combined. He pollad nearly as many as all Rapublicans combined including

umpired the game, and very little
criticism was made by the players
to their decisions.

Next Saturday the strong Petersburg team will play at Burlington. Manager Berkshire is doing all he can to put Burlington on the map in base ball circles and the fams ought to turn out and help him. Come out next Saturday and root for your favorites.

Verona defeated the Knights of the Ku Klux Klan team at Verona last Saturday by a score of 14 to 13. Verona made seven runs in the 9th Inning after two men were odt.

The managers of the Burlington base ball club commenced work Tuesday morning, putting in shape a new ball park, and when completed will be one of the nicest parks in the county. They expect to have it ready by Saturday, when the Petersburg club makes its appearance against the local team. So large is the park that Manager Berkshirc feels safe in offering \$100 for the peson that knocks the ball out of the lot.

Quite an enjoyable time was hal at the home of Mr. Lon Clore on the Burlington and Waterloo pike, last Sunday, when about one hundred relatives and friends gathered at the home to celebrate the 64th birthduy of his mother, Mrs. Georgia Clore. It was quite a surprise to Mrs. Clore, as she had been invited to the home of a neighbor and knew nothing of it until the guests had all arrivel and she returned home. An elegant dliner was served, as all took well filled baskets, and a most enjoyable day was spent. Late in the evening this happy colorie of guests departed after wishing Mrs. Clore many more happy birthdays.

Kentucky farmers have obtained loans totaling \$27,552,200 from the banks of the Federal Farm Loan System, according to a tabulation of these loans up to June 30, 1923, compiled from the reports of the Federal Farm Loan Board. The figures, it was pointed out, include loans made by both the Federal Land Banks and the Joint Stock Land Banks.

Mrs. Garnett W. Tolin left Saturday for a three weeks visit with relatives in Wisconsin. She is touring with her brother Ray and an aum and uncle. They will visit a number of cities on the lakes.

By request two shows of "DR. JACK" will be given at Petersburg Theatre, Saturday, August 11. First show will begin at 7 o'clock, second show will begin at 8:30. Don't fall to attend these shows and snion.

family.

Mrs. Arthur Tanner had as guests one day the past week Mrs. hmma Swim, of Florence, and Mrs. Mary Johnson, of Erlanger.

Wm. Snyder and wife and Albert: Robbins and family, visited at the home of Owen Aylor and wife, of Burlington pike, Sunday.

Mr. and Mrs. H.L. Tanner entertained Saturday afternoon Mr. and Mrs. Allen Guy and little daughters and Mrs. Allen Guy and little daughters and Mr. and Mrs. Nelson Guy, of Newport.

Bord March than during the form these of the provious year.

Bord Green the state was far to the provious

cidents.

Next Saturday is primary election day and marks the close of one of the most vigorous and hard fought campaigns in the history of the State. The entire fight has been around issues of the most vital concern to the people, as well as some of the important industries of the Blue Grass State, and the verdiet of a great people will no doubt be pronounced and emphatic.

Much interest has been manifested and the climax off a great fight will no doubt cause some disappointment and probably a few keen pangs that must come to those who fight hard and lose. There are twenty-eight Democratic candidates contesting for places on the regular bailot in November, while only six names appear on the Republican bailot in the primary for Railroad Commissioner in this district. Go to the poils and cast your vote for the candidates of your choice.

#### LEGION NOTES

LEGION NOTES

San Francisco.—All divisional regimental and "outfit" societies and organizations have been invited to hold their reunions or convention in San Francisco during the week of the American Legion's national convention next October, by Leutenant Gen. Hunter Liggett, general chairman of the convention committee. The annual reunion of the 91st division, which is to be held here October 13 and 14, on the eve of the opening of the legion's big conclave, will attract more than 7,000 veterans of that division to San Francisco. The familiar cry of "Powder River, let 'er buck," originated by the 91st division, which is composed of veterans trained at Camp Lewis, Washington, Nevada and Montana, will be heard once again in this city, when the wearers of the green pine-tree insignia come for their annual gathering.

Aberdeen, S. D.—Alarmed at the

their annual gathering.

Aberdeen, S. D.—Alarmed at the infux of the I. W. W. element into the harvest fields of the Northwest, members of the American-Legion post in Aberdeen have established an employment bureau which will remain open the rest of the semmer, to help men looking for work, and to assist the farmers in obtaining good men-to-harvest their grain.

The Legion proposes to offset the influence of I. W. W. organizers among farm laborers by providing a better type of men to the farmers through the bureau, it is said. Free lunches and lodging will be given the men without funds. Two tents have been creeded for this purpose on vacant lots near the municipal building in Aberdeen.

Louisville, Ky.—Next Saturday the bitterest contest for a gubernatorial nomination, that has been known among Kentucky Democrats since the Gobel-Hardin-Stone race of almost a quarter century ago, will be gleded. The result will determine whether J. Campbell Cantrill or Attentive to the contest of the cont

members of the American-Legion post in Aberdeen have established an employment bureau which will remain open the rest of the scmmer, to help men looking for work, and to assist the farmers in obtaining good men to harvest their grain.

The Legion proposes to offset the influence of 1. W. W. organizers among farm laborers by providing, a better type of men to the farmers through the bureau, it is said. Free lunches and lodging will be given the men without funds. Two tents have been erected for this purpose on vacant lots near the municipal building in Aberdeen.

Indianapolis.—The American Red Cross will appropriate to the American Legion a sum sufficient to continue the activities of legion liason men in the fourteen districts of the United State Veterans Bureau, it has been announced at legion in itonal headquarters in Indiaapolis.
For several years the Red Cross has provided funds to enable legion men to check the work of the Bureau in relieving sick and disabled war veterans and to co-operate with officials in solving the problems of hospitalization and rehabilitation. The work of the legion's supervision of activities at district offices of the Bureau until July 1st, 1924.

Washington.—Ratings of permanent partial disability for sick and wounded veterans will continue to be made at the invarced district offices of the Veterans Bureau, it has been and again until of late he has ot had any opposition. The work of the legion's supervision of activities at district offices of the Veterans Bureau, accord.

Washington.—Ratings of permanent partial disability for sick and wounded veterans will continue to be made at the invarced district offices of the Veterans Bureau, accord.

Meanwhile the chief points of difference between use vandidates had developed on the matter of coal text.

Meanwhile the chief points of difference between use vandidates had developed on the matter of coal text.

Washington.—Ratings of permanent partial disability for sick and wounded veterans will continue to be made at the invarient district offices of the Veterans Burleau, according to Joe Sparks, chairman of the American Legion's national rehabilitation confinites.

A recent order issued by the Burleau has been modified to permit rulings in special cases of permanent partial disability to be consumated at the regional offices in the central office, first provided for. Fearing that the original order of the burau would tend to bring about recentralization in the Washington office, Mr. Sparks appealed to Director Hines to modify the order. The legion official stated that Director Hines is opposed to recentralization and that he is in accord with the legion's stand for strengthening the authority of the district offices as a means of dealing face to face with the disabled.

The legion has announced a policy of opposition to all efforts to weaken the power of the district of the washer that the present laws on racing have proven the repeal of the parameter of the proposition to all efforts to weaken the power of the district of the washer the position. This attack did not continue long. It has been spreaded by the Hender bandoned. Meanwhile the chief points of difference between use varied and resulting the say to the mean and racing. Barkley, in his first developed on the matters of call tax-developed on the matters of the say on the subject of racing, save to declare against the depole of the parameter of the district of the provided for.

The provided for the provided for the provided for the provided for the prevention of the provided for the repeal of the parameter of the parameter of the provided for the repeal of the parameter of the

be jeopardized by a political fightauthority of the district offices as a
means of dealing face to face with
the disabled.

The legion has announced a policy of opposition to all efforts
to weaken the power of the district offices of the bureau its members believe that claims of the disabled men
can be adjusted more efficiently by
bureau officials in offices nearer the
homes of the sick and wounded veterains.

Indianapolis.— Co-operation of
capital and labor to prevent delay
in delivery of material and in providing labor for the construction of
hospitals to care for disabled war
veterans has been obtained by Alvin
Owsley, national commander of the
American Legion, from Elliott F.
Goodwin, vice-president of the Chamber of Commerce of the U. S. and
John Dollin, president of the building trales of artment of the American Federation of Labor.

Following receipt of reports from
legion officials that hospital construction in various parts of the country
was being held up by the failure of
contractors to deliver materials and
by the difficulty of obtaining laborers, the legion leader has conducted
an investigation of the situation. The
legion will urge that priority be given to hospital construction in
as much as the number of cases of disabled veterans requiring treatment
is increasing.

Francisco.—The best band
and drum corps of the American Legion will be aslected at a tournament

paign Manager, when asked for a prediction of the primary/result, gave one that was brief, but thoroughly hopeful of what the returns will show. Mr. Hamilton did not offer any figures on the majority he expects for Barkely, nor did he go into details over the districts, but he predicts that 93 counties will bround in the Barkley count. As there are only 120 counties in the State, any sort of majorities in almost any 93 should suffice. Mr. Hamilton's statement was as follows:

"Barkley has a splendid organization over the entire state, and has probably as many workers in his organization over the difference of the state, and has probably as many workers in his organization as a candidate for Governor ever had. We have received reports from every county in Kentucky during the past week, and after making careful investigations in a very section of the state we feel cretain that there will b found in the Barkley column on the night of Agreed the same day, but this is not compulsory—Chiego Daily News The Department of Agriculture has protected in the state, will be counted in the counteract as apphone.—Deroit News.

## WASHINGTON COMMENT.

When life was simple, problems could be considered upon their own merits, without relation to other problems. The Colonial planter ate what he raised, and cooked it over wood he chopped. If he went on a journey, it was then time enough ty consider the horse, whe coach, the road over which he traveled, araveling was one thing, and living at home was another; neither affected the other.

Today we say whet other with the conditions are the color.

lng was one thing, and living athome was another; neither affected
the other.

Today we eat what others raise,
and eook it and keep warm by the
coal others mine. And whether or
not we ever go on a journey, the
loads ... whether they be railroad
or rivers or canals or dirt roads ...
must function to bring our food and
fuel to us, and to take from us the
goods we make. True, the farmer
lives from his own grain and cattle,
but he must yet depend on transportation to sell his product, and to
bring him what he buys with the
reward of that product.

Transportation can not, now, be
considered as apart from any problem. It is a part of all social
problems. And it is especially a
part of the educational problem,
since children must go from home to
school, and where the school is some
distanch away, must ride. The good
oad means a good school, a well attended school, an effective school
The best school, loaded on mud
wallow, miscalled a road, can not instruct absent children, children who
can not get to school because of
mud.

The schools of this Nation can

can not get to school because of mud.

The schools of this Nation can never reach their fullest development, or do full justice to our children, until we have good roads everywhere the school of the

## **IMMIGRATION NEWS** OF GENERAL INTEREST

ELLIS ISLAND RULES REVISE.

—STEAM LINES BLAMED—
QUALITY IMPROVES.

Washington.—If a baby is born to Russian parents on a French boat traveling to the United States, wh.t notionality is it?

The question has been of importance, because if the infant happe is to be considered of a nationality the quota of which is excluded, it could under the law, be excluded from the United States.

under the law, be excluded from the United States.

The Commissioner of Immigration at the Port of New York, decided that babies born at sea assume the nationality of their mothers, and that the family of an arriving foreign musical art of might land comfortably in New York pending a later hearing at Ellis Island Immigration. Station.

Sofia Prezygon, who first saw light aboard the Red Star liner "Lapland" on July 18th, and Irene Troyanoski, who was born on the "Belgianland" on July 4th, both of Polish parents, who was born on the "Belgianland" on July 4th, both of Polish parents because of the ruling, will be allowled to leave Ellis Island.

Immigration officials are well satisfied with the class of immigrants ow coming to this country, because now coming to this country, because fix quots, with the exception of Germany.

"There would be many more lm"

many. "There would be many more immigrants from northwestern Europe, if the quotas were enlarged," said Commissioner Husband. "England has already exhausted her quota for the month, as have most other European countries. The class of immigrants now coming in is better than ever before."

BOOSTING COUNTRY PRODUCTS

BOOSTING COUNTRY PRODUCTS

The people who live in the country have much to gain by making this community their trading center. When they come in and make Friends with our merchants, they make them their allies in all their projects. They will find these business men ready to help in developing the surrounding country. Many who need more capitate on the conservation of the control of the contro

improve Flocks

Woolgrowers improve Flocks
Woolgrowers in several counties
in middle Tennessee, including backwoods cammunities are improving
their flocks by the use of pure-bred
sires, according to reparts received
by the United States Depatment of
Agriculture from C. C. Fianery of
the Tennessee Etension Service. Recently 18 farmers signed agreements
to use pure-bred sires exclusively under the "Better Stress—Better Stock
plan." The drive-is being continued
and live-stock judging is to be a feature of the activities at "club" camps
during the summer.
September 1 is to be a noteworthy
date in live-stock progress in that
region, for on that day a cariodd of
serub sires is to be shipped out. In
October, according to plans, all the
pure-bred sires recently placed on
farms in the region are to be shown
at a county fair.

way they act comes under observation.

In cities there is a tendency for
people to drop out of sight in tha
mass. If they fail to do anything
worth while, few people notice or
speak of it. This encourages slott
ful and unambitious people just to
lie down and be content with medlicer achievement. They just stand
on the sidewalks and see the prapeople of the practice of the p

bilities go to rust as a result of such neglect.

Thus country life develops a certain feeling of pride and self respect. Young people come slong with the feeling that they have a certain reputation to maintain. They feel that their families have attained a standing in the community, and that the descendants thereof must go on maintaining that position. They feel under obligation to make good the hopes felf for them.

Thus country young-people, as long as they stay in

CORPORATIVES DO
LARGE BUSINESS

Of 4,925 farmers, buying and sell-ing organizations in 1921 more than 23 per cent did a business ranging-from \$100,000 to \$200,000 and more than 15 per cent did an annual business between \$70,000 and \$100,000 according to figures recently compiled by the United States Department of Agriculture. Over 82 per cent of the associations reporting did an annual business not to exceed \$200,000.

Sixty per cent of the associations doing an annual business not for million dollars or more are located in the Pacific Coast States, and comprise nearly 12 per cent of all the associations in that territory, the figures show:

persistent jous enemies of western yellow pine, extra seasuccessful in the South and Southsuit weight west, declares the Forest Service, U.

## QUICK WORK

Check Forger Captured and Lodged in The County Bastile.

Thus country life develops a certain feeling of pride and self respect. Young people come along with the feeling that they have a certain reputation to maintain. They feel that their families have attained a standing in the community, and that the descendants thereof must go on maintaining that position. They feel under obligation to make good the hopes felf for them.

Thus country young-people, as long as they stay in the country, have always before their eyes a cratinimark of attainment of a the courage them to courage them to constant effort, and develop their power to do things well.

BACK YARDS

BACK YARDS

BACK YARDS

BACK YARDS

One of the chief assets of a country town is its beauty. Neatly kept homes and attractive gardens and shade trees are far better than everything the big city and ain the way of slaborate buildings.

But many country towns spoit heir appearance by failure to keep back yards in order. These spaces act hall for the refuse of among their appearance by failure to keep back yards in order. These spaces heecome a catchall for the refuse of among their appearance by failure to keep back yards in order to blish, broken tools and children toys make a miserable looking mess. It takes a good while to clean up such an accumulation, but it makes a wonderful difference in a neighborhood hwen it is done.

While Intoxicated.

Grant Howard, colored, was tried before Judge N. E. Riddell and a jury Thursday morning, on the charge of operating an automobile on the Dixie Highway carelessly and recklessly and while intoxicated. Howard was driving his auto from Florence south and collided with the automatic form for the color of the colo

## MR. WILSON DISCUSSES CONDI

MR. WILSON DISCUSSES CONDITIONS.

In the Atantic Monthly for August ex President Woodrow Wilson sounds a note of warning that civilization cannot survive materfaily unless it be redemed spiritually. His article, "The Road Away from Revolution," is his first expression on present-day problems since his retiement. Mr. Wilson leads up to the cause of the Russian revolution as the outstanding event of its kind in our age," It was because of a systematic denial to the great body of Russiaha of the rights and privileges which all normal medical and a normal denial to the great body of Russiaha of the rights and privileges which all normal of the great body of Russiaha of the rights and privileges which all normal medical and within reach of happines.

What has this to do with America? "It was against capitalism," he declares," that the Russian leaders directed their attack—and it is against capitalism under one name or another that the discontented classes everywhere draw their indictment."

Everywhere, he says, there are thoughtful men who believe that capitalistic system unimpeachable?

Mr. Wilson then goes on to review would condition since the "mad designs of the Insolent and ignorant Hohenzollerns have been cruched.

"The road that leads away from revolution is clearly marked, for stied defined by the nature of men and of organized society. It therefore behooves us to study very carefully and very candidly the exact nature of the task and the means of its accomplishment. The sum of the whole matter is this, that our civilization cannot survive aterially. Here is the final challenge to our churches, to our political organizations—to everyone who fears God or Ivea his country.

Out of 80,000 samples of seise! liquor analyzed by the official chemists at Washingston, one per cent were found to be pure. In other word, drinken of the stuff have 85 chances in 100 of encouraging 500 states of the stuff have 85 chances in 100 of encouraging 500 states or saddless death, and 100

#### AN ENJOYABLE TIME

Had By The Boone-Kenton Co. Junior Agriculture Camp At Florence, Ky.

The Boone-Kenton County Junior Agricultural Club camp will be a fond memory in the minds of the sixty-four junior club members and eight leaders, who were permitted to attend. While the attendance was somewhat smaller than was anticipated, those who were there amply made up for that with extra efforts and enthusiasm. Each camper has returned home loud in praise for the efficient arrangements made by their county agent, whereby they received the best of eats and comfortable quarters.

quarters.

Under the management of E. E. Fish, Assistant State Leader of Junior Club, Lexington, Ky, an entertaining and elevating program was outlined and carried out which included every minute of the time spent in camp. The campers were divided into four groups which assumed Indian tribe names and contested hotly for honors during the week. The tribe names selected were Cherokee Mohawk, Navajo and Chactaw. Ralph Barlow was elected chief for the Cheroke tribe, Kathryn Clora for the Nohawk, Douglas Smith for the Nohawk, Douglas Smith for the Navijos and Rodford Riley for the Chactaws.

A standard system of awarding points to each tribe was used for all events of the week. The Mohawk tribe triumphed for first place with a total of 1685 points. The Navajo tribe were but 60 points behind.

Starting at eight o'clock each fore noon was given over to instruction and demonstratios with each tribe speding one-half hour with each instructor. The elevent of the College of Agriculty of the College of Agri

to return to the game.

That the root rot resistant strain of burley tobacco developed by the Kentucky Agricultural Experiment Station cain withstand the attacks of the disease root rot, thereby decreasing heavy losses suffered by leaf growers, is being demonstrated by Pulaski County farmers who are growing the resistant atrain in comparison with common varieties, accreding to a report of County Agent W. G. Wilson. There are 28 demonstrations of this nature being conducted in the county by farmers who are cooperating with the estemation division of the College of Agriculture at Lexington.

A HILLY J. H.HY.

Since the capture of the moonshine still near the Harvest HomeGrounds, last week, it is rumored'
that there are numerous illicit stills
in operation in the county. However, the Sheriff and his deputiesare only arresting officers. Unlessviolations are open they can donothing. Those who know thesethings and wish to see the law enforced must furnish information.
The officers will do theirs. If you wantthe moonshining business suppresacd you have got to help. You can't,
search the premises of any one
without a warrant. A search warrant
must be sworn to by some reliableperson. It is up to you.

The following wills were probated:

A WEEK'S NEWS.

The following wills were probated in the county court Monday:
Addie V. Rouse, Burlington.
Elmer Cahill, Florence.
William Kennedy, Walton.
The will of Mrs. Pattie F. Setmswas offered for probate. The witnesses resided in Santo Barbara, Cala,
and the probate was continued ua. 92,
the depositions of the witnesses
could be taken.

County Clerk M. E. Rogers, up to noon, last Saturday, had issued 1,-250 license for passenger autor, and 145 license for trucks, making 1,396 licenses for motor vehicles in Boone county. A total of about \$15,000 armore paid by the people of the country for auto and truck licenses thepast seven months.

Uncle Add Robbins, who has passed his 94th birthday, came up in town early last Saturday morning and voted. No doubt, Uncle Add is the oldest voter in the county. Although badly crippled, he gets along quite well for one of his age.

Sheep killing dogs were, busy, last week, and made raids on the flocks of Harve McGlasson, of Hebron neighborhood, James P. Ryle and Glen Crisler's of the Gunpowder neighborhood, killing quite a num-ber in each flock.

Col. H. C. Diers, of Walton, was in attendance at court Monday, and made the Recorder office a pleasant call. Mr. Diers, who is agent for a Fruit Tree Nursery, said he had sold three car loads of trees for the fall delivery.

It is claimed that tobacco rust has appeared in some sections of the county, and the crop is being damaged.

### **BURLEY DIRECTORS** ANNUAL ELECTIONS

pers Will Hold Mass Meeting ptember 1 To Nominate Dele-gates and Will Vote On Them September 15— -All May Get Ballots.

Ballots.

At the regular manthly meeting of the board of directors of the Burley Tobacco Growers' Co-operative Association at Lexington: last week, arrangements were made for the holding of the annual elections. Mass meetings of the growers will be held on Saturday afternoon, September 1 at 2 o'rlork, when candidates for delegates will be selected delegates and the names of those nominated will go on the official ballots.

These ballots will be cast at a primary election to be held between the hours of 8 o'clock in the morning and 4 o'clock in the afternoon Saturday, September 15, and the delegates receiving the highest votes will represent their counties in the district conventions to be held September 17th.

The convention in each distortion will be called to order at 2 o'clock will be called to order at 2 o'clo

The convention in each district will be called to order at 2 o'clock on the afternoon of Monday, Sep-tember 17th, and will elect a chair-man and secretary and proceed to elect a director. The district con-ventions will be held, in the case of districts containing more than one.

ventions will be held, in the case of districts containing more than one founty, in that county which delivered the most tobacco to the association during the crop-year of 1922. Every tobacco grower who desires to vote can get a ballot by asking for it from the election officers. He may not be person at the election September 15 or he may send his ballot in to the election officers, who will be chosen at the mass meetings September 1 and their names announced in the press. Enough ballots to supply every voter will be sent to these election officers.

follows an extensive increase in the use of motor vehicles, and a consequent expansion of revenue from that source.

Indiana is not building its road by bond issue plan. It has so me the demands of its traffic in recently a state of the st

which is, compared with Kentucky's a cry, sti-do average, a very low liense fee. The re-crit Indiana I — lature however, increased the auto tax to an average of \$14.00 a car, which, it is estimated, will yield \$7,000,000 a year for road purposes. The Indiana Legislature also placed a two cent tax on gasoline, which, it is estimated, will yield an annual revenue of \$2,500,000. This, together with the revenue received from motor which licenses and a general levy of one cent, it is estimated will swell the road fund of that state to \$10,000,000 annually.

#### WHO CAUSES THE WARS?

theories as to what element in the world causes the wars.

The socialists claim the capitalists cause wars, by grabbing for concessions and trade advantages. But this theory fails to see how terribity capitalists suffer form such conditions. While they make money temporarily from wrontracts, the destruction of property and loss of production and upsetting f business create very bad conditions for capital. The conditions of the world was always through the business community.

Some people feel that military men cause wars. Maj. Gen. Brewster of the United States army declared in a recent address that this is not true, but that the public is really back of all wars. Another theory is that politicians, and diplomats cause wars, which the people do not want, as the masses suffer the most from this cause.

Probably the responibility for wars should be divided on the season.

want, as the masses suffer the most from this cause.

Probably the responibility for wars should be divided up between the people and the politicians and diplomats do not want war, but they run risks of getting into it, in their effort—to obtain naional advantages. The men in control of each government are so anxious to make a record of achievement, that they strive for irade and commercial advantages, not usually to enrich themselves or to please the capitalists, but with the feeling that these advantages will make the people prosperous. But they overdo this scramble, and infringe upon the rights of other nations, and their policy brings the peril of armed conflict.

If the people of all nations would be a supported that the result of the peril of armed conflict.

peril of armed conflict.

If the people of all nations would select public officials who would be just as careful of the rights of other nations as they are of their own, the danger of war would disappear. In the last analysis the people are responsible for the tendencies of their governments, and when the people of all countries select fair and just rolers, the danger of war will cease to exist.

Blowing red-hot rivets thru a hose of metal is replacing the old "rivet tosser" and the boy with teh "catch ing-can" as a means of transportation. The new apparatus is known as the "Penbex Rivet Gun" and consists of a galvanized metal tank with a connection welded to the side for the air-supply line. The discharge valve is opened by a movement of a steel rold attached to the treadle. A metal receiver with a baffer block at the discharge earlier of the conveyor tube. This prevents the plastic rivet from being deformed when suddenly arrested uppn reaching the end of test run.

Services 11 A. M. and 8 P. M., Daily.

### As the Editor Sees It.

JUST BLUFF, THAT'S ALL.

JUST BLUFF, THAT'S ALL.

Bo you remember how some of
the foreign countries roared when
ships entering our ports were searched and the booze on board was confisca-sel? And do you remember how
the foreign newspapers threatened
dire reprisals, ven hinting at war, if
our government persisted in enforcing the anti-booze law?
Washigton continued to calmly
search the ships and confiscote the
booze.

None of the dire consequences have been inflicted.

No more booze is being brought into our ports by transatiantic lin-
